- Section B United Kingdom National List of varieties of vegetable plant species
- Section C United Kingdom list of valid grants of Plant Breeders' Rights
- Section D United Kingdom address code list of holders, maintainers and agents
-

SECTION A

UNITED KINGDOM NATIONAL LISTS OF VARIETIES OF AGRICULTURAL PLANT SPECIES

OFFICIAL NOTICE BY THE NATIONAL AUTHORITIES IN THE UNITED KINGDOM

1. The United Kingdom National Lists were last published in the August 2015 Special Edition of the Plant Varieties and Seeds Gazette and amendments to these lists have been published in the subsequent monthly editions.
2. The National Authorities have now reprinted the National Lists containing the amendments which have been made up to and including those made on 31 December 2015. You will note that we have used the same procedure as last year and only show the Maintainer and UK Agent's code against each variety. The name and address for each code are given in the address list at the back of the publication. In showing the UK Agent the National Authorities refer only to the Agent as shown in the application and have no knowledge of the commercial activities of such persons. For ease of reference the species prescribed in the Schedule to the Seeds (National Lists of Varieties) Regulations 2001 (as amended) are listed in the order in which they appear in the Common Catalogue and are numbered accordingly.

MARKETING

3. Attention is again drawn to the fact that it is an offence, subject to certain exceptions, to sell, hold with a view to sale or offer for sale or any disposal, supply or transfer of seed to a third party seed of a plant variety (a) unless and until the name of the variety is included in the appropriate United Kingdom National List or the EC Common Catalogue of varieties of agricultural plant species or (b) under a name other than that which is given in a National List or the Common Catalogue for that variety. The principal exceptions are sales etc, in connection with exports of seeds to countries outside the EU area and contractual arrangements for multiplication and tests and trials. Other exceptions are where authorisations have been granted under the seed marketing regulations to market appropriate quantities of unlisted agricultural varieties for tests and trials, to market uncertified seed of unlisted vegetable varieties for the purpose of gaining knowledge from practical experience during cultivation or to market small quantities of uncertified seed either listed or unlisted of agricultural or vegetable varieties. It should be noted, however, that the relevant marketing regulations concerning seeds of fodder plants prescribe the species to which the "commercial seed" category applies and in which it is therefore permissible to sell by species name only and without reference to variety. However, once a variety name is mentioned in connection with the commercial seed category, whether by supplier's label or otherwise, the provisions of the National Lists Regulations regarding the use of that name appropriate to the variety will apply. The kinds of seed to which the commercial seed category applies are as follows:-

Grasses

Annual Meadowgrass

Legumes

Hungarian Vetch
Sainfoin

Oil & Fibre Plants

Black Mustard

4. Any variety which has been deleted from the Lists but for which the National Authorities have allowed a period for the disposal of seed stocks which have been produced or were in the course of production when the variety was deleted from the List are indicated below the appropriate List. In each case the date of the expiry of the period permitted by the National Authorities is included. It would be an offence to market the seed after those dates.

DATE OF ENTRY TO THE NATIONAL LISTS

5. In the case of varieties added to the National Lists since 1 July 1973 the dates of entry have been indicated. Against certain dates the symbol * appears. This indicates that the variety was entered on the original National Lists with the dagger symbol and that this symbol was removed on the date quoted.

Where no dates are given, the date of entry is assumed to be 1 July 1973.

MAINTENANCE OF VARIETIES ON THE NATIONAL LISTS

6. The maintainers of varieties entered on the National Lists are reminded of their responsibilities under the provisions of Regulation 7 of the Seeds (National Lists of Varieties) Regulations 2001(as amended). They are asked to check the information provided in this Gazette and inform the Animal and Plant Health Agency (APHA), Eastbrook, Shaftesbury Road, Cambridge CB2 8DR, of any amendments which should be made to the National Lists and, where applicable, to the Common Catalogue. **The maintainers are also requested to notify Fera of any varieties which are no longer being maintained.**

COMMON CATALOGUE

7. The last Complete edition of the EC Common Catalogue of varieties of agricultural plant species was published on 4 December 2015 (34th edition) taking into account all amendments up to 23 October 2015.

NATIONAL LISTS OF FODDER PLANT SPECIES

8. Ploidy is indicated in the column headed classification by the letter “D” (Diploid) or “T” (Tetraploid).

ENQUIRIES

9. If anyone is in any doubt about the status of a variety or has any query in connection with the National Lists or the EC Common Catalogue, they should contact the Animal and Plant Health Agency at the address given in paragraph 6 or telephone NL/PBR Team Manager, Rob Warlow (03000) 600740. Enquiries relating to specific crops should be made to the appropriate contact listed below:-

Wheat, Oats, Barley, Triticale, Rye, Spelt Wheat, Sugar beet, Vegetables	Karen Lucas	Telephone 03000 600739 Email: karen.lucas@apha.gsi.gov.uk
Maize, Field pea, Field bean, Sunflower, Soya bean, Linseed	Caroline Hart	Telephone 03000 600720 Email: caroline.hart@apha.gsi.gov.uk
Herbage, Potatoes, Oilseed rape, Forage rape, Forage kale, Turnip rape, Swede, Agricultural and Vegetable Conservation varieties, Amateur vegetables Gazette preparation and publication	Brian Richardson	Telephone: 03000 600738 Email: brian.richardson@apha.gsi.gov.uk
Integrated VCU trials	Jeremy Widdowson, BSPB	British Society of Plant Breeders BSPB House 114 Lancaster Way Business Park Ely CB6 3NX Telephone 01353 653202 Email: jeremy.widdowson@bspb.co.uk

2.0 BETA VULGARIS L. – FODDER BEET AND MANGELS

NOTES

1. Ploidy of the variety is indicated by the letters 'D' (diploid), 'P' (polyploid), 'T' (tetraploid)
2. The monogerm and Multigerm are indicated respectively by letters 'm' and 'M'.
3. The ploidy of both seed-bearing and pollen-shedding components of seed producing crops of sugar and fodder beet is established as follows:-
 - (1) 2N Diploid without male sterility
 - (2) 2N X 2N Male sterile diploid with a male diploid
 - (3) 4N X 2N Male sterile tetraploid with a male diploid
 - (4) 2N X 4N Male sterile diploid with a male tetraploid
 - (5) 2N X (2N+4N) Male sterile diploid with a male anisoploid
 - (6) 4N Tetraploid without male sterility
 - (7) 2N + 4N Diploid and tetraploid without male sterility

SECTION B

OFFICIAL NOTICE BY THE NATIONAL AUTHORITIES IN THE UNITED KINGDOM

UNITED KINGDOM NATIONAL LISTS OF VEGETABLE VARIETIES

1. Revised United Kingdom National Lists of Vegetable Varieties were last published in the August 2015 Special Edition of the Plant Varieties and Seeds Gazette and amendments to these Lists have been published in the subsequent monthly editions.

2. The Agriculture Departments now publish the Lists which with effect from 1 January 2016 are the definitive UK National Lists of varieties of vegetable plant species. These include all amendments up to and including 31 December 2015

3. The varieties are listed in species order and this follows the numbering order of the EC Common Catalogue of Varieties of Vegetable Species. The lists of species are divided into two parts, List A and List B, as follows:-

List A denotes the varieties of which seed may be certified either as "basic" or "certified seed" or controlled as "standard seed",

List B denotes the varieties of which seed may be controlled only as "standard seed".

4. Included against each variety name are references to the maintainer or maintainers of the variety. Also included are traditional synonyms which have been accepted in the United Kingdom and, where appropriate, the main name as shown in the EC Common Catalogue of Varieties of Vegetable Species in order to provide an easy cross reference to the Catalogue. The synonyms are shown immediately below the variety name preceded by a dash.

5. Appendix A lists "maintenance" names. These are not part of the National Lists and must not be used by themselves in advertising or dealings in seeds. They should be used in conjunction with the appropriate listed varietal names provided that the varietal name always precedes the "approved maintenance" and the latter is given no greater prominence than the varietal name. Varieties with maintenance names are identified in the main list with the symbol @.

6. In the case of varieties added to the National Lists since 1 January 1973 the dates of addition have been shown. Against certain varieties the symbol * appears. This indicated the variety was entered on the original National List provisionally and that the entry became substantive only on the date shown.

7. Attention is again drawn to the fact that it is an offence, subject to certain exceptions, under the Seeds (National Lists of Varieties) Regulations 2001 (as amended) for any person to sell, hold with a view to sale or offer for sale or any disposal, supply or transfer of seed to a third party seed of a variety of a prescribed species unless that variety is included in the UK National List or the EC Common Catalogue; the principal exceptions are sales etc. in connection with exports of seed to countries outside the EC area and contractual arrangements for multiplication. Other exceptions are where authorisations have been granted under the seed marketing regulations to market appropriate quantities of unlisted vegetable varieties for the purpose of gaining knowledge from practical experience during cultivation or to market small quantities of uncertified seed either listed or unlisted of agricultural or vegetable varieties. It is also an offence under those Regulations to offer or expose for sale or sell seed of a variety of a prescribed species except under the name given in the National List or EC Common Catalogue, and to advertise seed of a variety of a prescribed species until the naming procedures laid down in the Regulations have been completed and except under the name which the National Authorities have approved.

8. Any variety which has been deleted from the Lists but for which the National Authorities have allowed a period for the disposal of seed stocks which have been produced or were in the course of production when the variety was deleted from the List are indicated below the appropriate List. In each case the date of the expiry of the period permitted by the National Authorities is included. It is an offence to market the seed after those dates.

9. (H) denotes that the variety is a Hybrid

SECTION C
PLANT BREEDERS' RIGHTS
LIST OF VALID GRANTS

Listed below are the grants of rights valid on 31 December 2015 in respect of varieties of the prescribed agricultural, vegetable, ornamental and fruit species. Subsequent grants and withdrawals will be published in later editions of the Plant Varieties and Seeds Gazette. The maximum periods for which grants are valid are shown next to the species name.

(s) following the variety name indicates UK Rights Suspended whilst EC Rights held.

CONTENTS

Agricultural and Vegetable Species		Page
Velvet bent	<i>Agrostis canina</i> L.	1
Creeping bent	<i>Agrostis stolonifera</i> L.	1
Tall Fescue	<i>Festuca arundinacea</i> Schreb.	1
Red fescue	<i>Festuca rubra</i> L.	1
Italian/Westerwold ryegrass	<i>Lolium multiflorum</i> Lam.	1
Perennial ryegrass	<i>Lolium perenne</i> L.	1
Hybrid ryegrass	<i>Lolium X Boucheanum</i> Kunth	1
White lupin	<i>Lupinus albus</i> L.	1
Field pea	<i>Pisum sativum</i> L.	1
White clover	<i>Trifolium repens</i> L.	1
Field bean	<i>Vicia faba</i> L.	1
Swede	<i>Brassica napus</i> L. var <i>Napobrassica</i> (L.) Rchb	1
Fodder kale	<i>Brassica oleracea</i> L. convar. <i>Acephala</i> (DC.) Alef. var. <i>Viridisl.</i>	2
Turnip rape	<i>Brassica rapa</i> L. subsp. <i>campestris</i> (L.) Clapham	2
Swede rape (Including Oilseed rape)	<i>Brassica napus</i> L.	2
Linseed/Flax	<i>Linum usitatissimum</i> L.	2
Soya bean	<i>Glycine max</i> (L.) Merr	2
Spring naked oat	<i>Avena nuda</i> L.	2
Winter naked oat	<i>Avena nuda</i> L.	2
Spring oat	<i>Avena sativa</i> L.	3
Winter oat	<i>Avena sativa</i> L.	3
Spring barley	<i>Hordeum vulgare</i> L.	3
Winter barley	<i>Hordeum vulgare</i> L.	3
Winter rye	<i>Secale cereale</i> L.	3
Winter triticale	X Triticosecale Wittm ex A. Camus	3
Spring wheat	<i>Triticum aestivum</i> L.	3
Winter wheat	<i>Triticum aestivum</i> L.	4
Maize	<i>Zea mays</i> L .	4
Potato	<i>Solanum tuberosum</i> L.	4
Borage	<i>Borago officinalis</i> L.	5
Onion	<i>Allium cepa</i> L	5
Celery/Celeriac	<i>Apium graveolens</i> L.	5
Cauliflower	<i>Brassica oleracea</i> L. convar. <i>Botrytis</i> (L.) Alef var. <i>Botrytis</i> L.	5
Turnip	<i>Brassica rapa</i> L. var. <i>rapa</i> (L.) Thell.	5
Carrot	<i>Daucus carota</i> L.	5
Lettuce	<i>Lactuca sativa</i> L.	5
Pea	<i>Pisum sativum</i> L.	5
Hemp	<i>Cannabis sativa</i> L.	5
Millet	<i>Panicum miliaceum</i>	5
Watercress	<i>Nasturtium officinale</i> W.T. Airton	5

Ornamentals and Fruit Species		Page
