3. ITAHC generated by the TRACES relates to Intra-Community trade in animals and products referred to in Annex 1 of the TRACES Guidance Notes for Exporters and Certifying Veterinarians.
4. The signed ITAHC is valid for ten days from the date of the veterinary inspection carried out prior to dispatch.
5. The ITAHC is valid for only one species or one type of product at a time.
6. The completed and signed original of the ITAHC must accompany the consignment to its final destination.
7. The holding or establishment of dispatch must keep a copy of the signed ITAHC for at least three years.
8. An ITAHC can be drawn up only for a single consignment i.e. animals/products which are to be transported in the same railway wagon, truck/lorry, aircraft or boat/ship, which originate from the same holding and which are being sent to the same consignee.

Box I.25. Animals certified as/products certified for:

Indicate the category of the animals or the intended use of animals or products being dispatched by circling the relevant option.

Registered equidae: in accordance with Directive 90/426/EEC. **Note - to return to their Member State of origin or move to another Member State from Great Britain, registered horses will in addition to their passports only need an unexpired Intra Trade Animal Health Certificate (ITAHC) in accordance with the model at Annex B of Council directive 90/426/EEC or a health attestation in accordance with Annex B, which is valid for movement within 10 days of signature by an Official Veterinarian (OV). However, if such an ITAHC(B) or health attestation document has expired whilst the registered horse has been in Great Britain, a new ITAHC(B) must be issued prior to any movement. In such instances a TRACES EXA31 application form should be completed accordingly.**

Non-registered equidae:

Breeding: for animals for breeding and production.

Slaughter: for animals destined for a slaughterhouse.

Approved body: a body, institute or centre officially approved under Directive 92/65/EEC.

Pets: animals (other than livestock, horses or poultry) often kept as pets which are to be the subject of a commercial transaction.

Other: intended for purposes not listed elsewhere in this classification.

Box I.25.a. For registered equidae only

Answer 'yes' or 'no' as to whether the registered equidae were imported into Great Britain during the past ten days from an EU Member State.

If you have answered 'yes' please complete section I.25.b.

If you have answered 'no' please go to section I.26.

Box I.25.b. For registered equidae only

Answer 'yes' or 'no' as to whether the ITAHC or health attestation in accordance with the model at Annex B of Council directive 90/426/EEC is still valid for return travel to your originating or another EU Member State.

If your ITAHC or Annex B was signed less than ten days ago it is still valid and you should circle 'yes'. This means you do not need to continue to apply for a new ITAHC or obtain a new Annex B health attestation and your return journey can be made on your original documentation.

If your ITAHC or Annex B was signed more than ten days ago it is no longer valid and you should circle 'no'. This means you will need to apply for an ITAHC for your return journey. Complete the ITAHC number and date of ITAHC signature, as appropriate, and continue to complete and submit the TRACES EXA31 application.

Box I.26. Transit through a third country:

Give the name of the third country and its exit point, and the border inspection post of entry of the commodity into the European Union.

Box I.27. Transit through Member States:

Give the name of EU/EEA countries transited by the consignment.

Box I.28. Export:

Only concerns consignments destined for unloading in countries outside the EU/EEA. Give the exit point from the EU/EEA.

Box I.29. Estimated journey time:

Only concerns animals, give the estimated time required under Directive 91/628/EEC.

Box I.30. Journey log:

State whether there is a journey log.

Box I.31. Identification of animals/products:

In the case of consignments of more than ten animals use additional schedules. Examples of additional schedules can be found at Appendix A of the TRACES EXA31 (Equidae).

Include the information below when completing this section:

Registered Equidae: passport number.

Non-registered equidae: species (horse, ass, mule, hinny); breed; age; sex; passport number; given name of the equidae.

Box I.32. Name of Equidae

Enter the given name of the equidae.

Box I.33. Nomination of Veterinary Surgeon:

It is important to give the full name, address and postcode of the nominated Veterinary Surgeon (VS) this is where the ITAHC will be sent for completion. The ITAHC will only be sent to the exporter or agent in special circumstances and with agreement from the issuing Animal and Plant Health Agency (APHA) office.

The ITAHC and associated export documentation can now be sent to your nominated VS by encrypted email. This will only be done with prior consent from your VS. Check with your VS if they would like to receive your ITAHC and associated export documentation by this method. The email address will be verified with your nominated VS before any documentation is sent by this method.

For consignments that are required to travel with an accompanying Journey Log, the ITAHC and associated export documentation will not be sent by email to your nominated VS. This is due to the Journey Log requiring an original signature, date and stamp in any colour other than black to legalise the document.

Box I.34. Declaration by the exporter/agent:

Read the declaration statement and then complete the declaration section as follows:

Tick - exporter or agent as appropriate.

Sign application form.

Print name in BLOCK letters.

Insert date.

Insert address, postcode, telephone number, fax number if applicable (if you do not have a fax number enter N/A) and email address (if you do not have an email address enter N/A).

APHA is an Executive Agency of the Department for Environment, Food and Rural Affairs and also works on behalf of the Scottish Government, Welsh Government and Food Standards Agency to safeguard animal and plant health for the benefit of people, the environment and the economy.
