Enterprise Architecture

The CTO Council published an overview of release 1 of the cross-Government Enterprise Architecture in 2006. This provided a common framework, across which public sector organisations can identify and communicate opportunities, to create value through collaboration and re-use:

- Domain Leads
- xGEA Domains Reference Model
- Enterprise Architecture for UK Government: An overview of the process and deliverables for Release 1 in Word [504KB, 13 pages]
- Reusable assets catalogue
