**RE-DETERMINATION OF THE APPLICATION BY RES UK & IRELAND LIMITED ("RES") DATED 27 MARCH 2009 FOR CONSENT TO CONSTRUCT AND OPERATE A 100 MW WIND TURBINE GENERATING STATION IN POWYS, MID WALES ("LLANBRYNMAIR")**

**RE-DETERMINATION OF THE APPLICATION BY RWE NPOWER RENEMABLES LIMITED ("RWE") DATED 11 DECMEBR 2008 FOR CONSENT TO CONSTRUCT AND OPERATE A 130-250MW WIND TURBINE GENERATING STATION IN POWYS, MID WALES ("CARNEDD WEN")**

Dear Mr Scott.

*I am aware that you have written to certain "interested parties" but that obviously did not include us (for reasons not known to us – we live in the same postcode as some of those who have received letters). However, please can I again record my **objection** to both of these wind farms applications.*

*The plans for both of these wind farms include a large number of turbines. Each site cannot be considered in isolation, but should be aggregated with other such wind farm developments in the area (developments that are both in situation now and proposed for the future and include power transfer and transportation of components).*

*I have now had chance to view the responses and I completely agree with all the points made by the objectors. I also agree that should these projects be allowed, then a proper environmental survey be carried out, and not one funded by the developers – **which is a bit like putting the fox in charge of the hen-house!***

Yours sincerely
