S009

Badger - 2TP
RTR

He was heading towards Shafi and we saw about 9-10 men pushing a trolley. Mr Haloran decided to stop and investigate, when we stopped all the men ran. My self and S008 GAVE chase and caught 3 and knelt them down at the side of the land rover. Mr Haloran took one of them and the ~~operator~~ ^{interceptor} and asked what they was, in the kart... he found out it was Ammo and took the bloke back to the land rover, the man then made a run for it, me and S008 gave chase, I was in front and fired a warning shot, the man never stopped so we continued to chase. The man ran into a small village and into a house, we followed and a women in the house said he went out the back, we searched the house and found him in an outhouse of some kind we dragged him out and tried to get him on his knees but he put up a bit of a fight, I prodded him with my barrel and he still never went down I then but stroked in the right cheek bone, he still never went down, he was very agressive during this and then S008 took out his CO2H, (he gave him alot of warnings and he knew what we wanted him to do) S008 hit him in the knees about two or 3 times he then went down and we tried to hank-cuff him he then got very violent towards me and S008 he Grabed my rifle by the barrel and tried to pull it off me (my sling was not fitted) and pushed S008 to the ground I pulled my rifle free from him and took a shot, my rifle never fired and he was still shaking and Grabbing S008

S008 so I cocked and pulled my trigger again and the rifle fired, shooting him below the left rib. He then went down and went quickly into shock. S008 then said "You idiot, what you do that for" and then went to get some help. I was in the house on my own and everyone was screaming and running, S008 had gone back to the main road to get the rover. I was so scared, on my own trying to control the man's friends and family, I kept them away from the man by threatening them. I was still in the house on my own and then someone came and helped, shortly after the rover came and we put the man on the back. We then took the man straight to the hospital and got him on a stretcher. We then headed towards 33F location and when there unloaded and sat down, had a breather and some water, then S008 cautioned me, read me my rights... on the way to Riverside S008 S008 said I did well and not to worry, I was going to be interviewed by the S.I.B and was then brought to HQ.
