Why work with us

Our Cyber Security Services agreement is the perfect solution to help you protect your systems and data.

we make it easy for you to select a cyber security solution, simply fill out your requirements and our suppliers will tell you how they will deliver

all our suppliers have had their services certified by the National Cyber Security Centre (NCSC), providing you with assurance

a choice of simple and flexible mini competition templates, based on your needs

our suppliers offer you competitive prices, as they have already submitted maximum day rates and duration based volume discounts

What's on offer

The Cyber Security Services agreement offers you 4 service options (Lots) to choose from. Find out which one best meets your needs:

Certified Cyber Consultancy

Offers four services: Risk Assessment, Risk Management, Security Architecture, Audit and Review

Penetration Testing (CHECK)

Suitable for buyers wanting to test systems and networks for vulnerability

Cyber Incident Response (CIR)

Provides help and expertise in responding to a significant cyber incident

Tailored Evaluations (CTAS)

Provides tailored assurance on the IT security aspects of a system, product or service

Check out these essentials before you apply:
