(2) The Board must only reactivate an agreement under this paragraph with effect from—
   (a) the date which falls on the second anniversary of the date on which the suspension of that agreement took effect; or
   (b) subsequently, on a date which falls every two years after the date specified in paragraph (a) during the duration of the integrated services provider contract.

(3) The Board must not reactivate an agreement which is of time limited duration where that agreement is to cease to have effect on a date which falls earlier than any of the dates specified in sub-paragraph (2)(a) or (b).

(4) Subject to paragraph 8(7), the Board may reactivate a suspended agreement as a general medical services contract where, in respect of that agreement, the right to a general medical services contract under regulation 32 exists.

Notice of intention to reactivate a personal medical services agreement

7.—(1) A notice under paragraph 6(1) must be given to the Board by the contractor at least six months before the date on which the proposed reactivation of the agreement is to take effect.

(2) A notice under paragraph 6(1) must—
   (a) state that the contractor wishes to reactivate the agreement and specify the date on which the contractor would like the proposed reactivation to take effect which must be a date which—
      (i) falls at least six months after the date on which the notice was given, and
      (ii) immediately follows the date on which the contractor intends to cease performing or, as the case may be, providing primary medical services under the relevant integrated services provider contract;
   (b) give the name of each person who is a party to the agreement who intends to resume the provision of primary medical services under the agreement;
   (c) confirm that the contractor has agreed, as appropriate, to the reactivation of the agreement; and
   (d) if the contractor wishes to reactivate the agreement as a general medical services contract, state that this is the case and confirm that the parties to the agreement have agreed, as appropriate, to the reactivation of the agreement as a general medical services contract.
Reactivation of a personal medical services agreement: general

8.—(1) The reactivation of an agreement is effective on the date which falls immediately after the date on which the contractor ceases performing or, as the case may be, providing primary medical services under an integrated services provider contract which must be—
   (a) the date specified in the notice given under paragraph 6(1); or
   (b) such later date as the Board may approve in the circumstances of a particular case.

(2) The Board must not reactivate an agreement unless the conditions specified in sub-paragraph (3) are met.

(3) The conditions specified in this sub-paragraph are that—
   (a) the contractor remains eligible to hold an agreement in accordance with the conditions set out in regulation 5 at the date on which the reactivation of the agreement is to take effect; and
   (b) the Board is satisfied that, during the period in which the contractor’s agreement was suspended, the contractor has not acted or failed to act in a manner that gives rise to the Board’s right to terminate the agreement under any of the provisions of Part 8 of Schedule 2.

(4) Where the reactivation of the contractor’s agreement is intended to take effect on the second anniversary of the date on which the suspension of that agreement took effect, the Board must notify in writing each person who resides in the contractor’s former practice area and who is on the list of registered service users of the integrated services provider that—
   (a) the contractor intends to resume the provision of primary medical services under the agreement in respect of people who reside in the contractor’s former practice area from the date specified in the notice; and
   (b) if the person was on the contractor’s list of registered patients immediately prior to the date on which the suspension of the contractor’s agreement took effect, the person will transfer onto the contractor’s list of registered patients from the date specified in the notice unless the person decides to remain registered with the integrated services provider or registers with another provider of primary medical services before that date.

(5) Where the reactivation of the contractor’s agreement is intended to take effect after the second anniversary of the date on which the suspension of that agreement took effect, the Board must notify in writing each person who resides in the contractor’s former practice area and who is on the list of registered service users of the integrated services provider that—
   (a) the contractor intends to resume the provision of primary medical services under the agreement in respect of people who reside in the contractor’s former practice area from the date specified in the notice; and
   (b) the person will remain on the list of registered service users of the integrated services provider from the date specified in the notice unless the person decides to register with the contractor or with another provider of primary medical services before that date.

(6) Where a suspended agreement is reactivated by the Board, the terms of that agreement which are to apply are those terms which are effective at the date on which the reactivation takes effect, subject to any variation of those terms which may be agreed between the contractor and the Board, including in respect of the right to a general medical services contract under regulation 32.

(7) The Board must not reactivate a suspended agreement as a general medical services contract unless—
   (a) the parties to that agreement have agreed, as appropriate, to the reactivation of that agreement as a general medical services contract; and
(b) the Board is satisfied that—

(i) during the period in which the contractor’s agreement was suspended, the contractor has not acted or failed to act in a manner that gives rise to the Board’s right to terminate the agreement under any of the provisions of Part 8 of Schedule 2; and

(ii) the parties to that agreement are eligible to hold a general medical services contract in accordance with the conditions set out in regulations 5 and 6 of the General Medical Services Contracts Regulations at the date on which the reactivation of the agreement as a general medical services contract is to take effect.

**Termination, expiry or variation of an integrated services provider contract**

9.—(1) Where, at any time, an integrated services provider contract terminates or expires or is varied so that it no longer requires the integrated services provider to provide primary medical services to people who reside in a contractor’s former practice area—

(a) the Board must, subject to the conditions specified in paragraph 8(3), reactivate the contractor’s agreement with effect from the date which falls immediately after the date on which the integrated services provider contract terminated or, as the case may be, expired or was varied; and

(b) the contractor must, with effect from that date, resume the provision of primary medical services under the agreement to people who reside in the contractor’s former practice area.

(2) Where an integrated services provider contract terminates or expires or is varied as described in sub-paragraph (1), the Board must notify in writing each person who resides in the contractor’s former practice area and who is on the list of registered service users of the integrated services provider immediately before the date on which the integrated services provider contract terminated or, as the case may be, expired or was varied that—

(a) the contractor has resumed providing primary medical services under the agreement from a specified date in respect of people who reside in the contractor’s former practice area; and

(b) the person will transfer onto the contractor’s list of registered patients from the date specified unless the person decides to register with another provider of primary medical services before that date.”.

**PART 11**

**TRANSITIONAL PROVISION**

**Transitional provision**

36. Where, immediately before 1st April 2019, a complaint falls to be handled under regulation 6(1A) of the Local Authority Social Services and National Health Service Complaints (England) Regulations 2009(a), those Regulations continue to have effect in relation to that complaint as if regulation 10(3) had not been made.

Signed by the authority of the Secretary of State for Health and Social Care

*Philip Dunne*

Parliamentary Under Secretary of State

Department of Health and Social Care

These Regulations amend secondary legislation relating to the National Health Service and the regulation of the medical professions which is necessary as a consequence of the implementation of integrated health care services.

Part 2 amends the National Health Service (Travel Expenses and Remission of Charges) Regulations 2003 (S.I. 2003/2382). The amendments reflect the changes relating to care commissioning and provision. The essential position, already reflected in those Regulations, that travel expenses and the remission of certain charges is not available in the context of primary medical services is maintained. But the amendments also reflect the introduction of new contractual arrangements for the provision of integrated health and social care services and the need to carry this essential position forward as the new arrangements come into being. A clarificatory amendment is also made in relation to sub-contracting.

Part 3 amends the Local Authority Social Services and National Health Service Complaints (England) Regulations 2009 (S.I.2009/309). The amendments ensure that requirements relating to the handling of complaints about health service provision apply to a greater range of persons and bodies in order to reflect new models of health service provision. The amendments also ensure that requirements relating to the handling of complaints by local authorities about health or social care provision apply in a broader range of circumstances.

Part 4 amends the Medical Profession (Responsible Officers) Regulations 2010 (S.I. 2010/2841). The amendments insert a new definition of “an integrated services provider” which is consequential on the changes made to designated bodies in the Schedule to those Regulations. Further definitions are also added to reflect the introduction of new contractual mechanisms for the delivery of a range of integrated health and other services, including public health and social care services, by an integrated services provider. It also inserts a new provision that enables an integrated services provider to be the designated body for medical practitioners who are employed by it or provide to it health services other than primary medical services, under or pursuant to an integrated services provider contract.

Part 5 amends the National Health Service Commissioning Board and Clinical Commissioning Groups (Responsibilities and Standing Rules) Regulations 2012 (S.I. 2012/2996). The amendments insert a new definition of “integrated services provider contract”, amend the definition of “commissioning contract” so that it includes such a contract, and excludes such a contract from the definition of “primary care contract”.

Part 6 amends the National Health Service (Performers Lists) (England) Regulations (S.I. 2013/335). The amendments insert definitions of an “APMS contract”, “integrated services provider contract” and “primary medical services” into those Regulations to include the new contractual arrangements for the delivery of primary medical services under an integrated services provider contract.

Part 7 amends the National Health Service (Licence Exemptions, etc.) Regulations 2013 (S.I. 2013/2677). The amendments amend the applicable turnover exemption in those Regulations by prescribing a new prospective assessment of applicable turnover. Providers of NHS health care services must estimate their prospective applicable turnover on the date they started providing NHS services, and every month thereafter, for the purpose of determining whether their applicable turnover is reasonably expected to be less than the £10 million exemption threshold in those Regulations. The new test requires providers that estimate that their applicable turnover will be less than the £10 million threshold to consider if any contracts they still hold previously required them to be licensed.

Part 8 amends the National Health Service (Charges for Drugs and Appliances) Regulations 2015 (S.I. 2015/570). The amendments make it clear that, going forward, arrangements for the provision of primary medical services under section 83(2) of the 2006 Act, one of the three contractual routes to providing primary medical services, will no longer simply be made by
providers known as Alternative Medical Services Providers, and that section 83(2) arrangements may no longer directly involve the National Health Service Board as the commissioner of the services. The amendments now anticipate NHS services being commissioned and provided under new contracts known as integrated services provider contracts. However, the underlying position of the circumstances in which prescription charges are levied or exemptions from charging may be obtained is unaltered.

Parts 9 and 10 amend respectively the National Health Service (General Medical Services Contracts) Regulations 2015 (S.I. 2015/1862) and the National Health Service (Personal Medical Services Agreements) Regulations 2015 (S.I. 2015/1879) which make provision in respect of the services provided under a general medical services contract and a personal medical services agreement made pursuant to Part 4 of the 2006 Act (medical services).

In particular, the amendments make provision for a GP practice which is a holder of a general medical services contract or a personal medical services agreement to suspend the obligation to provide primary medical services under that contract or agreement, subject to specified terms and conditions, so that such services may be provided by that GP practice as part of new contractual arrangements for the provision of integrated health and social care services. Provision is also made for a suspended general medical services contract or personal medical services agreement to be reactivated at specified intervals and where specified conditions are met.
