

Instructions for Use

Tyre Pressure Record Card - MOD F705TP(Hercules)

1. Following the Before Flight Servicing (B/F), the Time, Date and Month of the relevant B/F should be entered in the TDM column of the MOD F705TP(Hercules).
2. The tradesperson, who has already signed for the B/F on the MOD F705, should then enter the MOD F705 sheet and line number against which they have signed, in the MOD F705 Entry column of the MOD F705TP(Hercules).
3. Finally, the Tyre Pressure values should be recorded in the Tyre Pressures (Psi) column of the MOD F705TP(Hercules) and the sheet retained in the MOD F700 until full and then archived.
