International Trade

**Strategic Export Controls: Country  
Pivot Report**

1st April 2015 - 30th June 2015

January 2018

**Countries:** All countries

**Case Types:** All case types

**All Cases / Incorporation Cases Only:** All cases

**Ultimate Destinations:** All countries

**Licence Statuses:** All licence statuses

**Reasons for Refusal:** All reasons for refusal

**Case Summaries:** All case summaries

**Ratings:** All control entries

## Introduction

This report covers **export licensing decisions made by Her Majesty's Government (HMG)** between 1st April 2015 and 30th June 2015. Licence applications are submitted to and processed by the Export Control Organisation (ECO), part of the Department for International Trade, through a purpose-built online licensing system called Spire. The ECO issues licences for controlling the export of strategic goods.

Whether or not an export licence is required is determined by four factors, the:

- nature of the goods due to be exported
- destination concerned
- ultimate end use of the goods
- licensability of trade activities of the goods due to be exported

Broadly there are two types of licence, individual and general. Licences can be *standard* or *open*.

Each licence names the goods that can be exported and specifies the destinations to which they can be exported, along with other details and restrictions. *General* licences are pre-published and can be used by all eligible exporters whereas *individual* licences are issued following a successful application and allow only those named on the application to export certain goods. Those exporting under *general* licences must adhere to the terms and conditions of the licence under which they wish to export. Exporters must register with the ECO to use a *general* licence and are subject to regular audits to ensure the licence terms and conditions are being adhered to. Those requiring an *individual* licence must submit an application to the ECO where they wish to make exports not covered by the terms and conditions of a *general* licence.

Generally, *open* licences can be used with fewer restrictions than *standard* licences. *Standard* licences tend to name a specific quantity of specific goods that can be exported to a specific destination whereas *open* licences may include a wider range of goods or destinations and generally do not limit the quantity of goods that can be exported.

**A glossary of key terms follows this introduction** which explains the various licence types and subtypes that can be used or applied for and how information relating to each licence type and subtype is available within this report.

## This report and other sources of information

Each of these quarterly reports (from 2015Q1 published in July 2015) is supplemented by a set of *data tables* in spreadsheet format (plus CSV format) and a *statistical commentary* document in addition to this report. The *data tables* provide the same information as presented in this report but in a different format and for **periods back to 1 January 2008**. CSV spreadsheets use a non-proprietary format that facilitates the manipulation of the data by a variety of software (not just Microsoft Excel) and provide the same information as available from the *data tables*. These outputs can be found alongside this report under the 'Quarterly reports' heading here:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>

The 'New Report' tool on the "Strategic Export Controls: Reports and Statistics" web page can also be used to download data. The tool offers a variety of filters that can be applied to allow users to download data of specific interest, such as licences which name a certain destination or licences for the shipment of goods with a certain rating. The tool is available here (registration required):

<https://www.exportcontroldb.trade.gov.uk/sdb/fox/sdb/SDBHOME>

## Key terminology and data available in this report

Licences types exist for each combination of *open/standard* and *general/individual* , except for *standard general* . The following table summarises the licence types under each of these headings. Each of these licence type has subtypes (more information available under 'Licence types and subtypes').

	Open	Standard
General	OGELs	Not applicable
Individual	OIELs, OITCLs,	SIELs, SITCLs

## Key terms

**Strategic goods** include military goods and a wide range 'dual-use' goods; civilian goods with a military purpose. Goods are assessed against a **consolidated list of goods that require export authorisation**, available here:

<https://www.gov.uk/government/publications/uk-strategic-export-control-lists-the-consolidated-list-of-strategic-military-and-dual-use-items-that-require-export-authorisation>

It is possible for a licence to be for both military and dual-use goods.

**Control Entries** are the codes assigned to each good on the **consolidated list of goods that require export authorisation (herein 'consolidated list')**. For example, all control entries beginning 'ML' (such as ML1, ML8 etc) are control entries for military goods. The process of assigning control entries to goods is called **Rating**.

In some cases goods can be made subject to control if they do not appear on the **consolidated list**. Goods that the exporter has been told, knows or suspects are, or may be, intended for "WMD Purposes" are given the rating "End-Use". Goods that the exporter has been told, knows or suspects are, or may be, intended for use as components in, or production or test equipment for, military equipment in an embargoed destination; or may be intended for use as parts of military goods illegally obtained from the UK, irrespective of destination, are given the rating "MEND". Both of these "end-use" ratings are also sometimes referred to as "catch all" ratings.

**Case summaries** are text descriptions used to classify goods on licences. They are standardised descriptions to explain what the goods are without giving away commercially sensitive details about the goods (such as design or intellectual property). Using standardised descriptions also facilitates comparison and analysis. Often extra detail is communicated by using prefixes. For example, a replacement part for a sporting shotgun may be described as "components for sporting shotguns" rather than just "sporting shotgun".

One or more Control Entry can be used to rate more than one good on a licence. Also, one or more Case Summaries can be used to describe a single Control Entry.

Goods are rated as **Military** (ie, they are assigned a Control Entry from the **UK Military List** within the **consolidated list** ) or they are rated as being **Non-military**. Non-military goods:

- appear on other lists within the **consolidated list** , such as the **UK Dual-Use List** .
- also include goods refused to destinations that are placed under **sanctions**, such as trade sanctions or an arms embargo. Licences relating to the goods affected by the sanction do not get approved but also do not get rated against the **consolidated list**. They are instead rated with a **sanction code**, such as 'RUS' for Russia and 'IRN' for Iran.

**SIELs for Goods covered by Council Regulation 1236/2005** (see 'Licence types and subtypes') concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by Council Regulation 1236/2005 are

therefore not included in the count of non-military goods for other SIEL subtypes. More information on the Regulation is available here: <https://www.gov.uk/controls-on-torture-goods>

As noted, goods can also be rated even if they don't appear on the **consolidated list**.

Licence applications can be **Refused** (for standard individual licences) or **Rejected** (for open individual licences). Licences are refused/rejected for one or more pre-specified reasons. All applications for licences are assessed on a case-by-case basis against the **Consolidated EU and National Arms Export Licensing Criteria** and a decision made on either approval or refusal. Depending on the nature of the goods, other policy aspects might also be considered. For example, if the exported goods are due to be incorporated into another system, equipment or plant, then the items are also assessed against the UK's incorporation factors policy.

Applications for licences can be refused if it is deemed to fail one or more of the Consolidated EU and National Arms Export Licensing Criteria. These 8 criteria include, for example, *Preservation of regional peace, security and stability (criterion 4)* or *Respect for the UK's international obligations and commitments, in particular sanctions adopted by the UN Security Council or the European Union, agreements on non-proliferation and other subjects, as well as other international obligation (criterion 1)*. More information about the criteria is available here:

<https://www.gov.uk/government/publications/consolidated-eu-and-national-arms-export-licensing-criteria>

Licences can also be **Revoked** at any time after being Issued.

**Case & goods footnotes** are added to certain cases to provide explanation on the end use and/or end user.

**Country footnotes** are added to destinations with the aim to help the user understand why certain goods may have been approved, refused/rejected or revoked in the period.

## Licence types and subtypes

### Export Licences

#### General Licences

Before data are presented per destination, a table summarises the use of **Open General Export Licences (OGELs)** on page 15. OGELs are pre-published licences allowing the export of certain goods to certain destinations. If exporters are eligible to trade under an OGEL then they should register to use that OGEL. Once registered, there is no need for an exporter to submit further applications to trade under the licence they have registered to use.

Some Open General Transshipment licences exist for the **transshipment** of certain goods through the UK en-route from one country to another, providing in all cases that the relevant conditions are met.

There are no Open General licences for the **incorporation** of goods into another product or higher level systems.

#### Individual Licences

The vast majority of this report presents information (where available) per destination relating to *standard individual* licences and open individual licences (SIELs, OIELs, SITLs, SITCLs and OITCLs). All destinations are presented in this report, and if information regarding certain licence types is not presented for a destination then this is because no decisions have been made on such licences in this period.

Exporters should check to see whether they are eligible to use an *open general* licence before applying for either a *standard individual* licence (eg SIEL, SITCL) or *open individual* licence (eg OIEL, OITCL), whichever is most appropriate.

#### Open Individual Licences

**Open Individual Export Licences (OIELs)** are *specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees.* Licences permitting permanent export are generally valid for up to 5 years from the date of issue. However, OIELs covering the export to EU Member States of goods entered on the Military List and Dealer to Dealer OIELs (an OIEL subtype) are generally valid for 3 years.

##### Other OIELs:

There are several subtypes of OIELs including **Global Project Licences**, as well as **Dealer-to-dealer, Cryptographic, Media and Continental Shelf OIELs.**

**Dealer-to-dealer OIELs (or simply Dealer OIELs)** authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

**Cryptographic OIELs** authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

**Media OIELs** authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with

ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required.

**Continental Shelf OIELs** authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels.

## Global Project Licences

**Global Project Licences (GPL)** are a form of export licence that were introduced by Framework Agreement partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria.

## Standard Individual Licences

**Standard Individual Export Licences (SIELs)** are specific to an individual exporter and generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence.

There are 5 main subtypes; permanent, temporary, incorporation, transshipment and SIELs for Goods covered by Council Regulation 1236/2005.

- **Permanent SIELs** are for items that are for permanent export to a destination. They are generally valid for 2 years from date of issue.
- **Temporary SIELs** are for where the export is temporary, for example for the purposes of demonstration, trial or evaluation, and the licence is generally valid for one year only. The goods must be returned before the licence expires. Temporary SIELs can cover more than one destination and in such cases the licence will be counted once per destination. Therefore users should express caution when summing licence details together across countries.
- **Incorporation SIELs** are for goods that are due to be incorporated ie, installing them into another product or higher level system. For incorporation cases there are two end user types. The 'end user' is the person/organisation incorporating the goods. The 'ultimate end user' is defined as the entity that uses the product or the higher level system into which the exported goods are installed or incorporated.
- **Transshipment SIELs** are needed for the transshipment of certain goods through the UK en-route from one country to another, providing certain conditions are met. This subtype of SIEL is also called a Standard Individual Transshipment Licence (SITL). Most other transshipments (of certain goods through the UK en-route from one country to another) can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. There are no Open Individual licences for transshipments.
- **SIELs for Goods covered by Council Regulation 1236/2005** concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by Council Regulation 1236/2005 are therefore not included in the count of non-military goods for other SIEL subtypes.

It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

## Other Individual Licences

Information on Other Individual licences is not included as part of this report, or as part of the Excel or CSV spread sheets released alongside this report. Please see separate documentation entitled 'Data for Other Licences' published alongside this, or previous, reports.

## Trade Control Licences

Trade Control licences are required for those brokering the export of strategic goods. Brokering means buying or selling, or arranging or negotiating transactions for the purchase, sale, or supply, of goods located in one third country for transfer to another. There are Open and Standard Trade Control licences

An **Open Individual Trade Control Licence (OITCL)** is *specific to a named trader and covers involvement in trading of a generally unlimited supply of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users*. OITCLs are generally valid for 5 years.

A **Standard Individual Trade Control Licence (SITCL)** is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for 2 years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Once the licence expires, a new application must be applied for if further trades are required. Like Individual Export licences, exporters should check to see whether they are eligible to use an OITCL before applying for a SITCL.

## Reporting

### Summary Tables

Before more detailed information is presented by destination on SIELs, OIELs, SITCLs and OITCLs, data summarising the number of licences Issued, Refused/Rejected and Revoked for each licence type within the period are presented.

Following this is some detailed information on Dealer OIELs, Cryptographic OIELs, Media OIELs, Continental Shelf OIELs and Global Project Licences - as generally there are not many of these per quarter so the information is best summarised for all destinations together in one table. Processing statistics are reported, similar to those presented per destination (see below). A table showing registrations, suspensions and de-registrations for the use of OGELs immediately precedes detailed information per destination.

### Information Per Destination

Information for each destination follows the same pattern. The minimum information provided for each destination is processing statistics. Where no such licences decisions were made in the period, there is simply no information presented for such cases.

#### Processing statistics

The time calculated is the initial processing time, ie, the time elapsed from when the application is first received to when it is closed. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Separately for SIELs, SITCLs, OIELs and OITCLs the following processing statistics are presented per destination:

- Median processing time
- % and number of licences completed in 20 and 60 working days. For SIELs there are government targets to process 70% of applications within 20 working days and 99% within 60 working days. For OIELs and OITCLs there are government targets to process 60% of applications within 60 working days.

#### Licensing statistics

The information within the report covers those licences Issued, Refused/Rejected or Revoked within the period. It does not include information where applications were not fully processed, eg stopped or withdrawn, information on goods where there was No Licence Required (NLR), or certain changes to an existing licence - such as re-opening an application to make changes such as extensions to licences, removing good/s (although this is not done for OIELs), removing country/countries, or amending applicant errors.

If goods / countries are added to an application and subsequently end up on a licence they will be reported as a new issue for that period. The existing items will not be re-reported. The same applies for items removed from an application on an amendment, except in this case it will be reported as revoked.

In a small number of cases there may be a subsequent change of status during the same period. There are two

main reasons for such changes: a licence issued during the period may have been issued then subsequently revoked in the same period, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully and the licence was issued in a later period. These cases are flagged in this report as Rv and A respectively.

For each destination and for each of Issued, Refused and Revoked the following is data is presented in this report, where available, for each **SIEL** subtype (note: information on SITLs can be found under the heading 'SIELs - Transshipment'):

- A count of the number of licences on which goods were Issued, Refused or Revoked categorised by the type of goods; Military, Non-military or Both Military and Non-military (see 'Key Terms'). Examples of when a licence may be for both military and non-military goods could be where the goods are military body armour and civilian body armour, or where bomb detection goods are being sold for use by the military and for civilian use such as at airports. However, the military and non-military goods will not necessarily be of the same type.
- A count of the number of licences on which goods were Issued, Refused or Revoked per Control Entry. Control Entries are presented per category (Military, Non-military or Both Military and Non-military) based on the licence they relate to. The number given is the number of licences on which a Control Entry was used. Please note that more than one Control Entry can apply to goods on an individual licence and each Control Entry is counted only once per individual licence (regardless of the number of goods that have been rated with that Control Entry).
- Data for Issued SIELs includes the value of the goods in each category. However, note that goods covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.
- Case summaries for each of Issued, Refused and Revoked broken down by category (Mil/Non-mil/Both), listed below the appropriate Control Entry table in which they feature. Case summaries for small arms covered by SIELs issued in the period give the number of units in parentheses. If the number of licences using the case summary in the period is more than one then this is also detailed in parentheses (eg "2 licences"). Items that were allowed for Temporary export are indicated by a "T" preceding the description. Items that were originally allowed for Temporary export but then converted to allow Permanent export are indicated by a "T(P)". Note that more than one Case Summary can apply to a single Control Entry. Note that more than one Case Summary can apply to a single Control Entry.
- The ultimate destination/s for goods that are being incorporated.
- For refusals, the number of times each of the 8 Consolidated EU and National Arms Export Licensing Criteria are used to refuse licence applications for the destination is provided.

The Control Entries supplied are less detailed than those listed in the **consolidated list of goods that require export authorisation**. For example, we report ML1 but there are more specific codes such as ML1a, ML1b, ML1c and ML1d. Here is an example to explain how we would count the number of licences containing goods rated ML1:

<b>Issued licences for a given destination</b>	<b>Control Entries applied to goods on licence</b>
Licence 1	ML1a, ML1a, ML1b, ML1c
Licence 2	ML1a, ML2a
Licence 3	ML1a
Licence 4	ML1c
Licence 5	ML2a
<i>Total number of licences containing goods rated ML1</i>	<b>4</b>

In the example the number of licences containing goods rated ML1 is 4 because the more detailed codes (eg ML1a, ML1b etc) are treated as though they are the broader code ML1. Also, each Control Entry is counted a maximum of once per licence, so licence 1, 2, 3 and 4 each have a count of 1 for ML1.

The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the

destination concerned under an Open General Export Licence (OGEL).

In the case of SIELs refused or revoked, only the rating of the goods is provided.

Values are shown to the nearest pound. It should be noted that the actual value of exports made under the licences is likely to be less than shown because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

In some cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued is lower than the sum of all SIELs issued shown across all the destination pages.

For each destination and for each of Issued, Refused and Revoked the following data is presented in this report, where available, for each OIEL subtype:

- A case summary description of the goods covered by each OIEL, with the items that were allowed for temporary export indicated by a "T" preceding the description, for Issued, Rejected and Revoked licences.

Case summaries are provided for all licences issued in the period or where the coverage of an existing licence was amended during the period by the inclusion or reinstatement of this destination or by the addition of goods. Case summaries are provided for licences fully revoked, refused in full or whose coverage was amended during the period by the removal of items and/or destinations. The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory government departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific goods or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, depending on the timing of the decision. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

As well as the data presented on SIELs and OIELS, data is presented on **SITCLs and OITCLs**:

- The number of SITCLs or OITCLs (presented separately) Issued, Refused (for SITCLs)/Rejected (for OITCLs) and Revoked in the period

## Overall Licensing Statistics

	All licence applications	Issued	Refused/ Rejected	Revoked
SIELs	3586	3507	76	3
- Permanent Standard	2923	2852	69	2
- Temporary Standard	218	215	3	0
- Transhipment	5	4	0	1
- Incorporation	439	435	4	0
- For goods covered by EC Reg 1236/2005 (Permanent or Temporary)	1	1	0	0
SITCLs	62	60	2	0
OIELs	103	89	12	2
- Standard	93	79	12	2
- Dealer-to-dealer	7	7	0	0
- Cryptographic	3	3	0	0
- Media	0	0	0	0
- Continental Shelf	0	0	0	0
Global Project Licences	0	0	0	0
OITCLs	10	8	2	0

### Table notes for licensing statistics table:

**SIEL and OIEL sub-types are mutually exclusive. SIEL Transhipments and Incorporations are permanent, but counted separately to Standard Permanent and Standard Temporary licences. Counts of licence applications Issued, Refused/Rejected and Revoked count the decisions made during the period on the licence, whenever the case has been closed or re-opened then re-closed.**

## Overall Processing Statistics

### Processing statistics covering the period 1st April 2015 to 30th June 2015

	Applications completed in 20 working days	% applications completed in 20 working days	Applications completed in 60 working days	% applications completed in 60 working days	Median processing time
SIELs	2188	49	4392	98	21 days
- Permanent Standard	1897	51	3675	98	20 days
- Temporary Standard	131	48	268	99	21 days
- Transhipment	4	80	5	100	10 days
- Incorporation	155	34	443	97	23 days
- For goods covered by EC Reg 1236/2005 (Permanent or Temporary)	1	100	1	100	20 days
SITCLs	55	56	96	97	19 days
OIELs	27	21	68	54	57 days
- Standard	17	15	53	48	63 days
- Dealer-to-dealer	8	80	10	100	4 days
- Cryptographic	2	33	5	83	39 days
- Media	n/a	n/a	n/a	n/a	n/a
- Continental Shelf	n/a	n/a	n/a	n/a	n/a
Global Project Licences	n/a	n/a	n/a	n/a	n/a
OITCLs	10	56	15	83	13 days

## Open General Export Licences (OGLs)

OGLs can be used to export certain goods to certain destinations providing the terms and conditions of the OGL are met. See further information on military goods OGLs (<https://www.gov.uk/military-goods-ogels>) and dual-use goods OGLs (<https://www.gov.uk/dual-use-open-general-export-licences-explained>).

OGL Name	Registrations in this period	Suspensions in this period	Deregistrations in this period
EU GEA 001 (EU001)	58	0	0
EU GEA 002 (EU002) - exports of certain dual-use items to certain destinations	9	0	0
EU GEA 003 (EU003) - export after repair/replacement	3	0	0
EU GEA 004 (EU004) - temporary export for exhibition or fair	6	0	0
EU GEA 005 (EU005) - telecommunications	4	0	0
EU GEA 006 (EU006) - chemicals	0	0	0
Chemicals	1	0	0
Cryptographic Development	3	0	1
Export After Exhibition: Dual-Use Items	0	0	0
Export After Repair/Replacement Under Warranty: Dual-Use Items	5	0	0
Export For Repair/Replacement Under Warranty: Dual-Use Items	3	0	0
Dual-Use Items: Hong Kong Special Administrative Region	4	0	0
Open General Export Licence (International Non-Proliferation Regime Decontrols: Dual-Use Items) (Rv)	16	0	0
Low Value Shipments	2	0	1
OIL and GAS Exploration: Dual-Use Items	5	0	0
Technology for Dual-Use Items	10	0	1
Turkey	5	0	0
X	0	0	0
Military and Dual Use Goods: UK Forces deployed in embargoed destinations	1	0	0

OGEL Name	Registrations in this period	Suspensions in this period	Deregistrations in this period
Military and Dual-Use Goods: UK Forces deployed in non-embargoed destinations	2	0	0
Exports of non-lethal military and Dual-Use Goods: To UK Diplomatic Missions or Consular Posts	1	0	0
Access Overseas to Software and Technology for Military Goods: Individual Use Only	18	0	0
Export After Exhibition or Demonstration: Military Goods	5	0	0
Export After Repair/replacement Under Warranty: Military Goods	11	0	0
Export For Repair/Replacement Under Warranty: Military Goods	13	0	0
Exports or transfers in Support of UK Government Defence Contracts	6	0	0
OGEL (Certified Companies)	0	0	0
OGEL (Exports under the US-UK Defence Trade Co-operation Treaty)	0	0	0
OGEL (International Non-proliferation Regime Decontrols: Military Items) (Rv)	0	0	0
Historic Military Goods	1	0	0
Open General Export Licence (Historic Military Vehicles and Artillery Pieces)	1	0	0
Military Components	4	0	0
Military Goods, Software and Technology	38	0	1
Military Goods: Collaborative Project Typhoon	4	0	0
Military Goods: For Demonstration	11	0	0
Military Goods: A400M Collaborative Programme	2	0	0
Military Goods, Software and Technology: Government or NATO End-Use	15	0	1

## Dealer to Dealer (Dealer) Open Individual Export Licences (OIELs)

The following is a list of the items that have been authorised for export to the following destinations only:

Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden

No of Licences Issued	Goods Summary
3	blank/inert ammunition, components for pistols, components for rifles, components for sporting guns, components for sporting shotguns, pistols, rifles, small arms ammunition, smoke/pyrotechnic ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, training blank/inert ammunition, training small arms ammunition, training smoke/pyrotechnic ammunition
4	blank/inert ammunition, components for pistols, components for sporting guns, components for sporting shotguns, components for weapon sights, pistols, small arms ammunition, smoke/pyrotechnic ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, training blank/inert ammunition, training small arms ammunition, training smoke/pyrotechnic ammunition, weapon sights

## Cryptographic (Crypto) Open Individual Export Licences (OIELs)

No of Licences Issued	The following is a list of the items that have been authorised for export to all countries <b>EXCEPT THE FOLLOWING:</b> Afghanistan, Angola, Armenia, Australia, Austria, Azerbaijan, Belgium, Bosnia and Herzegovina, Bulgaria, Burma, Burundi, Canada, China, Croatia, Cyprus, Czech Republic, Democratic Republic of Congo, Denmark, Eritrea, Estonia, Ethiopia, Finland, France, Germany, Greece, Hungary, Iran, Iraq, Ireland, Italy, Japan, Latvia, Liberia, Libya, Lithuania, Luxembourg, Malta, Netherlands, New Zealand, Nigeria, North Korea, Norway, Poland, Portugal, Romania, Russia, Rwanda, Sierra Leone, Slovakia, Slovenia, Somalia, South Sudan, Spain, Sudan, Sweden, Switzerland, Syria, Tanzania, Uganda, United States of America, Venezuela, Zimbabwe
1	cable systems sensitive to eavesdropping, cryptographic software, equipment employing cryptography, equipment for generating hopping codes, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, software for the development/production/use of equipment or software specified in 5A002 or 5D002 of the Dual-Use Regulation other than 5A002a2 or 5D002c1, software for the use of technology specified in 5E002, technology for the development/production/use of equipment or software specified in 5A002 or 5D002 of the Dual-Use Regulation other than 5A002a2 or 5D002c1
2	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with

	reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment

# Afghanistan

## Processing Statistics (excluding amendments)

Median processing time SIELs	20 days
% and number of SIELs completed in 20 working days	50% (2)
% and number of SIELs completed in 60 working days	100% (4)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	3	£4,367,538
Total	3	£4,367,538

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£26,747
ML6	1	£4,340,322
ML10	1	£470

components for combat aircraft [See footnote 1].  
components for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 2].  
military support vehicles [See footnote 1].

#### Country Footnotes

1. Arms embargo sanctions in place for Afghanistan apply to those individuals, groups, undertakings and entities designated under the criteria stated in UN Security Council Resolution 2160 (2014), whose names are held on the list established pursuant to UN Security Council Resolution 1988 (2011). The EU implements these measures through Council Decision 2011/486/CFSP, as amended; as well as Council Regulation (EU) No 753/2011, as amended.

#### Case & goods Footnotes

1. Licence granted for armed forces end use.
2. Licence granted for explosive detection / disposal purposes. For end use by an International Organisation.

# Albania

1	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 1]
---	---	---

### Country Footnotes

1. The UK interprets the OSCE arms embargo for Armenia as prohibiting the export of any military goods or technology to any person, or to any destination, in Armenia. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations, where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

### Case & goods Footnotes

1. Licence granted for cryptographic equipment for civilian / commercial end use.

## Australia

2	P	heading sensors for hydrophone arrays, marine acoustic projectors, towed hydrophone arrays, underwater cable hydrophone arrays

### Country Footnotes

1. The UK interprets the OSCE arms embargo for Azerbaijan as prohibiting the export of any military goods or technology to any person, or to any destination, in Azerbaijan. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations, where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

### Case & goods Footnotes

1. Licence granted for cryptographic equipment for civilian / commercial end use.

## Country Footnotes

1. On 20 June 2011 the EU adopted additional restrictions against Belarus, including prohibitions on the supply of arms and related material, as well as on equipment which might be used for internal repression. Restrictive measures currently in force with respect to Belarus are set out in Council Decision 2012/642/CFSP, as amended; as well as Council Regulation (EC) No 765/2006, as amended.  
All exports for this destination were approved in accordance with the sanctions in place.

## SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

### Issued

Types of goods on licence	No. of licences	Value
Military	1	£300
Total	1	£300

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£300

components for assault rifles.

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 1]

### Case & goods Footnotes

1. Licence granted for cryptographic equipment for civilian / commercial end use.

## Botswana

## Country Footnotes

1. Restrictions currently in force with respect to Burma are set out in Council Decision 2013/184/CFSP; these include an embargo on the provision of arms and related material, as well as of equipment that might be used for internal repression as specified in Annex I to Council Regulation (EU) No 401/2013. All exports for this destination were approved in accordance with the sanctions in place.

## Country Footnotes

1. UN Security Council Resolution 2127 (2013) established an arms embargo to restrict exports of arms, or related material, and of training, technical or financial assistance related to military activities; exemptions apply to some UN, humanitarian, peacekeeping and government entities. S/RES/2196 (2015) extended the arms embargo until January 2016 and amended the designation criteria.

## Case & goods Footnotes

1. Licence granted for end use by a International Organisation.
2. Licence granted for cryptographic equipment for civilian / commercial end use.

## Chad

### Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

### Case & goods Footnotes

1. Licence granted for civilian / commercial end use.
2. Licence granted for accessories / spare parts for civilian / commercial end use.
3. Licence granted for academic research purposes by academic end users.
4. Licence granted for sporting / hunting purposes for civilian / commercial end use.
5. Licence granted for cryptographic equipment for civilian / commercial end use.
6. Licence granted for sporting / hunting purposes. For Government end use.

promoting the supply of combat helicopters.  
 promoting the supply of military aircraft ground equipment.

**Country Footnotes**

1. Following the adoption of UNSCR 1807 (2008), the UN arms embargo with respect to the DRC only applies to non-governmental entities. The embargo was most recently renewed through UNSCR 2198 (2015), and currently prohibits the supply, sale or transfer of arms and related materiel to all non-governmental entities and individuals operating in the DRC; some exports must be approved in advance by the Sanctions Committee.

All exports for this destination were approved in accordance with the sanctions in place.

**Case & goods Footnotes**

1. Licence granted for chemical manufacturing equipment for civilian / commercial end use.

#### Country Footnotes

1. UN Security Council Resolution 1907 (2009) established an arms embargo on Eritrea. UNSCR 2111 (2013) consolidated exemptions to the arms embargo for non-lethal military equipment intended solely for humanitarian or protective use, as approved on case-by-case basis in advance by the Security Council Committee pursuant to resolutions 751 (1992) and 1907 (2009); and protective clothing, including flak jackets and military helmets, temporarily exported to Eritrea by United Nations personnel, representatives of the media and humanitarian and development workers and associated personnel for their personal use only.

Following the adoption of the UN arms embargo, the EU adopted Council Decision 2010/127/CFSP on 1 March 2010 and Council Regulation (EU) No 667/2010, as amended.

All exports for this destination were approved in accordance with the sanctions in place.

## SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

### Issued

Types of goods on licence	No. of licences	Value
Military	11	£681,567
Both Military and Non-military	1	£1,175
Total	12	£682,742

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	5	£542,257
ML4	1	£124
ML5	3	£17,029
ML6	2	£6,780
ML7	2	£59,240
ML11	3	£17,337
ML15	2	£38,000
PL5017	2	£800

- components for ground vehicle military communications equipment.
- components for launching/handling/control equipment for missiles.
- components for military communications equipment.
- components for military radars.
- components for NBC protective/defensive equipment.
- general military vehicle components.
- gun silencers.
- T military guidance/navigation equipment (2 licences).
- T military image intensifier equipment (2 licences).
- T military infrared/thermal imaging equipment (2 licences).
- NBC protective/defensive equipment.
- T targeting equipment (2 licences).
- weapon night sights (2 licences).
- T weapon night sights (2 licences).
- T weapon sight mounts (2 licences).
- T weapon sights (2 licences).

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£375
PL9010	1	£800

sporting guns (1).  
sporting shotguns (1).

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£7,770
Total	1	£7,770

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	1	£7,770

components for combat aircraft.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Oman

### OIELs (excluding Other OIELs)

#### Issued

- munitions/ordnance detection/disposal equipment.
- NBC protective/defensive equipment.
- precursors for energetic materials.
- propellants.
- sniper rifles (1).
- software enabling equipment to function as military improvised explosive device
- decoying/detection/disposal/jamming equipment.
- Software for modelling/simulating/evaluating weapon systems.
- sporting guns (1).
- T sporting guns (1).
- T targeting equipment.
- tear gas/riot control agents.
- technology for decoying/countermeasure equipment.
- technology for sniper rifles.
- technology for Software for modelling/simulating/evaluating military operation scenarios.
- technology for unmanned air vehicles (2 licences).
- T unmanned air vehicles.
- weapon cleaning equipment (2 licences).
- T weapon cleaning equipment.
- weapon night sights.
- T weapon night sights.
- weapon sights (3 licences).
- T weapon sights.

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
0E001	2	£201
1C001	1	£600
1C233	2	£12,735

- T devices containing enriched lithium.
- devices containing enriched lithium manufactures.
- electromagnetic wave absorbing materials.
- technology for nuclear reactors (2 licences).

**SIELs - Incorporation**

## Issued

Types of goods on licence	No. of licences	Value
Military	51	£8,544,927
Total	51	£8,544,927

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

## Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	1	£1,000,000
ML4	8	£2,765,066
ML5	5	£25,129
ML6	8	£35,570
ML9	9	£3,935,333
ML10	19	£479,644
ML11	2	£97,467
ML15	1	£90,000
ML16	1	£74,747
ML17	1	£7,683
ML18	1	£11,500
PL5017	2	£22,789

components for air-to-surface missiles (2 licences).  
 components for combat aircraft (8 licences).  
 components for combat helicopters (2 licences).  
 components for decoying/countermeasure equipment.  
 components for launching/handling/control equipment for missiles (3 licences).  
 components for military aero-engines (2 licences).  
 components for military combat vehicles (2 licences).  
 components for military guidance/navigation equipment.  
 components for military helicopters.  
 components for military radars (3 licences).  
 components for military support aircraft (6 licences).  
 components for military support vehicles (2 licences).  
 components for military training aircraft.  
 components for naval electrical/electronic equipment.  
 components for naval gun installations/mountings.  
 components for periscopes (2 licences).  
 components for submarines (5 licences).  
 components for surface-to-surface missiles.  
 components for tanks.  
 components for turrets (2 licences).  
 equipment for the development of weapon control equipment.  
 equipment for the production of combat naval vessels.  
 equipment for the use of naval gun installations/mountings.  
 equipment for the use of naval guns.  
 equipment for the use of submarines.  
 general military vehicle components.  
 general naval vessel components (2 licences).  
 launching/handling/control equipment for missiles.  
 military cameras/photographic equipment.  
 military guidance/navigation equipment.

military infrared/thermal imaging equipment.  
 naval gun installations/mountings.  
 naval guns.  
 signature suppression fittings/coatings/treatments for military use.  
 unfinished products for military aero-engines.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	158	£95,167,808
Non-military	74	£64,331,657
Total	232	£159,499,465

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	4	£35,000

ML4	4	£105,379
ML5	28	£1,735,682
ML6	1	£12,170
ML7	1	£4,722
ML8	1	£80
ML9	15	£87,713,185
ML10	88	£4,838,435
ML11	10	£117,557
ML14	2	£16,555
ML15	4	£200,461
ML18	2	£324,327
ML21	2	£1,045
ML22	3	£31,010
PL5017	1	£32,200

airborne refuelling equipment.  
components for airborne refuelling equipment (3 licences).  
components for aircraft carriers.  
components for aircraft military communications equipment.  
components for attack alerting/warning equipment (6 licences).  
components for combat aircraft (25 licences).  
components for combat helicopters.  
components for combat naval vessels.  
components for decoying/countermeasure equipment.  
components for electronic warfare equipment (2 licences).  
components for ground based radars (2 licences).  
components for launching/handling/control equipment for missiles.  
components for launching/handling/control equipment for munitions.  
components for military aero-engines (10 licences).  
components for military combat vehicles.  
components for military electronic equipment.  
components for military guidance/navigation equipment (2 licences).  
components for military helicopters (8 licences).  
components for military improvised explosive device decoying/detection/disposal/jamming equipment.  
components for military patrol/assault craft.  
components for military radars (20 licences).  
components for military sonars.  
components for military support aircraft (3 licences).  
components for military training aircraft (16 licences).  
components for naval communications equipment (2 licences).  
components for NBC detection equipment.  
components for recognition/identification equipment.  
components for sensor integration equipment.  
components for submarines (2 licences).  
components for weapon control equipment.  
electronic warfare equipment.  
equipment for the production of airborne refuelling equipment (2 licences).  
equipment for the production of military support aircraft.  
T equipment for the use of military radars.  
T equipment for the use of weapon cleaning equipment.  
general military aircraft components (22 licences).  
general naval vessel components (5 licences).  
military aircraft ground equipment.  
military aircrew life support equipment.  
military auxiliary/support vessels.  
military cameras/photographic equipment.  
T military cameras/photographic equipment.  
military electronic equipment (2 licences).  
T military electronic equipment.  
military image intensifier equipment.  
military image recording/processing equipment.  
munitions/ordnance detection/disposal equipment.  
naval communications equipment (2 licences).  
naval electrical/electronic equipment.

NBC detection equipment.  
 pyrotechnics/fuels and related substances.  
 small arms ammunition (4 licences).  
 small arms training equipment (2 licences).  
 software for military communications equipment.  
 software for small arms training equipment.  
 T targeting equipment.  
 technology for combat aircraft.  
 technology for military aero-engines.  
 technology for small arms training equipment.  
 T unmanned air vehicles.  
 T weapon cleaning equipment.

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	5	£14,071
Non-military	2	£10,295
Total	7	£24,366

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	4	£12,464
ML16	1	£1,607

components for combat aircraft (3 licences).  
 general military aircraft components.  
 unfinished products for combat aircraft.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C202	2	£10,295

metal alloy cylindrical forms (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Italy  
 Philippines  
 Spain  
 United States of America

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military aero-engines, software for military aero-engines

2	P	components for airborne refuelling equipment, components for combat aircraft, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components
3	P	metal alloy cylindrical forms
4	P	metal alloy cylindrical forms
5	P	metal alloy cylindrical forms
6	P	software for aero gas turbine engines, software for FADEC systems, software for modelling engine flow, software for technology for engine flow path systems, software for technology for FADEC, software for technology for gas turbine engines, software for technology for propeller blades, software for technology for wind tunnel models, software for turbofan engines, software for turbojet engines, technology for engine flow path systems, technology for FADEC, technology for gas turbine engines, technology for metal alloy cylindrical forms, technology for metal alloy materials, technology for metal alloy tubes, technology for metal alloys in particulate form, technology for metal alloys in powder form, technology for metal-working manufacturing processes, technology for propeller blades, technology for turbofan engines, technology for turbojet engines, technology for wind tunnel models

### Country Footnotes

1. On 12 April 2011, the EU adopted additional sanctions on Iran in response to the deterioration of the human rights situation. Council Decision 2011/235/CFSP, as amended, includes restrictions on the supply of equipment which might be used for internal repression, as well as of monitoring and interception equipment.

All exports for this destination were approved in accordance with the sanctions in place.

2. The adoption of UN Security Council Resolution (UNSCR) 1929 on 9 June 2010 established a UN embargo on the supply of conventional weapons to Iran, in addition to restrictions introduced under the original UNSCR 1737 of 23 December 2006, which restricted any equipment that could contribute to the nuclear capability of Iran. EU Council Decision 2010/413/CFSP of 26 July 2010 (as amended) and EU Council Regulation 267/2012 (as amended) includes additional measures that, inter-alia, an embargo on imports of Iranian crude oil, natural gas, and petroleum products, trade in precious and raw metals, diamonds, Iranian banknotes and coinage to the Central Bank of Iran, naval equipment and technology for ship-building, and on certain software for integrating industrial processes. There is currently one exemption to the arms embargo, for the export of non-combat vehicles with ballistic protection intended solely for protective use of EU and Member States personnel.

EU counter-proliferation sanctions currently in force are set out in Council Decision 2010/413/CFSP, as amended. This Decision embargoes the supply of arms and equipment that could contribute to the nuclear capability of Iran, nearly all Dual-Use equipment and equipment for certain sectors of the oil and natural gas industries.

All exports for this destination were approved in accordance with the sanctions in place.

### Case & goods Footnotes

1. Licence granted for civilian / commercial end use.

## Iraq

#### Issued

all-wheel drive vehicles with ballistic protection (3 licences).  
 artillery ammunition.  
 body armour.  
 components for artillery ammunition.  
 components for body armour.  
 components for military helicopters.  
 grenade launchers.  
 gun mountings.  
 machine guns (14).  
 military helicopters.  
 military helmets.  
 mortar bombs.  
 promoting the supply of anti-aircraft ammunition.  
 promoting the supply of anti-aircraft guns.  
 promoting the supply of artillery ammunition (2 licences).  
 promoting the supply of assault rifles (100000).  
 promoting the supply of assault rifles.  
 promoting the supply of components for artillery ammunition.  
 promoting the supply of components for machine guns.  
 promoting the supply of equipment for the use of military support vehicles.

promoting the supply of hand grenades (2 licences).  
 promoting the supply of heavy machine guns.  
 promoting the supply of launching/handling/control equipment for missiles.  
 promoting the supply of launching/handling/control equipment for munitions.  
 promoting the supply of launching/handling/control equipment for rockets.  
 promoting the supply of machine guns (3).  
 promoting the supply of machine guns (1200).  
 promoting the supply of military helmets.  
 promoting the supply of military support vehicles.  
 promoting the supply of military training equipment.  
 promoting the supply of mortar bombs (2 licences).  
 promoting the supply of munitions/ordnance detection/disposal equipment.  
 promoting the supply of NBC protective/defensive equipment (2 licences).  
 promoting the supply of pistols.  
 promoting the supply of small arms ammunition (2 licences).  
 promoting the supply of sniper rifles (1000).  
 promoting the supply of surface launched rockets (2 licences).  
 promoting the supply of surface-to-surface missiles.  
 promoting the supply of tanks.  
 promoting the supply of weapon cleaning equipment.  
 sniper rifles (1).

## Country Footnotes

1. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq to serve the purposes of UNSCR 1546 (2004).

All exports for this destination were approved in accordance with the sanctions in place.

## Case & goods Footnotes

1. Licence granted for armed forces end use.
2. Licence granted for government end use.
3. Licence granted for civilian / commercial end use.
4. Licence granted for Diplomatic missions.
5. Licence granted for accessories / spare parts for Navy end use.
6. Licence granted for explosive detection / disposal purposes. For civilian / commercial end use.
7. Licence granted for end use by a International Organisation.
8. Licence granted for cryptographic equipment for civilian / commercial end use.

## Ireland

## Processing Statistics (excluding amendments)

Median processing time SIELs	22 days
% and number of SIELs completed in 20 working days	25% (1)
% and number of SIELs completed in 60 working days	100% (4)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	165 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	0% (0)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	4	£30,887
Total	4	£30,887

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A007	1	£2,187
5A002	1	£1,360
6A006	1	£12,000
7A103	1	£15,340

T guidance/navigation equipment.  
information security equipment.  
magnetometers.  
non-military firing sets.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 1]

2	P	heading sensors for hydrophone arrays, marine acoustic projectors, towed hydrophone arrays, underwater cable hydrophone arrays
---	---	--

### Country Footnotes

1. UN Security Council resolution 1572 of 15 November 2004 established an embargo on the supply of arms and related material to the Ivory Coast. The embargo was amended by Resolutions 1946 (2010) and 2045 (2012), and was most recently renewed through UNSCR 2101 (2013).

EU Restrictions currently in force with respect to the Ivory Coast are set out in Council Decision 2010/656/CFSP, as amended; these include an embargo on the provision of arms and related material, as well as of equipment that might be used for internal repression.

All exports for this destination were approved in accordance with the sanctions in place.

### Case & goods Footnotes

1. Licence granted for cryptographic equipment for civilian / commercial end use.

## Jamaica

5A002	1	£6,980

information security equipment.

### Country Footnotes

1. UNSCR 2128 (2013) currently prohibits the supply, sale or transfer of arms and related materiel to all non-governmental entities and individuals operating in Liberia. There are exemptions to the embargo for supply of non-lethal equipment intended solely for humanitarian or protective end uses, as well as for equipment for support of or use by the UN peacekeeping mission in Liberia (UNMIL). The EU implement the UN resolutions through Council Decision 2010/129/CFSP and Council Regulation (EU) No 234/2004, as amended.

All exports for this destination were approved in accordance with the sanctions in place.

### Country Footnotes

- UN Security Council Resolution 1970 of 26 February 2011 established an embargo on the supply of arms and related material to Libya. The embargo was amended by Resolutions 2009 (2011) and 2095 (2013). Exemptions exist, with approval from the UN Sanctions Committee, for supplies of non-lethal military equipment and protective clothing for use by United Nations personnel, representatives of the media and humanitarian and development workers. Arms and related material intended solely for security or disarmament assistance to the Libyan government are also subject to exemption criteria.

EU Council Decision 2011/137/CFSP, as amended, restricts the provision of arms and related material; as well as of equipment that might be used for internal repression. Exemptions are in place for internal repression equipment intended solely for humanitarian or protective use, and for temporary export of protective clothing for use by United Nations and EU personnel, representatives of the media and humanitarian and development workers.

All exports for this destination must be in accordance with the sanctions in place.

### Case & goods Footnotes

- Licence granted for accessories / spare parts for civilian / commercial end use.
- Licence granted for cryptographic equipment for civilian / commercial end use.

### SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£20,000
Total	1	£20,000

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A003	1	£20,000

imaging cameras.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary

1	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 1]
2	P	heading sensors for hydrophone arrays, marine acoustic projectors, towed hydrophone arrays, underwater cable hydrophone arrays

#### OITCLs

Source	Issued	Refused	Revoked
Brazil, Brunei, Egypt, Hong Kong Special Administrative Region, India, Madagascar, Malaysia, Maldives, Mauritius, Mexico, Oman, Philippines, Qatar, Seychelles, Singapore, South Africa, Sri Lanka, Tanzania, Thailand	1	0	0
Comoros, Djibouti, Egypt, Ghana, Kenya, Madagascar, Malaysia, Maldives, Mauritius, Oman, South Africa, Sri Lanka, Tanzania, United Arab Emirates, United Arab Emirates, Vessel and/or Platform in International Waters	1	0	0
Djibouti, Egypt, Kenya, Madagascar, Malaysia, Mauritius, Oman, South Africa, Sri Lanka, United Arab Emirates	1	0	0

#### Issued

assault rifles (3 licences).  
 body armour (3 licences).  
 bomb suits.  
 components for assault rifles (3 licences).  
 components for body armour (2 licences).  
 components for rifles.  
 components for sporting guns (2 licences).  
 military helmets (3 licences).  
 military image intensifier equipment.  
 rifles.  
 small arms ammunition (3 licences).  
 sporting guns (2 licences).  
 weapon night sights.  
 weapon sights (2 licences).

#### Case & goods Footnotes

1. Licence granted for cryptographic equipment for civilian / commercial end use.

## Malawi

 rifles.  
 small arms ammunition (4 licences).  
 sporting guns (3 licences).  
 weapon night sights.  
 weapon sights (2 licences).

## Case & goods Footnotes

1. Licence granted for cryptographic equipment for civilian / commercial end use.

## Mexico

### Processing Statistics (excluding amendments)

Median processing time SIELs	20 days
% and number of SIELs completed in 20 working days	50% (9)
% and number of SIELs completed in 60 working days	100% (18)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time SITCLs	17 days
% and number of SITCLs completed in 20 working days	100% (1)
% and number of SITCLs completed in 60 working days	100% (1)
% [as a % of all SITCL cases processed] and number of SITCLs refused	0% (0)

Median processing time OIELs	59 days
% and number of OIELs completed in 20 working days	13% (1)
% and number of OIELs completed in 60 working days	50% (4)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

Median processing time OITCLs	108 days
% and number of OITCLs completed in 20 working days	0% (0)
% and number of OITCLs completed in 60 working days	0% (0)
% [as a % of all OITCLs cases processed] and number of OITCLs refused	0% (0)

### **SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)**

#### **Issued**

Types of goods on licence	No. of licences	Value
Military	4	£155,572,192
Non-military	7	£959,203
Total	11	£156,531,395

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£204,000
ML10	1	£155,000,000
ML16	1	£360,000
ML18	1	£8,192

T ballistic test equipment.  
military support aircraft.  
sporting guns (550) [See footnote 2].  
unfinished products for military aero-engines [See footnote 1].

#### **Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
1C351	1	£4,927
2B001	1	£518,142
2B230	1	£15,035
2D002	1	£63,589
2E201	1	£0
3A225	1	£264,160
7A002	1	£13,350
9E003	2	£80,000

frequency changers.  
gyroscopes.  
machine tools.  
numerical control software.  
pressure transducers.  
software for machine tools.  
technology for gas turbine engines (2 licences).  
technology for machine tools.  
toxins.

### **SIELs - Incorporation**

#### **Issued**

Types of goods on licence	No. of licences	Value
Military	2	£1,358,017
Total	2	£1,358,017

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£19,950
ML16	1	£1,338,067

general military vehicle components.  
unfinished products for military aero-engines.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Czech Republic  
France  
Israel  
Italy  
Poland  
Taiwan  
United States of America

#### **OIELs (excluding Other OIELs)**

## Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military aero-engines, software for military aero-engines
2	P	components for corrosion resistant chemical manufacturing equipment, corrosion resistant chemical manufacturing equipment
3	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 3]
4	P	military aero-engines
5	P	heading sensors for hydrophone arrays, marine acoustic projectors, towed hydrophone arrays, underwater cable hydrophone arrays

## OITCLs

Source	Issued	Refused	Revoked
Brazil, Brunei, Egypt, Hong Kong Special Administrative Region, India, Madagascar, Malaysia, Maldives, Mauritius, Mexico, Oman, Philippines, Qatar, Seychelles, Singapore, South Africa, Sri Lanka, Tanzania, Thailand	1	0	0

## Issued

assault rifles.  
 body armour.  
 bomb suits.  
 components for assault rifles.  
 components for rifles.  
 components for sporting guns.  
 military helmets.  
 rifles.  
 small arms ammunition.  
 sporting guns.  
 weapon night sights.  
 weapon sights.

## Case & goods Footnotes

1. Licence granted for civilian / commercial end use.
2. Licence granted for sporting / hunting purposes for civilian / commercial end use.
3. Licence granted for cryptographic equipment for civilian / commercial end use.

## Micronesia

---------------------------	-----------------	-------

Non-military	1	£509,055
Total	1	£509,055

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
7A003	1	£74,160
8A002	1	£434,895

inertial equipment.  
submersible equipment.

#### OIELs (excluding Other OIELs)

##### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	acoustic seabed survey equipment, components for guidance/navigation equipment, components for inertial equipment, components for marine position fixing equipment, guidance/navigation equipment, inertial equipment, marine position fixing equipment, submersible vehicles
2	P	military aero-engines

#### Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

### Country Footnotes

1. Restrictions currently in force with respect to Guinea (Conakry) are set out in Council Decision 2010/638/CFSP, as amended; these include an embargo on the provision of arms and related material, as well as of equipment that might be used for internal repression as specified in Annex I to Council Regulation (EU) No 1284/2009, with exemptions for certain humanitarian, protective and UN or EU end uses.

Amendments to Council Decision 2010/638/CFSP in 2011 and 2012 introduces further exemptions for the supply of non-lethal equipment to be used for maintaining public order by the police and gendarmerie in Guinea, for the return of non-combat helicopters to Guinea, and for the provision of explosives and related equipment intended solely for civilian use in mining and infrastructure investments. In April 2014, Council Decision 2014/213/CFSP lifted the arms embargo though measures against individuals remain in place.

All exports for this destination were approved in accordance with the sanctions in place.

military helmets.

#### Country Footnotes

1. UN Security Council Resolution 2142 (2014) continues the embargo on the supply of arms and related material. The embargo no longer applies to military equipment intended solely for the development of the

Security Forces of the Federal Government of Somalia, providing the UN Sanctions Committee is notified in advance.

Exemptions to the embargo authorise supplies of non-lethal military equipment intended solely for humanitarian or protective use, weapons and military equipment for the support or use by UN personnel or strategic partners of AMISOM, supplies for use by UN member states to combat piracy and supplies intended for the development of Somali security sector institutions.

From 11 July 2014 the EU implements this UN sanction regime via Council Decision 2010/231/CFSP and Council Regulation (EU) No 356/2010, as amended.

All exports for this destination were approved in accordance with the sanctions in place.

### Case & goods Footnotes

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	20	£480,952
Total	20	£480,952

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	7	£90,495
ML5	1	£2,308
ML6	2	£96,240
ML10	5	£81,193
ML11	5	£98,716
ML13	1	£112,000

components for aircraft missile protection systems.  
 components for attack alerting/warning equipment.  
 components for body armour.  
 components for bombs (3 licences).  
 components for combat aircraft (3 licences).  
 components for combat helicopters.  
 components for electronic warfare equipment (5 licences).  
 components for military combat vehicles.  
 components for military helicopters.  
 components for surface-to-air missiles (3 licences).  
 general military vehicle components.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Algeria  
 Egypt  
 Gabon  
 India

New Zealand  
 Saudi Arabia  
 South Korea  
 Sweden  
 United Arab Emirates  
 United States of America  
 Vietnam

**SIELs - Transshipment**

**Issued**

Types of goods on licence	No. of licences	Value
Military	1	£100,193
Total	1	£100,193

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry')As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value

## Country Footnotes

1. EU Council Decision 2014/449/CFSP separated existing joint measures concerning Sudan and South Sudan into distinct legal acts.

The measures embargo the provision of arms and related materiel to South Sudan, as well as assistance and services related to those items or to the provision, manufacture, maintenance and use of those items. Exemptions exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment and protective clothing for use by UN, AU, EU or IGAD personnel in crisis management and institution building programmes, non-combat vehicles intended for protective use by EU, UN, AU or IGAD personnel, and demining equipment.

The EU previously embargoed the provision of arms and related materiel to Sudan and South Sudan jointly in Council Decision 2011/423/CFSP.

All exports for this destination were approved in accordance with the sanctions in place.

## Case & goods Footnotes

#### SITCLs

Source	Issued	Refused	Revoked
China	0	1	0

#### Refused

promoting the supply of smoke/pyrotechnic ammunition.  
promoting the supply of tear gas/irritant ammunition.

#### Country Footnotes

1. UN Security Council resolution 1556 (2004) established an embargo on the supply of arms and related material to non-governmental entities in the Darfur region of Sudan; this was extended to include all individuals and entities in Darfur through Resolution 1591 (2005).

EU Council Decision 2011/423/CFSP, as amended, embargoed the provision of arms and related material to Sudan and South Sudan. EU Council Decision 2014/450/CFSP repealed Decision 2011/423/CFSP and separated the restrictive measures imposed on Sudan into a distinct legal instrument.

The measures embargo the provision of arms and related materiel to Sudan, as well as assistance and services related to those items or to the provision, manufacture, maintenance and use of those items. Exemptions exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment and protective clothing for use by UN, AU or EU personnel in crisis management and institution building programmes, non-combat vehicles intended for protective use by EU, UN, or AU, and demining equipment.

All exports for this destination were approved in accordance with the sanctions in place.

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£26,975
Total	1	£26,975

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A003	1	£26,975

imaging cameras.

The items being incorporated in this destination are ultimately destined for all or some of the following:

United States of America

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	metal alloy cylindrical forms
2	P	inertial equipment

- T accessories for military cameras/photographic equipment.  
ballistic test equipment.  
body armour [See footnote 5].  
components for air-to-surface missiles [See footnote 5].
- T components for attack alerting/warning equipment.  
components for ballistic test equipment.  
components for body armour [See footnote 5].  
components for combat helicopters (4 licences) [See footnotes 3, 5].  
components for combat naval vessels.  
components for electronic warfare equipment [See footnote 5].
- T components for electronic warfare equipment.  
components for fire control equipment [See footnote 5].  
components for launching/handling/control equipment for missiles (4 licences) [See footnotes 3, 5].  
components for military aircraft head-up/down displays.
- T components for military aircraft head-up/down displays.
- T components for military cameras/photographic equipment.  
components for military combat vehicles (5 licences) [See footnote 5].  
components for military communications equipment [See footnote 1].
- T components for military communications equipment.  
components for military electronic equipment [See footnote 5].
- T components for military electronic equipment.  
components for military guidance/navigation equipment [See footnote 5].  
components for military helicopters (2 licences) [See footnotes 1, 5].  
components for military infrared/thermal imaging equipment (2 licences) [See footnote 5].  
components for military radars (2 licences) [See footnotes 1, 10].  
components for military support aircraft (2 licences) [See footnote 5].
- T components for military support vehicles.  
components for multi-role missiles [See footnote 5].  
components for NBC protective/defensive equipment.  
components for rangefinding equipment (3 licences) [See footnotes 5, 6].

T components for small arms training equipment.  
 components for submarines.  
 components for surface-to-air missiles [See footnote 5].  
 components for surface-to-surface missiles [See footnote 6].  
 components for tanks (2 licences) [See footnotes 5, 6].  
 components for targeting equipment [See footnote 5].  
 components for torpedoes.  
 components for unmanned air vehicles (2 licences) [See footnotes 5, 7].  
 components for weapon control equipment (13 licences) [See footnotes 5, 6].  
 components for weapon control systems [See footnote 5].

T constructions for ballistic protection of military systems (2 licences).  
 decoying/countermeasure equipment (2 licences) [See footnote 2].  
 equipment for the use of ballistic test equipment.  
 equipment for the use of electronic warfare equipment [See footnote 5].

T equipment for the use of military communications equipment.

T general military vehicle components (2 licences).

T general naval vessel components.

T military aircraft head-up/down displays.

T military cameras/photographic equipment.

T military communications equipment.

T military electronic equipment [See footnote 1].

T military electronic equipment (2 licences).

T military guidance/navigation equipment [See footnote 5].  
 military helmets [See footnote 5].

T military infrared/thermal imaging equipment (2 licences).

T military support aircraft.

T munitions/ordnance detection/disposal equipment [See footnote 9].  
 NBC protective/defensive equipment.

T rangefinding equipment.

T small arms training equipment.

T software for decoying/countermeasure equipment [See footnote 5].  
 software for military communications equipment.

T software for targeting equipment.

T targeting equipment (2 licences).

T technology for decoying/countermeasure equipment (3 licences) [See footnotes 2, 5].

T technology for military communications equipment.  
 technology for military guidance/navigation equipment [See footnote 5].  
 technology for multi-role missiles [See footnote 5].

T technology for unmanned air vehicles.  
 unfinished products for combat aircraft [See footnote 5].  
 unfinished products for military combat vehicles [See footnote 5].  
 weapon control equipment [See footnote 5].

T weapon night sights.

T weapon sights (2 licences).

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	1	£130

accelerometers.  
 components for radio jamming equipment.

- components for telecommunications interception equipment.
- components for telecommunications jamming equipment.
- corrosion resistant chemical manufacturing equipment (10 licences).
- depleted uranium [See footnote 4].
- frequency changers (2 licences).
- imaging cameras (3 licences).
- T imaging cameras.
- inertial equipment (2 licences).
- T information security equipment (14 licences).
- laser radar equipment.
- radio jamming equipment.
- software for telecommunications interception equipment.
- software for telecommunications jamming equipment.
- sporting shotguns (182) [See footnote 8].
- technology for telecommunications interception equipment.
- telecommunications jamming equipment.
- thorium [See footnote 4].
- toxins (2 licences).
- T underwater sonar navigation systems.

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	13	£973,688
Total	13	£973,688

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	7	£417,786
ML7	1	£7,480
ML9	1	£2,936
ML10	3	£11,125
ML13	1	£534,360

- armoured plate [See footnote 5].
- components for combat aircraft [See footnote 5].
- components for military combat vehicles (4 licences) [See footnote 5].
- components for military helicopters (2 licences) [See footnote 5].
- components for naval electrical/electronic equipment [See footnote 5].
- general military vehicle components (3 licences) [See footnote 5].
- NBC protective/defensive equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

- Malaysia
- Saudi Arabia
- South Korea
- Thailand

#### OIELs (excluding Other OIELs)

## Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for airborne refuelling equipment, components for combat aircraft, components for combat naval vessels, components for military aero-engines, components for military support aircraft, components for naval communications equipment, components for naval engines, general naval vessel components
2	P	metal alloy cylindrical forms
3	P	metal alloy cylindrical forms
4	P	metal alloy cylindrical forms
5	P	components for anti-aircraft guns, components for launching/handling/control equipment for missiles, components for military guidance/navigation equipment, components for military radars [See footnote 3]
6	P	components for submarines
7	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 11]
8	P	military aero-engines
9	T	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 5]
10	P	weapon sights

## Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	equipment for the use of weapon sights, goods treated for signature suppression for military use, technology for equipment for the use of weapon sights, weapon night sights, weapon sight mounts
2	P	imaging cameras

components for combat aircraft (5 licences).  
components for combat helicopters (2 licences).  
components for command/control equipment for unmanned air vehicles (3 licences).  
components for decoying/countermeasure equipment.  
components for electronic warfare equipment (3 licences).  
components for equipment for the use of artillery.  
components for laser weapon systems.  
components for launching/handling/control equipment for missiles (2 licences).  
components for launching/handling/control equipment for munitions.  
components for machine guns (2 licences).  
components for military aero-engines (2 licences).  
components for military aircraft head-up/down displays (2 licences).  
components for military combat vehicles (4 licences).  
T components for military electronic equipment.  
components for military equipment for initiating explosives.  
components for military guidance/navigation equipment.  
components for military helicopters (3 licences).  
components for military image recording/processing equipment.  
components for military improvised explosive device decoying/detection/disposal/jamming equipment.  
components for military radars (2 licences).

components for military scenario simulation equipment (2 licences).  
 components for military support aircraft (17 licences).  
 components for military support vehicles.  
 components for military training aircraft (3 licences).  
 components for naval communications equipment.  
 components for pistols.  
 components for small arms ammunition.  
 components for sniper rifles.  
 components for sporting shotguns.  
 components for submarines.  
 components for surface-to-surface missiles (2 licences).  
 components for training small arms ammunition.  
 components for unmanned air vehicles (7 licences).  
 components for weapon night sights.  
 T electronic countermeasure equipment.  
 equipment for the production of combat helicopters.  
 equipment for the use of artillery.  
 equipment for the use of military improvised explosive device decoying/detection/disposal/jamming equipment.  
 equipment for the use of submarines.  
 explosives.  
 general military aircraft components (3 licences).  
 launching/ground support equipment for unmanned air vehicles.  
 machine guns (20).  
 military aero-engines (2 licences).  
 T military aero-engines.  
 T(P) military aero-engines.  
 military aircraft head-up/down displays (3 licences).  
 military combat vehicles (4 licences).  
 military communications equipment.  
 T military electronic equipment.  
 military engineer vehicles.  
 military equipment for initiating explosives.  
 T military equipment for initiating explosives.  
 military guidance/navigation equipment (2 licences).  
 T military guidance/navigation equipment.  
 military improvised explosive device decoying/detection/disposal/jamming equipment.  
 T military infrared/thermal imaging equipment.  
 military support vehicles (5 licences).  
 military trailers.  
 military training equipment.  
 T munitions/ordnance detection/disposal equipment.  
 NBC protective/defensive equipment (11 licences).  
 pistols (1) (2 licences).  
 sniper rifles (1).  
 sniper rifles (100).  
 sniper rifles (17350).  
 software enabling equipment to function as military electronic equipment.  
 software for determining the effects of weapons.  
 sporting guns (1).  
 sporting guns (2) (2 licences).  
 sporting guns (3).  
 sporting shotguns (2).  
 sporting shotguns (3).  
 submarines.  
 tanks.  
 T targeting equipment.  
 technology for avalanche control projectiles.  
 technology for command communications control and intelligence software.  
 technology for command/control equipment for unmanned air vehicles.  
 technology for launching/handling/control equipment for missiles.  
 T technology for military electronic equipment.  
 technology for military guidance/navigation equipment.  
 technology for sniper rifles.  
 technology for software for determining the effects of weapons.  
 technology for submarines.  
 technology for surface-to-surface missiles (2 licences).  
 technology for unmanned air vehicles (3 licences).  
 T training mortar bombs.  
 T unmanned air vehicles.

T weapon night sights (2 licences).  
T weapon sights.

### Country Footnotes

1. Restrictions currently in force with respect to Zimbabwe are set out in Council Decision 2011/101/CFSP, as amended; these include an embargo on the provision of arms and related material, as well as of equipment that might be used for internal repression.

All exports for this destination were approved in accordance with the sanctions in place.
