Note to provide a summary/overview of the amendment and to explain/ensure that the reader understands: the rationale for the amendment; the major changes; and, importantly, the full context (including desired outcome) of the amendment.

The input here should be your 'one minute' to explain what, why and how.

Fifteen Regulatory Articles (RA) from the Continuing Airworthiness Engineering (CAE) 4000 Series are being withdrawn due to the content being addressed in other Defence publications.
