

How you carry out MOT tests is changing

The way MOT testing works will change on 20 May 2018.

DVSA has published a range of guides to help you prepare for the changes.

Find out more at:

www.gov.uk/dvsa/mot-changes-2018

New MOT defect categories

From 20 May 2018, there will be 3 new defect categories:

- dangerous
- major
- minor

You must record all 3 types of defects.

You'll still be able to issue advisories for things the driver needs to monitor and might need to repair later.
