Schedule Reasons for Refusal

We have decided to **refuse** the Standard Rules Permit (SR2009 No5 – Inert and Excavation Waste Transfer Station) Application for the Site at Horn Lane Goods Yard, applied for by S.Walsh & Son Limited.

The Application is refused on the grounds that the standard rules generic risk assessment does not adequately address the risks at this sensitive location.

This is in accordance with paragraph 8.10 of the Environmental Permitting Guidance core guidance for the Environmental Permitting (England and Wales) Regulations 2010 (last revised March 2013) (the Core Guidance) which states “Regulated facilities that require a location specific assessment of impact and risk are not suitable for standard rules” .
