

Introduction

This Customer Notice is to inform customers that Standard Waste Loading Plans (SWLPs) 18, 19 and 20, Palletised Drums on a Curtain Sider Trailer have been issued to the LLWR External Website.

SWLP 20

SWLP 20 – ‘Palletised Drums Up to 300kg on Curtain Sider Trailer’ has been up issued to revision ‘E’ following a number of discussions with Hauliers on the LLWR framework and also LFE received from customers to improve the SWLP going forward.

Please check that any pending consignments are compliant with the new version and inform LLWR at the earliest convenience if this is not the case.

SWLPs 18 and 19

SWLP 18 - Palletised Drums Up to 100kg on Curtain Sider Trailer

SWLP 19 - Palletised Drums Up to 200kg on Curtain Sider Trailer

SWLPs 18 and 19 have been issued to the LLWR External Website for customers to use. Both WLPs follow the same principals as SWLP 20 but are for reduced drum weights.

The two SWLPs were requested for production following a review of documents submitted by customers which indicated a high number of drums consigned were well below the 300kg (the maximum single drum weight specified in SWLP 20) and was seen as being too onerous for customers with regards to strapping arrangements when the drum weights were taken into consideration.

If you have any consignments which are currently loaded in accordance with LLWR/SWLP/0020/B please contact the Packaging Services Technical Team at transportandlogistics@llwrsite.com or call on 019467 70304 and we will endeavour to help to solve any issues.

Further Information and Questions

If you require any further information regarding Waste Loading Plans, please contact the Packaging Services Technical Team at transportandlogistics@llwrsite.com or call on 019467 70304.
