

## **MOD and Armed Forces Reputational Polling, Summer 2017 Survey Topline Findings (27-07-17)**

- This topline presents the findings from public opinion research conducted by ICM on behalf of the Ministry of Defence.
- ICM interviewed a representative sample of 1,002 GB adults aged 16+ by telephone (CATI).
- Fieldwork took place between 14<sup>th</sup> June and 26<sup>th</sup> July 2017.
- To ensure a representative sample, fieldwork quotas were set. At the analysis stage, data has been weighted to the known profile of GB adults aged 16+.
- A sample size of 1,002 produces data accurate to plus or minus (+/-) 3 percentage points at the 95 per cent confidence level.
- Results are based on all respondents (1,002) unless otherwise stated.
- An asterisk (\*) denotes a value that is greater than zero but less than one.
- Where results do not sum to 100%, this may be due to multiple responses, computer rounding or the exclusion of don't knows/not stated.
- Conducted in accordance with ISO 20252 and ISO 27001, the international standards for market research and information security management.
