

Terms of Reference for the Medical Forensics Specialist Group

Status

1. The Medical Forensics Specialist Group (hereafter referred to as the “Specialist Group”) is an ad hoc specialist group established to advise the Forensic Science Regulator (“the Regulator”), the Forensic Science Advisory Council (“the Council”) and other delivery partners (Home Office, Department of Health, Ministry of Justice, police, and the Crown Prosecution Service), on matters within its remit.

Remit

2. The Specialist Group will support the Regulator and the Council by initially conducting a review, with recommendations, of the available options for quality standards for the medical examination of the victims and suspects involved in criminality (referred to as ‘medical forensics’), followed by ongoing assessment and advice on all matters related to the preparation, implementation and monitoring of such quality standards within the remit of the Regulator. The Specialist Group will:
 - Define the scope of functions to be included in the review of medical forensics quality standards, with options for later extension of the scope.
 - Review the current options for accrediting forensic medical examiners to ensure suitable practitioner quality standards.
 - Recommend an option that best achieves quality standards in the delivery of medical forensic services and expertise to the criminal justice system.
 - Oversee the processes for monitoring and enforcing medical forensics quality standards, including relationships with other bodies, within forensic science.

- Propose means of remedying any shortcomings, distinguishing between measures which fall within the remit of the Regulator and those which do not.
 - Make such other recommendations as appear appropriate.
3. The Specialist Group will, following a request from the Regulator develop additional standards, processes or policies for consideration by the Council and Regulator.
