

# 2015 Commercial Victimisation Survey

## Agriculture, Forestry and Fishing Sector

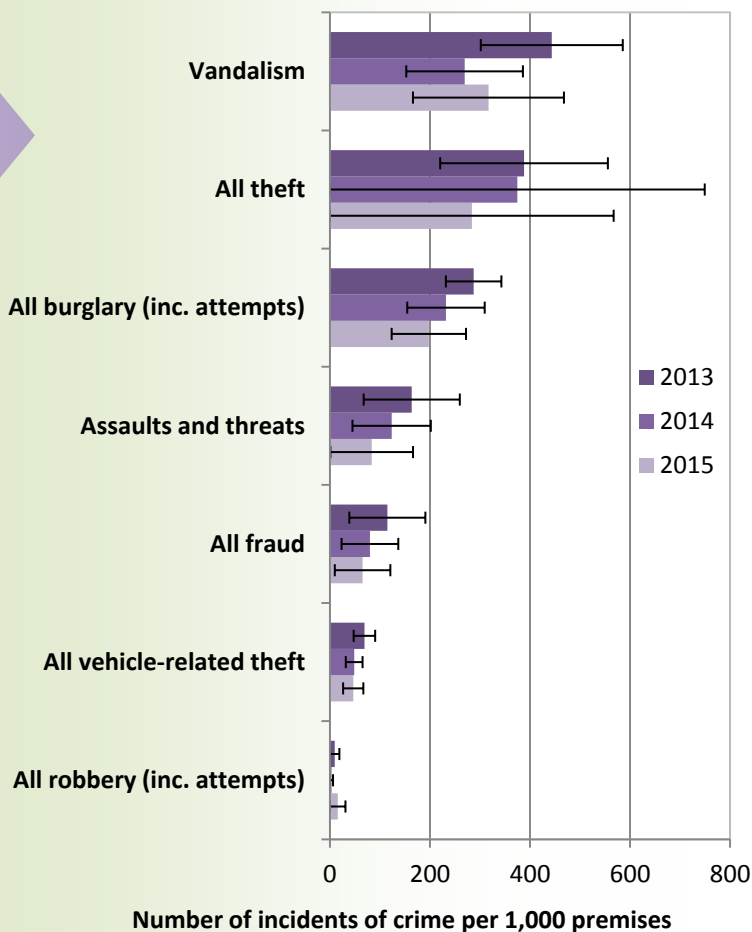

### Crime has fallen since 2013:

- The proportion of premises that experienced a crime fell by six percentage points.
- Most crime types saw slight falls in crime rates, but none were statistically significant.
- The proportion of premises that experienced metal theft fell by five percentage points.
- Most online crimes were computer viruses.

### Proportion (%) of A,F&F premises with crime prevention measures:

### Crime rates: (error bars indicate 95% confidence intervals)

### Experiences of crime (2015 CVS) and significant changes (compared with 2013 CVS)

Crime type	Number of incidents (000s)	Number of incidents of crime per 1,000 premises	Number of victims (000s of premises)	Proportion of premises that experienced a crime	Average number of crimes experienced by each victim (premises)
All burglary (inc. attempts)	19	198 ↓	10	11 ↓*	2 ↔
Vandalism	30	317 ↓	7	7 ↓*	4 ↑
All vehicle-related theft	4	47 ↓	3	3 ↓*	2 ↔
All robbery (inc. attempts)	1	16 ↑	0	0 ↔	-
Assaults and threats	8	83 ↓	2	2 ↓*	-
All theft	27	284 ↓	8	8 ↓	3 ↓
All fraud	6	65 ↓	2	2 ↓*	-
<b>ALL CVS CRIME</b>	<b>96</b>	<b>1,009 ↓</b>	<b>22</b>	<b>24 ↓*</b>	<b>4</b>

Estimates are based on CVS responses from 1,098 premises.

**Table notes:** Statistically significant changes are highlighted in red with asterisks (\*). Other changes are not significant. An upward arrow (↑) indicates an increase, a downward arrow (↓) indicates a fall, a sideways arrow (↔) indicates no change. A hyphen (-) indicates that a figure is not shown because its unweighted base is fewer than 50 respondents. **Source:** Home Office, 2015 Commercial Victimisation Survey headline tables.
