

DECC Science Advisory Group Register of Interests

Updated : 1 April 2011

For the Science Advisory Group (SAG) to comply with the openness and accountability standards set by the Office of the Commissioner for Public Appointments (OCPA) it is necessary for members to declare their interests which may be relevant to the work of the SAG. These interests are recorded in the attached register.

Members interests will be reviewed on a regular basis and any changes will be published. Members have also been asked to declare any specific conflicts of interests at the start of SAG and sub-group meetings and to withdraw from the room for the duration of these items on the agenda.

All members have been asked to declare any interests which they feel might conflict with their responsibilities as a member of the SAG, or which may be perceived (by a reasonable member of the public) to influence their judgement. Note that members have been asked to declare both financial and non-financial interests.

Members have not been asked to declare:

- shareholdings through unit trusts or similar arrangements where the member has no influence on financial management
- professional speaking engagements relevant to the work of the SAG unless the member is being paid to make a specific point

Note that neither the members nor the secretariat are under an obligation to seek out links of which they might not reasonably be aware.

Member	Interests	
	Name of organisation	Nature of interest
John Shepherd	BP	Member of independent Research Board for the Gulf of Mexico Research Initiative
	Various Offshore Oil & Gas companies (currently Shell, via DNV)	Occasional consultancy (as chair of several Independent Review Groups of Decommissioning activities)
