Biometric data sharing - fingerprint matching

Receiving results of biometric checks

[About this guidance](#)

[Criteria for referral](#)

[Requesting a biometric check](#)

[Receiving results of biometric check](#)

[Identity information](#)

[Update CID with conflicting identity information](#)

[Update CID with conflicting nationality information](#)

[Possible results of information](#)

[Cases awaiting an asylum decision](#)

[Cases granted leave to enter or remain in the UK](#)

This page tells criminal casework (CC) caseworkers how the results of a biometric data check are communicated to them.

The biometric case management team (BCMT) will send results of checks to you electronically and copy-in your line manager or team leader, indicated on the request form.

Result	Estimated timeframe for the result from the initial request	CID updates
Match	Eight working days.	BCMT will update special conditions on CID and send a result form by email. For a copy of the biometrics data sharing results form, see related link.
No match	Four working days.	BCMT will update the person notes in CID.

The results form

Depending on the type of match the results form may contain several types of information.

Where there is a match to an alternative identity, the BCMT will carry out extra checks on the following systems as appropriate:

- CID, to establish an immigration application in this identity, and/or
- central reference system (CRS).

The CC case owner must make the following checks:

Biometric data sharing – fingerprint matching

Identity information

<p>About this guidance</p> <p>Criteria for referral</p> <p>Requesting a biometric check</p> <p>Receiving results of biometric check</p> <p>Identity information</p> <p>Update CID with conflicting identity information</p> <p>Update CID with conflicting nationality information</p> <p>Possible results of information</p> <p>Cases awaiting an asylum decision</p> <p>Cases granted leave to enter or remain in the UK</p>	<p>This page tells criminal casework (CC) caseworkers about identity information following a biometrics data sharing check on a foreign national offender (FNO).</p> <p>The FNO may have given the providing country a different identity which may be in the same nationality they claim to be in the UK. If this is the case, the providing country may have details of a travel document which should be used for re-documentation and removal. You must contact the biometric case management team (BCMT) for a copy of the travel document.</p> <p>Some differences in the person's identity could be minor and due to data error, for example the date of birth.</p> <p>Some differences may be more important and indicate that a false identity has been used. You must consider which identity, if any, is likely to be genuine.</p> <p>The identity of the providing country is likely to be genuine where the providing country holds a travel document reference number and there is no documentation to support the identity held by the UK.</p> <p>If no travel document reference number is available, this could be because the FNO was previously apprehended in the providing country without documentation. You cannot assume these identities are genuine.</p> <p>The BCMT will not update CID with details of any identity or nationality discrepancy or harm ratings.</p> <p>You must not contact the providing country, embassy or high commission direct but send enquiries you need to make through the BCMT.</p>

Biometric data sharing – fingerprint matching

Update CID with conflicting identity information

[About this guidance](#)

[Criteria for referral](#)

[Requesting a biometric check](#)

[Receiving results of biometric check](#)

[Identity information](#)

[Update CID with conflicting identity information](#)

[Update CID with conflicting nationality information](#)

[Possible results of information](#)

[Cases awaiting an asylum decision](#)

[Cases granted leave to enter or remain in the UK](#)

This page tells criminal casework (CC) caseworkers how to update CID, when an incidence of a conflicting identity needs to be recorded.

You must:

- in person/case search, enter the Home Office (HO) reference in search criteria box
- click person details on the vertical menu
- click alias tab
- update alias name, alias type (from drop-down menu, click 'International Biometric Match') date of birth and nationality
- click save/exit.

Update CID with conflicting nationality information

[About this guidance](#)

[Criteria for referral](#)

[Requesting a biometric check](#)

[Receiving results of biometric check](#)

[Identity information](#)

[Update CID with conflicting identity information](#)

[Update CID with conflicting nationality information](#)

[Possible results of information](#)

[Cases awaiting an asylum decision](#)

[Cases granted leave to enter or remain in the UK](#)

This page tells criminal casework (CC) caseworkers how to update CID if an incidence of a conflicting nationality needs to be recorded.

You must:

- in person/case search, enter the Home Office (HO) reference in search criteria box
- click special conditions on vertical menu
- click alias tab
- update special condition type (from drop-down menu, click 'nationality dispute')
- in lodged date, enter the date that the applicants nationality was disputed (today's date, not the date that the fingerprint was taken in the providing country)
- in the additional information field, enter 'int. biometric match-applicant believed to be from (country)' and details of any travel documents used in the providing country must be included here, if known
- do not enter anything in the closed date field, this is for use when the special conditions apply, and
- click save/exit.

Biometric data sharing – fingerprint matching

Possible results of information

<p>About this guidance</p> <p>Criteria for referral</p> <p>Requesting a biometric check</p> <p>Receiving results of biometric check</p> <p>Identity information</p> <p>Update CID with conflicting identity information</p> <p>Update CID with conflicting nationality information</p> <p>Possible results of information</p> <p>Cases awaiting an asylum decision</p> <p>Cases granted leave to enter or remain in the UK</p>	<p>This page tells criminal casework (CC) caseworkers how they will receive information on where a foreign national offender (FNO) was fingerprinted in the past.</p> <p>The fingerprint results indicate that the FNO was fingerprinted, either whilst in the providing country or whilst making a visa application to visit that country. This could impact on applications for asylum or further leave to remain in the UK. If the FNO was fingerprinted whilst making a visa application, then, unless the application was fraudulent, it is likely there will be information available linking that person to an identity, a nationality and a travel document.</p> <p>This information will be provided along with matched results within eight days.</p> <p>Status information This result will indicate that an FNO has settled or refugee status in the providing country. Such information is relevant when deciding or withdrawing any outstanding applications to remain in the UK, along with documentation and removal from the UK.</p> <p>Adverse information This may provide information about previous criminal activity and will be relevant in assessing any risk of harm when detaining or removing an individual. The biometric case management team (BCMT) should not receive any information that cannot be legally relied upon, but they will be checking all result forms before sending a response to the case owner.</p> <p>You must apply extreme caution when looking at this information and it can only be taken into account if the criminal offence is known. Any risk factors arising from criminality information from the providing country must be flagged up on CID in the normal way. Information on to how to manipulate and update CID may be found in the link to the CID user guidance document.</p> <p>In cases where adverse information is established it must be factored into the decision about</p>	<p>External links</p> <p>Links to staff intranet removed</p>
--	---	---

	<p>the individual's harm rating. The harm matrix allows you to assess the risk of harm to the UK and its citizens that may be brought about by an individual on a case by case basis.</p>	
--	---	--

Obtaining further information from the providing country

If further information is required from the providing country, the case owner must contact the BCMT, using related link: Email biometric case management team.
