

CC/2015/09

## **COMMITTEE ON CARCINOGENICITY OF CHEMICALS IN FOOD, CONSUMER PRODUCTS AND THE ENVIRONMENT**

### **Alcohol and cancer risk: Commissioned report on mortality and morbidity risks to CMOs' on review of alcohol guidelines (**Reserved business**)**

1. Members should note that the information presented in the annexes for this item is reserved, as it contains pre-publication results which are not for wider circulation, and are reminded that the whole paper will be discussed in reserved business at the meeting.
2. The COC has previously reviewed work undertaken for the CMOs' review of alcohol guidelines in November 2013 and March 2014. In the summer of 2014, initial feedback was provided to the CMOs Guidelines Development Group.
3. As part of this feedback, the COC requested the opportunity to review further work on analysing mortality and morbidity risks. This work has now been undertaken and the report is attached at [Annex A](#). This has previously circulated to Members by email on 19<sup>th</sup> May 2015.
4. The report is provided for the COC to review, to support feedback to the CMOs' Guideline Development Group.

### **Questions for the Committee**

- i). Have Members any general comments?
- ii). Members are asked to provide any specific comments on the approach adopted in the report
