DASA Open Call for Innovation

The Government’s Defence and Security Accelerator (DASA) exists to find and exploit innovations which support the defence and security of the UK faster and more effectively, and to generate economic value for the UK.

We want to hear your innovative ideas on how we can improve defence and security. That could be a concept, product or service, at any stage of development. We can provide funding or other support to develop your idea.
Why work with us?

A straightforward way to bring your idea to UK Defence and Security customers

• simple application process with routes to funding
• clear ownership of IP
• networking events
• access to end users
• support from Innovation Partners
