Level 3	7

Phase 2 Lines of Learning

Performance descriptions are statements that describe typical performance of candidates at the top and bottom of an acceptable range. They relate to whole principal learning qualifications rather than specific units.

Their purpose is to:

- help awarding organisations in designing mark-band statements that reflect agreed standards, thus helping to ensure parity across awarding organisations;
- help awarding organisations in designing principal learning qualifications that are pitched at the right level; and
- contribute towards contextualising the Qualifications and Credit Framework (QCF) level descriptions for specific lines of learning.

The performance descriptions describe two levels of performance:

Pass

At the bottom of the acceptable range, this is the minimal level of performance for a learner to pass a principal learning qualification.

Top

At the top of the acceptable range, this is what can reasonably be expected of a high-attaining learner who has followed an appropriate course.

Performance descriptions are not competency definitions and need to have sufficient latitude to allow for 'best fit' marking grids to be written.

Performance descriptions have been written by awarding organisations and Diploma Development Partnerships against the relevant lines of learning criteria.

Performance descriptions are not intended to summarise the content of lines of learning topics. Awarding organisations are required to ensure that full topic content is accurately reflected in specifications.

They are issued as they stand so that awarding organisations can begin using them as soon as possible to develop their principal learning qualifications.
