

Quick start guide to vehicle cyber security

HM Government

**Organisational
security
is owned,
governed and
promoted at
board level.**

2

**Security risks
are assessed
and managed
appropriately and
proportionately,
including those
specific to the
supply chain.**

3

**Organisations
need product
aftercare
and incident
response to
ensure systems
are secure over
their lifetime.**

4

**All organisations,
including
sub-contractors,
suppliers and
potential 3rd
parties, work
together to
enhance the
security of the
system.**

5

**Systems are
designed using a
defence-in-depth
approach.**

6

**The security
of all software
is managed
throughout its
lifetime.**

7

The storage and transmission of data is secure and can be controlled.

8

**The system is
designed to be
resilient to
attacks and
respond
appropriately
when its defences
or sensors fail.**
