17 February 2014

Dear Sir/Madam,

South Stack Lighthouse - Continued Requirement for Fog Signal

Trinity House carried out a consultation with user representative organisations between 27 August and 27 November 2013, regarding the continued navigational requirement for the fog signal at South Stack Lighthouse.

Having carefully considered all the responses received and following an assessment of the risks presented specifically at this location, I can now advise that it has been decided to maintain the fog signal at South Stack Lighthouse.

Yours faithfully,

Stephen Vanstone – Navigation Services Officer
Direct Dial: 0207 4816921
E-mail: stephen.vanstone@thls.org
