<sup>1</sup> The number of applications on hand at the end of the year (31<sup>st</sup> March 2015) should equal the number on hand at the start of the year (1<sup>st</sup> April 2014) plus the number received during the year, minus the number decided during the year, minus the number withdrawn during the year. Any inconsistencies are due to incorrect data being submitted last year and authorities inaccurately recording data this year. This affects Tables 1-4.

<sup>2</sup> Commencing Financial Year 2010/11 information has only been collected for new applications not applications for substantial changes. This also applies to the total of all years.
