

Categorisation of Waters

Notice to all Owners, Operators and Masters

This Notice supersedes Merchant Shipping Notices MSN 1776(M) and MSN 1827(M).

Summary

This statutory Merchant Shipping Notice sets out the categorisations of waters in the United Kingdom

Key Points

- The notice replaces and augments *MSN 1776(M)* and *MSN 1827(M)* with new amendments
- The categorisations determine the waters not regarded as “sea” for the purposes of Merchant Shipping legislation (excepting marine pollution).

1. Annex Definition

1.1 The Annex to this Merchant Shipping Notice sets out the categorisations that apply to waters in the United Kingdom. These categorisations are given statutory force by way of Regulation 2 of the Merchant Shipping (Categorisation of Waters) Regulations 1992.

2. Amendments

2.1 **EAST OF ENGLAND – COASTAL** Bridlington is considered Category C within the breakwater.

2.2 **EAST OF ENGLAND – COASTAL** Walton Backwaters is considered Category C within a line from the northerly point of Walton Hall Marshes to Stone Point and thence to Windpump on Horsey Island, and from within a line from the landing east of Bramble Creek to the northern edge of Horsey Island. It is considered Category D, in the summer only, west of a line from Pillbox northeast of Irlam’s Beach to Stone Point.

2.3 **WEST OF ENGLAND AND WALES – COASTAL** Preston and Southport is considered Category C within a line from the white tower at Lytham to silos at Southport and within Preston docks, and Category D within a line from Lytham St Anne’s pier to Southport pier.

3. Definitions of the four types of categorised waters

3.1 Category A: Narrow Rivers and canals where the depth of water is generally less than

1.5 metres.

- 3.2 Category B: Wider rivers and canals where the depth of water is generally 1.5 metres or more and where the significant wave height could not be expected to exceed 0.6 metres at any time.
- 3.3 Category C: Tidal rivers and estuaries and large, deep lakes and lochs where the significant wave height could not be expected to exceed 1.2 metres at any time.
- 3.4 Category D: Tidal rivers and estuaries where the significant wave height could not be expected to exceed 2.0 metres at any time.

4. Application

- 4.1 These categorisations apply specifically to the operation of Class IV, V and VI Passenger Ships and also determine which waters are not regarded as “sea” for the purposes of regulations made, or treated as made, under Section 85 of the Merchant Shipping Act.
- 4.2 Under the Merchant Shipping (Prevention of Oil Pollution) Regulations 1996 it should be noted that “sea” includes any estuaries or arms of the sea.
- 4.3 These categorisations should not be confused with classifications for Passenger Ships as designated in the Merchant Shipping (Passenger Ships on Domestic Voyages) Regulations 2000 which implement the EC Directive on Safety Rules and Standards for Domestic Passenger Ships.
- 4.4 The categorisations shown in the Annex apply at all times of the year unless otherwise indicated. “Summer” means the months of April to October, inclusive, and “winter” means the months of November to March, inclusive.
