AUTHORIZED AMENDMENT

Note to provide a summary/overview of the amendment and to explain/ensure that the reader understands: the rationale for the amendment; the major changes; and, importantly, the full context (including desired outcome) of the amendment.

The input here should be your 'one minute' to explain what, why and how.

The Integrity Management Regulatory Articles (RA)s have been rewritten with a common, consistent approach to Integrity Management to allow the Regulated Community (RC) to better resource and manage Integrity across their platforms. The Integrity Management RAs have also been amended to allocate responsibility to a particular person, which will reduce confusion in the RC and enable efficient auditing by the MAA. Minor formatting changes have additionally be made to ensure coherence across the MAA's Regulatory Publications.
