

Movement of a CITES Annex A Specimen from the Permitted Address: Accommodation, Care and Conservation Use Questionnaire

Purpose of the Questionnaire

This form should be completed by the intended recipient of a specimen subject to a movement restriction condition on a CITES import permit, commercial use (Article 10) certificate or a previously issued movement certificate. The information given will inform the decision on whether the specimen can be moved from its current address to the intended new address.

You are not required to provide information that you have already submitted to us. If you have already supplied relevant information as part of a previous application, you need only to give as much detail as is necessary for it to be found in our records.

Specimen Details

Species:

Identifying mark if any
(ring, microchip, etc.)

Current Import permit or
Article 10 certificate number:

Part 1: Accommodation and Care

Article 9.2 of CITES Regulation (EC) 338/97 requires the UK CITES authorities to be satisfied that the intended accommodation for such a live specimen at the place of destination is adequately equipped to conserve and care for it properly.

1. Please provide the name, address and telephone number of the premises where the specimen will be kept:

2. Please provide details of the accommodation specifically set aside for the specimen. This should include the size of enclosures, the number of animals and species per enclosure, climatic, feeding, watering and bedding arrangement and, where appropriate, details of open space and environmental stimuli/enrichment.

3. State what arrangements will be made for veterinarian attendance during the period the animal will be kept at the premises. Give the name, address and telephone number of the veterinarian who will attend the animal.

4. Are the premises officially approved under Defra quarantine arrangements? Yes No
5. Are the premises licensed under the Zoo Licensing Act 1981? Yes No
6. Are the premises licensed under the Pet Animals Act 1951? Yes No
7. Please provide any other relevant information:

Part 2: Intended Use of the Specimen

Conditions attached to a CITES import permit or Article 10 certificate restricting the use of the specimen concerned apply to that specimen regardless of whether it remains in the possession of the person to whom the permit or certificate was issued. Any subsequent keeper is therefore required to demonstrate that he will continue to keep the specimen for the purposes outlined in that permit or certificate.

Breeding - If the specimen is intended to be used in a breeding programme, please provide details of the other specimens involved in the programme (ring number, microchip number, species, sex, Article 10 cert number). Please also provide an explanation of how you think your breeding programme will be of conservation benefit to the species (please note that the commercial production of hybrids using wild specimens is not considered to be of conservation benefit).

Education - Please provide details of the type of educational display this specimen is intended to be used for. Also, please provide an outline of the sort of information you may give during displays (particularly with regard to conservation of the species) and explain what you hope to achieve through your education programme. If you have hand outs or information sheets please provide copies of these. Please provide details of your target audience. For example school parties, general public, police.

Research - If the specimen is intended to be used for research. Please provide an outline of the research you are doing. Giving details of the type of information you are trying to gather and what you intend to do with your findings. If the intention is to eventually publish the research can you please provide details.

Name of intended recipient

Signature

Date

Address
(if different from no.1 above)

FAIR PROCESSING NOTICE

Defra, the Scottish Government, the Welsh Government and the Food Standards Agency are Data Controllers in Common in respect of personal data processed by the Animal and Plant Health Agency (APHA). For the purposes and usage of the data by APHA and the data sharing arrangements, please see the Personal Information Charter on GOV.UK. A hard copy of this can be provided if required; please contact your local APHA Field Service office. APHA will not permit any unwarranted breach of confidentiality or act in contravention of their obligations under the Data Protection Act 1998. APHA is an Executive Agency of the Department for Environment, Food and Rural Affairs and also works on behalf of the Scottish Government, Welsh Government and Food Standards Agency.

APHA is an Executive Agency of the Department for Environment, Food and Rural Affairs and also works on behalf of the Scottish Government, Welsh Government and Food Standards Agency to safeguard animal and plant health for the benefit of people, the environment and the economy.
