

Introduction

This Customer Notice is to request that all Customers send a copy of each of their Environmental Permits or RSA Authorisations for each of their sites to LLW Respository Ltd.

Environmental Permits

To allow the treatment or disposal of LLW, our Customers must hold a valid Environmental Permit (RSA Authorisation in Scotland) which is obtained from the relevant environment agency (Environment Agency, Natural Resources Wales or the Scottish Environment Protection Agency) and issued under the relevant legislation.

The Environmental Permit and/or RSA Authorisation states the requirements that Customers must fulfil in order to transfer LLW for treatment or disposal. The Environmental Permit, RSA Authorisation and/or variations to those are likely to specify limits on both radioactivity concentration of the waste and the total radioactivity that can be transferred for treatment and disposal.

LLW Respository Ltd requires an up to date copy of such Environmental Permits or RSA Authorisations to keep on record. We request that our Customers submit a copy of their current Environmental Permits and/or RSA Authorisations for each of their sites to the National Waste Programme Office inbox: nwp@llwrsite.com by the 21st August 2017.

Each Environmental Permit and/or RSA Authorisation received will be reviewed by the National Waste Programme Office to determine any trends or issues that have the potential to restrict the optimisation of low level waste management across the UK.

Further Information and Questions

If you require any further information or have any queries relating to this Customer Notice, please send an e-mail to: nwp@llwrsite.com or call the National Waste Programme Office on 019467 22741
