International Trade

**Strategic Export Controls: Country  
Pivot Report**

1st July 2017 - 30th September  
2017

February 2023

**Countries:** All countries

**Case Types:** All case types

**All Cases / Incorporation Cases Only:** All cases

**Ultimate Destinations:** All countries

**Licence Statuses:** All licence statuses

**Reasons for Refusal:** All reasons for refusal

**Case Summaries:** All case summaries

**Ratings:** All control entries

## Introduction

This report covers **export licensing decisions made by Her Majesty's Government (HMG)** between 1st July 2017 and 30th September 2017. Licence applications are submitted to and processed by the Export Control Organisation (ECO), part of the Department for International Trade, through a purpose-built online licensing system called Spire. The ECO issues licences for controlling the export of strategic goods.

Whether or not an export licence is required is determined by four factors, the:

- nature of the goods due to be exported
- destination concerned
- ultimate end use of the goods
- licensability of trade activities of the goods due to be exported

Broadly there are two types of licence, individual and general. Licences can be *standard* or *open*.

Each licence names the goods that can be exported and specifies the destinations to which they can be exported, along with other details and restrictions. *General* licences are pre-published and can be used by all eligible exporters whereas *individual* licences are issued following a successful application and allow only those named on the application to export certain goods. Those exporting under *general* licences must adhere to the terms and conditions of the licence under which they wish to export. Exporters must register with the ECO to use a *general* licence and are subject to regular audits to ensure the licence terms and conditions are being adhered to. Those requiring an *individual* licence must submit an application to the ECO where they wish to make exports not covered by the terms and conditions of a *general* licence.

Generally, *open* licences can be used with fewer restrictions than *standard* licences. *Standard* licences tend to name a specific quantity of specific goods that can be exported to a specific destination whereas *open* licences may include a wider range of goods or destinations and generally do not limit the quantity of goods that can be exported.

**A glossary of key terms follows this introduction** which explains the various licence types and subtypes that can be used or applied for and how information relating to each licence type and subtype is available within this report.

## This report and other sources of information

Each of these quarterly reports (from 2015Q1 published in July 2015) is supplemented by a set of *data tables* in spreadsheet format (plus CSV format) and a *statistical commentary* document in addition to this report. The *data tables* provide the same information as presented in this report but in a different format and for **periods back to 1 January 2008**. CSV spreadsheets use a non-proprietary format that facilitates the manipulation of the data by a variety of software (not just Microsoft Excel) and provide the same information as available from the *data tables*. These outputs can be found alongside this report under the 'Quarterly reports' heading here:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>

The 'New Report' tool on the "Strategic Export Controls: Reports and Statistics" web page can also be used to download data. The tool offers a variety of filters that can be applied to allow users to download data of specific interest, such as licences which name a certain destination or licences for the shipment of goods with a certain rating. The tool is available here (registration required):

<https://www.exportcontroldb.trade.gov.uk/sdb/fox/sdb/SDBHOME>

## Key terminology and data available in this report

Licences types exist for each combination of *open/standard* and *general/individual* , except for *standard general* . The following table summarises the licence types under each of these headings. Each of these licence type has subtypes (more information available under 'Licence types and subtypes').

	Open	Standard
General	OGELs	Not applicable
Individual	OIELs, OITCLs,	SIELs, SITCLs

## Key terms

**Strategic goods** include military goods and a wide range 'dual-use' goods; civilian goods with a military purpose. Goods are assessed against a **consolidated list of goods that require export authorisation**, available here:

<https://www.gov.uk/government/publications/uk-strategic-export-control-lists-the-consolidated-list-of-strategic-military-and-dual-use-items-that-require-export-authorisation>

It is possible for a licence to be for both military and dual-use goods.

**Control Entries** are the codes assigned to each good on the **consolidated list of goods that require export authorisation (herein 'consolidated list')**. For example, all control entries beginning 'ML' (such as ML1, ML8 etc) are control entries for military goods. The process of assigning control entries to goods is called **Rating**.

In some cases goods can be made subject to control if they do not appear on the **consolidated list**. Goods that the exporter has been told, knows or suspects are, or may be, intended for "WMD Purposes" are given the rating "End-Use". Goods that the exporter has been told, knows or suspects are, or may be, intended for use as components in, or production or test equipment for, military equipment in an embargoed destination; or may be intended for use as parts of military goods illegally obtained from the UK, irrespective of destination, are given the rating "MEND". Both of these "end-use" ratings are also sometimes referred to as "catch all" ratings.

**Case summaries** are text descriptions used to classify goods on licences. They are standardised descriptions to explain what the goods are without giving away commercially sensitive details about the goods (such as design or intellectual property). Using standardised descriptions also facilitates comparison and analysis. Often extra detail is communicated by using prefixes. For example, a replacement part for a sporting shotgun may be described as "components for sporting shotguns" rather than just "sporting shotgun".

One or more Control Entry can be used to rate more than one good on a licence. Also, one or more Case Summaries can be used to describe a single Control Entry.

Goods are rated as **Military** (ie, they are assigned a Control Entry from the **UK Military List** within the **consolidated list** ) or they are rated as being **Non-military**. Non-military goods:

- appear on other lists within the **consolidated list** , such as the **UK Dual-Use List** .
- also include goods refused to destinations that are placed under **sanctions**, such as trade sanctions or an arms embargo. Licences relating to the goods affected by the sanction do not get approved but also do not get rated against the **consolidated list**. They are instead rated with a **sanction code**, such as 'RUS' for Russia and 'IRN' for Iran.

**SIELs for goods covered by the torture regulation** (see "Licence types and subtypes") concern trade in certain equipment and products which could be used for capital punishment torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for goods covered by the torture regulation are therefore not

included in the count of non-military goods for other SIEL subtypes.

As noted, goods can also be rated even if they don't appear on the **consolidated list**.

Licence applications can be **Refused** (for standard individual licences) or **Rejected** (for open individual licences). Licences are refused/rejected for one or more pre-specified reasons. All applications for licences are assessed on a case-by-case basis against the **Consolidated EU and National Arms Export Licensing Criteria** and a decision made on either approval or refusal. Depending on the nature of the goods, other policy aspects might also be considered. For example, if the exported goods are due to be incorporated into another system, equipment or plant, then the items are also assessed against the UK's incorporation factors policy.

Applications for licences can be refused if it is deemed to fail one or more of the Consolidated EU and National Arms Export Licensing Criteria. These 8 criteria include, for example, *Preservation of regional peace, security and stability (criterion 4) or Respect for the UK's international obligations and commitments, in particular sanctions adopted by the UN Security Council or the European Union, agreements on non-proliferation and other subjects, as well as other international obligation (criterion 1)*. More information about the criteria is available here:

<https://www.gov.uk/government/publications/consolidated-eu-and-national-arms-export-licensing-criteria>

Licences can also be **Revoked** at any time after being Issued.

**Case & goods footnotes** are added to certain cases to provide explanation on the end use and/or end user.

**Country footnotes** are added to destinations with the aim to help the user understand why certain goods may have been approved, refused/rejected or revoked in the period.

## Licence types and subtypes

### Export Licences

#### General Licences

Before data are presented per destination, a table summarises the use of **Open General Export Licences (OGELs)** on page 15. OGELs are pre-published licences allowing the export of certain goods to certain destinations. If exporters are eligible to trade under an OGEL then they should register to use that OGEL. Once registered, there is no need for an exporter to submit further applications to trade under the licence they have registered to use.

Some Open General Transshipment licences exist for the **transshipment** of certain goods through the UK en-route from one country to another, providing in all cases that the relevant conditions are met.

There are no Open General licences for the **incorporation** of goods into another product or higher level systems.

#### Individual Licences

The vast majority of this report presents information (where available) per destination relating to *standard individual* licences and open individual licences (SIELs, OIELs, SITLs, SITCLs and OITCLs). All destinations are presented in this report, and if information regarding certain licence types is not presented for a destination then this is because no decisions have been made on such licences in this period.

Exporters should check to see whether they are eligible to use an *open general* licence before applying for either a *standard individual* licence (eg SIEL, SITCL) or *open individual* licence (eg OIEL, OITCL), whichever is most appropriate.

#### Open Individual Licences

**Open Individual Export Licences (OIELs)** are *specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees*. Licences permitting permanent export are generally valid for up to 5 years from the date of issue. However, OIELs covering the export to EU Member States of goods entered on the Military List and Dealer to Dealer OIELs (an OIEL subtype) are generally valid for 3 years.

##### Other OIELs:

There are several subtypes of OIELs including **Global Project Licences**, as well as **Dealer-to-dealer, Cryptographic, Media and Continental Shelf OIELs**.

**Dealer-to-dealer OIELs (or simply Dealer OIELs)** authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

**Cryptographic OIELs** authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

**Media OIELs** authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with

ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required.

**Continental Shelf OIELs** authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels.

## Global Project Licences

**Global Project Licences (GPL)** are a form of export licence that were introduced by Framework Agreement partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria.

## Standard Individual Licences

**Standard Individual Export Licences (SIELs)** are specific to an individual exporter and generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence.

There are 5 main subtypes; permanent, temporary, incorporation, transshipment and SIELs for Goods covered by the torture regulation.

- **Permanent SIELs** are for items that are for permanent export to a destination. They are generally valid for 2 years from date of issue.
- **Temporary SIELs** are for where the export is temporary, for example for the purposes of demonstration, trial or evaluation, and the licence is generally valid for one year only. The goods must be returned before the licence expires. Temporary SIELs can cover more than one destination and in such cases the licence will be counted once per destination. Therefore users should express caution when summing licence details together across countries.
- **Incorporation SIELs** are for goods that are due to be incorporated ie, installing them into another product or higher level system. For incorporation cases there are two end user types. The 'end user' is the person/organisation incorporating the goods. The 'ultimate end user' is defined as the entity that uses the product or the higher level system into which the exported goods are installed or incorporated.
- **Transshipment SIELs** are needed for the transshipment of certain goods through the UK en-route from one country to another, providing certain conditions are met. This subtype of SIEL is also called a Standard Individual Transshipment Licence (SITL). Most other transshipments (of certain goods through the UK en-route from one country to another) can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. There are no Open Individual licences for transshipments.
- **SIELs for Goods covered by the torture regulation** concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by the torture regulation are therefore not included in the count of non-military goods for other SIEL subtypes.

It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

## Other Individual Licences

Information on Other Individual licences is not included as part of this report, or as part of the Excel or CSV spread sheets released alongside this report. Please see separate documentation entitled 'Data for Other Licences' published alongside this, or previous, reports.

## Trade Control Licences

Trade Control licences are required for those brokering the export of strategic goods. Brokering means buying or selling, or arranging or negotiating transactions for the purchase, sale, or supply, of goods located in one third country for transfer to another. There are Open and Standard Trade Control licences

An **Open Individual Trade Control Licence (OITCL)** is *specific to a named trader and covers involvement in trading of a generally unlimited supply of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users*. OITCLs are generally valid for 5 years.

A **Standard Individual Trade Control Licence (SITCL)** is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for 2 years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Once the licence expires, a new application must be applied for if further trades are required. Like Individual Export licences, exporters should check to see whether they are eligible to use an OITCL before applying for a SITCL.

# Reporting

## Summary Tables

Before more detailed information is presented by destination on SIELs, OIELs, SITCLs and OITCLs, data summarising the number of licences Issued, Refused/Rejected and Revoked for each licence type within the period are presented.

Following this is some detailed information on Dealer OIELs, Cryptographic OIELs, Media OIELs, Continental Shelf OIELs and Global Project Licences - as generally there are not many of these per quarter so the information is best summarised for all destinations together in one table. Processing statistics are reported, similar to those presented per destination (see below). A table showing registrations, suspensions and de-registrations for the use of OGELs immediately precedes detailed information per destination.

## Information Per Destination

Information for each destination follows the same pattern. The minimum information provided for each destination is processing statistics. Where no such licences decisions were made in the period, there is simply no information presented for such cases.

### Processing statistics

The time calculated is the initial processing time, ie, the time elapsed from when the application is first received to when it is closed. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Separately for SIELs, SITCLs, OIELs and OITCLs the following processing statistics are presented per destination:

- Median processing time
- % and number of licences completed in 20 and 60 working days. For SIELs there are government targets to process 70% of applications within 20 working days and 99% within 60 working days. For OIELs and OITCLs there are government targets to process 60% of applications within 60 working days.

### Licensing statistics

The information within the report covers those licences Issued, Refused/Rejected or Revoked within the period. It does not include information where applications were not fully processed, eg stopped or withdrawn, information on goods where there was No Licence Required (NLR), or certain changes to an existing licence - such as re-opening an application to make changes such as extensions to licences, removing good/s (although this is not done for OIELs), removing country/countries, or amending applicant errors.

If goods / countries are added to an application and subsequently end up on a licence they will be reported as a new issue for that period. The existing items will not be re-reported. The same applies for items removed from an application on an amendment, except in this case it will be reported as revoked.

In a small number of cases there may be a subsequent change of status during the same period. There are two

main reasons for such changes: a licence issued during the period may have been issued then subsequently revoked in the same period, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully and the licence was issued in a later period. These cases are flagged in this report as Rv and A respectively.

For each destination and for each of Issued, Refused and Revoked the following is data is presented in this report, where available, for each **SIEL** subtype (note: information on SITLs can be found under the heading 'SIELs - Transshipment'):

- A count of the number of licences on which goods were Issued, Refused or Revoked categorised by the type of goods; Military, Non-military or Both Military and Non-military (see 'Key Terms'). Examples of when a licence may be for both military and non-military goods could be where the goods are military body armour and civilian body armour, or where bomb detection goods are being sold for use by the military and for civilian use such as at airports. However, the military and non-military goods will not necessarily be of the same type.
- A count of the number of licences on which goods were Issued, Refused or Revoked per Control Entry. Control Entries are presented per category (Military, Non-military or Both Military and Non-military) based on the licence they relate to. The number given is the number of licences on which a Control Entry was used. Please note that more than one Control Entry can apply to goods on an individual licence and each Control Entry is counted only once per individual licence (regardless of the number of goods that have been rated with that Control Entry).
- Data for Issued SIELs includes the value of the goods in each category. However, note that goods covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.
- Case summaries for each of Issued, Refused and Revoked broken down by category (Mil/Non-mil/Both), listed below the appropriate Control Entry table in which they feature. Case summaries for small arms covered by SIELs issued in the period give the number of units in parentheses. If the number of licences using the case summary in the period is more than one then this is also detailed in parentheses (eg "2 licences"). Items that were allowed for Temporary export are indicated by a "T" preceding the description. Items that were originally allowed for Temporary export but then converted to allow Permanent export are indicated by a "T(P)". Note that more than one Case Summary can apply to a single Control Entry. Note that more than one Case Summary can apply to a single Control Entry.
- The ultimate destination/s for goods that are being incorporated.
- For refusals, the number of times each of the 8 Consolidated EU and National Arms Export Licensing Criteria are used to refuse licence applications for the destination is provided.

The Control Entries supplied are less detailed than those listed in the **consolidated list of goods that require export authorisation**. For example, we report ML1 but there are more specific codes such as ML1a, ML1b, ML1c and ML1d. Here is an example to explain how we would count the number of licences containing goods rated ML1:

<b>Issued licences for a given destination</b>	<b>Control Entries applied to goods on licence</b>
Licence 1	ML1a, ML1a, ML1b, ML1c
Licence 2	ML1a, ML2a
Licence 3	ML1a
Licence 4	ML1c
Licence 5	ML2a
<i>Total number of licences containing goods rated ML1</i>	<b>4</b>

In the example the number of licences containing goods rated ML1 is 4 because the more detailed codes (eg ML1a, ML1b etc) are treated as though they are the broader code ML1. Also, each Control Entry is counted a maximum of once per licence, so licence 1, 2, 3 and 4 each have a count of 1 for ML1.

The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the

destination concerned under an Open General Export Licence (OGEL).

In the case of SIELs refused or revoked, only the rating of the goods is provided.

Values are shown to the nearest pound. It should be noted that the actual value of exports made under the licences is likely to be less than shown because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

In some cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued is lower than the sum of all SIELs issued shown across all the destination pages.

For each destination and for each of Issued, Refused and Revoked the following data is presented in this report, where available, for each OIEL subtype:

- A case summary description of the goods covered by each OIEL, with the items that were allowed for temporary export indicated by a "T" preceding the description, for Issued, Rejected and Revoked licences.

Case summaries are provided for all licences issued in the period or where the coverage of an existing licence was amended during the period by the inclusion or reinstatement of this destination or by the addition of goods. Case summaries are provided for licences fully revoked, refused in full or whose coverage was amended during the period by the removal of items and/or destinations. The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory government departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific goods or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, depending on the timing of the decision. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

As well as the data presented on SIELs and OIELS, data is presented on **SITCLs and OITCLs**:

- The number of SITCLs or OITCLs (presented separately) Issued, Refused (for SITCLs)/Rejected (for OITCLs) and Revoked in the period

## Overall Licensing Statistics

	All licence applications	Issued	Refused/ Rejected	Revoked
SIELs	3281	3212	69	0
- Permanent Standard	2736	2671	65	0
- Temporary Standard	196	195	1	0
- Transshipment	4	4	0	0
- Incorporation	342	339	3	0
- For goods covered by the torture regulation (Permanent or Temporary)	3	3	0	0
SITCLs	66	65	1	0
OIELs	121	105	16	0
- Standard	105	90	15	0
- Dealer-to-dealer	6	6	0	0
- Cryptographic	7	6	1	0
- Media	1	1	0	0
- Continental Shelf	2	2	0	0
Global Project Licences	0	0	0	0
OITCLs	21	12	9	0

### Table notes for licensing statistics table:

SIEL and OIEL sub-types are mutually exclusive. SIEL Transshipments and Incorporations are permanent, but counted separately to Standard Permanent and Standard Temporary licences. Counts of licence applications Issued, Refused/Rejected and Revoked count the decisions made during the period on the licence, whenever the case has been closed or re-opened then re-closed.

## Overall Processing Statistics

### Processing statistics covering the period 1st July 2017 to 30th September 2017

	Applications completed in 20 working days	% applications completed in 20 working days	Applications completed in 60 working days	% applications completed in 60 working days	Median processing time
SIELs	3636	84	4260	98	10 days
- Permanent Standard	3165	85	3659	98	10 days
- Temporary Standard	169	70	239	99	12 days
- Transhipment	3	60	5	100	16 days
- Incorporation	297	81	354	97	11 days
- For goods covered by the torture regulation (Permanent or Temporary)	2	67	3	100	16 days
SITCLs	92	71	123	95	10 days
OIELs	29	21	77	55	55 days
- Standard	11	9	56	48	61 days
- Dealer-to-dealer	7	88	8	100	3 days
- Cryptographic	9	90	10	100	9 days
- Media	1	100	1	100	20 days
- Continental Shelf	1	33	2	67	41 days
Global Project Licences	n/a	n/a	n/a	n/a	n/a
OITCLs	9	32	17	61	32 days

## Open General Export Licences (OGLs)

OGLs can be used to export certain goods to certain destinations providing the terms and conditions of the OGL are met. See further information on military goods OGLs (<https://www.gov.uk/military-goods-ogels>) and dual-use goods OGLs (<https://www.gov.uk/dual-use-open-general-export-licences-explained>).

OGL Name	Registrations in this period	Suspensions in this period	Deregistrations in this period
Virtual EU	0	0	0
EU GEA 2019/125	0	0	0

% and number of OIELs completed in 60 working days	0% (0)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	5	£150,040
Total	5	£150,040

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£50,000
ML6	1	£9,500
ML10	2	£35,540
ML13	1	£55,000

body armour.  
 components for all-wheel drive vehicles with ballistic protection.  
 components for body armour.  
 components for combat aircraft.  
 components for military training aircraft [See footnote 3].  
 military helmets.  
 small arms ammunition [See footnote 2].

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary

1	P	body armour, components for body armour, components for munitions/ordnance detection/disposal equipment, devices for initiating explosives, munitions/ordnance detection/disposal equipment, non-military firing sets [See footnote 1]
---	---	--

### Country Footnotes

1. Arms embargo sanctions in place for Afghanistan apply to those individuals, groups, undertakings and entities designated under the criteria stated in UN Security Council Resolution 2255 (2015), whose names are held on the list established pursuant to UN Security Council Resolution 1988 (2011). The EU implements these measures through Council Decision 2011/486/CFSP, as amended; as well as Council Regulation (EU) No 753/2011, as amended.

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. International Organisation end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Armed forces end use.

2	P	components for military support aircraft [See footnote 2]

### Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. End use by the Air Force.

## Bahrain

### Processing Statistics (excluding amendments)

Median processing time SIELs	18 days
% and number of SIELs completed in 20 working days	53% (17)
% and number of SIELs completed in 60 working days	97% (31)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	72 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	33% (1)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

Median processing time OITCLs	67 days
% and number of OITCLs completed in 20 working days	0% (0)
% and number of OITCLs completed in 60 working days	0% (0)
% [as a % of all OITCLs cases processed] and number of OITCLs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	13	£931,139
Non-military	3	£1,503,758
Total	16	£2,434,897

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	6	£431,953
ML3	2	£9,846
ML4	1	£98,948
ML5	1	£12,000
ML10	5	£27,678
ML11	2	£23,500
ML15	2	£327,215
ML22	1	£0

- components for military training aircraft (4 licences) [See footnotes 2, 3].  
 components for pistols.  
 components for sporting guns.  
 T equipment for the use of weapon night sights (2 licences).  
 general military aircraft components.  
 gun silencers.  
 T military guidance/navigation equipment.  
 T military image intensifier equipment (2 licences).  
 military improvised explosive device decoying/detection/disposal/jamming equipment.  
 T military infrared/thermal imaging equipment (2 licences).  
 pistols (3).  
 pistols (5).  
 T rangefinding equipment.  
 small arms ammunition (2 licences).  
 sporting guns (1) (2 licences).  
 sporting guns (7).  
 technology for military auxiliary/support vessels.  
 T weapon night sights (2 licences).  
 weapon sights (2 licences).  
 T weapon sights (2 licences).

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A008	1	£128,758
7A103	2	£1,375,000

- T inertial equipment (2 licences).  
 radar equipment.

#### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 1]
2	P	civil explosive detection/identification equipment [See footnote 5]
3	P	components for military support aircraft [See footnote 6]

6A003	1	£142,000

instrumentation cameras [See footnote 1].

#### Country Footnotes

- On 20 June 2011 the EU adopted additional restrictions against Belarus, including prohibitions on the supply of arms and related material, as well as on equipment which might be used for internal repression. Restrictive measures currently in force with respect to Belarus are set out in Council Decision 2012/642/CFSP, as amended; as well as Council Regulation (EC) No 765/2006, as amended.  
All exports for this destination were approved in accordance with the sanctions in place.

#### Case & goods Footnotes

- Licence granted for accessories / spare parts. Civilian / commercial end use.

## Belgium

### Issued

Types of goods on licence	No. of licences	Value
Non-military	2	£33,574
Total	2	£33,574

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A005	1	£10,688
5A002	1	£22,887

civil body armour.  
information security equipment.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 1]

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.

## Country Footnotes

1. UN Security Council Resolution 2127 (2013) established an arms embargo to restrict exports of arms, or related material, and of training, technical or financial assistance related to military activities; exemptions apply to some UN, humanitarian, peacekeeping and government entities. UNSCR 2339 (2017) extended the arms embargo until 31 January 2018 and amended the designation criteria. The EU implements these measures through Council Decision 2013/798/CFSP, as amended; as well as Council Regulation (EU) No 224/2014, as amended.

## Case & goods Footnotes

1. Licence granted for accessories / spare parts. End use by the Air Force.

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military support aircraft, equipment for the production of military support aircraft, military aircraft ground equipment, technology for military support aircraft, unfinished products for military support aircraft
2	P	components for military support aircraft [See footnote 1]

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. End use by the Air Force.

## Channel Islands

### Processing Statistics (excluding amendments)

Median processing time SIELs	8 days
% and number of SIELs completed in 20 working days	100% (23)
% and number of SIELs completed in 60 working days	100% (23)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	168 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	29% (2)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	14	£105,620
Non-military	3	£93,695
Total	17	£199,315

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	6	£44,603
ML3	7	£22,921
ML6	3	£38,097

assault rifles (2) (2 licences).  
components for military combat vehicles (3 licences).

components for pistols (2 licences).  
 components for small arms ammunition.  
 machine guns (6).  
 pistols (1).  
 pistols (2).  
 pistols (4).  
 pistols (11).  
 small arms ammunition (5 licences).  
 sporting guns (1).  
 sporting guns (1).  
 sporting guns (3).  
 sporting shotgun ammunition.  
 training small arms ammunition.

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
PL9010	3	£93,695

components for sporting shotguns.  
 sporting shotguns (1).  
 sporting shotguns (2).

**SIELs - Incorporation**

**Issued**

Types of goods on licence	No. of licences	Value
Military	3	£10,181
Total	3	£10,181

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	2	£9,825
ML6	1	£356

components for periscopes.  
 components for weapon control equipment.  
 general military vehicle components.

The items being incorporated in this destination are ultimately destined for all or some of the following:

United Kingdom

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat shotguns, components for sniper rifles
2	P	components for sporting guns, components for sporting shotguns, sporting guns, sporting shotguns
3	P	components for military support vehicles, components for military trailers, general military vehicle components, military support vehicles, military trailers
4	P	sporting guns [See footnote 1]
5	P	components for information security equipment, equipment for generating spreading codes, impulse radio equipment, information security equipment, information security software, software for equipment for generating spreading codes, software for impulse radio equipment, software for information security equipment, software for technology for equipment for generating spreading codes, software for technology for impulse radio equipment, software for technology for information security equipment, software for technology for information security software, technology for equipment for generating spreading codes, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for equipment for generating spreading codes, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for software for equipment for generating spreading codes, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software

#### Case & goods Footnotes

1. Licence granted for sporting / hunting purposes. Personal end use.

#### OIELs (excluding Other OIELs)

##### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment [See footnote 4]
2	P	information security equipment, software for information security equipment, technology for information security equipment
3	P	components for military communications equipment, equipment for the production of military communications equipment, military communications equipment, technology for military communications equipment
4	T	information security equipment
5	P	components for semiconductor manufacturing equipment

##### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components

#### Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression.

All licences for this destination were approved in accordance with the sanctions in place.

### Case & goods Footnotes

1. Licence granted for civilian / commercial end use.
2. Licence granted for civilian / commercial end use.
3. Licence granted for civilian / commercial end use.
4. Licence granted for marketing and promotional use. Armed forces end use.

## Democratic Republic of Congo

### Processing Statistics (excluding amendments)

Median processing time SIELs	15 days
% and number of SIELs completed in 20 working days	80% (8)
% and number of SIELs completed in 60 working days	100% (10)

% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)
--	--------

## SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

### Issued

Types of goods on licence	No. of licences	Value
Military	1	£15,872
Non-military	7	£101,222
Total	8	£117,094

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML13	1	£15,872

body armour.  
components for body armour.  
military helmets.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	6	£100,829
5D002	1	£393

information security equipment (6 licences).  
information security software.

### Country Footnotes

1. Following the adoption of UNSCR 1807 (2008), the UN arms embargo with respect to the DRC only applies to non-governmental entities and individuals. The embargo was most recently renewed through UNSCR 2360 (2017) which extended the arms embargo until 1 July 2018, and currently prohibits the supply, sale or transfer of arms and related materiel to all non-governmental entities and individuals operating in the DRC; some exports must be approved in advance by the Sanctions Committee. The EU implements these measures through Council Decision 2010/788/CFSP, as amended; as well as Council Regulation (EU) No 1183/2005, as amended.

All exports for this destination were approved in accordance with the sanctions in place.

## Denmark

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	9	£1,196,662
Non-military	14	£902,459
Both Military and Non-military	1	£78,000
Total	24	£2,177,122

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£406
ML3	1	£237
ML6	1	£3,500
ML9	1	£151,472
ML10	1	£9,605
ML11	2	£749,270
ML13	1	£190,680
ML18	2	£50,273
ML21	1	£41,220

ballistic test equipment.  
bomb suits.  
components for all-wheel drive vehicles with ballistic protection.  
components for ballistic test equipment (2 licences).  
components for combat helicopters [See footnote 4].  
components for military communications equipment.  
components for pistols.  
electronic warfare equipment.

general naval vessel components.  
software for ballistic test equipment.  
training small arms ammunition.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£26,582
2B001	1	£200,000
2B350	4	£316,272
2B351	1	£590
2B352	1	£2,350
2D001	1	£0
2E201	1	£0
6A001	1	£18,000
6A003	1	£84,446
6A008	1	£166,000
7A003	1	£61,000
7A103	1	£1,797
8A002	2	£25,422

biotechnology equipment.  
civil explosive detection/identification equipment.  
civil NBC protection equipment.  
corrosion resistant chemical manufacturing equipment (4 licences).  
imaging cameras [See footnote 5].  
inertial equipment.  
T(P) inertial equipment.  
machine tools.  
radar equipment [See footnote 5].  
software for machine tools.  
T(P) sonar log equipment.  
submersible equipment (2 licences).  
technology for machine tools.  
toxic gas detectors.

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£35,000
ML11	1	£43,000

T information security equipment.  
T military communications equipment.  
T military electronic equipment.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 1]
2	P	components for military support aircraft [See footnote 3]

3	P	assault rifles, body armour, components for body armour, components for rifles, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns
4	P	components for aircraft military communications equipment, components for combat aircraft, components for military aero-engines, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, general military aircraft components, technology for aircraft military communications equipment, technology for military aero-engines, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military helicopters [See footnote 6]
5	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 7]

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	components for equipment for the use of electronic countermeasure equipment, components for launching/handling/control equipment for rockets, components for military electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for rockets, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for launching/handling/control equipment for rockets, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for rockets, technology for military electronic equipment, technology for rangefinding equipment

### OITCLs

Source	Issued	Refused	Revoked
Vessel and/or Platform in International Waters	2	4	0

### Issued

accessories for military image intensifier equipment (2 licences) [See footnote 2].  
 accessories for military infrared/thermal imaging equipment (2 licences) [See footnote 2].  
 assault rifles (2 licences) [See footnote 2].  
 blank/inert ammunition (2 licences) [See footnote 2].  
 body armour (2 licences) [See footnote 2].  
 components for assault rifles (2 licences) [See footnote 2].  
 components for blank/inert ammunition (2 licences) [See footnote 2].  
 components for body armour (2 licences) [See footnote 2].  
 components for crowd control ammunition (2 licences) [See footnote 2].  
 components for flash suppressors (2 licences) [See footnote 2].  
 components for gun mountings (2 licences) [See footnote 2].  
 components for gun silencers (2 licences) [See footnote 2].  
 components for military helmets (2 licences) [See footnote 2].

components for military image intensifier equipment (2 licences) [See footnote 2].  
components for military infrared/thermal imaging equipment (2 licences) [See footnote 2].  
components for military shotguns (2 licences) [See footnote 2].  
components for pistols (2 licences) [See footnote 2].  
components for rifles (2 licences) [See footnote 2].  
components for small arms ammunition (2 licences) [See footnote 2].  
components for smoke/pyrotechnic ammunition (2 licences) [See footnote 2].  
components for smooth-bore weapons (2 licences) [See footnote 2].  
components for sniper rifles (2 licences) [See footnote 2].  
components for sporting guns (2 licences) [See footnote 2].  
components for sporting shotgun ammunition (2 licences) [See footnote 2].  
components for sporting shotguns (2 licences) [See footnote 2].  
components for tactical shotguns (2 licences) [See footnote 2].  
components for tear gas/irritant ammunition (2 licences) [See footnote 2].  
components for weapon night sights (2 licences) [See footnote 2].  
components for weapon sights (2 licences) [See footnote 2].  
crowd control ammunition (2 licences) [See footnote 2].  
flash suppressors (2 licences) [See footnote 2].  
gun mountings (2 licences) [See footnote 2].  
gun silencers (2 licences) [See footnote 2].  
military helmets (2 licences) [See footnote 2].  
military image intensifier equipment (2 licences) [See footnote 2].  
military infrared/thermal imaging equipment (2 licences) [See footnote 2].  
military shotguns (2 licences) [See footnote 2].  
pistols (2 licences) [See footnote 2].  
rifles (2 licences) [See footnote 2].  
small arms ammunition (2 licences) [See footnote 2].  
smoke/pyrotechnic ammunition (2 licences) [See footnote 2].  
smooth-bore weapons (2 licences) [See footnote 2].  
sniper rifles (2 licences) [See footnote 2].  
sporting guns (2 licences) [See footnote 2].  
sporting shotgun ammunition (2 licences) [See footnote 2].  
sporting shotguns (2 licences) [See footnote 2].  
tactical shotguns (2 licences) [See footnote 2].  
tear gas/irritant ammunition (2 licences) [See footnote 2].  
weapon night sights (2 licences) [See footnote 2].  
weapon sights (2 licences) [See footnote 2].

## Rejected

promoting the supply of acoustic devices for riot control (4 licences).  
promoting the supply of assault rifles (4 licences).  
promoting the supply of body armour (4 licences).  
promoting the supply of components for acoustic devices for riot control (4 licences).

- T accessories for military image intensifier equipment.  
anti-riot guns.  
anti-riot/ballistic shields.  
artillery.  
artillery ammunition.  
assault rifles (75).  
blank/inert ammunition (2 licences).  
body armour.  
components for air-to-air missiles.  
components for air-to-surface missiles.  
components for aircraft military communications equipment.  
components for artillery.  
components for artillery ammunition (2 licences).  
components for assault rifles.  
components for body armour.  
components for combat aircraft (2 licences).  
components for combat helicopters.  
components for equipment for the production of air-to-air missiles.  
components for fire location equipment.  
components for machine guns.  
components for military aero-engines.  
components for military auxiliary/support vessels.  
components for military communications equipment.  
components for military guidance/navigation equipment.  
components for military helicopters (11 licences).  
components for military infrared/thermal imaging equipment (4 licences).  
components for military shotguns.  
components for NBC protective/defensive equipment (2 licences).  
components for pistols.
- T components for pistols.

	components for sniper rifles (2 licences).
	components for surface-to-air missiles.
	components for surface-to-surface missiles.
	components for tactical shotguns.
	components for unmanned air vehicles.
T	equipment for the production of military aero-engines.
	equipment for the use of weapon night sights.
	gun mountings.
	gun silencers.
	launching/handling/control equipment for missiles.
	military combat vehicles.
	military containers.
T	military guidance/navigation equipment.
T	military image intensifier equipment.
T	military infrared/thermal imaging equipment.
	military support vehicles (3 licences).
	NBC protective/defensive equipment.
T	pistols (5).
T	rangefinding equipment.
	sniper rifles (6).
	software enabling equipment to function as launching/handling/control equipment for missiles.
	technology for sniper rifles.
	training small arms ammunition.
T	weapon night sights.
T	weapon sights.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0E001	3	£6
8A002	2	£5,746
PL9002	1	£150

non-military energetic materials.  
 rebreathing swimming equipment.  
 submersible equipment.  
 technology for materials controlled by entry 0C of the Dual-Use Regulation.  
 technology for nuclear fuel reprocessing equipment.  
 technology for nuclear reactor fuel element fabrication equipment.  
 technology for nuclear reactors (3 licences).

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£3,075
PL9010	2	£330

rifles (1).  
 sporting shotguns (1).  
 sporting shotguns (4).

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	56	£27,442,551
Total	56	£27,442,551

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for information security equipment, equipment for generating spreading codes, impulse radio equipment, information security equipment, information security software, software for equipment for generating spreading codes, software for impulse radio equipment, software for information security equipment, software for technology for equipment for generating spreading codes, software for technology for impulse radio equipment, software for technology for information security equipment, software for technology for information security software, technology for equipment for generating spreading codes, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for software for equipment for generating spreading codes, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software

#### Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

## Gabon

### Processing Statistics (excluding amendments)

Median processing time SIELs	6 days
% and number of SIELs completed in 20 working days	100% (1)
% and number of SIELs completed in 60 working days	100% (1)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	81 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	0% (0)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£4,373
Total	1	£4,373

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A007	1	£4,373

non-military firing sets.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment [See footnote 2]
2	P	components for military support aircraft [See footnote 1]

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. End use by the Air Force.
2. Licence granted for marketing and promotional use. Armed forces end use.

T	military laser protection equipment.
	military support vehicles (5 licences).
	NBC detection equipment.
T	NBC protective/defensive equipment.
	pistols (1).
T	pistols (1).
	propellants (2 licences).
	small arms ammunition.
T	small arms ammunition.
	software enabling equipment to function as munitions/ordnance detection/disposal equipment (2 licences).
T	targeting equipment.
	technology for fuze setting devices.
	training small arms ammunition.
	unfinished products for military combat vehicles.
T	weapon night sights (2 licences).
T	weapon sights (2 licences).

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0E001	1	£10,000
1E002	1	£0

technology for civil NBC detection systems.  
 technology for nuclear plant/equipment/materials/software controlled by entries 0A/0B/0C/0D of the Dual-Use Regulation.

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5D002	1	£1,000
ML21	1	£0

T	information security software.
T	software enabling equipment to function as military communications equipment.

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	31	£933,056
Total	31	£933,056

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	1	£42,300
ML3	1	£29,347
ML4	1	£137
ML5	4	£75,347
ML6	1	£39,570
ML7	1	£245,310
ML9	6	£272,658
ML10	12	£169,677
ML11	2	£36,000
ML21	2	£22,710

components for artillery ammunition.  
 components for combat aircraft (6 licences) [See footnote 2].  
 components for combat helicopters (3 licences).  
 components for launching/handling/control equipment for munitions.  
 components for military aero-engines (2 licences) [See footnote 5].  
 components for military guidance/navigation equipment (2 licences).  
 components for military patrol/assault craft.  
 components for military radars (3 licences).  
 components for NBC protective/defensive equipment.  
 components for periscopes.  
 components for submarines (4 licences).  
 components for tanks.  
 general military aircraft components.  
 naval electrical/electronic equipment.  
 projectile launchers.  
 software enabling equipment to function as munitions/ordnance detection/disposal equipment (2 licences).

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software
2	P	assault rifles, body armour, components for body armour, components for rifles, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns
3	P	components for information security equipment, equipment for generating spreading codes, impulse radio equipment, information security equipment, information security software, software for equipment for generating spreading codes, software for impulse radio equipment, software for information security equipment, software for technology for equipment for generating spreading codes, software for technology for impulse radio equipment, software for technology for information security equipment, software for technology for information security software, technology for equipment for generating spreading codes, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for software for equipment for generating spreading codes, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software
4	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 1]
5	P	components for military support aircraft [See footnote 2]

### Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. End use by the Air Force.

## Greece

### Processing Statistics (excluding amendments)

Median processing time SIELs	11 days
% and number of SIELs completed in 20 working days	100% (6)
% and number of SIELs completed in 60 working days	100% (6)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	100 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	20% (1)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### **SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)**

#### **Issued**

Types of goods on licence	No. of licences	Value
Military	4	£456,767
Total	4	£456,767

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	1	£8,656
ML6	1	£509
ML9	1	£446,102
ML13	1	£1,500

components for ground vehicle military communications equipment.  
 components for military patrol/assault craft.  
 components for naval guns.  
 military helmets.

### **SIELs - Incorporation**

#### **Issued**

Types of goods on licence	No. of licences	Value
Military	1	£9,613
Total	1	£9,613

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	1	£9,613

components for combat aircraft.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Germany

#### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 2]
2	P	assault rifles, body armour, components for body armour, components for rifles, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns
3	P	components for military support aircraft, equipment for the production of military support aircraft, military aircraft ground equipment, technology for military support aircraft, unfinished products for military support aircraft
4	P	components for military support aircraft [See footnote 1]

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. End use by the Air Force.
2. Licence granted for accessories / spare parts. Government end use.

## Greenland

### Processing Statistics (excluding amendments)

Median processing time OIELs	161 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	0% (0)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 1]
2	P	components for information security equipment, equipment for generating spreading codes, impulse radio equipment, information security equipment, information security software, software for equipment for generating spreading codes, software for impulse radio equipment, software for information security equipment, software for technology for equipment for generating spreading codes, software for technology for impulse radio equipment, software for technology for information security equipment, software for technology for information security software, technology for equipment for generating spreading codes, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for software for equipment for generating spreading codes, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.

## Grenada

### Processing Statistics (excluding amendments)

Median processing time OIELs	90 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	0% (0)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military support aircraft [See footnote 1]

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. End use by the Air Force.

## Guam

### Processing Statistics (excluding amendments)

Median processing time SIELs	6 days
% and number of SIELs completed in 20 working days	100% (1)
% and number of SIELs completed in 60 working days	100% (1)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£20,500
Total	1	£20,500

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML13	1	£20,500

body armour.

## Guatemala

### Processing Statistics (excluding amendments)

Median processing time SIELs	17 days
% and number of SIELs completed in 20 working days	100% (1)
% and number of SIELs completed in 60 working days	100% (1)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	90 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	0% (0)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
---------------------------	-----------------	-------

Non-military	1	£20,150
Total	1	£20,150

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£20,150

civil explosive detection/identification equipment.

#### OIELs (excluding Other OIELs)

##### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military support aircraft [See footnote 1]

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. End use by the Air Force.

## Guinea-Bissau

### Processing Statistics (excluding amendments)

Median processing time SIELs	20 days
% and number of SIELs completed in 20 working days	100% (1)
% and number of SIELs completed in 60 working days	100% (1)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

computer interconnect equipment.  
imaging cameras.  
information security equipment (5 licences).  
information security software (3 licences).  
software for information security equipment.  
submersible vehicles.  
technology for information security equipment.

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 1]
2	P	components for information security equipment, equipment for generating spreading codes, impulse radio equipment, information security equipment, information security software, software for equipment for generating spreading codes, software for impulse radio equipment, software for information security equipment, software for technology for equipment for generating spreading codes, software for technology for impulse radio equipment, software for technology for information security equipment, software for technology for information security software, technology for equipment for generating spreading codes, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for software for equipment for generating spreading codes, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software
3	P	components for military support aircraft [See footnote 2]

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. End use by the Air Force.

## India

### Processing Statistics (excluding amendments)

Median processing time SIELs	11 days
% and number of SIELs completed in 20 working days	78% (235)
% and number of SIELs completed in 60 working days	95% (284)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	101 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	21% (3)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

## Issued

Types of goods on licence	No. of licences	Value
Military	133	£22,527,577
Non-military	74	£31,300,307
Total	207	£53,827,884

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

## Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	4	£2,602,195
ML2	1	£1,506,492
ML3	4	£513,000
ML4	6	£347,014
ML5	20	£3,999,507
ML6	2	£17,780
ML7	3	£21,177
ML9	7	£720,898
ML10	62	£5,243,847
ML11	11	£787,356
ML14	2	£55,340
ML15	4	£37,043
ML16	1	£10,523
ML17	1	£7,000
ML18	4	£133,931
ML21	4	£6,522,923
ML22	5	£1,551

- T artillery.  
ballistic test equipment.  
components for air-to-air missiles.  
components for airborne refuelling equipment.  
components for aircraft carriers.  
components for aircraft machine guns.  
components for aircraft military communications equipment.
- T components for artillery.  
components for attack alerting/warning equipment.  
components for ballistic test equipment (2 licences).  
components for combat aircraft (28 licences).  
components for combat helicopters.  
components for launching/handling/control equipment for munitions (3 licences).  
components for military aero-engines (7 licences).  
components for military combat vehicles (2 licences).  
components for military guidance/navigation equipment (7 licences).  
components for military helicopters (6 licences).  
components for military infrared/thermal imaging equipment (3 licences).  
components for military patrol/assault craft.  
components for military radars (17 licences).  
components for military support aircraft (5 licences).  
components for military training aircraft (8 licences).  
components for military training equipment.

components for NBC detection equipment (3 licences).  
 components for small arms training equipment.  
 components for sniper rifles [See footnote 2].  
 components for surface-to-surface missiles.  
 components for targeting equipment.  
 components for weapon night sights.  
 equipment for the production of artillery (2 licences).  
 equipment for the production of military training aircraft.  
 general military aircraft components (2 licences).  
 general naval vessel components (5 licences).  
 gun silencers [See footnote 2].  
 launching/handling/control equipment for munitions.  
 military aircraft ground equipment (2 licences).  
 military aircrew life support equipment.  
 military electronic equipment (2 licences).  
 military field generators.  
 military guidance/navigation equipment.  
 military image intensifier equipment [See footnote 2].  
 NBC detection equipment (2 licences).  
 small arms ammunition (4 licences) [See footnote 2].  
 sniper rifles (2) [See footnote 2].  
 software enabling equipment to function as munitions/ordnance detection/disposal equipment.  
 software for ballistic test equipment.  
 software for NBC detection equipment.  
 technology for equipment for the production of military training aircraft.  
 technology for military guidance/navigation equipment.  
 technology for military patrol/assault craft.  
 technology for NBC detection equipment (2 licences).  
 technology for sniper rifles [See footnote 2].  
 unfinished products for combat aircraft.  
 T weapon control equipment.  
 weapon night sights.  
 weapon sights [See footnote 2].

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	2	£7,872

biotechnology equipment.  
 calibration equipment for guidance/navigation equipment.  
 chemicals used for industrial/commercial processes.  
 civil explosive detection/identification equipment (3 licences).  
 constituents of propellants.  
 controlled atmosphere furnaces.  
 corrosion resistant chemical manufacturing equipment (2 licences).  
 deuterium compounds (2 licences).  
 electronics cooling fluids.  
 T explosives detection equipment.  
 frequency changers (4 licences).  
 high energy capacitors (3 licences).  
 imaging cameras (4 licences).  
 inertial equipment (3 licences).  
 information security equipment (9 licences).  
 information security software (2 licences).  
 instrumentation cameras (2 licences).  
 lasers (3 licences).  
 metal alloy cylindrical forms (13 licences).  
 metal alloy tubes.  
 mixtures containing chemicals used for chemical/materials production.  
 nickel powders (2 licences).  
 nuclear radiation detection equipment.  
 radar equipment.  
 rotary position encoders.  
 software for information security equipment (3 licences).  
 spacecraft [See footnote 5].  
 sporting shotguns (1).  
 sporting shotguns (2).  
 technology for electronic devices.  
 technology for fibrous/filamentary materials.  
 technology for gas turbine engines.  
 technology for information security equipment (2 licences).  
 technology for metal alloy cylindrical forms.  
 technology for metal alloy materials.  
 technology for metal alloy tubes.  
 technology for metal alloys in particulate form.  
 technology for metal alloys in powder form.  
 technology for X-ray generators (3 licences).  
 thyristors.  
 toxic gas detectors.  
 underwater telecommunications systems.  
 viruses.  
 X-ray accelerators.  
 X-ray generators (3 licences).

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	1	£3,220
Total	1	£3,220

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML9	1	£3,220

general naval vessel components.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Sri Lanka

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 1]
2	P	components for combat aircraft
3	P	airborne refuelling equipment, components for airborne refuelling equipment, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment [See footnote 3]
4	P	accessories for attack alerting/warning equipment, accessories for military cameras/photographic equipment, accessories for military image recording/processing equipment, accessories for military radars, accessories for military training equipment, accessories for sensor integration equipment, accessories for targeting equipment, accessories for weapon control equipment, aircraft military communications equipment, attack alerting/warning equipment, components for aircraft military communications equipment, components for attack alerting/warning equipment, components for equipment for the operation of military aircraft in confined areas, components for generators/projectors, components for launching/handling/control equipment for rockets, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft head-up/down displays, components for military aircraft pressure refuellers, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military cameras/photographic equipment, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military parachutes, components for military radars, components for military training aircraft, components for military training equipment, components for sensor integration equipment, components for targeting equipment, components for weapon control equipment, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of military training aircraft, equipment for the use of attack alerting/warning equipment, equipment for the use of sensor integration equipment, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, general military aircraft components, generators/projectors, launching/handling/control equipment for rockets, maraging steels, metal alloy cylindrical forms, metal alloy materials, metal alloy tubes, military aero-engines, military aircraft ground equipment, military aircraft head-up/down displays, military aircraft pressure refuellers, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment,

		military parachutes, military radars, military training equipment, sensor integration equipment, software for generators/projectors, software for military guidance/navigation equipment, software for military training aircraft, targeting equipment, technology for military training aircraft, test models for military training aircraft, unfinished products for military training aircraft, weapon control equipment
5	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment [See footnote 10]
6	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 11]
7	P	assault rifles, body armour, components for body armour, components for rifles, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns
8	P	components for military guidance/navigation equipment, equipment for the use of military guidance/navigation equipment, military guidance/navigation equipment, software for military guidance/navigation equipment, technology for military guidance/navigation equipment [See footnote 4]
9	P	software for FADEC systems, software for military aero-engines, technology for FADEC, technology for military aero-engines, technology for software for military aero-engines

10	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 12]
11	P	components for equipment for the use of electronic countermeasure equipment, components for launching/handling/control equipment for rockets, components for military electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for rockets, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for launching/handling/control equipment for rockets, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for rockets, technology for military electronic equipment, technology for rangefinding equipment [See footnote 6]
12	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 7]
13	P	civil explosive detection/identification equipment [See footnote 8]
14	P	components for military support aircraft [See footnote 9]

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for armed forces end use.
3. Licence granted for accessories / spare parts. End use by the Air Force.
4. Licence granted for End use by the Navy.
5. Licence granted for government end use.
6. Licence granted for accessories / spare parts. Armed forces end use.
7. Licence granted for accessories / spare parts. Armed forces end use.
8. Licence granted for accessories / spare parts. Civilian / commercial end use.
9. Licence granted for accessories / spare parts. End use by the Air Force.
10. Licence granted for end use country is a State Party to the CWC. Law enforcement agency end use.
11. Licence granted for accessories / spare parts. Government end use.
12. Licence granted for accessories / spare parts. Government end use.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	26	£2,627,580
Total	26	£2,627,580

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C004	1	£620
1C001	1	£313,835
5A002	1	£1,791
End Use	1	£17,176
IRN	17	£1,819,533
MEND	1	£42,000
PL8001	1	£20,000
PL9009	3	£412,625

accessories for general industrial production equipment.  
 components for airframe structures.  
 components for civil aero-engines [See footnote 4].  
 components for civil aircraft.  
 components for pumps (3 licences).  
 electromagnetic wave absorbing materials.  
 electronic measurement/test equipment.  
 explosives detection equipment [See footnote 1].  
 gas detection equipment.  
 general laboratory equipment (2 licences).

information security equipment.  
lubricants.  
nuclear grade graphite [See footnote 2].  
polymer materials.  
pressure monitoring equipment.  
pumps (2 licences).  
seals (6 licences).  
technology for controlled atmosphere furnaces.  
technology for corrosion resistant chemical manufacturing equipment.  
toxic gas monitoring equipment.

## Issued

corrosion resistant piping.  
ferrous alloys.

## Country Footnotes

- Following the implementation of the Joint Comprehensive Plan of Action, the flow of certain goods and services to Iran that were previously prohibited are now permitted. The restrictions currently in force with respect to Iran (counter proliferation) are set out in Council Decision 2010/413/CFSP, as amended, and EU Council Regulation (EU) No 267/2012, as amended. Measures include an arms embargo, which has one exemption for the export of non-combat vehicles with ballistic protection intended solely for protective use of EU and Member States personnel.

All exports for this destination were approved in accordance with the sanctions in place.

- On 12 April 2011, the EU adopted additional sanctions on Iran in response to the deterioration of the human rights situation. Council Decision 2011/235/CFSP, as amended, and Council Regulation (EU) No 359/2011, as amended, includes restrictions on the supply of equipment which might be used for internal repression, as well as of monitoring and interception equipment.

All exports for this destination were approved in accordance with the sanctions in place.

#### Issued

- devices containing military pyrotechnic materials [See footnote 14].
- NBC detection equipment [See footnote 16].
- promoting the supply of anti-armour weapons (2 licences) [See footnotes 1, 6].
- promoting the supply of anti-riot/ballistic shields [See footnote 4].
- promoting the supply of artillery ammunition (3 licences) [See footnotes 12, 7].
- promoting the supply of assault rifles (4) [See footnote 8].
- promoting the supply of assault rifles (10).
- promoting the supply of assault rifles (29) [See footnote 6].
- promoting the supply of assault rifles (42) [See footnote 14].
- promoting the supply of assault rifles (58) [See footnote 16].
- promoting the supply of assault rifles (83) [See footnote 3].
- promoting the supply of assault rifles (100) [See footnote 4].
- promoting the supply of assault rifles (237) [See footnote 1].
- promoting the supply of ballistic test equipment [See footnote 14].
- promoting the supply of body armour (4 licences) [See footnotes 1, 16, 4, 5].
- promoting the supply of bomb suits [See footnote 11].
- promoting the supply of chemicals used for chemical/materials production [See footnote 4].
- A promoting the supply of combat helicopters.
- promoting the supply of components for artillery ammunition (4 licences) [See footnotes 1, 16, 7].
- promoting the supply of components for body armour (4 licences) [See footnotes 1, 16, 3, 5].
- promoting the supply of components for machine guns [See footnote 1].
- promoting the supply of components for military combat vehicles (2 licences) [See footnotes 16, 4].
- promoting the supply of components for military support vehicles (2 licences) [See footnote 13].
- promoting the supply of components for training hand grenades [See footnote 14].
- promoting the supply of grenade launchers [See footnote 1].
- promoting the supply of hand grenades (2 licences) [See footnote 14].
- promoting the supply of launching/handling/control equipment for rockets [See footnote 14].
- promoting the supply of machine guns (1) (2 licences) [See footnote 16].
- promoting the supply of machine guns (2) [See footnote 14].
- promoting the supply of machine guns (12) [See footnote 1].
- promoting the supply of machine guns (18) [See footnote 6].
- promoting the supply of military combat vehicles (5 licences) [See footnotes 10, 12, 15].
- promoting the supply of military communications equipment (3 licences) [See footnotes 1, 16].
- promoting the supply of military guidance/navigation equipment [See footnote 1].
- promoting the supply of military helmets (5 licences) [See footnotes 1, 11, 13, 16, 5].
- promoting the supply of military image intensifier equipment [See footnote 6].
- promoting the supply of military infrared/thermal imaging equipment [See footnote 1].
- promoting the supply of military shotguns (5) (2 licences) [See footnotes 1, 6].
- promoting the supply of military support vehicles (2 licences) [See footnote 13].
- promoting the supply of military trailers.

promoting the supply of mortar bombs [See footnote 7].  
 promoting the supply of munitions/ordnance detection/disposal equipment.  
 promoting the supply of NBC decontamination chemical mixtures [See footnote 16].  
 promoting the supply of NBC decontamination equipment [See footnote 1].  
 promoting the supply of NBC detection equipment (2 licences) [See footnotes 1, 16].  
 promoting the supply of NBC protective/defensive equipment (2 licences) [See footnotes 1, 16].  
 promoting the supply of pistols (4) [See footnote 8].  
 promoting the supply of pistols (10) (2 licences) [See footnote 14].  
 promoting the supply of pistols (39) [See footnote 6].  
 promoting the supply of pistols (58) (2 licences) [See footnotes 16, 4].  
 promoting the supply of pistols (99) [See footnote 3].  
 promoting the supply of pistols (230) [See footnote 1].  
 promoting the supply of projectile launchers [See footnote 1].  
 promoting the supply of rangefinding equipment (3 licences) [See footnotes 1, 16, 6].  
 promoting the supply of small arms ammunition (4 licences) [See footnotes 14, 8].  
 promoting the supply of smoke/pyrotechnic ammunition (2 licences) [See footnotes 12, 7].  
 promoting the supply of sniper rifles (21) [See footnote 1].  
 promoting the supply of weapon night sights (2 licences) [See footnotes 1, 16].  
 promoting the supply of weapon sights (3 licences) [See footnotes 1, 16, 4].

A - Some or all of which were issued on appeal.

### Country Footnotes

1. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq to serve the purposes of UNSCR 1546 (2004).

All exports for this destination were approved in accordance with the sanctions in place.

2. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq to serve the purposes of UNSCR 1546 (2004). This is implemented in the EU with Common Position 2003/495/CFSP, as amended, Council Regulation (EC) No 1210/2003, as amended, and Council Regulation (EEC) No 3541/92.

All exports for this destination were approved in accordance with the sanctions in place.

### SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	36	£4,648,961
Total	36	£4,648,961

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	4	£271,123
ML3	3	£480,370
ML4	6	£515,796
ML5	1	£7,000
ML7	1	£120,000
ML9	3	£97,158
ML10	13	£3,057,126
ML11	3	£12,838
ML16	1	£86,400
ML22	4	£1,150

components for combat aircraft (2 licences).  
 components for combat helicopters.  
 components for decoying/countermeasure equipment (2 licences).  
 components for machine guns.  
 components for military communications equipment (2 licences).  
 components for military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).  
 components for military patrol/assault craft.

components for military radars.  
 components for military support aircraft (4 licences).  
 components for military training aircraft (5 licences).  
 components for naval electrical/electronic equipment.  
 components for NBC protective/defensive equipment.  
 components for small arms ammunition.  
 components for sniper rifles.  
 components for sporting shotgun ammunition (2 licences).  
 decoying/countermeasure equipment (4 licences).  
 general military aircraft components.  
 general naval vessel components.  
 gun mountings.  
 military communications equipment.  
 military improvised explosive device decoying/detection/disposal/jamming equipment.  
 sporting guns (1).  
 technology for decoying/countermeasure equipment (3 licences).  
 technology for unmanned air vehicles.  
 unfinished products for launching/handling/control equipment for munitions.

#### SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

##### Issued

Types of goods on licence	No. of licences	Value
---------------------------	-----------------	-------

Military	1	£8,600
Non-military	3	£73,300
Total	4	£81,900

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML13	1	£8,600

body armour.  
components for body armour.  
military helmets.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£40,300
5A002	1	£33,000

civil explosive detection/identification equipment (2 licences).  
information security equipment.

#### SIELs - Transshipment

##### Issued

Types of goods on licence	No. of licences	Value
Military	1	£13,607
Total	1	£13,607

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry')As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£13,607

sporting shotguns (15).

tactical shotguns (35).

9	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 2]

### Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. End use by the Air Force.
2. Licence granted for accessories / spare parts. Armed forces end use.
3. Licence granted for end use country is a State Party to the CWC. Law enforcement agency end use.

4. Licence granted for accessories / spare parts. Government end use.
5. Licence granted for accessories / spare parts. Government end use.
6. Licence granted for accessories / spare parts. End use by the Air Force.

### Processing Statistics (excluding amendments)

Median processing time SIELs	20 days
% and number of SIELs completed in 20 working days	53% (21)
% and number of SIELs completed in 60 working days	100% (40)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	81 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	29% (2)
% [as a % of all OIELs cases processed] and number of OIELs refused	14% (1)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	12	£4,552,657
Non-military	11	£414,347
Both Military and Non-military	3	£396,981
Total	26	£5,363,985

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£361,283
ML3	3	£117,786
ML5	2	£3,432,000
ML10	2	£144,087
ML11	3	£45,748
ML15	1	£295,820
ML18	3	£138,835
ML21	1	£1,098
ML22	2	£16,000

assault rifles (20).  
ballistic test equipment (2 licences).  
components for assault rifles.  
components for ballistic test equipment (3 licences).  
components for machine guns.

- components for military aero-engines [See footnote 5].
- components for small arms ammunition.
- T equipment for the use of weapon night sights [See footnote 3].
- gun silencers.
- machine guns (20).
- military communications equipment.
- military guidance/navigation equipment.
- T military guidance/navigation equipment [See footnote 3].
- T military image intensifier equipment [See footnote 3].
- T military infrared/thermal imaging equipment [See footnote 3].
- military radars [See footnote 4].
- T rangefinding equipment [See footnote 3].
- software for ballistic test equipment.
- sporting shotgun ammunition (2 licences).
- technology for assault rifles.
- technology for machine guns.
- technology for military radars [See footnote 4].
- T unmanned air vehicles.
- T weapon night sights [See footnote 3].
- T weapon sights [See footnote 3].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C351	1	£980
2B350	1	£8,376
5A002	6	£167,991
6A001	1	£150,000
6D003	1	£80,000
End Use	2	£7,000

- chemicals (2 licences).
- components for corrosion resistant chemical manufacturing equipment.
- T diver location sonars.
- information security equipment (6 licences).
- T software for diver location sonars.
- toxins.

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£4,470
5D002	1	£250,000
6A003	1	£13,000
8A002	1	£5,000
ML4	1	£82,500
ML7	1	£11,700
ML11	1	£6,000
ML17	1	£100
ML21	1	£0
PL8001	1	£24,211

- T civil NBC protection equipment.
- T civil riot control agent protection equipment.
- T components for NBC protective/defensive equipment.
- devices for initiating explosives.
- T imaging cameras.
- information security software.
- T military communications equipment.
- T military laser protection equipment.

T munitions/ordnance detection/disposal equipment.  
 T NBC protective/defensive equipment.  
 T rebreathing swimming equipment.  
 software enabling equipment to function as military guidance/navigation equipment.

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 1]
2	P	components for military support aircraft [See footnote 2]
3	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 9]
4	P	components for equipment for the use of electronic countermeasure equipment, components for launching/handling/control equipment for rockets, components for military electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for rockets, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for launching/handling/control equipment for rockets, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for rockets, technology for military electronic equipment, technology for rangefinding equipment [See footnote 6]
5	P	civil explosive detection/identification equipment [See footnote 7]
6	P	components for military radars, equipment for the use of military radars, software for military radars, software for software for military radars, technology for military radars [See footnote 8]

**Rejected**

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	pistols, sporting guns, sporting shotguns

## Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.

% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Both Military and Non-military	1	£1,162

Total	1	£1,162
-------	---	--------

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£92
1E001	1	£100
ML7	1	£870
ML22	1	£100

components for civil NBC protection equipment.  
NBC protective/defensive equipment.  
technology for civil NBC protection equipment.  
technology for NBC protective/defensive equipment.

#### OIELs (excluding Other OIELs)

##### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 1]
2	P	components for information security equipment, equipment for generating spreading codes, impulse radio equipment, information security equipment, information security software, software for equipment for generating spreading codes, software for impulse radio equipment, software for information security equipment, software for technology for equipment for generating spreading codes, software for technology for impulse radio equipment, software for technology for information security equipment, software for technology for information security software, technology for equipment for generating spreading codes, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for software for equipment for generating spreading codes, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software

information security equipment [See footnote 1].  
information security software.

### Country Footnotes

- UN Security Council Resolution 1970 of 26 February 2011 established an embargo on the supply of arms and related material to Libya. The embargo was amended by Resolutions 2009 (2011) 2095 (2013) and 2362 (2017). Exemptions exist, with approval from the UN Sanctions Committee, for supplies of non-lethal military equipment and protective clothing for use by United Nations personnel, representatives of the media and humanitarian and development workers. Arms and related material intended solely for security or disarmament assistance to the Libyan government are also subject to exemption criteria.

EU Council Decision (CFSP) 2011/137, as amended, and Council Regulation (EU) 2016/44, as amended, restricts the provision of arms and related material; as well as of equipment that might be used for internal repression. Exemptions are in place for internal repression equipment intended solely for humanitarian or protective use, and for temporary export of protective clothing for use by United Nations and EU personnel, representatives of the media and humanitarian and development workers.

Common Position 2004/698/CFSP, as amended, and Council Regulation (EC) No 3275/1993, as amended, are also in place.

All exports for this destination must be in accordance with the sanctions in place.

### Case & goods Footnotes

% and number of SIELs completed in 60 working days	100% (3)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	2	£47,946
Non-military	1	£110,000
Total	3	£157,946

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£10,000
ML4	1	£37,946

military equipment for initiating explosives.  
small arms ammunition [See footnote 1].

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£110,000

information security equipment.

### Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. This embargo also extends to arms exports to Macao. The UK interpretation of the embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

### Case & goods Footnotes

1. Licence granted for personal end use.

## Madagascar

4	P	airframe structures, civil aero-engines, components for civil aero-engines, components for civil aircraft [See footnote 13]
5	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for

		equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment [See footnote 14]
6	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aero-engines, components for military aircrew life support equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircraft pressure refuellers, equipment for the use of military aircrew life support equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military infrared/thermal imaging equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military guidance/navigation equipment, technology for military infrared/thermal imaging equipment, technology for military radars, technology for military support aircraft [See footnote 6]
7	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 15]

8	P	assault rifles, body armour, components for body armour, components for rifles, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns
9	P	components for military guidance/navigation equipment, equipment for the use of military guidance/navigation equipment, military guidance/navigation equipment, software for military guidance/navigation equipment, technology for military guidance/navigation equipment [See footnote 8]
10	P	information security equipment, software for information security equipment, technology for information security equipment
11	P	components for military communications equipment, equipment for the production of military communications equipment, military communications equipment, technology for military communications equipment
12	P	components for military support aircraft [See footnote 9]
13	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 16]
14	P	components for equipment for the use of electronic countermeasure equipment, components for launching/handling/control equipment for rockets, components for military electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for rockets, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for launching/handling/control equipment for rockets, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for rockets, technology for military electronic equipment, technology for rangefinding equipment [See footnote 10]
15	P	civil explosive detection/identification equipment [See footnote 12]

### **SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)**

#### **Issued**

Types of goods on licence	No. of licences	Value
Military	3	£1,259,525
Non-military	3	£42,220
Total	6	£1,301,745

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	1	£850,000
ML6	1	£350,000
ML11	1	£40,000
ML13	1	£19,525

body armour.  
 components for body armour.  
 military guidance/navigation equipment.  
 military helmets.  
 military radars.  
 military support vehicles.

#### **Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	3	£42,220

information security equipment (3 licences).

### **OIELs (excluding Other OIELs)**

#### **Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military support aircraft [See footnote 1]
2	P	components for military support aircraft [See footnote 2]

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. End use by the Air Force.
2. Licence granted for accessories / spare parts. End use by the Air Force.

## Malta

### Processing Statistics (excluding amendments)

Median processing time SIELs	7 days
% and number of SIELs completed in 20 working days	60% (3)
% and number of SIELs completed in 60 working days	100% (5)
% [as a % of all SIEL cases processed] and number of SIELs refused	20% (1)

Median processing time OIELs	168 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	0% (0)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	3	£95,335
Both Military and Non-military	1	£11,229
Total	4	£106,564

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£6,335
ML16	1	£89,000

components for sporting guns.  
sporting guns (1) (2 licences).  
unfinished products for military combat vehicles.

#### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£7,901
PL9010	1	£3,328

components for pistols.  
pistols (4).  
sporting guns (2).  
sporting shotguns (5).  
weapon sights.

### Refused

	Count
Military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry
ML13	1

components for body armour.  
military helmets.

Criteria	Number of times the Criteria were used
1	1

## Country Footnotes

1. Restrictions currently in force with respect to Myanmar are set out in Council Decision 2013/184/CFSP, as amended; these include an embargo on the provision of arms and related material, as well as of equipment that might be used for internal repression as specified in Annex I to Council Regulation (EU) No 401/2013, as amended. Also the technical assistance, and financing or financial assistance related to military activities are also prohibited. All exports for this destination were approved in accordance with the sanctions in place.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	17	£3,920,361
Non-military	6	£236,503
Both Military and Non-military	2	£18,435
Total	25	£4,175,299

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£13,562
ML3	1	£3,735
ML4	1	£2,550

ML5	3	£15,880
ML7	2	£212,923
ML10	2	£3,541,507
ML11	3	£10,464
ML13	1	£115,000
ML15	3	£3,391
ML22	1	£1,349

body armour.  
 components for body armour.  
 components for combat aircraft.  
 components for military communications equipment (2 licences).  
 components for military infrared/thermal imaging equipment (3 licences).  
 components for military radars (3 licences).  
 components for military support aircraft.  
 components for NBC protective/defensive equipment (2 licences).  
 components for weapon night sights.  
 T equipment for the development of weapon control equipment.  
 military helmets.  
 military improvised explosive device decoying/detection/disposal/jamming equipment.  
 technology for weapon night sights.  
 wall/door breaching projectiles/ammunition.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C233	1	£3,035
6A001	1	£170,540
7A103	1	£24,000
PL9010	3	£38,929

T devices containing enriched lithium.  
 guidance/navigation equipment.  
 sporting shotguns (1).  
 sporting shotguns (2).  
 sporting shotguns (19).  
 towed hydrophone arrays.

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£6,000
ML1	1	£10
ML7	1	£12,000
PL9010	1	£425

civil NBC protection clothing.  
 NBC protective/defensive equipment.  
 pistols (1).  
 sporting shotguns (16).

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
---------------------------	-----------------	-------

Military	12	£199,671
Non-military	1	£1,314
Total	13	£200,985

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	2	£1,957
ML9	1	£17,292
ML10	7	£140,322
ML14	1	£15,000
ML17	1	£25,000
ML22	1	£100

components for military aero-engines.  
components for military helicopters (6 licences).  
components for military radars (2 licences).  
components for military training equipment.  
naval electrical/electronic equipment.  
technology for combat aircraft.  
test models for combat aircraft.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C233	1	£1,314

products containing enriched lithium.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia  
Belgium  
Bulgaria  
Finland  
France  
Germany  
Greece  
Indonesia  
Italy  
New Zealand  
Norway  
Oman  
South Korea  
Spain  
Sweden

Thailand  
 Turkey  
 United States of America

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft
2	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment
3	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 4]
4	P	aircraft missile protection systems, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles,

		<p>components for aircraft carriers, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for bombs, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for counter-countermeasure equipment for military image intensifier equipment, components for counter-countermeasure equipment for military infrared/thermal imaging equipment, components for countermeasure equipment for military image intensifier equipment, components for countermeasure equipment for military infrared/thermal imaging equipment, components for decoying/countermeasure equipment, components for developmental missile components, components for electronic countermeasure equipment, components for fire location equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military infrared/thermal imaging equipment, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for multi-role missiles, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for periscopes, components for rangefinding equipment, components for submarines, components for surface launched rockets, components for surface-to-air missiles, components for tanks, components for targeting equipment, components for torpedoes, components for turrets, components for weapon control equipment, components for weapon night sights, components for weapon sights, general military aircraft components, general military vehicle components, general naval vessel components, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft carriers, technology for attack alerting/warning equipment, technology for bombs, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for counter-countermeasure equipment for military image intensifier equipment, technology for counter-countermeasure equipment for military infrared/thermal imaging equipment, technology for countermeasure equipment for military image intensifier equipment, technology for countermeasure equipment for military infrared/thermal imaging equipment, technology for decoying/countermeasure equipment, technology for developmental missile components, technology for electronic countermeasure equipment, technology for fire location equipment, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for military aircraft head-up/down displays, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military infrared/thermal imaging equipment, technology for military patrol/assault craft, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for multi-role missiles, technology for naval electrical/electronic equipment, technology for naval gun installations/mountings, technology for periscopes, technology for rangefinding equipment, technology for submarines, technology for surface launched rockets, technology for surface-to-air missiles, technology for tanks, technology for targeting equipment, technology for torpedoes, technology for turrets, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for fire location equipment, unfinished products for military aircraft head-up/down displays, unfinished products for military image intensifier equipment, unfinished products for military infrared/thermal imaging equipment, unfinished products for periscopes, unfinished products for rangefinding equipment, unfinished products for targeting equipment, unfinished products for weapon night sights, unfinished products for weapon sights</p>
5	P	<p>assault rifles, body armour, components for body armour, components for rifles, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns</p>

6	P	components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights
7	P	neutron generators [See footnote 1]
8	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 5]
9	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 2]
10	P	components for military support aircraft [See footnote 3]

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Armed forces end use.
3. Licence granted for accessories / spare parts. End use by the Air Force.
4. Licence granted for accessories / spare parts. Government end use.
5. Licence granted for accessories / spare parts. Government end use.

## New Zealand

### Processing Statistics (excluding amendments)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	14	£1,841,221
Non-military	5	£130,564
Total	19	£1,971,785

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where

the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	7	£1,119,045
ML2	2	£39,751
ML3	1	£2,083
ML4	2	£641,065
ML10	1	£36,520
ML16	1	£2,757

- T components for artillery.
- components for combat aircraft.
- components for munitions/ordnance detection/disposal equipment.
- components for pistols.
- components for small arms ammunition.
- T components for sporting guns.
- decoying/countermeasure equipment.
- pistols (12).
- projectile launchers.
- T sporting guns (2) (2 licences).
- sporting guns (9).
- sporting guns (10).
- unfinished products for sporting guns.
- weapon night sights.
- weapon sights (2 licences).
- T weapon sights.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£114,900
1C001	1	£560
1C351	1	£228
PL9010	2	£14,876

- civil NBC protection clothing.
- electromagnetic wave absorbing materials.
- sporting shotguns (1) (2 licences).
- toxins.

### OIELs (excluding Other OIELs)

## SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

### Issued

Types of goods on licence	No. of licences	Value
Military	2	£64,294
Non-military	2	£2,513
Total	4	£66,807

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£231
ML11	1	£56,350
ML21	1	£7,714

T components for sniper rifles [See footnote 1].  
T military communications equipment [See footnote 2].  
T software for military communications equipment [See footnote 2].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C353	1	£5
2B350	1	£2,508

corrosion resistant chemical manufacturing equipment.  
pathogenic genetic elements.

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for information security equipment, equipment for generating spreading codes, impulse radio equipment, information security equipment, information security software, software for equipment for generating spreading codes, software for impulse radio equipment, software for information security equipment, software for technology for equipment for generating spreading codes, software for technology for impulse radio equipment, software for technology for information security equipment, software for technology for information security software, technology for equipment for generating spreading codes, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for software for equipment for generating spreading codes, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software
2	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 3]

### Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Law enforcement agency end use.
2. Licence granted for demonstration to potential customers. Armed forces end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.

## Norway

### Processing Statistics (excluding amendments)

% and number of OIELs completed in 60 working days	18% (2)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	10	£956,706
Non-military	3	£41,970
Total	13	£998,676

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where

the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	3	£347,640
ML2	1	£507
ML3	2	£16,375
ML4	1	£35,200
ML5	1	£12,000
ML6	1	£230,120
ML9	1	£1,245
ML10	1	£30,000
ML11	1	£16,000
ML15	1	£267,620

	anti-armour ammunition.
	components for mortars.
	crowd control ammunition.
	explosive charges/devices.
	general naval vessel components.
T	military cameras/photographic equipment.
T	military electronic equipment.
T	military image intensifier equipment.
T	military infrared/thermal imaging equipment.
	military support vehicles.
T	rangefinding equipment.
	small arms ammunition.
	sporting guns (1) (2 licences).
	training sporting shotgun ammunition.
T	unmanned air vehicles.
T	weapon night sights.
T	weapon sights.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C233	1	£2,480
1C353	1	£5
PL9010	1	£39,486

devices containing enriched lithium manufactures.  
pathogenic genetic elements.  
sporting shotguns (2).

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	3	£143,123
Total	3	£143,123

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	3	£143,123

components for launching/handling/control equipment for missiles.  
 components for surface-to-surface missiles (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

- Australia
- Canada
- Chile
- Finland
- Germany
- Italy
- Malaysia
- Netherlands
- Poland
- Portugal
- Spain
- Sweden
- United States of America

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information

		security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment
2	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 4]
3	P	components for sporting guns, components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights
4	P	aircraft missile protection systems, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft carriers, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for bombs, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for counter-countermeasure equipment for military image intensifier equipment, components for counter-countermeasure equipment for military infrared/thermal imaging equipment, components for countermeasure equipment for military image intensifier equipment, components for countermeasure equipment for military infrared/thermal imaging equipment, components for decoying/countermeasure equipment, components for developmental missile components, components for electronic countermeasure equipment, components for fire location equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military infrared/thermal imaging equipment, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for multi-role missiles, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for periscopes, components for rangefinding equipment, components for submarines, components for surface launched rockets, components for surface-to-air missiles, components for tanks, components for targeting equipment, components for torpedoes, components for turrets, components for weapon control equipment, components for weapon night sights, components for weapon sights, general military aircraft components, general military vehicle components, general naval vessel components, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft carriers, technology for attack alerting/warning equipment, technology for bombs, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for counter-countermeasure equipment for military image intensifier equipment,

		technology for counter-countermeasure equipment for military infrared/thermal imaging equipment, technology for countermeasure equipment for military image intensifier equipment, technology for countermeasure equipment for military infrared/thermal imaging equipment, technology for decoying/countermeasure equipment, technology for developmental missile components, technology for electronic countermeasure equipment, technology for fire location equipment, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for military aircraft head-up/down displays, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military infrared/thermal imaging equipment, technology for military patrol/assault craft, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for multi-role missiles, technology for naval electrical/electronic equipment, technology for naval gun installations/mountings, technology for periscopes, technology for rangefinding equipment, technology for submarines, technology for surface launched rockets, technology for surface-to-air missiles, technology for tanks, technology for targeting equipment, technology for torpedoes, technology for turrets, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for fire location equipment, unfinished products for military aircraft head-up/down displays, unfinished products for military image intensifier equipment, unfinished products for military infrared/thermal imaging equipment, unfinished products for periscopes, unfinished products for rangefinding equipment, unfinished products for targeting equipment, unfinished products for weapon night sights, unfinished products for weapon sights
5	P	components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights
6	P	components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, software for equipment for the use of NBC protective/defensive equipment, technology for NBC protective/defensive equipment [See footnote 5]
7	P	neutron generators [See footnote 1]
8	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 2]
9	P	components for military support aircraft [See footnote 3]

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Armed forces end use.
3. Licence granted for accessories / spare parts. End use by the Air Force.
4. Licence granted for accessories / spare parts. Government end use.
5. Licence granted for accessories / spare parts. End use by the Air Force.

ML10	2	£69,746
ML11	7	£191,995

ML14	2	£1,777,876
ML15	5	£486,530

- aircraft cannon ammunition.
- assault rifles (2).
- components for assault rifles.
- components for launching/handling/control equipment for missiles.
- components for machine guns (2 licences).
- components for military combat vehicles (9 licences).
- components for military communications equipment (5 licences).
- components for military helicopters.
- components for military image intensifier equipment.
- components for military improvised explosive device decoying/detection/disposal/jamming equipment.
- components for military infrared/thermal imaging equipment (2 licences).
- components for military radars.
- components for pistols.
- components for small arms training equipment (2 licences).
- components for tanks (3 licences).
- components for weapon control equipment.
- components for weapon night sights.
- demolition charges/devices.
- equipment for the use of small arms training equipment.
- T equipment for the use of weapon night sights.
- explosives.
- grenade launchers.
- T military aircraft ground equipment.
- military electronic equipment.
- T military equipment for initiating explosives.
- T military guidance/navigation equipment.
- T military image intensifier equipment (2 licences).
- T military infrared/thermal imaging equipment.
- military scenario simulation equipment.
- periscopes.
- T rangefinding equipment.
- small arms ammunition.
- small arms training equipment.
- training small arms ammunition.
- weapon control equipment.
- T weapon night sights.
- T weapon sights.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
3A101	1	£3,275,000
5A001	2	£529,922
5A002	1	£349,190
5D001	1	£22,425
5D002	1	£60,444
6A003	2	£457,000
PL9010	1	£1,000

- T components for telecommunications interception equipment.
- imaging cameras.
- T imaging cameras.
- information security equipment.
- software for information security equipment.
- T software for telecommunications interception equipment.
- sporting shotguns (1).
- T telecommunications interception equipment (2 licences) [See footnote 8].
- X-ray accelerators.

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£3,490
6A002	2	£465,430
ML1	2	£118,225
ML11	1	£9,450
ML22	1	£0

- components for sniper rifles.  
direct view imaging equipment.  
T direct view imaging equipment [See footnote 15].  
gun mountings.  
gun silencers.  
information security equipment.  
military communications equipment.  
sniper rifles (1).  
technology for sniper rifles.  
T weapon night sights [See footnote 15].  
weapon sights.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military support aircraft [See footnote 5]
2	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 13]
3	P	airborne refuelling equipment, aircraft military communications equipment, attack alerting/warning equipment, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, electronic countermeasure equipment, electronic warfare equipment, equipment for the operation of military aircraft in confined areas, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft head-up/down displays, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military

		infrared/thermal imaging equipment, military radars, recognition/identification equipment, software for aircraft military communications equipment, software for attack alerting/warning equipment, software for combat aircraft, software for combat helicopters, software for electronic countermeasure equipment, software for military aircraft ground equipment, software for military cameras/photographic equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for military support aircraft, software for military training aircraft, software for targeting equipment, software for weapon control equipment, targeting equipment, technology for aircraft military communications equipment, technology for attack alerting/warning equipment, technology for combat aircraft, technology for combat helicopters, technology for electronic countermeasure equipment, technology for military aircraft ground equipment, technology for military cameras/photographic equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military radars, technology for military support aircraft, technology for military training aircraft, technology for targeting equipment, technology for weapon control equipment, weapon control equipment
4	P	assault rifles, body armour, components for body armour, components for rifles, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns
5	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 9]
6	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 14]
7	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 10]
8	P	components for military support aircraft [See footnote 12]

% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	43	£3,250,452
Non-military	10	£93,374
Both Military and Non-military	1	£209,504
Total	54	£3,553,330

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	10	£378,968
ML3	5	£117,844
ML4	6	£492,468
ML5	1	£683
ML6	1	£1,750,000
ML8	1	£41,000
ML9	1	£11,836
ML10	12	£266,377

ML11	8	£188,662
ML15	1	£2,595
ML21	1	£10
ML22	2	£10

- components for assault rifles.  
 components for military aircraft head-up/down displays.  
 components for military communications equipment.  
 components for military helicopters (2 licences).  
 components for military improvised explosive device decoying/detection/disposal/jamming equipment (3 licences).  
 components for military support aircraft (5 licences).  
 components for military training aircraft.  
 components for mortar bombs.  
 components for munitions/ordnance detection/disposal equipment (2 licences).  
 components for small arms ammunition.  
 components for sniper rifles (2 licences).  
 components for sporting guns (3 licences).  
 components for tanks.  
 electronic warfare equipment.  
 T electronic warfare equipment.  
 equipment for the operation of military aircraft in confined areas.  
 equipment for the use of military equipment for initiating explosives.  
 flash suppressers.  
 general military aircraft components (2 licences).  
 general naval vessel components.  
 gun silencers.  
 military equipment for initiating explosives (2 licences).  
 military guidance/navigation equipment (4 licences).  
 military image intensifier equipment.  
 military improvised explosive device decoying/detection/disposal/jamming equipment.  
 munitions/ordnance detection/disposal equipment.  
 pyrotechnics/fuels and related substances.  
 small arms ammunition (3 licences) [See footnote 4].  
 sniper rifles (50).  
 sniper rifles.  
 software for equipment for the use of attack alerting/warning equipment.  
 sporting guns (1) (6 licences).  
 targeting equipment.  
 technology for equipment for the use of attack alerting/warning equipment.  
 technology for tanks.  
 training small arms ammunition.  
 weapon sights (5 licences).

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£16,400
2B350	1	£1,420
5E002	1	£280
6A003	1	£5,100
End Use	6	£70,174

- accessories for machine tools.  
 civil explosive detection/identification equipment.  
 A components for electronic measurement/test equipment.  
 components for industrial generators.  
 components for submarines.  
 corrosion resistant chemical manufacturing equipment.  
 A electronic measurement/test equipment.  
 A general laboratory equipment.  
 imaging cameras.  
 power supplies.  
 technology for information security equipment.

A - Some or all of which were issued on appeal.

**Both Military and Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
6A003	1	£197,884
ML4	1	£11,620

imaging cameras.  
munitions/ordnance detection/disposal equipment.

**Refused**

	Count
Non-military	13
Total	13

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry
End Use	13

accessories for machine tools.  
accessories for process control equipment.  
components for dimensional measuring equipment.  
components for industrial generators (2 licences).  
dimensional inspection equipment.  
dimensional measuring equipment.  
environmental test equipment.  
general laboratory equipment (2 licences).  
industrial generators (2 licences).  
metal alloy materials.  
non-ferrous alloys.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
1	13

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary

% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	28	£3,196,245
Non-military	1	£44,000
Total	29	£3,240,245

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	12	£573,282
ML2	1	£0
ML3	2	£34,880
ML4	2	£480
ML5	1	£12,000
ML6	7	£1,879,053
ML7	1	£45,540
ML10	3	£307,021
ML11	3	£34,000
ML15	1	£295,820
ML18	1	£14,170

ballistic test equipment.

T	components for military combat vehicles (2 licences). components for military electronic equipment. components for military support vehicles. components for military training aircraft.
T	components for multi-role missiles. components for NBC protective/defensive equipment. components for sniper rifles (2 licences). components for sporting guns (2 licences).
T	components for unmanned air vehicles.
T	components for weapon sights.
T	equipment for the use of aircraft military communications equipment. equipment for the use of weapon night sights.
T	general military vehicle components. gun mountings. gun silencers. inert CS hand grenades. inert hand grenades. military aero-engines.
T	military guidance/navigation equipment.
T	military image intensifier equipment.
T	military infrared/thermal imaging equipment. military support vehicles (2 licences). military trailers. NBC protective/defensive equipment. pistols (1) (2 licences).
T	rangefinding equipment. small arms ammunition. sniper rifles (1) (2 licences). sniper rifles (6). sporting guns (1) (4 licences). sporting guns (5). technology for sniper rifles. training small arms ammunition. weapon night sights.
T	weapon night sights.
T	weapon sights (2 licences).
T	weapon sights.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A007	1	£44,000

non-military detonators.

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	3	£105,140
Total	3	£105,140

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£1,192
ML5	1	£1,796
ML10	1	£102,152

components for launching/handling/control equipment for missiles.  
components for military aero-engines.  
components for recognition/identification equipment.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	63	£33,138,117
Total	63	£33,138,117

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C107	1	£61,996
1C230	1	£40,000
1C232	1	£33,000
1C233	1	£215,379
1C351	2	£3,010
1C353	1	£5
2B001	1	£420,000
2B350	1	£102,017
2B352	2	£11,959
3C001	1	£7,880
5A002	12	£16,172,381
5D002	2	£101,846
5E002	1	£100,000
6A001	1	£17,454
6A003	4	£352,000
7A103	5	£14,250,000
MEND	1	£7,383
RUS	28	£1,241,807

beryllium manufactures.  
biotechnology equipment.  
components for biotechnology equipment.  
components for breathing apparatus.  
components for telecommunications equipment.  
corrosion resistant chemical manufacturing equipment.  
devices containing enriched lithium compounds [See footnote 1].  
devices containing helium-3.  
graphite materials.  
imaging cameras (4 licences).  
inertial equipment (5 licences).  
information security equipment (12 licences).  
information security software.  
machine tools.  
marine position fixing equipment [See footnote 2].  
oil and gas industry equipment/materials (28 licences).  
pathogenic genetic elements.  
products containing enriched lithium [See footnote 1].  
semiconductor wafers with epitaxial layers.  
software for information security equipment.  
technology for information security equipment.  
viruses (2 licences).

#### Refused

	Count
Non-military	17
Total	17

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry

## SIELs - Transshipment

### Issued

Types of goods on licence	No. of licences	Value
Non-military	3	£17,045,862
Total	3	£17,045,862

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'). As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
3A001	3	£17,045,862

extended temperature range integrated circuits (3 licences).  
radiation hardened integrated circuits (2 licences).

#### OIELs (excluding Other OIELs)

#### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aero-engines, components for military aircrew life support equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircraft pressure refuellers, equipment for the use of military aircrew life support equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military infrared/thermal imaging equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military guidance/navigation equipment, technology for military infrared/thermal imaging equipment, technology for military radars, technology for military support aircraft
2	P	components for military support aircraft

#### Issued

oil and gas industry equipment/materials (7 licences).

#### Country Footnotes

1. Council Decision 2014/512/CFSP, as amended and Council Regulation (EU) No 833/2014, as amended, imposes a number of sectoral sanctions against Russian entities. These include restrictions on the supply of arms and military equipment, on dual use items for military use, ban on the supply of equipment and services to Russian deep water, Arctic and shale oil exploration and production projects, and a ban on Russian access to certain EU financial instruments and services.

All exports for this destination were approved in accordance with the sanctions in place.

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£4,055
Total	1	£4,055

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£4,055

civil explosive detection/identification equipment.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 1]
2	P	components for military support aircraft [See footnote 2]

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. End use by the Air Force.

## Serbia

% [as a % of all SIEL cases processed] and number of SIELs refused	5% (1)

Median processing time OIELs	170 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	0% (0)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	9	£924,434
Non-military	4	£315,131
Both Military and Non-military	1	£7,549
Total	14	£1,247,115

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

## Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£8,924
ML10	4	£700,000
ML11	1	£100,000
ML13	1	£2,700
ML18	2	£112,350
ML22	6	£460

airborne refuelling equipment.  
components for body armour.  
components for military aircrew life support equipment (2 licences).  
components for military improvised explosive device decoying/detection/disposal/jamming equipment.  
components for munitions/ordnance detection/disposal equipment.  
equipment for the production of military aircraft ground equipment.  
equipment for the production of naval communications equipment.  
equipment for the use of military aircrew life support equipment.  
military aircrew life support equipment.  
military helmets.  
military improvised explosive device decoying/detection/disposal/jamming equipment.  
technology for equipment for the production of naval communications equipment.  
technology for military aircraft ground equipment.  
technology for military aircrew life support equipment (4 licences).

## Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C230	1	£131
2B001	1	£182,000
2B201	1	£100,000
2D202	1	£0
2E201	1	£0
5A002	1	£33,000

beryllium.  
information security equipment.  
machine tools (2 licences).  
software for machine tools.  
technology for machine tools.

## Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£3,571
PL9010	1	£3,978

components for sporting shotguns.  
pistols (22).  
smooth-bore weapons (18).  
sporting shotguns (99).

## Refused

	Count
Non-military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry
6A002	1
6A003	1

direct view imaging equipment.  
imaging cameras.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£34,187
Total	1	£34,187

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£34,187

information security equipment.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment [See footnote 1]

### Country Footnotes

1. The United Nations imposed embargo on Sierra Leone was lifted on 29 September 2010 with the adoption of UN Security Council resolution 1940. The European Union also lifted EU-imposed sanctions in November 2010. The national implementing legislation on Sierra Leone is however still in force.

All licences for this destination were approved in accordance with the sanctions in place.

### Case & goods Footnotes

1. Licence granted for marketing and promotional use. Armed forces end use.

1	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 1]
2	P	components for combat aircraft
3	P	airborne refuelling equipment, components for airborne refuelling equipment, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment [See footnote 2]
4	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment [See footnote 11]
5	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aero-engines, components for military aircrew life support equipment, components for military guidance/navigation

		equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircraft pressure refuellers, equipment for the use of military aircrew life support equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military infrared/thermal imaging equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military guidance/navigation equipment, technology for military infrared/thermal imaging equipment, technology for military radars, technology for military support aircraft [See footnote 6]
6	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 12]
7	P	assault rifles, body armour, components for body armour, components for rifles, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns
8	P	components for military communications equipment, goods treated for signature suppression for military use, military communications equipment, software for military communications equipment
9	P	information security equipment, software for information security equipment, technology for information security equipment
10	P	toxins
11	P	components for military communications equipment, equipment for the production of military communications equipment, military communications equipment, technology for military communications equipment
12	P	components for military support aircraft [See footnote 8]
13	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 13]

14	P	components for equipment for the use of electronic countermeasure equipment, components for launching/handling/control equipment for rockets, components for military electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for rockets, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for launching/handling/control equipment for rockets, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for rockets, technology for military electronic equipment, technology for rangefinding equipment [See footnote 9]
15	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 10]

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights

### Issued

accessories for military image intensifier equipment (2 licences) [See footnote 5].  
accessories for military infrared/thermal imaging equipment (2 licences) [See footnote 5].  
assault rifles (2 licences) [See footnote 5].  
blank/inert ammunition (2 licences) [See footnote 5].  
body armour (2 licences) [See footnote 5].  
components for assault rifles (2 licences) [See footnote 5].  
components for blank/inert ammunition (2 licences) [See footnote 5].

components for body armour (2 licences) [See footnote 5].  
components for crowd control ammunition (2 licences) [See footnote 5].  
components for flash suppressors (2 licences) [See footnote 5].  
components for gun mountings (2 licences) [See footnote 5].  
components for gun silencers (2 licences) [See footnote 5].  
components for military helmets (2 licences) [See footnote 5].  
components for military image intensifier equipment (2 licences) [See footnote 5].  
components for military infrared/thermal imaging equipment (2 licences) [See footnote 5].  
components for military shotguns (2 licences) [See footnote 5].  
components for pistols (2 licences) [See footnote 5].  
components for rifles (2 licences) [See footnote 5].  
components for small arms ammunition (2 licences) [See footnote 5].  
components for smoke/pyrotechnic ammunition (2 licences) [See footnote 5].  
components for smooth-bore weapons (2 licences) [See footnote 5].  
components for sniper rifles (2 licences) [See footnote 5].  
components for sporting guns (2 licences) [See footnote 5].  
components for sporting shotgun ammunition (2 licences) [See footnote 5].  
components for sporting shotguns (2 licences) [See footnote 5].  
components for tactical shotguns (2 licences) [See footnote 5].  
components for tear gas/irritant ammunition (2 licences) [See footnote 5].  
components for weapon night sights (2 licences) [See footnote 5].  
components for weapon sights (2 licences) [See footnote 5].  
crowd control ammunition (2 licences) [See footnote 5].  
flash suppressors (2 licences) [See footnote 5].  
gun mountings (2 licences) [See footnote 5].  
gun silencers (2 licences) [See footnote 5].  
military helmets (2 licences) [See footnote 5].  
military image intensifier equipment (2 licences) [See footnote 5].  
military infrared/thermal imaging equipment (2 licences) [See footnote 5].  
military shotguns (2 licences) [See footnote 5].  
pistols (2 licences) [See footnote 5].  
promoting the supply of acoustic devices for riot control [See footnote 3].  
promoting the supply of assault rifles (2 licences) [See footnotes 3, 4].  
promoting the supply of body armour [See footnote 3].  
promoting the supply of components for assault rifles (2 licences) [See footnotes 3, 4].  
promoting the supply of components for body armour [See footnote 3].  
promoting the supply of components for flash suppressers (2 licences) [See footnotes 3, 4].  
promoting the supply of components for ground vehicle military communications equipment [See footnote 3].  
promoting the supply of components for gun mountings (2 licences) [See footnotes 3, 4].  
promoting the supply of components for military communications equipment [See footnote 3].  
promoting the supply of components for military image intensifier equipment [See footnote 3].  
promoting the supply of components for military infrared/thermal imaging equipment [See footnote 3].  
promoting the supply of components for military shotguns (2 licences) [See footnotes 3, 4].  
promoting the supply of components for naval communications equipment [See footnote 3].  
promoting the supply of components for pistols (2 licences) [See footnotes 3, 4].  
promoting the supply of components for rifles (2 licences) [See footnotes 3, 4].  
promoting the supply of components for small arms ammunition (2 licences) [See footnotes 3, 4].  
promoting the supply of components for smooth-bore weapons (2 licences) [See footnotes 3, 4].  
promoting the supply of components for sniper rifles (2 licences) [See footnotes 3, 4].  
promoting the supply of components for sporting guns (2 licences) [See footnotes 3, 4].  
promoting the supply of components for sporting shotguns (2 licences) [See footnotes 3, 4].  
promoting the supply of components for tactical shotguns (2 licences) [See footnotes 3, 4].  
promoting the supply of components for weapon night sights (2 licences) [See footnotes 3, 4].  
promoting the supply of components for weapon sights (2 licences) [See footnotes 3, 4].  
promoting the supply of flash suppressers (2 licences) [See footnotes 3, 4].  
promoting the supply of ground vehicle military communications equipment [See footnote 3].  
promoting the supply of gun mountings (2 licences) [See footnotes 3, 4].  
promoting the supply of military communications equipment [See footnote 3].  
promoting the supply of military helmets [See footnote 3].  
promoting the supply of military image intensifier equipment [See footnote 3].  
promoting the supply of military infrared/thermal imaging equipment [See footnote 3].  
promoting the supply of military shotguns (2 licences) [See footnotes 3, 4].  
promoting the supply of naval communications equipment [See footnote 3].  
promoting the supply of pistols (2 licences) [See footnotes 3, 4].  
promoting the supply of rifles (2 licences) [See footnotes 3, 4].  
promoting the supply of small arms ammunition (2 licences) [See footnotes 3, 4].  
promoting the supply of smooth-bore weapons (2 licences) [See footnotes 3, 4].  
promoting the supply of sniper rifles (2 licences) [See footnotes 3, 4].  
promoting the supply of sporting guns (2 licences) [See footnotes 3, 4].

promoting the supply of sporting shotgun ammunition (2 licences) [See footnotes 3, 4].  
 promoting the supply of sporting shotguns (2 licences) [See footnotes 3, 4].  
 promoting the supply of tactical shotguns (2 licences) [See footnotes 3, 4].  
 promoting the supply of weapon night sights (2 licences) [See footnotes 3, 4].  
 promoting the supply of weapon sights (2 licences) [See footnotes 3, 4].  
 rifles (2 licences) [See footnote 5].  
 small arms ammunition (2 licences) [See footnote 5].  
 smoke/pyrotechnic ammunition (2 licences) [See footnote 5].  
 smooth-bore weapons (2 licences) [See footnote 5].  
 sniper rifles (2 licences) [See footnote 5].  
 sporting guns (2 licences) [See footnote 5].  
 sporting shotgun ammunition (2 licences) [See footnote 5].  
 sporting shotguns (2 licences) [See footnote 5].  
 tactical shotguns (2 licences) [See footnote 5].  
 tear gas/irritant ammunition (2 licences) [See footnote 5].  
 weapon night sights (2 licences) [See footnote 5].  
 weapon sights (2 licences) [See footnote 5].

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	2	£5,680
Total	2	£5,680

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where

the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
PL9010	2	£5,680

components for sporting shotguns.  
sporting shotguns (1).  
sporting shotguns (2).

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment

## SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

### Issued

Types of goods on licence	No. of licences	Value
Military	1	£29,986
Non-military	4	£438,364
Total	5	£468,351

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML13	1	£29,986

body armour.  
components for body armour.  
military helmets.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£52,802
5A002	3	£385,505
5D002	2	£58

civil explosive detection/identification equipment.  
information security equipment (3 licences).  
information security software (2 licences).

### Country Footnotes

1. UN Security Council Resolution 2142 (2014) continues the embargo on the supply of arms and related material. The embargo no longer applies to military equipment intended solely for the development of the Security Forces of the Federal Government of Somalia, providing the UN Sanctions Committee is notified in advance.

Exemptions to the embargo authorise supplies of non-lethal military equipment intended solely for humanitarian or protective use, weapons and military equipment for the support or use by UN personnel or

strategic partners of AMISOM, supplies for use by UN member states to combat piracy and supplies intended for the development of Somali security sector institutions.

The EU implements this UN sanction regime via Council Decision 2010/231/CFSP, as amended, Council Regulation (EU) No 356/2010, as amended and Council Regulation (EC) No 147/2003, as amended

All exports for this destination were approved in accordance with the sanctions in place.

## South Africa

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	27	£3,290,590
Non-military	28	£1,409,010
Both Military and Non-military	2	£742,310
Total	57	£5,441,909

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	13	£1,326,548
ML3	1	£425,400
ML4	1	£438,000
ML5	2	£22,522
ML6	2	£7,459
ML10	2	£64,500
ML11	6	£598,867
ML15	2	£405,494
ML22	1	£1,800

- components for combat helicopters.  
 components for decoying/countermeasure equipment.  
 components for electronic warfare equipment (3 licences).  
 components for electronic warfare equipment.  
 components for military infrared/thermal imaging equipment.  
 components for small arms ammunition.  
 components for sniper rifles [See footnote 5].  
 components for sporting guns [See footnote 9].  
 components for targeting equipment.  
 electronic warfare equipment.  
 general military vehicle components (2 licences).  
 gun silencers (2 licences) [See footnote 5].  
 military aircrew safety equipment.  
 military electronic equipment.  
 military guidance/navigation equipment.  
 military image intensifier equipment.  
 military infrared/thermal imaging equipment.  
 rangefinding equipment.  
 small arms ammunition.  
 sniper rifles (15) [See footnote 5].  
 sporting guns (1) (4 licences).  
 sporting guns (1) (2 licences).  
 sporting guns (15).  
 sporting guns (200).  
 technology for military guidance/navigation equipment [See footnote 13].  
 weapon night sights.  
 weapon sights (2 licences) [See footnote 5].  
 weapon sights.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A002	1	£200
1C010	1	£8,166
1C210	1	£13,636
1C351	2	£286
1C353	1	£5
2B350	7	£13,613
2B352	2	£38,153
3A225	1	£195
5A001	1	£538,525
5A002	6	£519,028
5D001	1	£22,425
6A001	1	£8,346
6A003	1	£94,558
6A005	1	£97,650
8A002	1	£4,165
9A004	1	£48,210

PL9010	1	£1,850
--------	---	--------

- biotechnology equipment (2 licences).  
 components for corrosion resistant chemical manufacturing equipment (4 licences).  
 components for telecommunications interception equipment [See footnote 4].  
 composite structures.  
 corrosion resistant chemical manufacturing equipment (3 licences).  
 fibrous/filamentary materials (2 licences).  
 frequency changers.  
 imaging cameras.  
 information security equipment (5 licences) [See footnote 7].  
 information security equipment.  
 lasers.  
 marine position fixing equipment.  
 pathogenic genetic elements.  
 rebreathing swimming equipment.  
 software for telecommunications interception equipment [See footnote 4].  
 spacecraft command and telemetry data handling systems.  
 sporting shotguns (2).  
 telecommunications interception equipment [See footnote 4].  
 toxins.  
 viruses.

**Both Military and Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	1	£102,250
6A003	1	£68,250
ML1	1	£128,810
ML5	1	£200,000
PL9010	1	£243,000

- components for sporting guns.  
 direct view imaging equipment.  
 imaging cameras.  
 sporting guns (75).  
 sporting shotguns (150).  
 targeting equipment.

**SIELs - Incorporation**

**Issued**

Types of goods on licence	No. of licences	Value
Military	8	£69,257
Total	8	£69,257

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	1	£339

ML10	6	£55,777
ML11	1	£13,141

components for combat aircraft.  
components for military helicopters (4 licences).  
components for military training aircraft.  
components for weapon sights.  
electronic warfare equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Jordan  
Malaysia  
New Zealand  
United Arab Emirates  
United Kingdom

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft
2	P	civil unmanned air vehicles, launch support equipment for civil unmanned air vehicles, technology for civil unmanned air vehicles [See footnote 14]
3	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 15]
4	P	assault rifles, body armour, components for body armour, components for rifles, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns
5	P	information security equipment, information security software, software for information security equipment, technology for information security equipment [See footnote 6]

6	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 8]
7	P	components for equipment for the use of electronic countermeasure equipment, components for launching/handling/control equipment for rockets, components for military electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for rockets, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for launching/handling/control equipment for rockets, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for rockets, technology for military electronic equipment, technology for rangefinding equipment [See footnote 10]
8	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 11]
9	P	components for military support aircraft [See footnote 12]

### OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment [See footnote 11]
2	P	airborne refuelling equipment, components for airborne refuelling equipment, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment [See footnote 1]
3	P	technology for combat aircraft, technology for general military aircraft components
4	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment [See footnote 12]
5	P	civil unmanned air vehicles, launch support equipment for civil unmanned air vehicles, technology for civil unmanned air vehicles [See footnote 10]
6	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aero-engines, components for

		military aircrew life support equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircraft pressure refuellers, equipment for the use of military aircrew life support equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military infrared/thermal imaging equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military guidance/navigation equipment, technology for military infrared/thermal imaging equipment, technology for military radars, technology for military support aircraft [See footnote 2]
7	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 13]
8	P	components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights
9	P	information security equipment, information security software, software for information security equipment, technology for information security equipment [See footnote 4]
10	P	components for military guidance/navigation equipment, equipment for the use of military guidance/navigation equipment, military guidance/navigation equipment, software for military guidance/navigation equipment, technology for military guidance/navigation equipment [See footnote 5]
11	P	components for radar equipment, radar equipment, software for radar equipment
12	P	toxins
13	P	components for military support aircraft [See footnote 6]
14	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 7]

15	P	components for equipment for the use of electronic countermeasure equipment, components for launching/handling/control equipment for rockets, components for military electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for rockets, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for launching/handling/control equipment for rockets, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for rockets, technology for military electronic equipment, technology for rangefinding equipment [See footnote 8]
16	P	components for semiconductor manufacturing equipment
17	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 9]

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. End use by the Air Force.
2. Licence granted for accessories / spare parts. End use by the Air Force.
3. Licence granted for demonstration to potential customers. Law enforcement agency end use.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.
5. Licence granted for End use by the Navy.
6. Licence granted for accessories / spare parts. End use by the Air Force.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.
8. Licence granted for accessories / spare parts. Armed forces end use.
9. Licence granted for accessories / spare parts. Armed forces end use.
10. Licence granted for marketing and promotional use. Government end use.
11. Licence granted for marketing and promotional use. Armed forces end use.
12. Licence granted for end use country is a State Party to the CWC. Law enforcement agency end use.
13. Licence granted for accessories / spare parts. Government end use.
14. Licence granted for demonstration to potential customers. Government end use.
15. Licence granted for demonstration to potential customers. Government end use.

## South Sudan

### Processing Statistics (excluding amendments)

Median processing time SIELs	10 days
% and number of SIELs completed in 20 working days	100% (9)
% and number of SIELs completed in 60 working days	100% (9)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	5	£198,538
Non-military	2	£207,885

Total	7	£406,422
-------	---	----------

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	3	£181,648
ML13	2	£16,890

body armour (2 licences).  
 components for body armour (2 licences).  
 components for military support vehicles.  
 military helmets (2 licences).  
 military support vehicles (2 licences).

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	2	£61,649
5D002	1	£146,236

information security equipment (2 licences).  
 information security software.

### Country Footnotes

1. EU Council Decision (CFSP) 2015/740, as amended and Council Regulation (EU) 2015/735, as amended, transpose UNSCR 2206 (2015). This provide for restrictive measures in the form of travel restrictions and asset freezes that may be applied in relation to persons and entities designated by the Security Council Committee.

The measures embargo the provision of arms and related materiel to South Sudan, as well as assistance and services related to those items or to the provision, manufacture, maintenance and use of those items. Exemptions exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment and protective clothing for use by UN, AU, EU or IGAD personnel in crisis management and institution building programmes, non-combat vehicles intended for protective use by EU, UN, AU or IGAD personnel, and demining equipment.

All exports for this destination were approved in accordance with the sanctions in place.

## Spain

### Processing Statistics (excluding amendments)

Median processing time SIELs	11 days
% and number of SIELs completed in 20 working days	79% (42)
% and number of SIELs completed in 60 working days	98% (52)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	100 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	23% (3)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

Median processing time OITCLs	67 days
% and number of OITCLs completed in 20 working days	0% (0)
% and number of OITCLs completed in 60 working days	0% (0)
% [as a % of all OITCLs cases processed] and number of OITCLs refused	0% (0)

## **SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)**

### **Issued**

Types of goods on licence	No. of licences	Value
Military	22	£1,088,825
Non-military	7	£111,745
Both Military and Non-military	2	£18,855
Total	31	£1,219,425

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	4	£84,672
ML3	1	£1,904
ML8	1	£16
ML10	12	£303,817
ML11	2	£666,490
ML13	1	£22,383
ML16	2	£9,542

aircraft military communications equipment.  
 armoured plate.  
 components for airborne refuelling equipment (6 licences).  
 components for electronic warfare equipment.  
 components for military support aircraft (6 licences) [See footnote 4].  
 components for sniper rifles.  
 gun mountings.  
 gun silencers.  
 military guidance/navigation equipment.  
 pistols (12).  
 precursors for energetic materials.  
 sniper rifles (7).  
 sporting guns (1) (2 licences).  
 training small arms ammunition.  
 unfinished products for combat aircraft (2 licences).  
 weapon sights.

### **Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
0E001	1	£1
1A007	2	£75,510
2B350	1	£9,045
6A001	1	£3,789
PL9010	2	£23,400

components for marine position fixing equipment.  
 corrosion resistant chemical manufacturing equipment.  
 non-military detonators.  
 non-military firing sets.  
 sporting shotguns (2).  
 sporting shotguns (5).  
 technology for nuclear reactors.

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£14,303
PL9010	2	£4,552

sporting guns (1).  
 sporting guns (3).  
 sporting shotguns (2).  
 sporting shotguns (4).

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	11	£3,176,558
Non-military	2	£336,931
Total	13	£3,513,489

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML9	2	£25,931
ML10	5	£2,227,992
ML11	3	£845,115
ML15	1	£77,520
ML22	1	£0

components for airborne refuelling equipment.

components for electronic warfare equipment.  
 components for military aero-engines.  
 components for military auxiliary/support vessels.  
 components for military infrared/thermal imaging equipment.  
 components for military support aircraft (3 licences).  
 components for naval communications equipment.  
 electronic warfare equipment.  
 military guidance/navigation equipment.  
 technology for electronic warfare equipment.

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
5A001	1	£56,075
IRN	1	£280,856

pumps.  
 underwater telecommunications systems.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Algeria  
 Angola  
 Australia  
 Bangladesh  
 Belgium  
 Botswana  
 Brazil

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	airborne refuelling equipment, components for airborne refuelling equipment, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment [See footnote 1]
2	P	components for military combat vehicles
3	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information

		security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment
4	P	components for military support aircraft [See footnote 2]
5	P	Software for modelling/simulating military operation scenarios, Software for modelling/simulating/evaluating weapon systems, software for multi-role missiles, technology for multi-role missiles, technology for Software for modelling/simulating military operation scenarios, technology for Software for modelling/simulating/evaluating weapon systems
6	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 7]
7	P	aircraft missile protection systems, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft carriers, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for bombs, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for counter-countermeasure equipment for military image intensifier equipment, components for counter-countermeasure equipment for military infrared/thermal imaging equipment, components for countermeasure equipment for military image intensifier equipment, components for countermeasure equipment for military infrared/thermal imaging equipment, components for decoying/countermeasure equipment, components for developmental missile components, components for electronic countermeasure equipment, components for fire location equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military infrared/thermal imaging equipment, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for multi-role missiles, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for periscopes, components for rangefinding equipment, components for submarines, components for surface launched rockets, components for surface-to-air missiles, components for tanks, components for targeting equipment, components for torpedoes, components for turrets, components for weapon control equipment, components for weapon night sights, components for weapon sights, general military aircraft components, general military vehicle components, general naval vessel components, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft carriers, technology for attack alerting/warning equipment,

		technology for bombs, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for counter-countermeasure equipment for military image intensifier equipment, technology for counter-countermeasure equipment for military infrared/thermal imaging equipment, technology for countermeasure equipment for military image intensifier equipment, technology for countermeasure equipment for military infrared/thermal imaging equipment, technology for decoying/countermeasure equipment, technology for developmental missile components, technology for electronic countermeasure equipment, technology for fire location equipment, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for military aircraft head-up/down displays, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military infrared/thermal imaging equipment, technology for military patrol/assault craft, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for multi-role missiles, technology for naval electrical/electronic equipment, technology for naval gun installations/mountings, technology for periscopes, technology for rangefinding equipment, technology for submarines, technology for surface launched rockets, technology for surface-to-air missiles, technology for tanks, technology for targeting equipment, technology for torpedoes, technology for turrets, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for fire location equipment, unfinished products for military aircraft head-up/down displays, unfinished products for military image intensifier equipment, unfinished products for military infrared/thermal imaging equipment, unfinished products for periscopes, unfinished products for rangefinding equipment, unfinished products for targeting equipment, unfinished products for weapon night sights, unfinished products for weapon sights
8	P	components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights
9	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 8]
10	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 3]
11	P	unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for military training aircraft
12	P	components for military support aircraft [See footnote 6]

### SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

## Issued

Types of goods on licence	No. of licences	Value
Military	3	£14,728
Non-military	1	£176,400
Total	4	£191,128

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML7	1	£120
ML9	1	£9,608
ML10	1	£5,000

components for military patrol/assault craft.  
 components for military support aircraft.  
 components for NBC protective/defensive equipment [See footnote 10].  
 NBC protective/defensive equipment [See footnote 10].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A001	1	£176,400

acoustic seabed survey equipment.

### OIELs (excluding Other OIELs)

## Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	body armour, components for body armour, components for munitions/ordnance detection/disposal equipment, devices for initiating explosives, munitions/ordnance detection/disposal equipment, non-military firing sets [See footnote 4]
2	P	assault rifles, body armour, components for body armour, components for rifles, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns
3	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 11]

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C350	2	£2,873

chemicals used for industrial/commercial processes (2 licences).

#### Country Footnotes

- UN Security Council resolution 1556 (2004) established an embargo on the supply of arms and related material to non-governmental entities in the Darfur region of Sudan; this was extended to include all individuals and entities in Darfur through Resolution 1591 (2005).

EU Council Decision 2011/423/CFSP, as amended, embargoed the provision of arms and related material to Sudan and South Sudan. EU Council Decision 2014/450/CFSP repealed Decision 2011/423/CFSP and separated the restrictive measures imposed on Sudan into a distinct legal instrument. The enforcement of the arms embargo was further strengthened by resolution 1945 (2010) of 14 October 2010. This is implemented by Council Regulation (EC) No 747/2014, as amended.

The measures embargo the provision of arms and related materiel to Sudan, as well as assistance and services related to those items or to the provision, manufacture, maintenance and use of those items. Exemptions exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment and protective clothing for use by UN, AU or EU personnel in crisis management and institution building programmes, non-combat vehicles intended for protective use by EU, UN, or AU, and demining equipment.

All exports for this destination were approved in accordance with the sanctions in place.

ML15	2	£549,200
ML21	1	£10

- body armour.
- components for body armour (2 licences).
- components for combat aircraft.
- components for military combat vehicles.
- components for military electronic equipment.
- components for military guidance/navigation equipment.
- components for military radars (2 licences).
- components for military training aircraft (4 licences).
- components for NBC detection equipment.
- components for pistols.
- components for sniper rifles (2 licences).
- components for sporting guns (2 licences).
- components for unmanned air vehicles.
- components for weapon control equipment (2 licences).
- decoying/countermeasure equipment.
- general military aircraft components (3 licences).
- general military vehicle components (2 licences).
- general naval vessel components.
- gun silencers (2 licences).
- T military aircrew life support equipment.
- T military aircrew safety equipment (3 licences).
- T military aircrew safety equipment.
- T military electronic equipment.
- T military guidance/navigation equipment.
- T military guidance/navigation equipment (2 licences).
- military helmets.
- T military image intensifier equipment (2 licences).
- T military infrared/thermal imaging equipment (2 licences).
- NBC detection equipment (2 licences).
- T projectile launchers.
- sniper rifles (1).

T software for military guidance/navigation equipment.  
 sporting guns (1) (2 licences).  
 T targeting equipment.  
 T weapon night sights (2 licences).  
 T weapon sights (2 licences).

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	1	£608
0E001	1	£50

anthrax vaccines.  
 components for sporting shotguns.  
 information security equipment.  
 information security software.  
 products containing depleted uranium.  
 technology for uranium isotope separation equipment.  
 toxins (2 licences).  
 tritium.

**SIELs - Incorporation**

**Issued**

Types of goods on licence	No. of licences	Value
Military	10	£1,309,745
Total	10	£1,309,745

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	5	£490,535
ML6	1	£1,160
ML10	2	£23,250
ML11	1	£744,800
ML21	1	£50,000

components for military radars (3 licences).  
 components for military training aircraft (2 licences).  
 components for weapon control equipment (2 licences).  
 general military vehicle components.  
 military electronic equipment.  
 software for military training equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

- Australia
- Austria
- Bangladesh
- Botswana
- Brunei
- Bulgaria
- Chile
- Croatia
- France
- Germany
- India
- Indonesia
- Ireland
- Jordan
- Malaysia
- Mexico
- Netherlands
- Oman
- Qatar
- Saudi Arabia
- Singapore
- Slovenia
- South Africa
- Spain
- Thailand
- United Arab Emirates
- United Kingdom
- Uruguay

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft
2	P	software for uranium isotope separation equipment, technology for uranium isotope separation equipment [See footnote 1]
3	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military

		training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment
4	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 4]
5	P	components for sporting guns, components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights
6	P	aircraft missile protection systems, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft carriers, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for bombs, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for counter-countermeasure equipment for military image intensifier equipment, components for counter-countermeasure equipment for military infrared/thermal imaging equipment, components for countermeasure equipment for military image intensifier equipment, components for countermeasure equipment for military infrared/thermal imaging equipment, components for decoying/countermeasure equipment, components for developmental missile components, components for electronic countermeasure equipment, components for fire location equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military infrared/thermal imaging equipment, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for multi-role missiles, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for periscopes, components for rangefinding equipment, components for submarines, components for surface launched rockets, components for surface-to-air missiles, components for tanks, components for targeting equipment, components for torpedoes, components for turrets, components for weapon control equipment, components for weapon night sights, components for weapon sights, general military aircraft components, general military vehicle components, general naval vessel components, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles,

		technology for aircraft carriers, technology for attack alerting/warning equipment, technology for bombs, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for counter-countermeasure equipment for military image intensifier equipment, technology for counter-countermeasure equipment for military infrared/thermal imaging equipment, technology for countermeasure equipment for military image intensifier equipment, technology for countermeasure equipment for military infrared/thermal imaging equipment, technology for decoying/countermeasure equipment, technology for developmental missile components, technology for electronic countermeasure equipment, technology for fire location equipment, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for military aircraft head-up/down displays, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military infrared/thermal imaging equipment, technology for military patrol/assault craft, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for multi-role missiles, technology for naval electrical/electronic equipment, technology for naval gun installations/mountings, technology for periscopes, technology for rangefinding equipment, technology for submarines, technology for surface launched rockets, technology for surface-to-air missiles, technology for tanks, technology for targeting equipment, technology for torpedoes, technology for turrets, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for fire location equipment, unfinished products for military aircraft head-up/down displays, unfinished products for military image intensifier equipment, unfinished products for military infrared/thermal imaging equipment, unfinished products for periscopes, unfinished products for rangefinding equipment, unfinished products for targeting equipment, unfinished products for weapon night sights, unfinished products for weapon sights
7	P	components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights
8	P	toxins
9	P	components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, software for equipment for the use of NBC protective/defensive equipment, technology for NBC protective/defensive equipment [See footnote 5]
10	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 2]
11	P	unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for military training aircraft
12	P	components for military support aircraft [See footnote 3]

#### Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Armed forces end use.
3. Licence granted for accessories / spare parts. End use by the Air Force.
4. Licence granted for accessories / spare parts. Government end use.
5. Licence granted for accessories / spare parts. End use by the Air Force.

## Syria

### Processing Statistics (excluding amendments)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	84	£25,275,072
Non-military	32	£1,144,756
Total	116	£26,419,828

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value

ML1	3	£143,300
ML3	2	£97,000
ML4	14	£3,192,680
ML5	12	£1,680,774
ML6	6	£13,598,718
ML7	2	£421,685
ML9	5	£90,233
ML10	21	£1,001,079
ML11	10	£2,474,186
ML14	2	£768,195
ML15	5	£1,341,360
ML16	2	£392,516
ML18	2	£43,615
ML21	5	£29,330
ML22	2	£401

aircraft military communications equipment.  
 ballistic test equipment (3 licences).  
 components for air-to-surface missiles (5 licences).  
 components for aircraft military communications equipment.  
 components for ballistic test equipment (3 licences).  
 components for combat aircraft.  
 components for combat helicopters (4 licences).  
 components for command/control equipment for unmanned air vehicles.  
 components for decoying/countermeasure equipment.  
 components for equipment for the use of attack alerting/warning equipment.  
 components for equipment for the use of electronic warfare equipment.  
 components for launching/handling/control equipment for missiles (2 licences).  
 components for launching/handling/control equipment for munitions.  
 components for military combat vehicles (3 licences).  
 components for military communications equipment (3 licences).  
 components for military helicopters (4 licences).  
 components for military infrared/thermal imaging equipment (2 licences).  
 components for military radars (5 licences).  
 components for military support aircraft (4 licences).  
 components for military support vehicles.  
 components for military training aircraft.  
 components for naval electrical/electronic equipment.  
 components for surface-to-surface missiles [See footnote 3].  
 components for tanks.  
 components for targeting equipment (3 licences).  
 components for unmanned air vehicles (3 licences).  
 components for weapon control equipment.  
 components for weapon night sights.  
 developmental missile components.  
 equipment for the production of body armour.  
 equipment for the production of small arms ammunition.  
 equipment for the use of naval electrical/electronic equipment.  
 T equipment for the use of weapon control equipment.  
 general military aircraft components.  
 general military vehicle components.  
 general naval vessel components (5 licences).  
 T launching/handling/control equipment for missiles.  
 launching/handling/control equipment for missiles.  
 T military electronic equipment.  
 military electronic equipment [See footnote 11].  
 T military guidance/navigation equipment.  
 military image intensifier equipment [See footnote 11].  
 T military infrared/thermal imaging equipment (2 licences).  
 military scenario simulation equipment.  
 munitions/ordnance detection/disposal equipment.  
 NBC detection equipment.  
 NBC protective/defensive equipment.  
 small arms ammunition.  
 small arms training equipment.

	smoke/pyrotechnic ammunition.
	software for air-to-surface missiles.
	software for ballistic test equipment (2 licences).
T	software for launching/handling/control equipment for missiles.
	software for military training aircraft.
T	Software for modelling/simulating/evaluating weapon systems.
	technology for air-to-surface missiles.
	technology for aircraft military communications equipment.
	unfinished products for combat aircraft.
	unfinished products for military aero-engines.
	weapon night sights.
T	weapon night sights (2 licences) [See footnote 11].
	weapon sights.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	3	£861
1A007	4	£57,420
1C202	2	£6,767
1C210	1	£280,000
1C231	1	£841
1C350	1	£104
1C351	1	£6
1C353	1	£5
2B201	2	£359,444
2B350	3	£4,147
2E201	1	£10,000
3A225	1	£6,545
5A002	2	£8,613
6A001	2	£130,241
6A003	4	£129,033
6A203	1	£41,500
7A103	2	£65,000
End Use	1	£18,230
PL8001	1	£26,000

	acoustic seabed survey equipment.
	chemicals used for chemical/materials production.
	components for corrosion resistant chemical manufacturing equipment.
	corrosion resistant chemical manufacturing equipment (2 licences).
	deuterium compounds (2 licences).
	deuterium solutions.
T	explosives detection equipment.
	fibrous/filamentary materials [See footnote 9].
	frequency changers.
	hafnium compounds.
	imaging cameras (4 licences).
	inertial equipment (2 licences) [See footnote 2].
	information security equipment (2 licences).
	instrumentation cameras.
	machine tools (2 licences).
	marine position fixing equipment.
	metal alloy cylindrical forms (2 licences).
	non-military detonators (4 licences).
	non-military firing sets.
	pathogenic genetic elements.
	technology for machine tools.
	viruses.
	welding equipment.

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	7	£9,546,322
Total	7	£9,546,322

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	1	£1,224,200
ML6	5	£8,310,328
ML7	1	£11,795

components for military combat vehicles (4 licences) [See footnote 1].  
 components for NBC protective/defensive equipment.  
 components for targeting equipment [See footnote 5].  
 general military vehicle components.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Bahrain  
 Malaysia  
 Oman  
 United Arab Emirates

### OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft
2	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military training equipment, equipment for the use of military software, equipment for the use of software enabling equipment to function as military training equipment, information

		security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment
3	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 10]
4	P	components for military guidance/navigation equipment, equipment for the use of military guidance/navigation equipment, military guidance/navigation equipment, software for military guidance/navigation equipment, technology for military guidance/navigation equipment [See footnote 4]
5	P	components for information security equipment, equipment for generating spreading codes, impulse radio equipment, information security equipment, information security software, software for equipment for generating spreading codes, software for impulse radio equipment, software for information security equipment, software for technology for equipment for generating spreading codes, software for technology for impulse radio equipment, software for technology for information security equipment, software for technology for information security software, technology for equipment for generating spreading codes, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for software for equipment for generating spreading codes, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software
6	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 6]
7	P	components for equipment for the use of electronic countermeasure equipment, components for launching/handling/control equipment for rockets, components for military electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for rockets, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for launching/handling/control equipment for rockets, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for rockets, technology for military electronic equipment, technology for rangefinding equipment [See footnote 7]
8	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment

		for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 8]

### Case & goods Footnotes

1. Licence granted for armed forces end use.
2. Licence granted for demonstration to potential customers. Civilian / commercial end use.
3. Licence granted for testing and evaluation purposes.
4. Licence granted for End use by the Navy.
5. Licence granted for accessories / spare parts. End use by the Air Force.
6. Licence granted for accessories / spare parts. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. Armed forces end use.
8. Licence granted for accessories / spare parts. Armed forces end use.
9. Licence granted for civilian / commercial end use.
10. Licence granted for accessories / spare parts. Government end use.
11. Licence granted for goods which will be returned to the UK. Government end use.

## Turkmenistan

### Processing Statistics (excluding amendments)

Median processing time SIELs	12 days
% and number of SIELs completed in 20 working days	75% (3)
% and number of SIELs completed in 60 working days	100% (4)

ML17	1	£40,000
ML18	4	£51,405
ML21	1	£1,600
ML22	1	£0

- accessories for munitions/ordnance detection/disposal equipment.  
assault rifles (10) (2 licences).  
assault rifles (40) [See footnote 28].  
body armour.  
components for assault rifles (2 licences) [See footnote 28].  
components for body armour (2 licences) [See footnote 23].  
components for combat aircraft [See footnote 8].  
components for machine guns [See footnote 28].  
components for military aero-engines (2 licences).  
T components for military aero-engines.  
components for military aircraft head-up/down displays [See footnote 15].  
components for military communications equipment.  
components for military electronic equipment [See footnote 30].  
components for military equipment for initiating explosives.  
components for military improvised explosive device decoying/detection/disposal/jamming equipment.  
components for mortars (2 licences) [See footnotes 18, 24].  
components for munitions/ordnance detection/disposal equipment.  
components for NBC protective/defensive equipment [See footnote 19].  
components for pistols.  
components for sniper rifles.  
components for sporting guns (2 licences).  
components for tanks [See footnote 14].  
components for targeting equipment [See footnote 30].  
decoying/countermeasure equipment [See footnote 30].  
equipment for the production of military combat vehicles (3 licences) [See footnotes 22, 27, 29].  
equipment for the production of mortars [See footnote 24].  
equipment for the use of aircraft missile protection systems.  
equipment for the use of decoying/countermeasure equipment.  
equipment for the use of military electronic equipment [See footnote 30].  
equipment for the use of targeting equipment.  
T equipment for the use of weapon night sights (2 licences) [See footnote 40].  
flash suppressors [See footnote 28].  
general military aircraft components.  
general military vehicle components (6 licences) [See footnotes 16, 20, 25, 26].  
gun mountings [See footnote 21].  
gun silencers (8 licences) [See footnotes 28, 39, 9].  
machine guns (1) [See footnote 28].  
military communications equipment.  
military containers.  
military electronic equipment.  
military equipment for initiating explosives (2 licences).  
military guidance/navigation equipment (2 licences) [See footnote 30].  
T military guidance/navigation equipment.  
military image intensifier equipment [See footnote 30].  
T military image intensifier equipment.  
military improvised explosive device decoying/detection/disposal/jamming equipment.  
T military infrared/thermal imaging equipment (2 licences) [See footnote 40].  
military scenario simulation equipment.  
mortars (2 licences) [See footnotes 18, 24].  
munitions/ordnance detection/disposal equipment.  
NBC protective/defensive equipment [See footnote 19].  
T rangefinding equipment.  
rifles (3).  
small arms ammunition.

- sniper rifles (10).
- software enabling equipment to function as equipment for the use of military communications equipment.
- sporting guns (1) (2 licences) [See footnote 39].
- sporting guns (3).
- sporting guns (6) [See footnote 9].
- sporting guns (11).
- sporting guns (47).
- sporting shotguns (2).
- sporting shotguns (15).
- targeting equipment [See footnote 30].
- technology for assault rifles [See footnote 28].
- technology for machine guns [See footnote 28].
- turrets [See footnote 17].
- T weapon night sights (2 licences) [See footnote 40].
- weapon sights (2 licences).
- T weapon sights (2 licences) [See footnote 40].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£67
1A004	7	£1,550,971
1C350	1	£6,992
1C351	3	£1,131
1C353	1	£5
2B201	1	£318,188
2B350	6	£473,297
5A002	19	£752,474
5D002	4	£19,510
6A003	1	£3,665
7A003	1	£359,975
7A103	1	£195,500
8A001	1	£73,993
8A002	3	£173,258
9A001	1	£15,000,000
9A003	1	£2,500
End Use	1	£50,508
PL8001	1	£67,710

- T aero-engine assemblies.
- bacteria.
- chemicals used for pharmaceutical/healthcare production.
- civil explosive detection/identification equipment (4 licences).
- T civil explosive detection/identification equipment.
- civil riot control agent protection equipment (2 licences).
- components for corrosion resistant chemical manufacturing equipment.
- corrosion resistant chemical manufacturing equipment (5 licences).
- deuterium compounds.
- explosives detection equipment.
- guidance/navigation equipment.
- imaging cameras.
- inertial equipment.
- information security equipment (16 licences) [See footnote 12].
- T information security equipment (3 licences) [See footnote 3].
- machine tools (2 licences).
- T non-certified aero-engines.
- pathogenic genetic elements.
- rebreathing swimming equipment.
- software for information security equipment (3 licences) [See footnote 12].
- T software for information security equipment [See footnote 3].
- submersible equipment (2 licences).
- submersible vehicles.
- toxins.
- viruses.

**Both Military and Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£8,940
1A006	1	£72,240
6A003	2	£26,000
8A002	2	£10,000
ML1	1	£121,452
ML4	1	£67,534
ML7	2	£23,300
ML11	2	£12,000
ML13	1	£198,632
ML17	2	£200
PL9010	1	£1,131,930

- T bomb suits.
- T civil NBC protection equipment (2 licences).
- T civil riot control agent protection equipment (2 licences).
- T components for munitions/ordnance detection/disposal equipment.
- T components for NBC protective/defensive equipment (2 licences).
- T imaging cameras (2 licences).
- T improvised explosive device disruptors.
- T military communications equipment (2 licences).
- T military helmets.
- T military laser protection equipment (2 licences).
- T NBC protective/defensive equipment (2 licences).
- T rebreathing swimming equipment (2 licences).
- T sporting guns (2).
- T sporting shotguns (8).
- T weapon sights.

**SIELs - Incorporation**

**Issued**

Types of goods on licence	No. of licences	Value
Military	1	£400,000
Non-military	5	£108,460
Total	6	£508,460

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£400,000

general military vehicle components.

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	2	£6,736
5A002	1	£624
7A003	2	£101,100

components for corrosion resistant chemical manufacturing equipment (2 licences) [See footnote 11].  
inertial equipment (2 licences).  
information security equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Jordan  
Kuwait  
Saudi Arabia

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment [See footnote 36]
2	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 1]
3	P	aircraft military communications equipment, attack alerting/warning equipment, components for aircraft military communications equipment, components for equipment for the operation of military aircraft in confined areas, components for military communications equipment, components for military electronic equipment, components for military support aircraft, counter-countermeasure equipment for military cameras/photographic equipment, counter-countermeasure equipment for military image intensifier equipment, counter-countermeasure equipment for military image recording/processing equipment, counter-countermeasure equipment for military imaging radar sensor equipment, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the production of military support aircraft, general military aircraft components, information security equipment, military aircraft ground equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, recognition/identification equipment, software for aircraft military communications equipment, software for counter-countermeasure equipment for military cameras/photographic equipment, software for counter-countermeasure equipment for military image intensifier equipment, software for counter-countermeasure equipment for military image recording/processing equipment, software for counter-countermeasure equipment for military imaging radar sensor equipment, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for electronic warfare equipment, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for military aircraft ground equipment, software for military cameras/photographic equipment, software for military communications equipment, software for military electronic equipment, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military support aircraft, technology for aircraft military communications equipment, technology for counter-countermeasure equipment for military cameras/photographic equipment, technology for counter-countermeasure equipment for military image intensifier equipment, technology for

		counter-countermeasure equipment for military image recording/processing equipment, technology for counter-countermeasure equipment for military imaging radar sensor equipment, technology for decoying/countermeasure equipment, technology for electronic warfare equipment, technology for equipment for the operation of military aircraft in confined areas, technology for general military aircraft components, technology for military aircraft ground equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military support aircraft [See footnote 2]
4	P	airborne refuelling equipment, components for airborne refuelling equipment, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment [See footnote 5]
5	P	airframe structures, civil aero-engines, components for civil aero-engines, components for civil aircraft [See footnote 35]
6	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 37]
7	P	information security equipment, information security software, software for information security equipment, technology for information security equipment [See footnote 10]
8	P	components for submersible vehicles, frequency generators, high energy capacitors, imaging cameras, inertial equipment, metal alloy tubes, sonar log equipment, submersible equipment, syntactic foam [See footnote 13]
9	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 38]
10	P	components for equipment for the use of electronic countermeasure equipment, components for launching/handling/control equipment for rockets, components for military electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for rockets, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for launching/handling/control equipment for rockets, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for rockets, technology for military electronic equipment, technology for rangefinding equipment [See footnote 31]
11	P	civil explosive detection/identification equipment [See footnote 32]

12	P	components for military radars, equipment for the use of military radars, software for military radars, software for military radars, technology for military radars [See footnote 33]
13	P	components for military support aircraft [See footnote 34]

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights
2	P	information security equipment, information security software

### SITCLs

### Issued

promoting the supply of acoustic devices for riot control [See footnote 6].  
 promoting the supply of assault rifles (2 licences) [See footnotes 6, 7].  
 promoting the supply of body armour [See footnote 6].  
 promoting the supply of components for assault rifles (2 licences) [See footnotes 6, 7].  
 promoting the supply of components for body armour [See footnote 6].  
 promoting the supply of components for flash suppressers (2 licences) [See footnotes 6, 7].  
 promoting the supply of components for ground vehicle military communications equipment [See footnote 6].  
 promoting the supply of components for gun mountings (2 licences) [See footnotes 6, 7].  
 promoting the supply of components for military communications equipment [See footnote 6].  
 promoting the supply of components for military image intensifier equipment [See footnote 6].

promoting the supply of components for military infrared/thermal imaging equipment [See footnote 6].  
 promoting the supply of components for military shotguns (2 licences) [See footnotes 6, 7].  
 promoting the supply of components for naval communications equipment [See footnote 6].  
 promoting the supply of components for pistols (2 licences) [See footnotes 6, 7].  
 promoting the supply of components for rifles (2 licences) [See footnotes 6, 7].  
 promoting the supply of components for small arms ammunition (2 licences) [See footnotes 6, 7].  
 promoting the supply of components for smooth-bore weapons (2 licences) [See footnotes 6, 7].  
 promoting the supply of components for sniper rifles (2 licences) [See footnotes 6, 7].  
 promoting the supply of components for sporting guns (2 licences) [See footnotes 6, 7].  
 promoting the supply of components for sporting shotguns (2 licences) [See footnotes 6, 7].  
 promoting the supply of components for tactical shotguns (2 licences) [See footnotes 6, 7].  
 promoting the supply of components for weapon night sights (2 licences) [See footnotes 6, 7].  
 promoting the supply of components for weapon sights (2 licences) [See footnotes 6, 7].  
 promoting the supply of flash suppressors (2 licences) [See footnotes 6, 7].  
 promoting the supply of ground vehicle military communications equipment [See footnote 6].  
 promoting the supply of gun mountings (2 licences) [See footnotes 6, 7].  
 promoting the supply of military communications equipment [See footnote 6].  
 promoting the supply of military helmets [See footnote 6].  
 promoting the supply of military image intensifier equipment [See footnote 6].  
 promoting the supply of military infrared/thermal imaging equipment [See footnote 6].  
 promoting the supply of military shotguns (2 licences) [See footnotes 6, 7].  
 promoting the supply of naval communications equipment [See footnote 6].  
 promoting the supply of pistols (2 licences) [See footnotes 6, 7].  
 promoting the supply of rifles (2 licences) [See footnotes 6, 7].  
 promoting the supply of small arms ammunition (2 licences) [See footnotes 6, 7].  
 promoting the supply of smooth-bore weapons (2 licences) [See footnotes 6, 7].  
 promoting the supply of sniper rifles (2 licences) [See footnotes 6, 7].  
 promoting the supply of sporting guns (2 licences) [See footnotes 6, 7].  
 promoting the supply of sporting shotgun ammunition (2 licences) [See footnotes 6, 7].  
 promoting the supply of sporting shotguns (2 licences) [See footnotes 6, 7].  
 promoting the supply of tactical shotguns (2 licences) [See footnotes 6, 7].  
 promoting the supply of weapon night sights (2 licences) [See footnotes 6, 7].  
 promoting the supply of weapon sights (2 licences) [See footnotes 6, 7].

## Rejected

promoting the supply of assault rifles.  
 promoting the supply of pistols.  
 promoting the supply of rifles.  
 promoting the supply of small arms ammunition.  
 promoting the supply of sniper rifles.  
 promoting the supply of sporting shotgun ammunition.

Rv software for information security equipment.

Rv - Some or all of which have subsequently been revoked.

#### Country Footnotes

1. EU Council Decision (CSFP) 2017/2074 and Council Regulation (EU) 2017/2063 were introduced in November 2017. It includes an asset freeze, travel ban and arms embargo, embargo on equipment that could be used for repression, and restrictions on monitoring equipment. Targeted restrictions should be imposed against those responsible for serious human rights violations or abuses or the repression of civil society and democratic opposition; or those whose actions, policies or activities otherwise undermine democracy or the rule of law in Venezuela.

All exports for this destination were approved in accordance with the sanctions in place.

## SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

### Issued

Types of goods on licence	No. of licences	Value
Military	6	£1,136,769
Non-military	7	£15,361,890
Total	13	£16,498,659

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	2	£8,974
ML5	1	£979,717
ML11	1	£31,528
ML17	1	£40,300
ML21	1	£1,250
ML22	1	£75,000

components for military electronic equipment.  
military diving apparatus.  
military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).  
software for naval gun installations/mountings.  
software for weapon control equipment.  
targeting equipment.  
technology for naval gun installations/mountings.  
technology for weapon control equipment.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£36,400
2B350	1	£283
5A001	1	£1,835,000
5D001	1	£400
5E001	1	£500
6A003	1	£22,307
6A005	1	£13,450,000
7A103	2	£17,000

components for civil NBC protection equipment.  
components for telecommunications interception equipment.  
corrosion resistant chemical manufacturing equipment.  
imaging cameras.  
inertial equipment (2 licences).  
lasers.

software for telecommunications interception equipment.  
 technology for software for telecommunications interception equipment.  
 technology for telecommunications interception equipment.  
 telecommunications interception equipment.

**SIELs - Incorporation**

**Issued**

Types of goods on licence	No. of licences	Value
Non-military	1	£439,430
Total	1	£439,430

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
8A002	1	£439,430

submersible equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Taiwan

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 1]
2	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to

		function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment [See footnote 3]
3	P	components for military support aircraft [See footnote 2]
4	P	information security equipment, software for information security equipment, technology for information security equipment
5	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 4]

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. End use by the Air Force.
3. Licence granted for end use country is a State Party to the CWC. Law enforcement agency end use.
4. Licence granted for accessories / spare parts. Government end use.
