

Pathogenic *Vibrio* Scheme – Preliminary Intended Results Notification

These results are provided for guidance and are determined from the examinations undertaken during quality control testing of the samples. The enumeration results may show minor variations from the final results, which are calculated from the participants' consensus results, and included in the distribution report.

Distribution: **V058** Samples: **V0156 and V0157**

Intended results:

Sample No	<i>V. parahaemolyticus</i> (detected / not detected)	<i>V. parahaemolyticus</i> (cfu g ⁻¹)	<i>V. cholerae</i> (detected / not detected)	<i>V. vulnificus</i> (detected / not detected)
V0156	Detected	4.2x10 ³	Detected	Not detected
V0157	Detected	8.0x10 ⁴	Not detected	Detected

Sample contents:

V0156	<i>Vibrio parahaemolyticus</i> , <i>Vibrio cholerae</i> , <i>Bacillus subtilis</i> and <i>Staphylococcus saprophyticus</i>
V0157	<i>Vibrio parahaemolyticus</i> , <i>Vibrio vulnificus</i> , <i>Vibrio metschnikovii</i> and <i>Escherichia coli</i>

Laboratory identification numbers of participants who did not return results this distribution:

1267, 1486, 1989 and 2557

The distribution report providing details of your individual performance and an analysis of all participants' results will be dispatched within three weeks. The report may also include sample specific comments.

Repeat samples are not available for this distribution due to suspension of our services from April 2020 onwards.

We will confirm the next distribution of the Pathogenic *Vibrio* Scheme.

If you require any technical advice or wish to make comments or suggestions relating to the scheme please contact us.
