

How to calculate the trust's or estate's tax

Use this guide to work out the trust's or estate's tax and to check any calculation we send to you.

If you ask us to calculate the trust's or estate's tax, the completed paper Trust and Estate Tax Return **must** reach us by **31 October 2017**.

If you complete a paper Trust and Estate Tax Return you must make sure that this reaches us by **31 October 2017**. If your paper Trust and Estate Tax Return reaches us after this date, we'll charge you an automatic penalty of £100.

If we receive the paper [Trust and Estate Tax Return](#) after 31 October 2017 and you haven't worked out the tax, we'll do it for you but we can't guarantee to tell you what to pay by 31 January 2018.

So if you don't know what tax to pay, make an estimate and pay that by 31 January 2018. Remember, if you don't pay enough, you'll have to pay interest and possibly a late payment penalty.

You can file online even if we've sent you a paper Trust and Estate Tax Return. If you file online, you have until 31 January 2018 to file your tax return. You can use our Self Assessment Online service to file the tax return over the internet using third party commercial software. If you file online, your calculations are done for you and you'll receive an instant on-screen acknowledgement that we've received your tax return. Go to www.gov.uk/how-to-send-self-assessment-online for information about filing online.

If we receive your online tax return after 31 January 2018 then you'll be charged an automatic penalty of £100.

Whichever method you use to file your Trust and Estate Tax Return, by 31 January 2018 you must:

- pay the balance of any tax the trust or estate owes for 2016–17
- pay the first payment on account for the 2017–18 tax year, if appropriate

You must pay what you owe by this date to avoid interest and possibly a late payment penalty.

If you need help, then please ask us.

Layout of the calculation

Here is a summary of the stages you'll see in the Working Sheet:

- STAGE 1** is for all the income and deductions that you've included in your Trust and Estate Tax Return and sorts them into categories which will be taxed later on. All trustees and personal representatives should complete stage 1.
- STAGE 2** is for personal representatives only.
- STAGE 3** is for trustees who are taxable at the trust rate or the dividend trust rate. Certain types of income and deemed income are chargeable at the trust rate or the dividend trust rate whether or not the trustees are normally taxable at the basic or dividend ordinary rate. These types of income include accrued income charges, income from deeply discounted securities, gilt strips, offshore income gains, income from companies purchasing their own shares and gains on life insurance policies, life annuities and capital redemption policies. If, apart from these types of income, you're taxable at the basic or dividend ordinary rate only, you should complete stage 5. If you're the trustee of an unauthorised unit trust, which is generally taxable at the basic rate only, you should complete stage 4. These stages will charge the income listed above at the correct rates. Stage 3 is to be completed by the trustees who are chargeable at the trust rate or dividend trust rate, on any income other than that listed above.
- STAGE 4** is for trustees of an unauthorised unit trust.
- STAGE 5** is for other trustees not taxable at the trust rate or the dividend trust rate.
- STAGE 6** brings in all the tax you've already deducted from income (so you'll need the Trust and Estate Tax Return and any supplementary pages again) and works out any non-payable tax credits.
- STAGE 7** makes adjustments to the tax calculated in earlier sections and adds in Capital Gains Tax. The final box of stage 7, box T7.32 gives the figure for box 17.1 in the Trust and Estate Tax Return.
- STAGE 8** works out what you have to pay us by 31 January 2018, or what we have to pay you, and checks if you'll have to make 2017–18 payments on account.
- STAGE 9** is for trustees who make discretionary payments to beneficiaries.

STAGE 1 All trustees and personal representatives should complete this stage, filling in the boxes with information from the Trust and Estate Tax Return and the supplementary pages

Total income

	Non-savings and savings income	Dividend, securities and redeemable shares income	Gains on life policies (with tax treated as paid)
Trades, professions, or vocations	(total all instances boxes 1.92) + 1L.91 T1.1 £		
Partnership	total all instances box 2.22 T1.2 £		
UK property	(total all instances boxes 3.15) + 3.42 T1.3 £		
Foreign income	total boxes 4.1 + 4.4 + 4.5 + 4.6 T1.4 £	from box 4.2 T1.5 £	from box 4.8 T1.6 £
Other income	total boxes 9.1 + 9.4 + 9.5 + 9.6 + 9.9 + 9.19 + 9.24 T1.7 £	total boxes 9.10 + 9.11 + 9.12 + 9.13 + 9.26 T1.8 £	from box 9.16 T1.9 £

This box can be negative

STAGE 8 All trustees and personal representatives complete this section

Box T8.2 Enter in box T8.2 the amount of any repayment of 2016–17 tax in box 21.6 in the Trust and Estate Tax Return. Don't include any repayments from trading losses carried back to an earlier year.

Box T8.3 An adjustment may be required to increase the tax for 2016–17 because you claim:

- farmers' averaging
- averaging of literary or artistic income
- to pay tax on post-cessation receipts by reference to the year the business ceased

Calculate the difference between the actual liability for the earlier year, and the liability that would have arisen for the earlier year if the averaged profit or post-cessation receipt had been included in the Trust and Estate Tax Return for that year. Work out the increase in tax by reference to the tax rate and circumstances for the earlier year. Include any entry in box 1L.79 of the 'Trust and Estate Lloyd's Underwriters' pages. Enter the amount in box T8.3. Copy this figure to box 17.2 in the Trust and Estate Tax Return.

The adjustment relates to 2016–17, even though it's calculated by reference to the circumstances of the earlier year. If you need help, ask us or your tax adviser.

Box T8.5 An adjustment may be required to decrease the tax for 2016–17, calculated by reference to an earlier year, because you're claiming:

- loss relief calculated by reference to your income of an earlier year or years
- farmers' averaging

Don't include losses for which you have previously claimed relief. Calculate the difference between the actual liability for the earlier year, and the liability that would have arisen for the earlier year if the loss or averaged profits had been included in the Trust and Estate Tax Return for that year. Work out the decrease in tax by reference to the tax rate and circumstances for the earlier year. Enter it in box T8.5. Copy this figure to box 17.4 and tick box 17.3 in the Trust and Estate Tax Return.

The adjustment relates to 2016–17 even though it's calculated by reference to the circumstances of the earlier year. If you need help, ask us or your tax adviser.

STAGE 8 Working out payments due by 31 January 2018

This box can be negative

STAGE 9 Calculation of tax pool for 2016–17. This section should be completed by trustees who make discretionary payments to beneficiaries (see question 14 on the Trust and Estate Tax Return)

When you make discretionary payments that are income in the hands of the beneficiaries, those payments carry a tax credit. The tax credits have to be matched as far as possible with the tax payable by you on the trust income or tax credits attached to the income you've received. If the tax credits attaching to the payments to beneficiaries exceed the total of tax credits and tax payments (the tax pool), you have to pay the difference to us.

Foreign Tax Credit Relief, non-payable tax credits on dividends and notional tax on life policy gains aren't available for repayment and can't be used to frank tax credits allowed to beneficiaries.

The calculation excludes from the tax pool the proportion of such foreign tax and notional tax credits which relates to income which is to be accumulated, or is payable, at the trustees' discretion. Any excess of the tax credits attaching to payments to beneficiaries over your available tax credits and tax payments (the tax pool) is carried **back** to stage 7 and added to the tax bill for 2016–17. Any excess in the tax pool is carried forward to the tax pool for the tax year 2017–18. Tax paid in a year when the trustees are non-resident doesn't enter the tax pool.

If any box on this page is negative, substitute zero ('0')

Amount of tax pool brought forward
