**AUTHORIZED AMENDMENT**

This NAA has been generated following feedback from the Regulated Community that the conduct of parachute landing training in full Aircrew Equipment Assembly (AEA) was increasing Risk to Life (RtL). Henceforth Aviation Duty Holders and Accountable Managers (Military Flying) may conduct a risk based assessment of parachute landing training and remove the requirement for its conduct in full AEA where they consider this to be presenting a greater RtL than that posed by a parachute landing.

**ISSUE STATE CHANGES (if more lines required, contact the MRP Team)**
