

SUMMARY OF IMPORT REQUIREMENTS FOR PLANTS, PLANT PRODUCE AND PRODUCTS

Plants, plant produce and products from outside the EU fall into 3 categories:

- ‘unrestricted’ plants you can bring to the UK without any conditions
- ‘controlled’ plants that you can only bring into the UK with a phytosanitary certificate
- ‘prohibited’ plants you can’t bring into the UK unless you get a scientific research licence or an exception (‘derogation’) to the rules

This guide explains which category different products fall into. It’s divided into 6 sections:

Guides on GOV.UK

The ‘Importing bonsai plants into the UK’ guide explains what import categories different bonsai plants fall into and how to import them.

The ‘Importing plants, fruit, vegetables and plant material’ explains the procedure for importing controlled plants other than bonsai species.
