

Scope of EC type examination and management certification for declarations of conformity

	EC type examination certification	Declaration of conformity management certification
NAWI	Weighing instruments scope of application (Annex II, 2)	Conformity assessment module
Annex II (1)	Retail scales	EC declaration of type conformity (guarantee of production quality) EC unit verification
	- single weighing range	
	- multiple weighing ranges	
	- multi-interval instruments	
	- price labelling instrument	
	Industrial scales	
	- weighbridges	
	- crane scales	
	- pallet weighers	
	- fork lift trucks	
	Indicators	
MID	Measuring instruments scope of application (Annex B)	Conformity assessment module
Annex 001	Water meters	D and H1
	Cold water - residential, commercial, light industrial	
	Warm water - residential, commercial, light industrial	
Annex 002	Gas meters and volume conversion devices	(Scope of D and H1 to be included in the future)
Annex 003	Active electrical energy meters	(Scope of D and H1 to be included in the future)
Annex 004	Heat Meters	(Scope of D and H1 to be included in the future)
	Complete meter - residential, commercial, light and industrial	
	Sub-assemblies - residential, commercial, light industrial	
	- Flow sensor	
	- Temperature sensor	
	- Calculator	

Scope of EC type examination and management certification for declarations of conformity

Annex 005	Measuring instruments for measurement of quantities of liquids other than water	D and H1
	Fuel dispensers (not for liquefied gases)	
	Systems on pipelines	
	Systems for road tankers	
	Systems for (un)loading ships and road and rail tankers	
	Systems for milk	
	Systems for refuelling aircraft	
	Systems for liquefied gases	
	Systems for cryogenic liquids	
Annex 006	Automatic weighing instruments -	
	mechanical	D, D1, E, E1, G and H1
	electromechanical	D, E, G and H1
	electronic systems or systems containing software	D, G and H1
Ch II	Automatic catchweighers (including checkweighers)	
Ch III	Automatic gravimetric filling instruments	
Ch IV	Discontinuous totalisers	
Ch V	Continuous totalisers (belt weighers)	
Ch VI	Automatic rail-weighbridges	
Annex 007	Taximeters	D and H1
Annex 008	Material measures	
Ch I	Material measures of length	D, D1, G and H1
Ch II	Capacity serving measures	D, D1, E, E1, G and H1
Annex 009	Dimensional measuring instruments (mechanical or electromechanical systems)	
Ch II	Length measuring instruments	D, D1, E, E1, G and H1
Ch IV	Multidimensional measuring instruments	D, G and H1
