

## BSBT supported groups – February 2018

The Home Office’s Building a Stronger Britain Together (BSBT) programme supports civil society and community organisations who work to create more resilient communities, stand up to extremism in all its forms and offer vulnerable individuals a positive alternative, regardless of race, faith, sexuality, age, and gender. The programme allows organisations that share these aims to bid for in-kind support and grant funding for specific programmes that deliver goals set out in the Counter Extremism Strategy.

We are delighted that the following 124 groups have been successful so far. These groups, along with the region(s) they are currently operating in are listed below.

1	Accord Housing Association	West Midlands
