NOTES:

Routing: The term “applies to all” refers in some instances to “all interviewed cases” and therefore excludes vacants and non-contacts. From the administration block onwards, “applies to all” refers all sampled cases (including vacants and non-contacts). Further information on this can be obtained upon request.

Red font indicates questions or wording which have been removed from the questionnaire

Plum font indicates questions which have been rotated off the questionnaire – which will be brought back in a future version.
FORMER CORE QUESTIONS

Following the removal of the EHS from the IHS, some core blocks were retained, which are listed in the following section. However, some of these questions were revised to meet EHS requirements. This document labels any revisions to core questions.

Help:<F9>

I would now like to ask how the people in your household are related to each other

Code relationship …. is …’s…
INTerviewER: If respondent queries why we need this information please explain “There are a lot of changes taking place in the make-up of households/families and this section is to help find out what these changes are. I’d like you to tell me the relationship of each member of the household to every other member.”

(16) Grand-child,
(17) Grand-parent,
(18) Other relative,
(19) Other non-relative,
(99) Office use only
The section must be asked for all households consisting of more than one person. Please ask in every case. You should not make assumptions about any relationship. Treat relatives of cohabiting members of the household as though the cohabiting couple were married, unless the couple are a same-sex couple. That is, the mother of a partner is coded as mother-in-law. For same-sex cohabiting couples the mother of a partner should be coded as ‘Other Non-relative’. Other relatives include cousins, nieces, nephews, aunts and uncles.

You should probe on this question, but be sensitive. It may be that someone described as a ‘son’ or ‘brother’ earlier is actually a stepson or half-brother. Where possible, we want to know the true relationship. If you have doubts about any relationship, record as much information as possible to allow changes to coding later if appropriate. Half brothers/sisters should be coded with step-brother/sisters.

CARD A1

Do you (or your household) own or rent this accommodation?

RUNNING PROMPT - READ TO END OF CODE <5>

(1) Own it outright
(2) Buying it with the help of a mortgage or loan
(3) Part own and part rent (shared ownership)
(4) Rent it (includes all those who are on Housing Benefit or Local Housing Allowance)
(5) Live here rent-free (including rent-free in relative's/friend's property but excluding squatters)
(6) Squatting

(Helpscreen instructions)
This question is asking for the formal legal tenure of the HRP's household. If, for example, the HRP is a widow living in a house bought by her son (in his name) who is living elsewhere, she should be coded as living rent-free even though she may regard herself as an owner-occupier. Similarly, a household which is paying a contribution to upkeep but not a formal rent should be coded as rent-free. This could arise, for example, if a parent lived in a granny-flat as a separate household but paid a contribution to general expenses.

**Owners**
Only code people as mortgagors if they have a mortgage for buying their home. Some people who have paid off their mortgage and are effectively outright owners make an arrangement with the lender to continue to pay a small amount of 'mortgage' as payment for the lender for keeping the deeds. They should be coded as outright owners.

People who own their home with a lease are counted as owners. It does not matter that they pay ground rent. Similarly people who own their own home under the new Commonhold tenure (see below) are also counted as owners.

**Shared owners**
Shared ownership means partly owning (or buying with a mortgage) and partly renting the property, so that, if the person moves, he/she will get some of the proceeds from the sale of the property, according to how much of the original cost has been paid off. Include people who have paid off the mortgage portion. People with shared ownership arrangements are treated as owner-occupiers in the interview. They are not local authority/housing association tenants even if their arrangement is with a local authority/housing association. Owners who pay a service charge but not rent should be counted as owners, not shared owners.

**Rent free**
People who live rent free do not always regard themselves as doing so, so particular care is needed in dealing with such cases.

The following types of case have caused problems. The correct coding is in brackets:
- Someone living in a 'granny-flat' owned by her son in his name (private renter living rent-free).
- Someone living in the property of a deceased partner which is held in trust (private renter living rent-free).
- A divorced/separated woman living in the house owned solely by her ex-partner who no longer lives there (rent-free if owned only in partner's name; owner if the house is owned in the name of both partners)
Sometimes respondents think they live rent-free when they do not e.g. people on full housing benefit who do not pay any rent to the landlord themselves because housing benefit is paid directly by the Department for Work and Pensions (DWP) formerly the Department of Social Security.

**Tied accommodation**
People in tied accommodation should be coded here as renters (code 4) or rent-free (code 5), depending on whether or not they pay any rent. This group includes people whose accommodation goes with their job e.g. Church of England employees, caretakers, army personnel, council tenants whose accommodation goes with their job, some farmers. People in tied accommodation are classified as private renters, irrespective of who they are renting from.

**Unusual schemes/arrangements**
- **Co-ownership**: this is the joint ownership of residential properties (e.g. blocks of flats) by a group of people who have formed a registered co-ownership society. These schemes started in the 1970s but new legislation was passed in the 1980s so that there should not be any more.
- **Housing co-operatives**: code as renting from a housing association (code 4 here, and code 2 at “Who is your landlord?” below)
- **Commonhold**: a new form of land ownership in England and Wales, created by Part 1 of the Commonhold and Leasehold Reform Act 2002. It combines freehold ownership of a unit in a larger development with membership of a commonhold association that owns and is responsible for the management and upkeep of the common parts of the development. Commonhold is an alternative to long leasehold ownership of flats and other interdependent properties.
- **Housing Action Trusts**: these are set up by local authorities and the properties rented are still owned by local authorities; their tenants are renting from a local authority.
- **Rents to Mortgages scheme**: these are schemes available to council tenants whereby a tenant has the right to buy a share of their home for roughly the same price as the rent. These should be coded as shared owners here and “local authority” at type of landlord (below).
- **Private Sector Leasing**: the Council leases private property for several years and lets it out to tenants. The landlord is the immediate landlord, which is the local authority.
- **Home Income Plans and Retirement Home Plans**: these are where outright owners raise a loan on the security of the house for a regular income. They should be coded as outright owners.
- **Schemes for Mortgage defaulters**: in these cases the property reverts to the lender and a rent is paid instead of a mortgage. Code as renters.

**Ask If:** \(((\text{Ten1} = \text{Own}) \text{ OR } (\text{Ten1} = \text{Morg})) \text{ OR } (\text{Ten1} = \text{Share}))\)

Help <F9>

May I just check, who personally owns (or is buying) this house/flat? In the case of shared owners, this relates to the person in this household who owns or is buying the part-share.

1. HRP (name) only
2. Partner/spouse of HRP (name) only
3. HRP (name) and partner/spouse
4. HRP (name) and someone else (living here or elsewhere)
5. Someone else who lives here
6. Someone outside the household

(Helpscreen instructions)
This is a check on the responses to the basic tenure question (Ten1). One particular group targeted are those who think they live in accommodation as an owner occupier, but where the owner is then revealed (in answer to this question) as a relative who lives somewhere else. In such cases the occupants should have been coded as living rent-free and not as owner occupiers. (See instructions at Ten1).

(4) another organisation  
(5) relative/acquaintance of any current household member from before this tenancy started  
(6) employer (individual) of a household member

**Helpscreen instructions**

If property is let through an agent, the questions refer to the owner not the agent.

If the respondent does not know who the landlord is, use code 7 (other private individual) rather than coding “Don’t know”.

Code 1 (local authority) includes people renting from Housing Action Trusts. An ALMO (Arms Length Management Organisation) is a company set up by an LA to manage and improve all or part of its housing stock. Scottish Homes no longer exists and ‘local authority/council’ is now sufficient to cover all publicly-owned housing in Scotland. In Northern Ireland, the Housing Executive is responsible for publicly-owned housing.

Code 2: Nearly all housing associations are now Registered Social Landlords (RSLs) but continue to be known as housing associations. They can be Industrial and Provident Societies, registered charities, or companies.

(Helpscreen instructions)
The category "partly furnished" no longer has any legal significance: any letting which is not explicitly "furnished" will be classified legally as "unfurnished". We retain "partly furnished" here to ensure that respondents do not mistakenly include lettings with, say, curtains but nothing else provided as "furnished". However, do not use "partly furnished" simply because the respondent thinks that the furniture is inadequate.

LSII (removed in Year 5 2012/13, replaced by LSILL2)  Disability.sav

Do you have any long-standing illness, disability or infirmity - by long-standing I mean anything that has troubled you over a period of time or that is likely to affect you over a period of time?

(1) Yes
(2) No

LSILL2 (new question in Year 5 2012/13, replaces LSII)  Disability.sav

Help<F9>

This question asks you about any health conditions, illnesses or impairments [you/Name] may have.

Do you have any physical or mental health conditions or illnesses lasting or expected to last for 12 months or more?

(1) Yes
(2) No
(3) SPONTANEOUS: Don’t know
(4) SPONTANEOUS: Refusal

(Helpscreen instructions)

Interviewers should provide guidance regarding the coverage of conditions and illnesses if asked for clarification: for example, a respondent may state their mobility is impaired but is unsure whether this classifies as a long-lasting condition or illness. Interviewers should guide the respondent in line with the examples given above.

Spontaneous responses can be recorded but should not be presented as options to respondents. If respondents are too ill to respond on their own behalf, if present, proxy responses from a family member or friend can be recorded. For those not able to speak English, translators should be used to assist with the data collection.

ASK IF: LSII = Yes

ILLLim2 (new question in Year 5 2012/13, replaces ILLim) Disability.sav

Help<F9>

This question asks about whether [your/his/her] health condition or illness currently affects [your/his/her] ability to carry out normal day-to-day activities, either a lot or a little or not at all. In answering this question, you should consider whether [you are/Name is] affected whilst receiving any treatment or medication for [your/his/her] condition or illness and/or using any devices such as a hearing aid, for example.

Does your condition or illness (do any of your conditions or illnesses) reduce your ability to carry out day-to-day activities ...

RUNNING PROMPT:

(1) Yes, a lot,
(2) Yes, a little,
(3) Not at all?

(Helpscreen instructions)

Guidance can be provided about what is meant by normal day to day activities. These are washing and dressing, household cleaning, cooking, shopping for essentials, using public or private transport, walking a defined distance, climbing stairs, remembering to pay bills, and lifting objects from the ground or a work surface in the kitchen, moderate manual tasks such as gardening, gripping objects such as cutlery and hearing and speaking in a noisy room.

Guidance on interpreting extent categories are in the context of how much assistance a person needs to carry-out daily activities and whether they are house bound; Yes, a lot, for example, would be appropriate for someone usually needing some level of support of family members, friends or personal social services for most normal daily activities.

The respondents should answer on the basis of their current extent of activity restriction, taking account of any treatment, medication or other devices such as a hearing aid they may receive or use.

ASK IF: ILLLim2 = Yes, a lot OR ILLLim2=Yes, a little

ILLLen (new question in Year 5 2012/13) Disability.sav

Ownership Type (QLease)

**ASK IF:** (Dvtenset = OwnOcc) OR (Dvtenset = Shared)

**Lease**

May I just check, do you (and your partner) own this house/flat freehold, commonhold, or leasehold?

Interviewer: Commonhold is a relatively new type of freehold
It combines freehold ownership of a unit in an accommodation block with membership of a commonhold association.
The association owns and is responsible for the management and upkeep of the common parts of the development.

1. Freehold
2. Commonhold
3. Leasehold

**ASK IF:** ((Dvtenset = OwnOcc) OR (Dvtenset = Shared)) AND (Lease = Comm)

**CommH**

You say that you own this house/flat commonhold. May I just check whether the property was built and sold as commonhold or was legally converted from leasehold to commonhold and registered accordingly?

1. Built as commonhold
2. Legally converted from leasehold to commonhold

**ASK IF:** (Dvtenset = OwnOcc) OR (Dvtenset = Shared)
**AND:** (Lease = Free) AND (Accom = Flat)

What type of mortgage/loan is your main mortgage?

(1)  An ENDOWMENT mortgage (where your mortgage payments cover the interest only)
(2)  A REPAYMENT mortgage (where your mortgage payments cover interest and part of the original loan)
(3)  Both an endowment (or any interest only) mortgage and a repayment mortgage
(4)  Any other type of interest only mortgage with one or more linked investments (eg a pension, ISA, Unit Trust or Investment Trust scheme, or a combination of these)
(5)  An interest only mortgage with NO linked investment
(6)  Another type (not listed above)

(Helpscreen instructions)

Endowment Mortgage
An endowment policy is taken out with an insurance company either before or at the same time as the mortgage. The endowment policy is designed to end and at the same time as the mortgage. Endowments are often sold by the lender or adviser, who arranges the mortgage, they can also be arranged independently. Money paid into the endowment policy is invested in stocks and shares and other investments. Like all stock investments, endowment policies do involve risk and their value can fall and rise. At the end of a set number of years (the policy 'term'), the policy 'matures' and they get a lump sum, which is used to repay the mortgage loan.

The original mortgage amount remains outstanding until the policy matures. In the meantime interest is paid on the total amount borrowed and premiums are paid on the endowment policy.

Endowment mortgages were once very popular, but have fallen out of favour in recent years. This is because many of the circumstances that used to make them attractive have disappeared, such as tax relief on premiums and mortgage interest, high inflation and high interest rates.

Repayment Mortgage
In this case the money borrowed for the purchase of the house is repaid over a period of years; interest is also paid on the amount outstanding at the time. Monthly repayments are paid to the lender over an agreed number of years (called the mortgage 'term'). Most people choose a term of 20 to 25 years for their first mortgage, but they can be for shorter or longer periods. The payments cover the interest on the loan and also gradually pay off the amount borrowed (sometimes called the 'capital' or the 'principal'). People with repayment mortgages (and pension, PEP, ISA or Unit Trust mortgages - see below) usually take out a mortgage protection policy with an insurance company so that in the event of death there is available a sum of money to pay off the outstanding mortgage. This arrangement should not be confused with the endowment policy of an endowment mortgage.
With a repayment mortgage, by repaying the original loan we mean the original capital sum borrowed.

**Pension Mortgage**
Interest only is paid to the lender and monthly contributions are paid to a personal pension plan which is designed to repay the mortgage on retirement. In addition, it is necessary to arrange a separate protection policy designed to repay the mortgage if the borrower should die before the end of the mortgage term. A pension mortgage can include a stakeholder pension.

**PEP, ISA and Unit Trust Mortgages**
With a PEP Mortgage the borrower pays interest only to the lender and pays monthly contributions into a Personal Equity Plan, which is designed to pay off the loan. The PEP will usually invest in unit trusts and a mortgage protection policy must be arranged. *(PEPs have now been reclassified as ISAs)*

With a unit trust mortgage the borrower pays interest only to the lender and also makes monthly investments in a unit trust savings plan. As stock market prices rise, the lender may allow the borrower to pay off part of the loan. With this arrangement, a protection policy is also necessary.

With an ISA Mortgage the borrower pays interest only to the lender and pays monthly contributions into an Individual Savings Account, which is designed to pay off the loan.

**Both an interest only and repayment mortgage**
This code applies if the mortgage is a single arrangement which has both an interest-only element and an interest-and-capital element, combined into one regular payment made to the lender. If there are two separate mortgages of different types secured on the property, and separate payments are made to the lender(s), only the main mortgage should be coded at this question. Separate, second mortgages not for the purchase of the property (or any separate mortgage for purchase) should not be entered here.

**An INTEREST ONLY mortgage with more than one related investment (for example, pension and unit trust, endowment and ISA)**
Some borrowers have more than one investment scheme set up to repay the amount borrowed on an interest only mortgage, for example, an endowment and an ISA. This code enables the questionnaire to uniquely identify this type of mortgage arrangement and subsequent questions collect information on all of the investment schemes linked with the interest only mortgage.

**An INTEREST ONLY mortgage with NO linked investment (For example, NO endowment, pension, PEP or ISA)**
This type of borrower has decided not to take out any type of investment or savings scheme to repay the mortgage at the end of the mortgage term.

The unique characteristic of an interest only mortgage is that payments to the lender only cover the interest on the loan. The payments do not re-pay any of the amounts borrowed. The mortgage still usually has a fixed term and the borrower is expected to repay the amount borrowed in one go.

With Interest only mortgages the borrower usually arranges an investment such as an endowment, ISA or PEP to save the money needed to repay the mortgage debt. However, some borrowers do not set up an investment or savings scheme. It is this type of borrower that we would like recorded using this code. These borrowers may have a different strategy in place to repay the mortgage or have decided the later sale of the property will release enough capital to repay the borrowed amount. You may come across other schemes people have thought up to repay their mortgage for example, using proceeds from a maturing life insurance policy or paying off the amount borrowed using the occasional lump sum.

**Another type of mortgage**
Please remember to make a note when using this code. The note should include details of the main features of the mortgage.

On the EHS this question is being asked after the main eight category mortgage question above. This is so the question can act as a check (especially for those with INTEREST ONLY mortgages) to help ensure that the main mortgage question has been correctly coded. For example, the respondent may have described their mortgage as an 'Endowment mortgage' (code 1) at the main mortgage question. At the above question they mention that they are also making payments into an ISA which they intend to use to repay their mortgage when it matures. This means that they have more than one investment or savings scheme related to their mortgage, so at the main mortgage question they should really have been coded as 'an interest only with more than one linked investment' (code 6) rather than an endowment mortgage.

We are only interested in recording saving schemes and investments into which the respondent is CURRENTLY making payments. For example if they have completed contributing to an ISA then this should not be recorded at this question, so use code 5 and please make a note.

If the above question is coded as 'None of the above' - please open a note and record details about how the respondent expects to repay the loan

'Can I just check' will only appear at the beginning of this question when the main mortgage question is coded as 'Interest only with NO linked investments' (code 7) or 'Another type of mortgage' (code 8). The question may not seem relevant for these cases, but we want to ask the question to check that the main mortgage question is coded correctly.

If the respondent has an ENDOWMENT mortgage - please use code 5, you will be asked for information specifically about the ENDOWMENT mortgage at the next question. People with ENDOWMENT mortgages are only routed through this question to ensure that the main mortgage question has been coded correctly.

An all-in-one account is a type of flexible mortgage which allows a person to link together different accounts - for example, a current account, a savings account and a mortgage (as well as any other loans). There are two types of all-in-one account, current account mortgages and offset mortgages.

Is your mortgage an all-in-one account?

Interviewer: Examples include a Virgin-One account, a Woolwich Open Plan or some other all-in-one account.

(1) Yes
(2) No

Flexible mortgages
Flexible mortgages are those which give the borrower the flexibility to make certain changes without asking their lender first, such as varying the amount or timing of payments, or taking breaks in some circumstances. People with such mortgages can make over or underpayments each month or can pay off lump sums without incurring charges. Other common features of flexible mortgages are the ability to withdraw lump sums and to take payment holidays. If people overpay it may allow them to pay off the mortgage early, or to take payment holidays later, for example if they have a baby or take a career break.

It is worth noting that increasingly many “traditional” mortgages have flexible features even though they are not strictly flexible mortgages. For example it may be possible to make lump sum payments without restriction. However for a mortgage to be truly flexible it should really have the facility to make overpayments and to make underpayments.

Flexible mortgages can be repayment, endowment or other investment mortgages.

A subset of flexible mortgages is called all-on-one accounts. There are two types:

- **Current account mortgages**: mortgage combined with a current account and forms one account, e.g.: Virgin One Account
- **Offset mortgages**: the mortgage is run parallel with a current account and savings account between which money can be transferred and the mortgage debt offset against any savings held (offset) (see diagram), there may be several savings “pots” which together form the total savings e.g.: Woolwich Open Plan

Is your all-in-one account, a current account mortgage or an offset mortgage?

INTERVIEWER: With a current account mortgage, the borrower’s mortgage is combined with their current account to form one account for example, the ‘Virgin One Account’. An offset mortgage is run parallel with the current account and savings account between which money can be transferred and the mortgage debt offset against any savings held.
(1) Current Account mortgage
(2) Offset mortgage

(Helscreen instructions)

The main difference between an offset mortgage and current account mortgage is that with a current account mortgage, the borrower's current account and any other accounts are combined with their mortgage account.

The current account mortgage (CAM) combines the borrower's mortgage, current account, savings account, personal loans and credit cards into one account. Their salary is paid into this account, if they don't spend all their income at the end of the month, that amount is taken off what is owed on the mortgage.

For example, if they were paid £2000 after tax each month, then spend £1500 in the month, £500 is left in the account which comes off the mortgage. Since interest is calculated on a daily basis, the interest paid is immediately reduced.

The CAM allows the borrower to make overpayments and underpayments and borrow back money, so can be defined as fully flexible.

Offset is a new type of flexible mortgage. It links the mortgage to the borrower's Current and Savings Accounts.

The borrower can save money on interest repayments, because the interest is calculated on the difference between the combined balance of the Current and Savings Accounts and their mortgage balances. This means that the mortgage term could be reduced and the borrower saves money.

Interest is calculated daily, so every day the borrower's Current and Savings Accounts are in credit, the interest calculated on the mortgage will be reduced and the subsequent repayments.

Can you tell me what type of tenancy you have?  

IF TENANCY TYPE WRITTEN ON CONTRACT/NOTICE ASK RESPONDENT TO READ OUT  

(1) Assured shorthold  
(2) Assured (for tenancies starting between 1989-1997)  
(3) Regulated (tenancy must have started in 1988 or earlier)  
(4) Resident landlord  
(5) Let by educational institution  
(6) Other type of let

**(Helpscreen instructions)**  

**Assured Shorthold**  
The majority (67%) of private renting sector (PRS) tenants will have an Assured Shorthold tenancy. This tenancy grants right of occupancy for a fixed term (usually 6 months or a year). During this period the
tenancy cannot be terminated on 'no fault' grounds. After that period the landlord has the right to terminate the tenancy at just two months notice. The Housing Act 1996 made assured shorthold tenancies the default tenancy for private renting.

**Assured Tenancy**

A small number (12%) of PRS tenants have an Assured tenancy, which gives them lifetime security. The rent is not regulated however and can rise with market rent. Between 1988-1997, the default type of tenancy was this type.

**Regulated Tenancy (1988 and before)**

Before 1988 the standard tenancy type offered in the Private Rental Sector was the Regulated tenancy. This comprised a regulated rent and lifetime security of tenure and succession rights. Rent rises were linked to RPI. 4.3% of the current market are regulated tenancies.

**Resident Landlords**

Residential landlords refers to landlords who let rooms in the house that they themselves live in. In other words they have lodgers.

**Educational Institutions**

An educational institution would include, for example, halls of residence owned by a university. The tenancies offered by Educational institutions (and residential landlords) give the landlord the right to end the tenancy with immediate effect (i.e. immediate eviction).

Is your landlord a member of a local authority accreditation scheme?

Interviewer: Some local authorities have set up an accreditation scheme for private landlords in their area to help raise standards and help tenants locate a reliable landlord. Accreditation schemes are voluntary and can include training, landlord forums, inspections of each property owned by a landlord and checks into the landlord's fitness to let a property. Landlords who join a scheme and abide by the standards set down by the local authority are 'accredited'. Tenants know that if they choose to rent from an accredited landlord, the property will be in good condition and the tenancy will be managed to a high standard.

Note the question relates to LA run schemes only - answer No if landlord belongs to a professional organisation such as the National Landlords Association but not to a LA run scheme.

CARD N3

Can you tell me what type of tenancy you have?

INTERVIEWER: IF TENANCY TYPE WRITTEN ON CONTRACT/NOTICE ASK RESPONDENT TO READ OUT

Local Authority
1. Secure tenancy
2. Flexible tenancy (offered from April 2012)
3. Introductory tenancy

Housing Association
4. Assured tenancy
5. Secure tenancy (applies to tenancies taken up between 1985 and 1988)
6. Fixed term tenancy (from April 2011)
7. Starter tenancy
Notes on local authority tenancies

Secure Tenancy
The secure tenancy guarantees the tenant ‘lifetime’ occupancy, subject to payment of rent and reasonable behaviour. This was the standard type until April 2012. Tenants who have been in a secure tenancy for 5 years or more have a right to buy their home at a discounted rate, under current rules.

‘Flexible’ tenancy
This is a new type of tenancy introduced in April 2012, which local authority landlords may choose to offer instead of a secure tenancy. It has a fixed term, usually 5 years or more.

‘Introductory’ tenancy
This tenancy has a term of 12-18 months and is used to assess tenants before a longer term Secure or Flexible tenancy is offered. I.e. this response option will apply to people who have started their tenancy within the last 18 months. Introductory tenancies have been offered since the mid 1990s.

Notes on Housing Association tenancies

Assured tenancy
The assured tenancy grants the tenant a ‘lifetime’ occupancy like the secure tenancy for local authority tenants. Tenants who moved from LA to HA landlords as part of the Large Scale Voluntary transfers in the 1990s will have moved from a secure to an assured tenancy, but possibly with some reserved rights such as the reserved right to buy.

Secure Tenancy (tenancies taken up 1985-1988 and not moved since)
Housing association tenants who were granted their tenancies between 1985 and commencement of the assured tenancy regime under the Housing Act 1988 are likely to have secure rather than assured tenancies.

Assured Shorthold tenancy
This is the standard tenancy in the private rental sector but is also offered by housing associations, particularly to market rent tenants and to tenants requiring more care and support. It usually has a 2 months notice period after a short initial fixed term. Fixed terms commonly last one year.

Fixed term Tenancy (Assured Shorthold)
This is a fairly new type of tenancy offered since April 2011, usually with a term of 5 years or more. It is equivalent to the LA ‘flexible’ tenancy. This will be the form of tenancy most often used with ‘Affordable Rents’, as the Landlord will have the option to rebase the affordable rent at regular intervals (ie. Reset the rent relative to current market rents).
Starter tenancy (Assured Shorthold)
Starter tenancies are similar to introductory tenancies offered to LA tenants. They normally have a term of 12-18 months and are used to assess tenants before a longer term Secure or Flexible tenancy is offered. Starter tenancies have been offered since the mid 1990s.

Other tenancies
The above tenancy types will capture the vast majority of tenancies held by local authority and housing association tenants. A few may hold demoted tenancies however. The demoted tenancy, introduced by the Anti-Social Behaviour Act 2003, enables Local authorities and housing trusts to deal more effectively with anti-social behaviour. It instigates a two-stage regime entitling such landlords to apply to demote an otherwise secure tenancy; and then, during this demoted period, the landlord may seek possession of the property as of right (provided it follows the statutory procedure.)

Help<F9>

Did you do any paid work in the 7 days ending Sunday the [date], either as an employee or as self-employed?

(1) Yes
(2) No

(Helpscreen instructions)

You should take the respondent's definition of whether they are in paid work or not, but it must be paid work.

'Paid work' at this question means ANY work for pay or profit done in the reference week. It is to include any paid work, however little time is spent on it, so long as it is paid. For example, it includes Saturday jobs and casual work (e.g. baby-sitting, running a mail order club, etc.). Some respondents may not regard baby-sitting, etc. to be 'serious' work. Probe those to whom you feel this may apply (e.g. housewives with dependent children). Even the youngest respondents who have not yet left school may have a Saturday job, e.g. a paper round. It is correct for them to be recorded as doing paid work.

Self-employed people are considered to be working if they work in their own business, professional practice, or farm for the purpose of earning a profit even if the enterprise is failing to make a profit or is just being set up.

Training for nurses is now carried out under the Project 2000 scheme and as such, nurses on this scheme should be classed as students, like any student nurses you may encounter with more traditional arrangements.

Someone who regards themselves as retired, but sits as a director on board meetings (however few) and is paid for this work, should be classified as in paid work. We do NOT expect the interviewers to probe routinely for this.

Help<F9>

Even though you were not doing paid work, did you have a job or business that you were away from in the week ending Sunday the [date] (and that you expect to return to)?

(1) Yes
(2) No
(3) Waiting to take up a new job/business already obtained

(Helpscreen instructions)

This is asked in order to deal with any uncertainty that may exist in the minds of people who were away from PAID work during the reference week (e.g. on holiday, sick leave, career break, laid off, etc.)

If the respondent has been absent from their job for a long period (e.g. career break, long term sick etc), only code 'Yes' if there is definitely a job for them to return to.
In cases where the respondent is unsure whether they actually had a job the following points may be helpful:

**For employees:** a job exists if there is a definite arrangement between an employer and an employee for work on a regular basis (i.e. every week or every month) whether the work is full time or part time. The number of hours worked each week may vary considerably but as long as some work is done on a regular basis a job can be said to exist.

**Long term absence from work:** If the total absence from work (from the last day of work to the reference week) has exceeded six months then a person has a job only if full or partial pay has been received by the worker during the absence and that they expect to return to work for the same employer (i.e. a job is available for them).

**Career Break:** In some organisations employees are able to take a career break for a specified period and are guaranteed employment at the end of that period. If a respondent is currently on a career break they should be coded 'Yes' here only if there is an arrangement, between the employer and employee, that there will be employment for them at the end of the break. This is not dependent upon them receiving payment from their employer during this time. The respondent's opinion of whether they have a job to go back to should be taken.

**Seasonal workers:** In some industries (e.g. agriculture, forestry, fishing, types of construction, etc.) there is a substantial difference in the level of employment from one season to the next. Between 'seasons' respondents in such industries should be coded No at this question. (However, note that the odd week of sick leave during the working season would be treated like any other worker's occasional absence and coded 'Yes' here).

**Casual workers:** If a respondent works casually for an employer but has not worked for them during the reference week, they should be coded No, even if they expect to do further work for the employer in the future.

How many people worked for your employer at the place where you worked?

WERE THERE...
1) 1-24
2) 25-499,
3) or 500 or more employees?

(Helpscreen instructions)

We are interested in the size of the "local unit of the establishment" at which the respondent works but we only want the number of employees working for the same employer as the respondent. Thus at sites shared by several organisations we would not include all employees just those working for the respondent’s employer. The" local unit" is considered to be the geographical location where there job is mainly carried out. Normally this will consist of a single building, part of a building, or at the largest a self-contained group of buildings.

It is the total number of employees at the respondent's workplace that we are interested in, not just the number employed within the particular section or department in which he/she works.

If a respondent works from a central depot or office (e.g. a service engineer) base, the answer is the number of people who work at or from the central location. Note that many people who work "from home" have a base office or depot that they communicate with. It may even be true of some people who work "at home" (e.g. telecommuter who retains a desk or some minimal presence in an office). If in doubt, accept the respondent's view of whether or not there is a wider establishment outside the home that they belong to for work purposes.

For self-employed people who are subcontracted for any significant (respondent's definition) length of time to work in a particular place (e.g. building site), that is their place of work

The following questions are about income of other members of your household

(1) Press <1> to continue
**GrossTel**

Earlier in the interview [YOU / NAME] mentioned the following source(s) of income: [SOURCES OF INCOME LISTED HERE]

Thinking of these, what is [YOUR / NAME’s] total personal income before deductions for income tax, National Insurance etc, (that can be weekly, monthly or an annual amount)?

Prompt only if necessary. An estimate is acceptable.

0..99999997

**Question wording revised in Year 4 to remind respondent what sources of income they provided at question SrcInc08. Also, up until Year 4 – GrossTel was calculated for all working adults. From Year 4 onwards, only other household members are routed to this question. HRP / HRP’s partner are not routed to this question.**

Introduce the surveyor visit and record whether or not the respondent is willing to agree to a visit...

Thank you for completing the first stage of the survey. You have been randomly selected to go on to the final stage of the survey. This involves arranging for a professional surveyor to carry out a visual assessment of the property.

It is very important to collect both the householder's views and the surveyor's assessment of all properties that have been selected. This leaflet provides more information about why we are conducting this important study.

The surveyor's information is essential in enabling the government to assess the energy efficiency and state of repair of properties across the country.

The surveyors are employed by a company of Chartered Surveyors called Miller Mitchell Burley Lane Ltd (MMBL), who have been contracted by the Government to carry out these inspections. They will have a security pass showing the MMBL and EHS logos. They are bound by the same pledge of confidentiality as we are at ONS.

The surveyor will look at the structure and state of repair of the building.

It will normally take around 30 minutes inside and 30 minutes outside but the surveyor will not need to take up any of your time. The inspection is non-intrusive, visual only (the surveyor would like to look in the loft but will not lift furniture or carpets).

The surveyors are instructed to tell you if they discover anything that poses a danger to life or limb, but are not allowed to give any other feedback for professional indemnity reasons (they cannot give you a valuation).

It doesn't matter what type of home you have - it is important that we have a cross section of all types of homes whatever their age, size or state of repair.

You do not need to consult your freeholder or landlord, unless you want to.

Record landline telephone number.

Must be STD code and number - avoid using spaces or dashes

: STRING[15]

** In year 4 LandNo was derived from an interviewer first entering the standard area code (STDC1) and then the remaining digits of the telephone number (NUMENT1). A validation check was then carried out in the CAPI to confirm a valid standard area code had been entered, and the whole telephone number was of a correct length. These two parts (STDC1 and NUMENT1) were then concatenated in the CAPI to produce LANDNO.
** MobNo

Record mobile telephone number.

Interviewer: Please note: You MUST transmit appointments to CADS Housing Surveys on the same day as they are made, or by 9am the following day.

In order to successfully transmit appointments to HQ, you MUST generate an outcome code in the admin block and then select Receive and Transmit in CMS.

At the variable field 'AxCalcHOut' Press<1> for final outcome code calculation. The outcome code will then appear greyed out in the HOut box with the code 110, 120 or 130 entered. Failure to do this in time and correctly can result in CADS Housing Surveys missing booked appointments.
