

## **BPS 2015 payments for commons – calculation data**

For more information about how grazing rights on common land are calculated, read the 'Commons' section in the ['How BPS 2015 payments are calculated'](#).

To find out how to convert grazing rights into livestock units (LU) read page 16 of [The Basic Payment Scheme in England 2015](#).

This data was taken from the Rural Payments service in September 2016, so there may be some small differences with the data used to process the 2015 claims.

### **Key:**

In both of these cases no data is shown in the 'Total LU' and 'Ha per LU' columns:

\*Less than 0.1 LU of grazing rights were allocated for the entire common.

\*\*Less than 0.1 ha of eligible area was allocated per LU.

This is normally because rights are split across more than one common, or the eligible area of the common is extremely small.

Use the A to Z below to quickly jump to a section in the table.
