## Yorkshire and The Humber Competitiveness and Employment Programme 2007-2013

Programme No. CCI UK 162 PO009

### List of Beneficiaries

Last Updated 21 March 2016

Name of Beneficiary	Name of Operation	P	Total ERDF Contracted	Total Public / Private Match Contracted	Start Date	End Date	Description
Barnsley College	Think Low Carbon Centre	2	£2,758,560	£1,485,378	11/02/2010	31/03/2013	The project designed and constructed the Think Low Carbon Centre within the campus of Barnsley College. It is a demonstrator centre with two practical demonstration areas used to showcase current environmental technologies and four multifunction rooms used for open days, seminars, providing advice and guidance or research.
Barnsley Development Agency Limited	Enterprise in Deprived Communities	3	£180,416	£500,184	01/04/2011	31/03/2014	This project focuses on problems facing new enterprises. It instils good business practice within community enterprises from the first stage of development; raises the profile of social enterprise sector through events, networking and exchanging good practice; helps individuals to develop new business ideas into viable business propositions; provides support and signposts to other available help and support. The project provides a range of readily accessible, tailored support.

Barnsley Metropolitan Borough Council	Enterprising Barnsley	2	£2,891,000	£1,860,000	12/12/2008	31/03/2012	Enterprising Barnsley provides an integrated programme of initiatives. It will attract investment, accelerate development of indigenous businesses, and support/incubate businesses. The portfolio of projects focuses Specialist Shared Business Support Environments; Coaching for High Growth; Business Collaboration Networks; Maximising Foreign Direct SME Investment.
Barnsley Metropolitan Borough Council	Enterprising Barnsley Phase 2	2	£2,259,511	£1,216,773	01/04/2012	30/09/2015	<p>Building upon the success of the Enterprising Barnsley Programme Phase 1, significant additional contribution will be made through the Enterprising Barnsley Phase 2 programme towards supporting and stimulating successful enterprises. The programme will provide an intensive and integrated package of intensive support focused upon local (start up and established) business needs designed to create and accelerate economic growth in targeted Priority 2 sectors.</p> <p>The portfolio of projects focuses upon:</p> <ul style="list-style-type: none"> <li>• Business Start Up Support</li> <li>• Business Incubation</li> <li>• Enterprise Coaching</li> <li>• Business Networks &amp; Workshops</li> <li>• Enterprise Hubs</li> </ul>

Barnsley Metropolitan Borough Council	Cultural Infrastructure for the 21 <sup>st</sup> Century	4	£2,506,733	£4,286,582	01/04/2011	30/06/2013	<p>This project is led by Barnsley Council working with Wentworth Castle and Stainborough Park Heritage Trust, delivering three strands of activity: Experience Barnsley – a new cultural focal point of a museum and gallery developed in the Town Hall as a showcase for Barnsley as a place to live, work and invest.</p> <p>Wentworth Castle Gardens and Stainborough Park – restoration of the Victorian conservatory and potting shed, the creation of a new building to provide additional event and visitor facilities and support community engagement.</p> <p>Marketing, promotion and access – market and promote Barnsley’s cultural and heritage facilities including targeted investment in both road and pedestrian signage and a network of interactive touch screen displays to promote facilities to businesses and visitors.</p>
Barnsley Metropolitan Borough Council	Urban Centre Infrastructure for a 21st Century Market Town	4	£1,091,896	£1,867,172	01/06/2012	30/06/2015	<p>The Urban Centre Infrastructure project will transform six key routes in Barnsley town centre, improving linkages between Barnsley’s Transport Interchange, Queens Court offices, The Civic &amp; Mandela Gardens, Barnsley College and the Town Hall / Experience Barnsley. The project will create high quality routes for all who come to the town whether arriving by car, on foot or by public transport. The project will improve approximately 10,806sq metres of infrastructure. This project will improve connectivity between key hubs in the town centre, supported by the proven principle that quality of place is an underpinning driver of economic performance and is a significant factor in garnering additional private sector investment.</p>

Barnsley Metropolitan Borough Council	Enterprising Young People	3	£519,717	£519,717	01/02/2013	30/06/2015	<p>Enterprising Young People is helping 14-24 year olds in Barnsley to develop new enterprise start-ups. Five Enterprise Champions will provide private sector business expertise in an educational context to help develop enterprising ideas amongst young people. Project activity includes:-</p> <ul style="list-style-type: none"> <li>• Specialist start-up support from business people</li> <li>• Business mentoring of young people</li> <li>• Promotion of the opportunities &amp; benefits of developing own enterprise</li> <li>• Identification of entrepreneurial young people</li> <li>• Turning ideas into business</li> <li>• Young People's Enterprise Budget (support to take forward their business plan – max £2,000)</li> <li>• Employer engagement</li> <li>• Links to managed workspace and enterprise hubs</li> </ul>
Biorenewables Development Centre Ltd	Biorenewables Development Centre	1	£4,443,824	£2,499,651	31/10/2011	30/06/2015	<p>The project is establishing the Biorenewables Development Centre (BDC) to deliver significant new regional growth through R+D activities in bio-renewables based businesses, such as chemicals, bio-fuels, bio-energy, bio-plastics, flavours, fragrances and personal care products, by helping businesses to develop novel processes and products. The BDC will build upon the world class regional bio-renewables R+D strengths, particularly those based at the University of York, to establish a major technology demonstration facility allowing regional industry to embrace the emerging knowledge-based bio-economy and so compete nationally and internationally in this important industry sector which is set to grow rapidly in the next decade. The longer term vision is to use the BDC as a focal point for a new cross-regional biorefining industry to establish Yorkshire and Humber as a hub for biorenewables-based manufacturing within the UK, supporting the creation of</p>

							<p>new businesses and jobs and attracting significant levels of inward investment. The BDC will have three key areas of activity:</p> <ul style="list-style-type: none"> <li>• <i>Feedstock development R+D</i> Improving plant-based feedstocks from which businesses can extract high-value chemicals</li> <li>• <i>Process development R+D</i> Identifying and optimizing the extraction processes for a diverse range of bio-based feedstocks</li> <li>• <i>Business development support</i> Working with businesses to translate R+D activities into novel products and processes and so develop new business opportunities</li> </ul>
Borough Council of Calderdale	Sowerby Bridge Copley Valley (SBCV)	2	£2,202,491	£2,534,564	01/10/2013	30/06/2014	The project will unlock a derelict site through the creation of a new access road by April 2015. This will enable the creation of 69,000 sq ft of new employment space by December 2016 for new and growing business in the Upper Calder Valley. The project also improves connectivity with the Holmes Road employment area in Sowerby Bridge town centre
Bradford Enterprise Agency Limited	The City Hub	2	£985,127	£1,136,157	01/10/2010	30/09/2014	The project is refurbishing and extending a derelict mill building in Bradford to create a specialist catalyst centre, to be known as The City Hub, for the Financial & Business Services sector. This will identify and support opportunities for new start-up businesses & job creation and provide support to foster businesses with high growth potential within the sector.

Calderdale Metropolitan Borough Council	Leeds City Region Innovation and Capital: Business Creativity, Enterprise and Innovation Network Pilot – Calderdale	2	£1,113,338	£1,286,098	01/06/2011	30/06/2014	The Council and its University partners are delivering intensive and specialist assistance to businesses within the key ERDF priority sectors. Business products will include Coaching for High Growth, Cluster Collaborations, Networking for Innovation, and a Micro Knowledge Exchange Pilot. This project is known to the market as Business Growth Calderdale.
Carnell Management Service Ltd	Bullrush Grove, First Point Doncaster	2	£1,429,379	£2,310,528	01/07/2014	30/09/2015	The development of a new 5,580m <sup>2</sup> technology park for knowledge based start-up businesses within 13 new build hi-tech units in a mix of sizes
Case Training Services	CASE Rebuild	3	£670,538	£683,902	01/04/2011	30/09/2014	CASE Rebuild will refurbish two existing adjacent buildings totalling 700m <sup>2</sup> , and add an extension of 200m <sup>2</sup> to create 900m <sup>2</sup> of new managed work space, creating a unique Centre of Excellence, delivering services for people with learning disabilities. It will facilitate the creation of 6 new enterprises, resulting in the creation of 14 new jobs, and safeguarding a further 6 jobs. It is located at 60 Charles Street, Hull HU2 8DQ and 35 Frances Street, Hull HU2 8DT (the two premises are adjacent, and a boundary wall will be removed to create a single site). This facility will house social enterprises facilitating engagement in economic activity for clients by offering progressive steps towards employment and enterprise. The project will also provide for a Business Project Manager to advise and develop the social enterprises, and provide intensive business support to clients with the potential to develop self-employment as a work option. It is expected that up to six of the new jobs

							created as a result of the project will offer direct employment to people with learning disabilities.
Chamber of Commerce (Barnsley and Rotherham Ltd)	Regional Enterprise Programme	3	£3,240,273	£3,372,535	03/01/2012	31/12/2014	The programmes main aims are to increase the region's enterprise activity and business start-up rates in deprived communities and in under – represented groups, by delivering intensive start-up support (ISUS) Enterprise Coaching and an Entrepreneur Network. Beneficiaries will come from under – represented, disadvantaged groups and deprived areas, specifically: Women, BAME, Young People, Older People, People with Disabilities, economically excluded and inactive People, People living in the 20% most deprived areas, People wanting to start a business in a deprived area.
City of Bradford Metropolitan District Council	Supporting and Stimulating Successful Enterprise in Bradford District	2	£1,890,098	£2,174,631	01/04/2011	31/03/2015	The project delivers specialist intensive assistance to businesses in key ERDF priority sectors to identify and support opportunities for business start-up, business growth and job creation.
City of Bradford Metropolitan District Council	Enterprising Bradford	3	£4,959,433	£5,134,197	01/01/2007	31/12/2012	This project supports the growth of new enterprises in deprived communities in Bradford, and works with third sector organisations to help them identify opportunities for growth and to become tender ready. In Halifax, the project links established companies to emerging community businesses and social enterprises in a mentoring programme. Additional activity facilitated delivery of the British Science Festival in Bradford in September 2011.

City of Bradford Metropolitan District Council	Enterprise Hubs	3	£821,516	£1,642,740	01/10/2009	30/06/2012	The project provides two enterprise hubs in Priority 3 areas of Bradford where there is under provision of incubator space, business support and other related activities. Both venues provide incubator space for new businesses and social enterprises and together will deliver 1,394m <sup>2</sup> new or upgraded floor space and 130 businesses assisted of which 30 will be social enterprises.
City of Bradford Metropolitan District Council	Bradford District Community Enterprise	3	£1,129,650	£1,175,758	01/07/2011	31/03/2014	The project delivers enterprise coaching in the Bradford District, enabling people to start up in business and helping existing businesses to survive. The project will target the 10% SOAs, areas on close proximity to the bottom 10%, or joining two SOAs. Support to communities of interest, including those on incapacity benefit, people from BAME communities and people with disabilities, will not be restricted to the 10% SOAs. An employer support strand of activity engages with employers in the most disadvantaged areas, to open up and provide job opportunities for those who are not currently economically engaged, those most detached or disadvantaged in the market place and not suited to self-employment. The project will work with employers to reduce workforce churn in particular working to retain staff that were previously long term unemployed, and complement the work of JCP. EDRF funding will assist in addressing rising economic inactivity, increases in JSA claimants and people on long term benefits, providing help to new business start-up and existing businesses. The project will deliver 230 business assists, 100 new businesses, 160 new jobs, 50 jobs safeguarded and increase GVA by £600,000.

City of Bradford Metropolitan District Council	Wright Watson Centre	3	£513,692.00	£1,037,760.00	01/02/2011	31/03/2015	The refurbishment and extension of a former church building in a conservation area into an enterprise centre to create 594.97 square meters of floor space over two floors to BREEAM standard. Facilities aimed at the promotion of social enterprise, and access to employment, ICT and public services.
CTP (Wakefield) Ltd	Sheffield Core Provision (3 St Pauls Place)	2	£6,863,672	£2,287,891	01/10/2010	31/12/2015	The project will develop a high quality Grade 'A' office building in the central core of Sheffield City Centre to help support the expansion of the Financial and Business Services (FBS) sector in South Yorkshire. The development will complete the successful Heart of the City Programme and will target a BREEAM rating of excellent.
Department for Business Innovation and Skills	Digital Region	4	£26,949,419	£43,472,805	07/04/2009	31/12/2014	Digital Region is a Next Generation Broadband Access Network which will take very fast digital subscriber line (VDSL) and optical fibre from the telephone exchange to street corner cabinets, offering greater bandwidth, guaranteed and symmetrical broadband usage and capability for advanced applications with products possible of 50Megabits per second (depending on type and quality of current connection). It is the largest municipal deployment of its kind in the world and will form a significant 'test bed' infrastructure for use by the market leaders in the digital economy. Digital Region will be an independent and wholesale network, with cover right across South Yorkshire which represents 2-3% of UK Market. The network will be fibre based and technically superior to any current market offering available at a competitive rate when compared to the rest of the market. The anticipated benefits arising from the Digital Region project will be regional economic transformation, innovation and enterprise, greater social and economic inclusion, better environment and quality of life.

							Individuals will benefit from the enhanced applications that the service providers will develop and run across the network. A Special Purpose Vehicle (SPV) has been established to contract with the chosen technology provider, Thales Transport & Security Limited. The SPV will be the Accountable Body for the receipt and administration of public funds and has been developed to manage the Digital Region network build contract.
Department for Communities and Local Government	Technical Assistance for ERDF Programme Management	5	£4,007,500	£4,007,500	01/04/2008	31/12/2012	This project provides the core funding for activities to increase the quality and achievements of the Programme: partnership and consortia development of ERDF projects in order to meet targets; appraisal including specific support for capital Programmes, contracting, claims and auditing of ERDF projects ensuring minimum clawback; publicity and information; evaluation; development and implementation of cross cutting themes and overall Programme management.
Doncaster Borough Council	Inclusive Enterprise	3	£4,000,000	£4,000,000	01/04/2008	30/06/2011	The project funds a number of streams of enterprise coaching and intensive start-up support targeted at the Doncaster's deprived neighbourhoods and communities. Specific provision to improve understanding of and access to finance in these communities is also provided.
Doncaster Borough Council	Doncaster Civic & Cultural Quarter (CCQ) Enabling Infrastructure	4	£2,443,767	£4,182,500	23/12/2010	31/12/2012	This project provides key economic infrastructure works in the first phase of a regeneration programme to develop a civic and cultural quarter in Doncaster. It is providing high quality economic infrastructure to enable delivery of a wider CCQ programme. This is phase 1 of a comprehensive redevelopment of 25 acres of brown field land, comprising approximately one third of Doncaster's town centre.
Doncaster Borough Council	Doncaster Southern Gateway: White Rose Way Improvement Scheme Phase 1	4	£5,452,407	£9,343,716	01/03/2011	31/12/2013	This project addresses this gateway's poor introduction to the town. Improvement work provides a high quality landscaping scheme and an imposing landmark feature on entering the town and will deliver up to 2,000 jobs

							directly attributable to releasing planning restrictions on developable land in the town centre.
Doncaster Borough Council	Doncaster Southern Gateway: Phase 2	4	£5,396,228	£9,235,624	01/01/2011	31/03/2015	Phase II will help remove the final barrier to a) the implementation of the full gateway scheme; b) attaining full economic benefits. Phase II is delivering physical infrastructure gateway works to improve 1.1km of the A6128 bringing it up to dual carriageway standard, including junction improvements, landscaping and new pedestrian and cycle routes. Transformation of Doncaster's economy into a creative and innovative economy necessitates the improvement of critical business infrastructure. This current gateway and southern access point from the M18 and M1 creates a very poor introduction to the town and suffers from poor design, inadequate landscaping, no pedestrian access, creating an uninviting impression and stifling investment.
Doncaster Borough Council	Doncaster Inclusive Enterprise Phase 2	3	£2,570,629	£2,570,630	01/04/2011	31/03/2015	Phase 2 is a re-engineered enterprise model designed to build on lessons from Phase 1, to achieve economic recovery in deprived communities, broaden Doncaster's business sectors, to address the enterprise gap and foster demand/jobs to create a sustainable enterprise culture. The project is supporting start up businesses, facilitating and supporting early business development; provide support for existing businesses particularly for those businesses that do not traditionally access mainstream support and those with growth potential. It challenges attitudes and builds confidence, providing a stepping stone to mainstream support, mentoring and enterprise coaching The project builds business networks including a business to business mentoring scheme and signposts businesses to sources of finance.

Doncaster Borough Council	South Yorkshire Technical Assistance Phase 2	5	£715.094	£715.094	01/04/2011	30/06/2013	South Yorkshire Technical Assistance Phase 2 is delivering activity across South Yorkshire to support the take-up of the ERDF programme 2011–2013, building on strong and active partnerships established during the first phase. The project will deliver neighbourhood, local and sub-regional level activities across four local authorities, the South Yorkshire Forest Partnership and the Dearne Valley Eco Vision. Project delivery will focus on ensuring that resources are targeted effectively, embedding the integration of ERDF strategically and locally; thus ensuring that ERDF funding adds value to other key funding regimes and maximises partner input into the process.
Doncaster Borough Council	Doncaster Waterfront Phase 4 Gateway Infrastructure (Holmes Market Junction)	4	£1,146,968	£1,963,032	01/04/2011	31/10/2014	<p>The Waterfront project impacts on the economic viability of Doncaster town centre. The scheme unlocks a large brownfield land site and releases it for development by providing improved public realm, road infrastructure and improved access to an operational marina. To unlock this key gateway site a Holmes Market Junction has to be re-configured. This will:</p> <ul style="list-style-type: none"> <li>• Unlock 15.66 hectares of brownfield land incorporating 9.68 hectares of development plots;</li> <li>• Create a new access into the Waterfront site and reconfigured junction;</li> <li>• Create a sense of arrival and improve the image of Doncaster as part of the town's Great Streets Initiative;</li> <li>• Encourage jobs in deprived communities;</li> <li>• Significantly improve accessibility for target groups; and</li> <li>• Enable the Waterfront site to be fully developed.</li> </ul> <p>This vibrant mixed-use development with the marina at its centre lies at the heart of the Doncaster's Urban Renaissance Masterplan and will extend Doncaster town centre.</p>

Dransfield Properties Ltd	Penistone Gateway Infrastructure	2	£1,265,199	£1,173,869	01/01/2010	30/06/14	Penistone Gateway Infrastructure is an urban development project which integrates and links a number of key development opportunities with the existing core of the town centre. It comprises new and improved junctions, access and entrance road to the centre and a covered public space in traditional materials forming a focal point for the market town. Six areas of development will be stimulated which will result in 7,900m <sup>2</sup> of new commercial space that could accommodate up to 150 jobs. ERDF is specifically supporting new commercial/office space comprising a two storey building of 2,122m <sup>2</sup> gross internal area accommodating companies in target sectors of business and professional services and digital / media.
East Riding College	Environmental Technologies Centre	2	£1,290,127	£1,490,320	1/12/2010	31/7/15	The project is building a Centre of Excellence in Beverley, East Riding of Yorkshire. It creates 1,131 sq metres for the environmental and renewables business sector providing support for SMEs within Yorkshire and The Humber to access opportunities within this growth sector of the local economy. The Environmental Technologies Centre will enable bespoke training for businesses leading to courses in management and maintenance of 'green' products and processes and environmental management. The Centre will provide SMEs with access to information and knowledge on environmental technologies to enable them to become more efficient and environmentally sustainable. The Centre will provide a forum for knowledge transfer and a venue to host networking and awareness events around environmental legislation as well as provide business support and environmental audits.
East Riding of Yorkshire Council	Local Enterprise Development & Business Growth Initiative (LEBGI)	3	£753,902	£788,910	01/04/2014	30/09/2015	The Local Enterprise Development & Business Growth Initiative's main aims are to increase the region's enterprise activity and business start-up rates in deprived communities and those disadvantaged by their rural location and to under-represented groups, by delivering

							start up support at various stages of the business start-up phase, Enterprise Coaching and the creation of Local Entrepreneur Networks.
East Riding of Yorkshire Council	Humber TA	5	£191,730	£191,880	01/04/2009	31/10/2011	The Humber TA (Technical Assistance) has the role of brokering and developing partnerships and consortia to take advantage of the drive towards larger more strategic investment of ERDF monies. The Humber TA Project ensures a single point of contact, linking complementary ideas within the sub-region and identifying where a broader delivery mechanism may be more appropriate linking in with other regional TA projects.
East Riding of Yorkshire Council	Humber TA Phase 2	5	£586,489	£586,488	01/04/2012	30/06/15	Humber Technical Assistance Phase 2 provides technical assistance to organisations aiming to deliver, or are delivering ERDF funded activity. At this stage of the Programme there is a need to shift the focus from promotion and awareness of ERDF to supporting project development and successful project delivery. Activity includes: <ul style="list-style-type: none"> <li>• Promotion of ERDF</li> <li>• Technical support for project development-</li> <li>• Programme support</li> <li>• Technical support for project delivery</li> <li>• Strategic support</li> </ul> The project will help to shape the future of ERDF funding in the Humber and support the Local Enterprise Partnerships to develop its strategic role in European funds.

East Riding of Yorkshire Council	Capitol Park Goole	2	£8,402,840	£9,667,783	24/9/2010	31/12/2014	<p>This investment supports the development of a major strategic business and employment location, targeting the Advanced Engineering and Environmental Technology sectors. The site, known as Capitol Park Goole, is directly adjacent to Junction 36 of the M62 at Goole, East Yorkshire. The investment supports primary site infrastructure to enable 50 hectares (122 acres) of land to be developed. In addition, the infrastructure provides access to an adjoining 80 hectares (200 acres) site for future development. The investment supports installing drainage, electricity, water, gas, telecommunications services and developing roads within the site as well as high quality landscaping. It also supports a comprehensive worldwide marketing strategy seeking to attract further development and occupants for this nationally important development. This investment will result in a 50 hectare serviced site offering 1.8 million square feet of new floor space to accommodate around 4,500 jobs. It is expected that the investment will lead to a £136m increase in GVA (Gross Value Added) and open up a further 80 hectares of land with development potential.</p>
E-Factor Enterprise (NEL) Ltd	Inspiring Enterprise	3	£3,770,972	£3,924,889	01/09/2010	31/12/2013	<p>The project supports and develops an enterprise culture in North East Lincolnshire facilitated by an established network of enterprise centres and extending the scope and impact of E-Factor's LEGI programme. It reinforces the support to individuals, SMEs and social enterprises at community level to encourage and supports the creation of long-term sustainable enterprises, increases latent economic activity from pre-pre-start coaching stages and on-going support up to and including specialist support to existing enterprises. The project also provides coaching for the application of ICT in business and engages entrepreneurs in digital creative and cultural sector</p>

							opportunities. The project provides a flexible, dynamic and sustainable infrastructure of support to pre-pre-start, pre-start, and existing businesses and social enterprises.
Electronics Yorkshire	Electronics Yorkshire	2	£598,052	£539,259	01/01/2008	30/09/2010	Electronics Yorkshire supports the electronics sector within Yorkshire and Humber by providing specialist business support and consultancy services directly to the sector. It provides a unique range of equipment, and assists businesses in the development of new and better products.
Ernest V. Waddington Limited	Vantage Riverside	2	£1,098,559	£2,342,539	01/10/2013	30/09/2015	The development of a new 5,960m2 business park for knowledge based start-up businesses within 10 new build hi-tech units in a mix of sizes from 425m2 to 1,260m2.
Finance Yorkshire Ltd	Venture Capital and Loan Fund	2	£30,000,000	£30,000,000	01/12/2009	31/12/2013	This project provides a regional Venture Capital and Loan Fund to build on the success of the Partnership Investment Fund (PIF) and the South Yorkshire Investment Fund (SYIF). The fund will maximise the potential for ERDF and uses the JEREMIE initiative to secure investment from the European Investment Bank.
Goodwin Development Trust Ltd	Hull Enterprise Partnership	3	£2,079,325	£2,150,488	14/11/2008	30/09/2011	Supporting the growth of new enterprise in deprived communities in Hull, whether social enterprise, private enterprise or self-employment.
Goodwin Development Trust Ltd	The X Factory	3	£1,000,889	£1,041,742	01/10/2010	31/12/2011	This capital project provides 900m <sup>2</sup> of high quality managed workspace in a former supermarket in Hull. The project will create 33 jobs over a period of 3 years, 6 enterprises supported (of which minimum 2 will be social enterprises).
Groundwork Sheffield	The Green Incubator	3	£458,571	£459,306	01/07/2011	30/07/2013	Groundwork Sheffield's Green Incubator project provides 100 people a year on Job Seekers Allowance (JSA), with an opportunity to incubate and establish a social (or community) enterprise as part of an intensive six months enterprise development programme and thereafter

							provide post start-up support for a period of 18 months. Businesses will be established including undertaking commercial and domestic energy assessments, undertaking minor domestic capital works and the recycling of bicycles.
Hambleton District Council	Hambleton Managed Workspace	2	£2,316,853	£3,357,300	01/11/2007	31/08/2010	Food grade managed workspace at Leeming Bar and an office based workspace facility in Northallerton, both in purpose-built buildings.
Harworth Estates Investments Ltd	Advanced Manufacturing Park, Waverley	2	£1,154,335	£621,565	01/10/2013	31/07/2015	The scheme provides land remediation and enabling infrastructure to unlock the next phase of development at the Advanced Manufacturing Park (AMP) The scheme comprises four projects: <ul style="list-style-type: none"> <li>• a water supply upgrade to address capacity constraints;</li> <li>• a foul sewer upgrade to address capacity constraints;</li> <li>• land remediation to create a 9 hectare plot (plot 25/26)</li> <li>• an upgrade to the main access road.</li> </ul> The scheme enables the next phase of expansion for the AMP, directly supporting the ERDF aim of sustainable urban development, and particularly focussing on the Advanced Manufacturing, Engineering and Materials sector.
Hebden Bridge Community Association	Hebden Bridge Creative Quarter	2	£1,252,184	£1,446,484	01/02/2010	30/09/2014	The project is developing a growth cluster of knowledge-intensive businesses in the creative and digital sector in the Hebden Bridge area, by creating the Hebden Bridge Creative Quarter. It provides specialist business premises (750m <sup>2</sup> ) for newly-establishing and growing creative and digital businesses with flexible work space for between 51-76 people, primarily in units ranging from less than 7 m <sup>2</sup> to 15 m <sup>2</sup> . It will offer access to business facilities, advice and support.
Henry Boot Developments Ltd & Springwell Street Developments	Capitol Park, Thorne, Doncaster	2	£6,451,617	£7,152,341	01/12/2013	30/09/2015	ERDF will be targeted at industrial and commercial accommodation totalling 14,205m <sup>2</sup> , aimed at food and drink, financial and business services sectors. The 14 units will range from 836m <sup>2</sup> to 3,344m <sup>2</sup> ensuring a flexible offer for the potential growth markets. Of the 18

(No 1) Ltd							units, 4 already exist and will be refurbished and brought up to a standard suitable for the target sectors
Homes and Communities Agency	Tower Works	2	£1,934,194	£2,230,738	06/09/2010	31/12/2011	This project is enabling first phase of development, in Holbeck Urban Village specifically focused at the Creative & Digital Industries (CDI) sector. These works will include immediate conservation works to one building, full development of the listed building known as the Entrance Range for managed workspace, conservation works to the Engine House and other associated development costs.
Horncastle Group Plc	The Beacon	2	£3,004,126	£5,094,682	01/10/2010	31/12/2013	The Beacon is a new Business Park in Hull designed to accommodate SMEs in Bioscience, Environmental and Healthcare Technology sectors. The one hectare park will comprise three high quality detached units totalling some 4,642m <sup>2</sup> of business accommodation on three levels.
Huddersfield & District Textile Training Co Ltd	Textile Innovation Programme	1	£1,549,581	£2,118,849	01/07/2009	30/06/2013	The Textile Centre of Excellence provides an innovation centre for Technical Textiles including 'close to market' R&D to maximise business benefits from exploiting scientific and technological developments. Textile Innovation also supports a wide range of environmental improvement activities to allow manufacturers to use more environmentally friendly chemicals in wool processing and reduce the use of power and water. Other applications from the programme include the use of nano and plasma technologies to produce fabrics which are self-cleaning, conductive fibres to make 'smart' clothing that can monitor the wearer's body functions and dressings that monitor wounds, prevent infection and deliver medication.
Incommunities Group Ltd	Locally Grown	3	£1,525,582	£1,517,188	01/09/12	30/06/15	The Locally Grown programme is a grass-roots approach to stimulating private and social economy sector growth through supporting business start-up and development of existing businesses in social housing estates in Bradford, Leeds, Barnsley and Sheffield. The project will put into place a range of

							inter-connecting support: 1. The creation of Sympathetic Enterprise Environments around neighbourhood hubs 2. Dedicated business support provision to SMEs & social enterprises based within the deprived areas. 3. Enterprise start-up support for those supported through the Sympathetic Enterprise Environments 4. Provision of procurement support and access to supply chain opportunities through the partnership and stakeholders. This will be to SMEs and social enterprises in the deprived areas.
Ispace Investments LLP	lpark2	3	£1,498,823	£1,990,130	01/01/2010	31/12/2013	lpark comprises the development of business accommodation for micro/SME firms in Hull requiring incubation, managed workspace and grow-on space in a safe, secure environment. This project will provide circa 50,000 ft <sup>2</sup> of high quality space subdivided into units as small as 365 ft <sup>2</sup> managed in partnership with Hull City Council. Within the units we anticipate the accommodation of circa 150 jobs.
Key Fund (South Yorkshire) Ltd	Key Fund Yorkshire Social Investment Fund	3	£1,456,140	£1,515,572	01/04/2007	30/11/2009	Key Fund Yorkshire provides funding for third sector organisations becoming social enterprises, existing social enterprises to develop and social entrepreneurs aspiring to set up a social enterprise.
Key Fund (South Yorkshire) Ltd	CDFI Finance for SMEs and Social Enterprises	3	£9,966,976	£9,983,003	05/01/2011	31/03/2014	The regional CDFIs have joined together to provide a project that ensures regional coverage of Small Loans for Business, supporting new and young growing businesses in deprived areas, including social enterprises across the region. CDFIs are independent organisations that provide financial services to disadvantaged communities where high street banks are failing to do so. They operate in more high risk and specialist markets whilst fulfilling a social mission to make society more financially inclusive.

Key Fund (South Yorkshire) Ltd	Key Fund Yorkshire Social Enterprise Fund	3	£1,440,539	£1,405,188	29/07/2010	30/09/2013	Small grants (up to £3,000) for voluntary and community sector organisations and social enterprises to help them move from grant funding towards sustainability.
Key Fund (South Yorkshire) Ltd	Understanding Finance for Business	3	£485,700	£476,346	01/04/2011	31/03/2014	<p>The regional CDFIs have joined together to standardise delivery of the Solutions for Business product "Understanding Finance for Business". This project addresses the low levels of knowledge and understanding by SMEs, Social Enterprises and new starts in relation to debt finance as a tool for developing business plans and securing sustainability. It operates in parallel to the CDFI Access to Finance project. The delivery focus will be targeted at ERDF eligible end beneficiary SMEs, Social Enterprises and new starts in the most deprived SOAs of the Yorkshire and the Humber.</p> <p>Specifically the project is delivering:</p> <ul style="list-style-type: none"> <li>• Presentations at one to many events (e.g. 100-200 attendees) outlining the principles of accessing finance, raising the profile of "Understanding Finance" as wide as possible. (18 number of events over the life time of the project)</li> <li>• Smaller targeted workshops (Max 20 attendees) with a focus on analysis of legal forms, types of borrowing, due diligence expectations, cash flows, business, application process/es (72 number over the life time of the project)</li> <li>• Bespoke organisational support, tailored to the individual SME, Social Enterprise or new start requirements "embedding" financial management understanding within ERDF eligible end beneficiaries.</li> <li>• Bespoke "Post investment" support, as and when, required. Ensuring investments received are utilised to the full.</li> </ul>

Kingston upon Hull City Council	Local Work Guarantee (Hull Employment / Retention / Mentoring)	3	£1,553,552	£1,073,174	01/02/2009	31/05/2012	Local Work Guarantee is the brand for an integrated suite of employment projects designed to address Hull's worklessness issues. There are three separate but linked strands and ERDF supports strand 3: Maintaining Employment Contract which provides a job brokerage service linked to local employers, promotes inclusive recruitment practice and supports employers with advertising and accessing the broadest population of applicants, recruitment process, and job matching.
Kingston upon Hull City Council	KREATE (Kingston Rovers Enterprise and Training Experience)	3	£2,633,948	£2,741,457	23/08/2010	31/08/2014	This is a strategy-driven and spatially targeted initiative to provide differentiated and distinctive physical accommodation in which to support start-up & early stage micro businesses in East Hull, an area with no equivalent facilities, and to provide complementary accommodation for vocational, adult and enterprise skills training. The newly-built floorspace (5,023m <sup>2</sup> gross) combines facilities needed to increase economic regeneration and inclusion. The location is Craven Park, forming part of a mixed use regeneration programme (30ha)
Kirklees Council	Energy Innovation in Deprived Communities	3	£7,063,777	£7,924,349	01/04/2010	30/04/2014	This project provides volume and hybrid retrofit delivery of energy efficiency measures in low-income, hard to treat, housing. Activity is based on the "whole house – whole community" principle delivered through a coordinated approach, engaging key consortium partners that can maximise delivery efficiency savings.
Kirklees Council	Kirklees Youth Enterprise Centre	3	£2,123,006	£2,778,061	01/01/2012	30/06/2015	The Kirklees Youth Enterprise Centre is a 'trail blazer' in building a culture that value, nurtures, and promotes enterprise in young people. Part of the overall Creative and Media Studio School, the centre harnesses the potential of young people who show entrepreneurial flair. It will support by creating 'an enterprise hub' initially focusing on the creative and media sector which will allow test trading, business mentoring including start-up grants supported by an employer sponsor, 1-2-1 business

							counselling, enterprise days, entrepreneur exchanges, 'dragons den', enterprise challenges, and creating and directing companies from within the centre. The centre will support 14-16 year olds who need enterprise support, with more intensive support for 16 to 19 year olds who are inspired to consider enterprise as a real option for them to pursue. This sits totally outside the normal curriculum and will create a generation of entrepreneurs in Kirklees, delivered in a dynamic entrepreneurial environment. The project aims to increase the number of start-ups by young people, improving the way schools work with businesses so that more young people will be attracted to the idea of running their own enterprise and/or working in enterprising organisations.
Leeds City College	Incubation and Education	2	£5,606,488	£6,581,512	09/09/2010	31/08/2013	This project supports the potential that Further Education Colleges have to support the successful formation and growth of new businesses through the development of facilities and services to provide additional support for college learners, including community learners. It is delivered by a network of Further Education Colleges and the Young People's Enterprise Forum and builds on the capacity of Further Education to reach groups for whom there is an "enterprise deficit" (women, young people including disaffected/NEET Young People, BAME communities and disadvantaged communities) plus people looking for new opportunities in response to redundancy/job loss. The project has extensive partnership support through the Young People's Enterprise Forum network
Leeds City Council	Create and Innovate	5	£247,563	£247,563	01/10/2008	31/12/2010	This Technical Assistance project has two strands: CREATE and Innovate. Through the CREATE element, project partners will co-ordinate ERDF activity, raise awareness of the Programme in localities, and maintain and develop links with approved ERDF projects and sponsors across the City Region. The ultimate aim is to

							generate ideas which would be suitable for future ERDF applications and increase the number of projects approved by the Programme. The Innovate strand will provide a dedicated resource to develop and conduct joint planning and co-ordination relating to the Innovation agenda of Priority 1, and will focus on making links between HE-led Priority 1 projects.
Leeds City Council	Middleton Enterprise Centre	3	£719,806	£779,895	01/01/2010	31/12/2012	Middleton Enterprise Centre provides a two-storey new build to act as a central hub in terms of encouraging and stimulating entrepreneurialism and self employment within the target communities. The Centre provides networking and hot desk space for budding new businesses, using the existing 'Pay As You Go' tariff model adopted by existing catalyst centres in Leeds, as well as office accommodation of various sizes for up to ten additional commercial and social enterprises.
Leeds City Council	Enterprising Leeds	3	£599,360	£623,823	01/04/2010	31/03/2013	Enterprising Leeds focuses on raising the profile of enterprise and increasing self-employment rates in some of Leeds most deprived communities. This is done through an integrated package of enterprise coaching and intensive start-up support. Enterprising Leeds is primarily delivered through a network of enterprise centres set up with LEGL funding, situated with some of Leeds most deprived neighbourhoods. The centres will provide a central and single access point to enterprise support at a local level.

Leeds City Council	Employment Leeds	3	£693,045	£693,045	01/01/2011	31/05/2014	Employment Leeds is overseen by the Worklessness Strategic Outcomes Group (WSOG) which includes key partners in Leeds. It brings together an offer of assistance for employers. Employment Leeds undertakes job brokerage and retention activities with existing and new employers. Activity will be commissioned to support the job brokerage requirements of large scale developments such as the Arena, City Centre retail schemes, Airport expansion and major regeneration schemes e.g. EASEL and Aire Valley.
Leeds City Council	West Yorkshire Local Broadband	2	£4,291,874	£4,958,046	01/09/2013	30/09/2015	This project will create 800 new jobs and have a significant effect on increased GVA by approx. £58m through the provision of superfast broadband infrastructure and through support of demand stimulation among SME's across West Yorkshire.
Leeds Community Foundation	Yorkshire Venture Philanthropy Programme	3	£736,457	£729,215	01/06/2012	31/05/2015	The project will establish the first regional Venture Philanthropy Programme in the UK and will involve working with the private sector to encourage them to invest time and money in third sector groups looking to develop or grow social enterprise activity. There is a gap in support for social enterprise, exacerbated by the closure of Business Link's face-to-ace support. YVPP will fill the gap by providing targeted business/professional advice, and encouraging the private sector to use the services of social enterprises. The programme also includes grant funding to help social enterprises to develop. YVPP will also work with Key Fund to offer a combined grant/loan funding package. The project will deliver a minimum of: 16 new and 6 safeguarded jobs, 11 new businesses and 60 SMEs assisted. It will also significantly raise the profile of social enterprise.
Lighthouse Group UK Ltd (The)	The Centre of Excellence Phase 2	2	£939,165	£1,083,157	01/10/2010	30/09/2013	This project provides bespoke flexible incubation, start up and grow on space dedicated to the needs of new and high technology businesses within the Creative and Digital

							Industries (CDI) sector.
Marshall construction (West Yorkshire) Limited	South Kirby Green Business Park	2	£1,085,779	£1,254,263	01/07/2013	31/03/2015	The project will seek to address market failure in the sub region's property market and provide three units totalling 30,000ft2 (2787m2) designed to accommodate SMEs in environmental industries, advanced manufacturing sectors. These will be constructed on a reclaimed brownfield site situated in one of the most deprived areas of Wakefield, South Kirkby, which is an Assisted Area. In addition, infrastructure will be provided to access the remainder of the site, totalling 11 acres (4.45ha) including the land on which the three units are located. All will be achieved by June 2015. The three units, 8,000ft2, 10,000ft2 and 12,000ft2 (743m2, 929m2 and 1,115m2 respectively) will be constructed to BREEAM "very good" standard and marketed to the growth sectors identified above. When fully occupied, the three units will accommodate up to 120 jobs in growth sectors, with a focus on employment from the sub region's depressed and deprived pool of labour via liaison with the local authority's regeneration department and job centres.
Media Solutions Ltd	Digital Media Exchange	3	£532,110	£532,110	01/10/2013	30/06/2015	Digital Media Exchange is an 18 month successor project to the ERDF P3 funded Sheffield Community Network. The project will support digital media entrepreneurs to engage in cross-platform production for radio, television, web and mobile, building on existing infrastructure previously supported by ERDF and benefiting from investment in a new local television channel for Sheffield. It draws on the resources of an established city-wide network of neighbourhood centres and specialist delivery partners to encourage active participation in the digital and knowledge driven economy, to promote jobs and enterprise, and to connect disadvantaged communities

							with high growth development in the CDI sector.
Motorhog Holdings Limited	Tower House Lane	2	£1,575,981	£1,820,531	01/06/2014	30/09/2015	Tower House Lane is a brownfield 8 acre (3.24ha) site adjacent to Hedon Road to the east of Hull within East Riding. The proposal is to demolish the majority of existing buildings (mainly dilapidated), retaining one building for refurbishment (1260m <sup>2</sup> ). New units will be developed comprising 13 terraced units, in 2 blocks (2570m <sup>2</sup> ) and a single larger unit (2522m <sup>2</sup> ) which will be predominantly occupied by the applicant. The 13 new terraced units are the ERDF project, and it is anticipated that companies will be attracted to the location by the presence of the recycling operation. The units will be built to BREEAM "very good" standard and marketed at companies in growth sectors including environmental industries, and companies in the applicant's supply chain.
Newlands Community Association (Trading) Ltd	Newlands Enterprise Park	3	£1,018,412	£1,527,466	01/07/2010	31/12/2011	This project is creating of the largest straw bale building in Europe, to form an Enterprise Centre and 14 work units. This development aims to create a sustainable Business Park where local organisations can grow and prosper whilst having a minimal impact on the environment.
North East Lincolnshire Council	CATCH 3	2	£1,500,576	£1,740,447	04/01/2011	30/06/2013	The project ensures that CATCH continues to add value for businesses by providing the right product for investors, the right mix of skilled and competent people and opportunities to facilitate industrial collaboration. It doubles capacity at CATCH, providing facilities to accommodate the current and future projected demand. It will create 612 jobs, leverage £750,000 private sector Investment and support 25 businesses.

North East Lincolnshire Council	Change Plus	3	£469,802	£529,776	01/04/2011	31/03/2014	Change Plus supports employers to recruit and retain those with barriers to employment and addresses access barriers to employment sites.
North Yorkshire County Council	Next Generation North Yorkshire (NYNET)	2	£13,182,860	£15,228,345	07/06/2011	30/06/2015	The project will provide the ability for North Yorkshire SMEs to connect to fast broadband access. It will spend £25.5m on eligible infrastructure and £3m on business support. It addresses the market failure of some 10,000 eligible businesses in rural North Yorkshire which are unable to access services and markets with fast connectivity. Investing £13.2m ERDF, and £19.6m (£15.2m eligible) public funding, the Project aims to increase dramatically the speed of access to and from North Yorkshire businesses, to open up opportunities for business expansion, through wide-scale market stimulation and state-of-the-art information exchange and development. The Project will provide the wholesale capability for some 10,000 eligible businesses to connect or upgrade to the internet; it will directly advise 550 businesses and, through SME productivity improvements and investment, create 125 new jobs and £26m of GVA by 2015; by 2027 it expects to show impact of up to 1,314 new jobs and £747m GVA (gross). The Project provides sustainable alternatives to transport (saving travel and providing alternative communication channels). The Project fosters a better climate of enterprise, encouraging new entrepreneurs to locate alongside existing businesses.
Pasture Development Company Ltd	Freeman Street Business and Community Hub	3	£705,403	£741,606	04/04/2011	31/12/2013	The project will convert 985 m <sup>2</sup> within the market into facilities for community organisations and businesses. This will build on a highly successful pilot scheme and create 16 workshop/offices creating new businesses, products and services. The development is designed to appeal to creative and digital media users in accordance with demand research but is flexible to accommodate a wide range of needs. The project will achieve new 24

							jobs. The scheme will also safeguard 100 jobs and 6 businesses operating from the market by creating a sustainable use of space, increasing footfall and generating sales.
People United Against Crime	Business Crime Reduction Centre	2	£2,243,933	£2,012,000	01/10/2011	31/10/2014	The Business Crime Reduction Centre offers business support by providing security advice covering physical security and cyber crime threats. The Centre will support victims of crime and work with other businesses to mitigate crime-associated risks, it will help businesses survive in the short term, and seize future opportunities once the economic situation improves. It will create and safeguard jobs whilst removing the hidden costs of dealing with crime from small and medium sized enterprises.
PERA Consulting (UK) Ltd	MAS Yorkshire and the Humber ROR	2	£664,976	£780,624	01/09/2013	31/03/2015	The MAS Yorkshire ROR ERDF project will support Manufacturing SMEs to improve productivity and competitiveness through increased innovation, the implementation of sustainable business practice and development of advanced engineering capability
PERA Consulting (UK) Ltd	MAS Yorkshire and the Humber SY	2	£610,887	£469,913	01/09/2013	31/03/2015	The MAS South Yorkshire ERDF project will support Manufacturing SMEs to improve productivity and competitiveness through increased innovation, the implementation of sustainable business practice and development of advanced engineering capability.
Princes' Trust (Yorkshire & Humber)	Princes Trust Enterprise Project	3	£762,533	£762,532	01/10/2011	31/12/2014	The Prince's Trust Enterprise project will provide young adults aged 18-30 who have been long-term unemployed, have no formal qualifications, an offending background or who face economic and social isolation with the opportunity to explore enterprise and through an intensive programme of mentor support help them to progress into self-employment. Providing a region-wide enterprise

							support service for young entrepreneurs the three-year project will cost £1.525m, create 414 new businesses in the region of which at least 207 will still be trading after 12 months.
Property Alliance Group Limited	Victory Higher Manufacturing Park	2	£2,792,533	£5,668,174	01/04/2010	30/09/2013	The Victory Higher Manufacturing Park is a capital project building two buildings and remediating surplus land to support the development of new high quality industrial and manufacturing accommodation in the Lower Don Valley
Prospect Estates Limited	Darnall Managed Office Workspace, Sheffield	3	£683,249	£625,058	01/08/2010	30/11/2012	This project is converting a dilapidated building in Sheffield into 20 separate managed workspace units totalling circa 836m <sup>2</sup> net. In addition, energy efficient ICT connected accommodation, management services, will be offered to include reception, messaging, meeting rooms through permanent on site management. The project's target market will be micro/small businesses reflecting the demographics of the local area.
Rotherham Metropolitan Borough Council	Rotherham Enterprising Neighbourhoods	3	£3,491,427	£2,975,709	01/01/2007	31/03/2014	The "Enterprising Neighbourhood's" project is targeting support at Rotherham's disadvantaged communities to promote sustainable economic growth, by creating enterprise opportunities for individuals and for businesses including physical improvements to neighbourhood infrastructure where there is a demonstrable need, i.e. Neighbourhood Enterprise Centres within existing community buildings.
Rotherham Metropolitan Borough Council	South Yorkshire Technical Assistance	5	£888,462	£888,462	01/04/2008	30/06/2011	South Yorkshire Technical Assistance seeks to improve the implementation, monitoring and control of ERDF in South Yorkshire and will undertake activity to support the delivery of the ERDF programme.

Rotherham Metropolitan Borough Council	Employability Programme (Economic Inclusion PPR) - South Yorkshire - Rotherham	3	£725,700	£803,277	01/04/2010	30/09/2012	This project addresses employer need and the market failures surrounding unemployment, employment retention and redundancy, which directly impact on productivity and economic growth. The project delivers a coordinated total solutions approach on recruitment, retention and progression for Rotherham employers. This employer support package forms a key part of the new South Yorkshire worklessness model and dovetails into the mainstream support provided by JCP/LSC and the ESF Progress Together model.
Rotherham Metropolitan Borough Council	Growth & Prosperity in Rotherham (Soft Landing Zone)	2	£842,310	£506,076	01/04/2011	30/08/2014	Building on two decades of successful delivery of incubation programmes and inward investment, Rotherham sees its next phase of development as capturing international business, and growth of existing businesses in to global markets. The first aspect is encouraging additional successful knowledge-based business to set up by attracting foreign business. The second is working with home grown talent to develop ideas that have true potential to create export-focused businesses through accelerated development and support. Finally is encouraging businesses to share ideas for development through creating and facilitating an Ideas Bank.
Rotherham Metropolitan Borough Council	Pool Green Infrastructure	4	£1,166,287	£1,880,408	01/04/2014	30/06/2015	The project will convert the Pool Green roundabout on Centenary Way into signalised cross roads improving a key gateway into Rotherham in terms of the junction's traffic flow performance. The improvements in traffic flow performance will contribute to the economic development of Rotherham through improved access to key employment sites. Improvements in traffic flow will reduce public transport journey times and above ground crossings for pedestrian users will make the junction safer and more attractive for people accessing the Town Centre. The project contributes to local, City Region and

							national priorities to support the economic growth through creation of jobs and improve infrastructure.
Scarborough Borough Council	Scarborough Job Match	3	£595,329	£619,620	01/10/2008	30/06/2012	Scarborough Job Match works with employers in the town to improve links between workless people and available jobs.
Scarborough Borough Council	Scarborough Enterprise Match	3	£1,036,896	£1,079,218	01/04/2011	01/03/2015	Scarborough Enterprise Match [SEM] aims to create an enterprise culture to unlock the entrepreneurial potential of the borough's most disadvantaged communities, increasing the number of business start-ups, improving three year survival rates and creating jobs. The project is delivering intensive pre-pre start support, and support to start-up businesses and social enterprises. The project is developing the aspirations and ambitions for enterprise of excluded groups through a team of community-based enterprise coaches, and by providing a programme of new and additional support for students of Yorkshire Coast College. A new Enterprise Centre will be located at the college to provide facilities and services which build the capacity of residents to start their own business.
Science City York	Science City York Specialist Services for Business Growth and Innovation	2	£1,218,364	£1,218,364	01/01/2007	31/12/2012	This project will drive business growth in target knowledge-based sectors in and around York and North Yorkshire by providing embedded Specialist Business Mentors within businesses over a six month period to enable businesses in target knowledge-based sectors to overcome barriers to growth stimulating the growth of target knowledge-based sectors.

Science City York	Science City York - Embedded Business Space and Technology Transfer	2	£19,746,000	£19,064,761	01/01/2007	31/12/2014	This project is a nationally significant transformational improvement to the assets and strategic potential of the region's Science City through a major expansion of York University. It gives substantial opportunities for working with business, and connects with a significant new business strategy by the Central Science Laboratory involving specialist grow-on space for SMEs and R&D collaboration.
Screen Yorkshire Ltd	Yorkshire Content Fund	2	£7,500,000	£7,500,000	01/12/2011	30/09/2014	The Yorkshire Content Fund (YCF) addresses a gap in the market place by providing targeted co-investment finance into creative content projects, complementing the Finance Yorkshire JEREMIE funds, which do not focus on this type of investment, and to develop innovative approaches to further investment in the digital and new media sector. Projects, such as film and television programmes, videogames and web applications, will either be initiated by Yorkshire-based companies or by SMEs attracted into or started up in the region.
Sheffield City Council	Sheffield Cultural Infrastructure Programme	4	£4,142,000	£7,090,919	01/04/2008	30/06/2011	The Cultural Infrastructure Programme is improving Tudor Square's urban environment that surrounds the Crucible through the redevelopment of the Square. This provides an events arena and high quality gateway, to become a visitor attraction in its own right, to the important complex of cultural facilities consisting of three main theatres (Crucible, Lyceum and Library), the City Library, in addition to the Millennium and Graves Galleries, and the Winter Garden.
Sheffield City Council	Sheffield Employability Project (sector routeways)	3	£1,782,000	£1,782,000	01/04/2009	30/06/2012	This programme is an employer led, 'wrap around' service to support retention of people in work extending and diversifying the pool of local labour available to businesses by connecting buoyant and growing sectors with economically inactive individuals from target groups. It operates under the brand "Opportunity Sheffield".

Sheffield City Council	Enhanced BiG (LEGI) Programme	3	£4,846,364	£4,846,364	01/04/2008	31/03/2014	This project builds on the existing LEGI investment of up to £24m being delivered through BiG: Make it Your Business which is grounded in community-based enterprise coaching designed to encourage start up activity.
Sheffield City Council	Sheffield Eastern Gateway	4	£1,109,921	£1,899,627	09/02/2009	30/11/2011	The Eastern Gateway lies between the New Retail Quarter, the New Business District and the Moor. This project provides a high quality entrance for workers, shoppers and visitors whether arriving by car, public transport or by foot.
Sheffield City Council	Enterprising Neighbourhood Centre - Knutton Road (SOAR Works)	3	£2,776,058	£1,872,084	01/02/2008	31/03/2012	This is constructing the Knutton Road enterprise centre in the deprived ward of Southey and Owlerton. The Knutton Road project provides 30,000ft <sup>2</sup> of floorspace, 50 fully-serviced business start-up units, providing office space, light industrial units, artists' studios, hot-desk facilities and meeting space.
Sheffield City Council	South Yorkshire Sector Growth Enhancement Programme	2	£1,507,148	£811,544	01/04/2011	31/03/2014	The South Yorkshire Sector Growth Enhancement Programme (SYSGEP) will accelerate the transformational private sector expansion that is needed to deliver sustainable job creation and increased competitiveness amongst targeted SMEs displaying high growth potential within the emerging sectors in South Yorkshire, thereby addressing a gap in the business support landscape that is not currently served by any other means. Through integrated key account management and tailored marketing activity the programme facilitates the growth and expansion of indigenous businesses and secures new inward business investment, creating a diverse range of employment and career progression opportunities.

Sheffield City Council	Enterprising Neighbourhood Centres - Alison Crescent	3	£1,500,000	£1,410,000	01/10/2008	30/11/2012	This project adds a third phase to the development of the Alison Crescent Business centre; expanding gross area by approximately 1560m <sup>2</sup> , expanding lettable space by approx 1115 m <sup>2</sup> and adding 28 units. It provides office space and light industrial units, hot desks, shared office and virtual office facilities, and meeting rooms and seminar space.
Sheffield City Council	Sheffield Community Network Programme	3	£2,295,550	£2,295,550	01/06/2010	31/12/2013	The Sheffield Community Network delivers a programme of interventions and investment in information and communications technology (ICT) infrastructure to create a seedbed for community-based growth, enabling the creation of new businesses and jobs.
Sheffield City Council	Grey to Green Phase 1- Sheffield Riverside Business District	4	£1,426,000	£2,139,000	31/03/2014	31/12/2015	The project is expected to transform the quality of the environment and public realm of the Riverside Business District, both to provide an appropriate level of connectivity and facilities for those already living and working here, but also to promote significant new inward investment into what is the financial and legal quarter of the city. There are two development sites adjacent to the area subject of this funding application, West Bar and The Courts, which should benefit from the environmental improvements proposed. The proposed scheme will make direct and clear connections with the city centre, and, crucially, will create a very high quality and distinctive sequence of public spaces that will enhance the image and potential of this district, but which will also make this area a destination in its own right.
Sheffield City Council	Remediation of Former Don Valley Stadium site	4	£2,321,354	£3,741,205	30/05/2014	30/06/2015	Following the closure and subsequent demolition of the Don Valley Stadium Sheffield City Council would like to remediate this important gateway site an attractive location for promoting sustainable development and growth in the local knowledge economy. The Council are progressing the development of the New East End Academy on part of the Site due to commence in

							September 2014. This project is adjacent and makes 4.8 hectares (12 acres) available for development. Low level contamination exists across the site with localised hot spots. Severely contaminated fill will be removed from site and the bulk will be cleaned and retained on site. Much of this is in mounds constructed for the former stadium use. These mounds will be distributed over the site and reallocated to the reduced level platform of the former running track on the schools land. This opportunity offers a considerable cost saving on disposal off site. Following clean up a membrane is to be installed over much of the site overlain with top soil and recovered material to create a development platform and safe open space.
Sheffield Hallam University	Innovation Futures	1	£1,540,765	£1,480,343	01/01/2009	31/12/2012	This project delivers bespoke, in-depth interdisciplinary interventions to embed R&D, promote an innovation culture through long-term collaborations with businesses, increase business growth and sales. Innovation Futures encourages businesses to transform the way they manage resources, by supporting the development and use of new processes and technologies to improve resource efficiency.
Sheffield Hallam University	Innovation Futures 2	1	£966,686	£877,022	01/01/2013	30/06/2015	Innovation Futures 2 will directly follow the successful delivery of the original Innovation Futures project. The project utilises and enhances the University's research and consultancy expertise in Materials and Engineering; Digital and Design; Food Innovation; Sheffield Business School; Biomedical Science. The project delivers bespoke, interdisciplinary interventions across priority industry sectors, providing businesses with access to expertise available within Sheffield Hallam University. This will embed R&D and contribute to the region-wide business support and innovation ecosystem; promote transformation and innovation within businesses in the region; increase business growth & business sales to

							create and sustain jobs within the region; and deliver in alignment with both ERDF priorities and those of the Local Enterprise Partnership (LEP).
South Yorkshire Passenger Transport Executive	Access to Opportunities	3	£2,378,995	£3,407,005	01/07/2008	31/12/2012	Access to Opportunities helps people to gain employment through a package of integrated sustainable transport solutions.
South Yorkshire Passenger Transport Executive	Rotherham Central Railway Station Redevelopment and Station Gateway Improvements	4	£2,679,531	£4,976,272	01/04/2008	31/12/2012	The rail station is being completely modernised to address its outdated image, improve facilities, enhance the poor user environment, improve access for passengers (particularly those with disabilities) and address issues (and perceptions) of safety and security. The station improvements aim to provide a visually welcoming and prominent gateway to the town centre and enhance rail users experience with a first-class station environment.
South Yorkshire Passenger Transport Executive	Doncaster Connecting Economic Infrastructure (A630 Smart Route)	4	£943,281	£1,614,420	01/02/2008	30/10/2012	Upgrading junctions, crossings and bus routes to ease congestion on this principal route into Doncaster.
South Yorkshire Passenger Transport Executive	Bus Rapid Transit North	4	£8,133,081	£13,107,665	01/04/2008	31/12/2015	<p>An integrated transport scheme to enable the sustainable redevelopment of brownfield industrial sites in the Lower Don Valley (LDV), facilitating the creation of up to 5,000 private sector jobs.</p> <p>Entails a new 800m link road circumventing M1 Junction 34 (S), improving traffic flows between the centres of Rotherham and Sheffield, an important commuter axis. A frequent, sustainable, high quality, reliable "Bus Rapid Transit" (BRT) system will be introduced along a 12km route connecting Rotherham and Sheffield centres with the heart of the industrial area.</p>

South Yorkshire Property Investment Company Limited	South Yorkshire JESSICA Fund	2	£15,201,888	£8,185,637	05/03/2012	31/12/2015	<p>The fund will provide the Partners with a mechanism to target ERDF investment at key urban property, infrastructure, and activities that address the economic risk of environmental degradation and climate change and can generate an economic return, and recover funds in future years for reinvestment. It will provide debt finance (but also potentially make equity investments and guarantees) in early stage urban development projects via a new Urban Development Fund (UDF). Loans are projected to have an average value of £2.5m and a maximum of £5m. SCC will draw down ERDF in to the UDF in August 2012, and commence investing from September 2012, once FSA-Regulated fund managers have been procured and appointed to manage the UDF. Through the establishment of the fund, the Partners are seeking to:</p> <ul style="list-style-type: none"> <li>• enable the financing of much needed but commercially constrained investments in the region's target areas for urban development; and</li> <li>• build continuing capacity for regeneration financing beyond the conclusion of EU Structural Funding in 2013/15.</li> </ul>
Stocksbridge Regeneration Company Ltd	Stocksbridge Renaissance	2	£8,111,040	£11,137,107	01/10/2010	30/09/2015	<p>Stocksbridge Renaissance is the redevelopment of a major portion of the town's steelworks, now run down and abandoned, to form a mixed use scheme providing a new heart for the town. The 15 acre (6ha) redundant site will be transformed into a high specification mixed use development – comprising retail, office, commercial, leisure components combined with new economic infrastructure to link with both Manchester Road and Stocksbridge By-pass. The ERDF eligible part of the project, Town Centre infrastructure and business premises, will be designed for and targeted at growth sectors as identified in the Programme, forming a viable growth cluster. Agents report potential demand from</p>

							SMEs in Creative & Digital, Business, Financial & Professional Services, Health Sector, Technology companies and general ERDF compliant town centre uses.
Technology Strategy Board	Large Company (Industrial) Research and Development Award Scheme - Second Round (IRD2)	1	£175,318	£525,947	01/01/2009	31/03/2012	Large Company (Industrial) Research and Development Award Scheme – Second Round (“Large Company R&D”) provides specific, targeted financial support to large companies in the Y&H region that want to accelerate research, development and innovation activities.
Technology Strategy Board	Grants for Research and Development	1	£975,305	£1,433,191	31/10/2009	30/09/2011	Grant for Research and Development is a national scheme to help individuals starting businesses and existing SMEs to research and develop technologically innovative products and processes.
Teeside University	Graduate Spark Yorkshire & Humberside	1	£300,616	£180,582	01/10/2013	30/09/2015	<p>The Graduate Spark project will provide regional business support to Yorkshire and Humber SMEs by identifying recent graduates (i.e. graduated within 12 months) with specialist skills and mature graduates with industrial experience with relevant higher level skills, matching them with employment opportunities and placing them with regional companies on a placement and knowledge exchange basis for 26 weeks. This project will be open to businesses across the Yorkshire and Humber and will assist businesses to grow and develop and, where possible will assist SMEs in focusing on their leadership and management potential alongside innovation and product and process development. The project will consist of two, interlinked strands of activity, which will be delivered from October 2013 until June 2015:</p> <p>1. Graduate Spark Internships Programme – a 26 week graduate placement programme, with support from the University; again this will be available to graduates from</p>

							across the country, but will be exclusively targeted at SMEs within the Yorkshire and Humber region. 2. Knowledge Exchange Internships Programme (KEI) – where SME needs are more technical and require not only highly skilled graduates, but also an in depth expert knowledge of a specific subject area, they will be offered a 26 week graduate placement, alongside academic or expert practitioner support from within the University.
University of Bradford	University of Bradford Sustainability Centre	1	£2,776,510	£1,561,791	01/01/2008	30/06/2013	This project will be the focal point for sustainable development-related research and knowledge transfer expertise working with new and existing businesses. With interdisciplinary expertise in social sciences, environment, health, management, informatics, and design & engineering, Surprise will focus initially on supporting businesses in: sustainable construction; resource efficiency (particularly water); and behaviour and cultural change.
University of Bradford	Yorkshire Innovation Fund	1	£3,066,430	£1,871,330	01/07/2012	30/09/2015	YIF provides a suite of innovation 'offers' ranging from low cost early interventions (£ 5k-10k) to more substantial R&D and innovation investments (£50K plus). It is a flexible and comprehensive platform capable of supporting businesses operating at different stages of the innovation process.  All the regional universities fully committed partners in the YIF to create a scale and breadth of expertise and technology coverage that cannot be delivered by a single institution.
University of Huddersfield	Graduate Entrepreneurship Project	2	£1,292,702	£1,292,702	01/01/2011	31/12/2013	The Graduate Entrepreneurship Project delivers a broad framework of activity both locally by individual HEI institutions, and regionally, to engage students and recent graduates within 5-7 years of graduation (depending on local need) to encourage and support business start up and growth.

University of Huddersfield	Huddersfield Enterprise & Innovation Centre	1	£6,439,750	£4,979,466	01/04/2010	31/03/2015	The Huddersfield Enterprise and Innovation Centre (EIC) project is refurbishing and extending an existing University building to create an exciting 3900 m <sup>2</sup> business centre for collaboration and research.
University of Leeds	Institute for Product and Process Development	1	£4,093,995	£989,836	01/01/2009	31/12/2012	This project combines and exploits the strengths of scientists and engineers at the Universities of Leeds and Huddersfield to make a significant step change in the commercialisation of activities in chemical process research and development to provide more sustainable new products. The project enhances knowledge transfer by working with industry to develop useable, competitive and valuable technology and sustainability through technology designed for cleaner processes.
University of Leeds	Utilising Synergies in Nano-Manufacturing to Accelerate Innovation (MNT2)	1	£2,511,834	£2,086,246	01/05/2009	31/12/2014	This project builds on the nanomanufacturing technology cluster in the region and the established best practice technology transfer expertise within higher education institutions to promote high technology innovation and develop a regional collaborative network of universities and companies. Activity will be a combination of marketing, networking with business, collaborative project building to deliver new processes and projects, project resourcing and delivery, and focused support to commercialisation of new technologies.
University of Sheffield	Mercury, University of Sheffield	1	£5,144,286	£4,594,286	01/04/2010	31/03/2015	Project Mercury works with companies to develop and demonstrate the innovative powder-based manufacturing processes on their products and transfer the technology to their companies. (Powder-based manufacturing is the production, enhancement and repair of manufactured items using a material feedstock, including advance metal or ceramic, in a powder form rather than conventional forms of feedstock such as billets or sheets).

University of Sheffield	University of Sheffield Factory of the Future Extension - Capital	1	£2,403,478	£2,403,478	01/04/2010	30/09/2013	University of Sheffield Factory of the Future Extension is a capital project, which will build an extension on the existing Factory of the Future building located on the Advanced Manufacturing Park in Rotherham. This project will provide facilities that will increase R&D and knowledge transfer activities with regional companies and give them access to world-leading research.
University of Sheffield	NAMRC/KTC - Capital	1	£15,177,247	£15,177,247	01/01/2010	30/09/2013	The University of Sheffield Nuclear Advanced Manufacturing Research Centre (NAMRC)/ Knowledge Transfer Centre (KTC) is a capital project, which will create two new buildings at the University of Sheffield on the Advanced Manufacturing Park. The two buildings will be a Nuclear Advanced R&D Centre and a Knowledge Transfer Centre that will enable world leading research to be carried out.
University of Sheffield	University of Sheffield AMRC Hub Revenue	1	£3,855,939	£3,855,940	01/06/2010	28/12/2014	This project provides revenue support to establish an Energy AMRC to carry out research and development and knowledge transfer that will support the development of a new supply chain enabling regional companies to compete to build the next generation of nuclear power stations to be built in the UK and around the world. It assists manufacturing companies to enter new markets in other sectors including the manufacture of renewable energy generating equipment and Oil & Gas. The project also supports regional companies to incorporate composites and automated assembly into their manufacturing processes, enabling them to enter new supply chains and compete in a global marketplace.

University of Sheffield	Advanced Manufacturing Institute – Design Prototyping and Testing Centre (AMI-DPTC)	1	£4,830,000	£4,830,000	01/10/2011	30/09/2014	The AMI-DPTC project will extend the original AMRC building to build and equip a UK Centre of Excellence in Industrial Design, Prototyping and Structural Testing, building on South Yorkshire's industrial base. The Design, Prototyping and Testing Centre is supported by some of the world's leading manufacturers, but regional SMEs will benefit most from having an internationally recognised Design, Prototyping and Testing Centre at their disposal, able to work with them on projects ranging from basic design, through to preproduction prototype and testing. This project will further enhance the region's growing reputation as an international centre of manufacturing excellence. It will create jobs and bring work to the region far beyond the proposed investment period.
University of Sheffield	Advanced Manufacturing Institute – Training Centre	1	£5,030,860	£12,899,640	01/10/2011	31/08/2014	This capital build project provides a facility for regional companies to improve their competitiveness by ensuring their employees are trained to the highest possible standard. It will create up to 250 new apprenticeships a year in manufacturing companies. AMI-TC will be a state-of-the-art 5,464m <sup>2</sup> training and networking centre and provide the skilled workforce necessary for regional companies to compete in high value manufacturing supply chains. Manufacturing companies will be able to up-skill their technical staff at all levels, from apprentice through Foundation degree, BEng, MSc through to EngD, all within the same building. Courses will be part-time so that knowledge gained is of immediate benefit to the companies concerned.  Revenue costs are being met from the Regional Growth Fund for first 30 months.

University of Sheffield	Advanced Materials Centre at the AMP	1	£1,598,460	£1,205,858	01/03/2011	31/03/2014	The Advanced Materials Centre at the Advanced Manufacturing Park (AMP) provides a range of industrially focused strategic services to regional companies delivered by NAMTEC. These services will comprise two key strands of activity: The delivery of a Manufacturing Design and Modelling support programme, through the creation of an Advanced Manufacturing Design Centre (AMDC); the provision of an Advanced Manufacturing Support Programme to deliver sustainable growth and long-term prosperity to the Advanced Engineering and Materials sector in Y&H.
University of Sheffield	AMRC Factory 2050	1	£10,000,000	£10,000,000	01/01/2014	30/09/2015	The aim of Factory 2050 is to build the UK's first fully reconfigurable assembly and component manufacturing demonstrator facility for a total cost of £20million (£10million ERDF). The term 'reconfigurable' is a general term used to describe a wide range of initiatives including highly adaptive, self-aware manufacturing systems, which will use automated self-learning, adaptive control, dynamic knowledge sharing, highly integrated sensor networks, innovative human-machine interaction mechanisms, process modelling, virtual reality and modelling, plug and play robotics and machining systems and intelligent fixturing.
The University of York	WasteValor Project	1	£1,801,914	£1,013,575	01/11/2011	30/06/2015	The WASTEVALOR project will create a bespoke Industrial Engagement Facility (IEF) for waste valorisation, situated at the University of York.. The IEF, comprising purpose-built state of the art laboratories, will enable pre-start-ups, start-ups, SMEs to use specialist technologies, introduce innovative production methods and promote R&D.

Venture Business Park Ltd	Haltemprice Managed Business Centre	2	£1,178,913	£1,536,775	01/08/2010	31/10/2012	This project is re-using a redundant building close to the Humber Bridge, to create Haltemprice Managed Business Centre. The building will be completely refurbished to accommodate up to 25 small or medium-sized enterprises in 1605m <sup>2</sup> of high quality business space.
Warmsale Limited	Marfleet Environmental Industries Park	2	£4,743,339	£8,651,687	01/03/2010	31/03/2014	The Marfleet Environmental Technology Park is being developed on the site of the former Humbrol manufacturing complex in Hull. The site originally comprised some 11,812m <sup>2</sup> of factory space on 3.82ha. The project is refurbishing the central high bay warehouse, reinstating new services and infrastructure and building additional space to provide circa 150,000ft <sup>2</sup> in total.
Wykeland Ltd	CD4I	2	£4,108,701	£7,893,254	01/10/2013	30/06/2015	The project seeks to support and enhance business growth and sustainability in digital and related industries in Hull and its sub region. The objective of the project is to create and safeguard high value jobs and businesses by creating specialist space to support the growth of the sector and create a C4DI Hub (Block D) of activity in Hull's Fruit Market area in the Old Town. The capital project for which ERDF is sought comprises: <ul style="list-style-type: none"> <li>• provision of a managed workspace/incubator building themed around digital innovation (the C4DI Hub Block D)</li> <li>• co-located grow on space for larger SMEs, (C4DI Offices Blocks A, B &amp; C) flood protection and site remediation works, including to the derelict and silted up Dry Dock</li> </ul>

Wykeland Ltd	Humber Bridgehead	2	£3,018,102	£7,210,968	09/05/2011	30/09/2015	<p>Site servicing of 21 ha to provide a prestige business park in a premium location to cater for demand arising from businesses providing professional, technical and scientific services to the renewable and low carbon energy sectors on both banks of the Humber.</p> <p>Direct delivery includes a 21 ha low carbon employment site, 3,392 sq m GIA of floorspace capable of accommodating 212 jobs</p>
Workpods Ltd	Fountain Court Podworks	2	£1,500,000	£1,510,360	01/06/2012	30/06/2015	The project provides 41 workpods totalling 5,760m2 of new business space adjacent to Doncaster Airport targeted at SMEs in growth sectors, together with infrastructure for a further 15 units.
YFM Business Development Ltd	Yorkshire and Humber Manufacturing Advisory Service	2	£1,621,3176	£1,621,319	01/07/2009	31/12/2011	This project provides practical hands-on assistance to help manufacturers adopt new methods, processes and technologies that boost productivity and improve competitiveness.
Yorkshire Forward	Innovation (Hubs) Networks	1	£1,191,940	£1,191,940	07/10/2008	07/10/2012	This project established three Innovation Networks in Advanced Engineering and Materials, Formulation and Healthcare Technologies. Innovation Networks are enduring innovation communities bringing together companies with the potential to grow through innovation and leading expertise from the regional knowledge base. They encourage collaboration and the free exchange of ideas in areas of mutual technical and commercial interest. They are managed business-led organisations designed to stimulate innovation, mainly through collaborative projects, but also by commissioning studies and disseminating market intelligence, innovation best practice and leading edge knowledge.

Yorkshire Forward	Innovation Vouchers	1	£1,004,941	£1,004,941	01/10/2009	30/06/2011	This project delivers innovative ways for SME businesses to interact with the Knowledge Base providing easy to access innovation voucher funding for an innovation project to be undertaken by a knowledge base supplier of the SMEs choice. Innovation Vouchers is a national scheme generating new collaborations between SMEs and the knowledge base.
