Learning Disabilities Observatory

People with learning disabilities in England 2015: data tables

Version 1.0/ November 2016

About Public Health England

Public Health England exists to protect and improve the nation's health and wellbeing, and reduce health inequalities. We do this through world-class science, knowledge and intelligence, advocacy, partnerships and the delivery of specialist public health services. We are an executive agency of the Department of Health, and are a distinct delivery organisation with operational autonomy to advise and support government, local authorities and the NHS in a professionally independent manner.

Introduction

About the Learning Disabilities Observatory

The Learning Disabilities Observatory (also known as Improving Health and Lives (IHaL)) was set up in April 2010 to provide high quality data and information about the health and healthcare of people with learning disabilities. The information helps commissioners and providers of health and social care to understand the needs of people with learning disabilities, their families and carers, and, ultimately, to deliver better healthcare.

The Public Health England Learning Disabilities Observatory is a collaboration between Public Health England (PHE), the Centre for Disability Research at Lancaster University and the National Development Team for Inclusion.

National statistical information on the characteristics of people with learning disabilities, and the services and supports they and their families use, is collected by several government departments and made publically available through a number of diverse channels. The aim of this report is, within a single publication, to provide a concise summary of this information and to provide links to key data collections.

All the information contained in this report relates to people with learning disabilities in England. Most of the data sources are based on a comprehensive national census of activity at either a given point in time or over a given period. That is, they are not based on samples of people with learning disabilities (representative or otherwise). We have clearly indicated where this is not the case.

In each area we have reported the most recent data that is available. In most instances this relates to activity in 2014/15. Wherever possible we have also included data from previous years in order to identify trends over time. In many instances, however, this has been problematic due to changes in the way that data has been collected over time.

This report is the fifth in an a series. Previous reports are:

- People with learning disabilities in England 2010
www.ihal.org.uk/publications/932/People_with_Learning_Disabilities_in_England_2010
- People with learning disabilities in England 2011
www.ihal.org.uk/publications/1063/People_with_Learning_Disabilities_in_England_2011

- People with learning disabilities in England 2012
www.ihal.org.uk/publications/1185/People_with_Learning_Disabilities_in_England_2012
- People with learning disabilities in England 2013
www.ihal.org.uk/publications/1241/People_with_Learning_Disabilities_in_England_2013

In previous years' reports, the detailed data tables have been included within the main body of the report. In this year's report, to improve the readability of the report, more information is summarised in graphical form and the data tables are published separately in this report.

Detailed local information and comparisons for many of the indicators in this report are available in Public Health England's learning disability profiles, available here: fingertips.phe.org.uk/profile/learning-disabilities

Enquiries about the information contained in this report should be directed to: info@ihal.org.uk

Data tables

The number of people with learning disabilities in England

Table 2.1. Numbers of people on GP learning disability registers, percentage year on year change and prevalence per 1,000 people, England, 2006/07 to 2014/15

Year	Number	Year on year percentage change in number	Prevalence per 1,000
For people aged 18 and older			
2006/07	139,321	-	-
2007/08	144,909	+3.9%	-
2008/09	160,165	+9.5%	3.7
2009/10	179,064	+10.6%	4.2
2010/11	188,819	+5.2%	4.3
2011/12	198,877	+5.1%	4.5
2012/13	206,132	+3.5%	4.7
2013/14	214,352	+4.0%	4.8
All ages			
2014/15	252,446	-	4.4

Mortality

No additional data tables

Health services

Table 4.1. Time trends in the number of learning disability health checks performed, the number of people eligible and the population coverage

Year	Number of people who received a check	Number of people reported as eligible for a check	Number of people on GP learning disability register	Proportion of those reported as eligible who received a check	Proportion of those on GP learning disability register who received a check
2008/09	27,011	118,230	160,165	22.8%	16.9%
2009/10	58,919	145,130	179,064	40.6%	32.9%
2010/11*	73,068	153,021	188,819	47.8%	38.7%
2011/12*	86,134	162,991	198,877	52.8%	43.3%
2012/13	92,329	177,389	206,132	52.0%	44.8%
2013/14	94,647	Not collected	214,352	-	44.2%
2014/15	124,785 [†]	197,451 [†]	252,485 [‡]	63.2%	49.4%

*revised data. [†]In 2014/15 the programme was expanded from covering adults aged 18+ to include young people aged 14-17. [‡]In 2014/15 GP learning disability registers were expanded from covering adults aged 18+ to all ages.

Table 4.2. Finished consultant episodes (FCEs) and average occupied beds for an average total population of 250,000; percentage used by people identified by GP as having learning disabilities.

Specialty	Per 250,000 population, per year		Proportion involving a person with learning disabilities	
	FCEs	Average occupied beds	FCEs	Average occupied beds
Medicine and medical specialties	36757.1	363.1	0.8%	0.9%
Surgery and surgical specialties	23915.4	189.6	0.6%	0.7%
Obstetrics and Gynaecology	8312.5	50.4	0.3%	0.3%
Paediatrics and paediatric specialties	3755.0	22.0	2.4%	3.5%
Anaesthetics and Critical Care	1076.9	5.4	0.4%	1.2%
Dentistry	126.2	0.4	5.8%	4.6%
Other	5246.4	39.3	0.8%	0.7%
<i>All non-psychiatric</i>	<i>79189.5</i>	<i>670.2</i>	<i>0.8%</i>	<i>0.9%</i>
Psychiatry	663.0	63.9	6.3%	4.5%
<i>All</i>	<i>79852.5</i>	<i>734.1</i>	<i>0.8%</i>	<i>1.2%</i>

Adult social care

Major changes to the collection of data related to social care in 2014/15 (see the main report for details of the transition from statistics up to 2013/14 (ASC-CAR, RAP and PSSEX) to 2014/15 (SALT and ASC-FR) mean that social care data from 2013/14 to 2014/15 are not continuous. This has been marked in the data table below with a vertical line between 2013/14 and 2014/15 and 2014/15 figures underlined.

Table 7.1: Number of adults with learning disabilities aged 18-64 years in England in accommodation 1 April - 31 March

	2009/10	2010/11	2011/12	2012/13	2013/14	2014/15

¹ Adjusted for inflation using the personal social services, all sectors, adults only, pay and prices index (excluding capital) (inflation indices table 16.4.1) from Curtis, L. (2015) *Unit Costs of Health and Social Care 2015*. Personal Social Services Research Unit, University of Kent, Canterbury. <http://www.pssru.ac.uk/project-pages/unit-costs/2015/>

² Gross expenditure costs for 2011/12 include costs transferred from the NHS to social services under Valuing People Now (for people with learning disabilities) and the NHS transfer. The report *Personal Social Services: Expenditure and Unit Costs England 2011-12 – Final Release* (<https://catalogue.ic.nhs.uk/publications/social-care/expenditure/pss-exp-eng-11-12-fin/pss-exp-eng-11-12-fin-rpt.pdf>) estimates that the funding transferred from the NHS to local authorities concerning all services for adults with learning disabilities totalled £872 million.
