Dear ██████████

Request under the Freedom of Information Act 2000 (the “FOI Act”)

I refer to your letter of **27 February 2017** (received by NHS Improvement on 2 March 2017) in which you request information on behalf of Mr Chi Onwurah’s constituent. We are treating this as a request under the FOI Act from NHS Improvement. Since 1 April 2016, Monitor and the NHS Trust Development Authority are operating as an integrated organisation known as NHS Improvement. For the purposes of this response, NHS Improvement means Monitor and the TDA.

The request

The request is set out in full in the Annex to this letter. Please note that, for ease of reference, the numbering of the questions in the request has been corrected.

Decision

NHS Improvement holds the information that has been requested.

NHS Improvement has decided to withhold the information requested in questions 2 to 7, 9 to 17, 18 (ii) and (v), 23 and 25 (in part) on the basis of the applicability of the exemptions in sections 21, 40 and 41 of the FOI Act, as explained in detail below.

Where we are able to disclose information to you, we have set out the answers to your questions below, using the adjusted numbering per the Annex.

Questions 1

Paul Reeves’ full job title is Professional Nurse Adviser.

Question 8

Andrew McCallum's full job title is Strategic Nurse Adviser.

Question 17

The information requested is exempt under section 21 of the FOI Act, on the basis that it is publically available information and is therefore accessible to the applicant by other means.

However, notwithstanding this and further to our duty under section 16 of the FOI Act to advise and assist, please find links below to copies of the TDA's annual reports and accounts (ARA) for the years 2014/2015 and 2015/2016, which contain the information requested.

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/542090/NTDA_annualreport2016_WEB.pdf

Question 18(i), (iii) and (iv)

Peter Blythin held the role of Director of Nursing at the TDA, reporting to the Chief Executive Officer. The salary range applicable to Mr Blythin was reported in the TDA's publicly available ARA: see our response to question 17.

Question 19

Peter Blythin held membership of the following meetings and committees:

Meeting/Committee	Frequency
TDA Board	Bi-monthly
TDA Executive Director Group	Weekly
TDA Investment Committee	Monthly with ad hoc additions
DH Mental Health Taskforce	Task and finish group involving a series of meetings over a short period
Virginia Mason Institute transformation Guiding Board	Monthly with additional ad hoc meetings
Strategic Workforce Forum	Bi-monthly
Representative of the TDA on the DH workforce committee	Met infrequently
Internal meetings relating to the Executive Team or directorate specific business	As required
Single purpose meetings	One-off meetings external to the TDA at which

	Peter Blythin represented the interests of the TDA
Professional Forum with National Nurse Leaders	As required

Question 20

Peter Blythin was professionally accountable to the Nursing and Midwifery Council (NMC).

Question 21

As notification to the NMC had already been made by, we understand, the nurse referenced in this question, and the decision of the Employment Tribunal in question remained (and remains) the subject of an appeal, the CEO of the TDA considered that additional notification was not required.

Question 22

Yes.

Question 24

NHS Improvement does not have an 'Executive Board'. It does have a board comprised of executive and non executive directors, and we presume that this question intended to refer to this board. However, no issues listed under sub paragraphs (i) to (iv) have ever been considered board level business and accordingly there has been no discussion at all of them at that level.

Approvals for relevant expenditure were dealt with by senior management.

Question 25

Ruth May holds an Honorary Doctorate and an Honorary Doctorate of Science.

The other information requested is being withheld under section 40 of the FOI Act, as explained below.

Question 26

The Chief Executive, Jim Mackey, is on secondment to NHS Improvement. The term of the secondment is due to end in the Autumn of this year.

Section 40 – personal information

Some of the information requested is being withheld from disclosure under section 40(2) of the FOI Act on the grounds that it is personal data and that the first condition of section 40(3)(a) is satisfied, namely, that disclosure would amount to a breach of the data protection principles (personal data should be processed fairly and lawfully).

This is because some of the information is personal data of employees of NHS Improvement and third parties, who would have a reasonable expectation that their personal information

would be withheld. This is an absolute exemption and consideration of the public interest in disclosure is not required.

Section 41 – information provided in confidence

Some of the information requested has been withheld under section 41 of the FOI Act on the basis that it was information obtained by NHS Improvement from third parties, disclosure of which would give rise to an actionable breach of confidence.

We consider that the aforementioned third parties would have a reasonable expectation that any confidential information would remain private. This information was not trivial, not readily available by other means and provided in confidence, which created an obligation of confidence.

Section 41 is an absolute exemption and does not require the application of the public interest test under section 2(2) of the FOI Act. However, in considering whether a confidence should be upheld, a court will have regard to whether the public interest lies in favour of disclosure. Whilst NHS Improvement recognises the public interest in transparency and accountability regarding the expenditure of public money, there is also a strong public interest in maintaining the duty of confidence. NHS Improvement does not consider there is a strong interest in disregarding the duty of confidence owed to third parties.

Review rights

If you consider that the request for information has not been properly handled or if you are otherwise dissatisfied with the outcome of your request, you can try to resolve this informally with the person who dealt with your request. If you remain dissatisfied, you may seek an internal review within NHS Improvement of the issue or the decision. A senior member of NHS Improvement's staff, who has not previously been involved with your request, will undertake that review.

If you are dissatisfied with the outcome of any internal review, you may complain to the Information Commissioner for a decision on whether your request for information has been dealt with in accordance with the FOI Act.

A request for an internal review should be submitted in writing to FOI Request Reviews, NHS Improvement, Wellington House, 133-155 Waterloo Road, London SE1 8UG or by email to nhsi.foi@nhs.net.

Publication

Please note that this letter and the attached information will shortly be published on our website. This is because information disclosed in accordance with the FOI Act is disclosed to the public at large. We will, of course, remove your personal information (e.g. your name and

contact details) from the version of the letter published on our website to protect your personal information from general disclosure.

Yours sincerely,
