- e. One journey log must be completed for each consignment i.e. multiple pick-ups or drop-offs are not permitted on the same journey log.

This is particularly important for calves, and for horses less than 24 months (please give their age in months).
- g. Box 6.1 If the journey includes a rest period at a control post please include the approval reference of the control post.

- n. The 'keeper' should make the checks indicated to ensure compliance with Regulation EC 1/2005. If any non-compliances are found the keeper should complete the anomaly report (Section 5) and return to the address provided.
- o. The 'keeper' is also required to confirm the total number of animals that arrive at the destination, including the numbers that are dead or unfit.
- p. The 'keeper' is required to retain the journey log (except section 4) for three years. The transporter should retain a copy of the whole form, including the completed section 3.
- q. If animals are exported to a third country the functions of the 'keeper' at the place of destination are to be carried out by the official veterinarian at the exit point.

#### **Section 4: Actual Journey**

- r. During the journey this section should be used to record details of the actual journey undertaken at each stage.
- s. The transporter is required to sign Section 12 to declare it is a correct record of the journey. If multiple transporters are involved in the journey then each driver/transporter should sign the relevant section, indicating which stage(s) of the journey they are responsible for.
