Reporting week: 09 April to 15 April 2018

There was nothing new to report during week 15.

All reporting through the EDSSS infrastructure changed from 1 April when EDSSS reporting switched to a new, national route. Updates on the development of reporting will be provided in the coming weeks.

Remote Health Advice:

There was nothing new to report during week 15.

GP In Hours:

GP consultations for scarlet fever decreased further during week 15 (figure 4), however, please note that school holidays may have affected consultation rates.

Emergency Department:

All reporting through the EDSSS infrastructure changed from 1 April when EDSSS reporting switched to a new, national route, following the introduction of the Emergency Care Data Set: https://www.england.nhs.uk/ourwork/tsd/ec-data-set/. Data collection from this new route and surveillance output provision are currently under development. Updates on the development of reporting will be provided in the coming weeks.

GP Out of Hours:

There was nothing new to report for week 15.

### PHE Syndromic Surveillance Summary

**17 April 2018**

<table>
<thead>
<tr>
<th>Syndromic surveillance summary notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Key messages are provided from each individual system.</td>
</tr>
<tr>
<td>• The different syndromic surveillance systems in operation within PHE access data from different areas of the national health care system.</td>
</tr>
<tr>
<td>• Each system is able to monitor a different selection of syndromic indicators based upon a different case mix of patients.</td>
</tr>
<tr>
<td>• Access to the full version of each syndromic surveillance bulletin is available through the Syndromic Surveillance website found at: <a href="https://www.gov.uk/government/collections/syndromic-surveillance-systems-and-analyses">https://www.gov.uk/government/collections/syndromic-surveillance-systems-and-analyses</a>; reports will be made available on Thursday afternoons.</td>
</tr>
</tbody>
</table>

### Syndromic surveillance systems

- **Remote Health Advice**
  - A remote health advice syndromic surveillance system that monitors syndromic calls from remote health advice services e.g. NHS 111 each day across England

- **GP In-Hours Syndromic Surveillance System**
  - A large UK-based general practitioner surveillance system monitoring daily consultations for a range of clinical syndromic indicators

- **Emergency Department Syndromic Surveillance System (EDSSS)**
  - A sentinel ED network across England monitoring daily attendances and presenting symptoms/diagnoses

- **GP Out-of-Hours Syndromic Surveillance System (GPOOHS)**
  - A syndromic surveillance system monitoring daily GP out-of-hours activity and unscheduled care across England using a range of clinical syndromic indicators

- **RCGP Weekly Returns Service (RCGP WRS)**
  - A sentinel GP surveillance network covering England and Wales monitoring weekly consultations for a range of clinical indicators. This surveillance system is coordinated by the RCGP Research and Surveillance Centre

### Acknowledgements:

We thank and acknowledge the contribution of all data providers including:

- NHS 111 and HSCIC
- Participating EDSSS emergency departments
- College of Emergency Medicine
- Advanced Health & Care and the participating OOH service providers
- QSurveillance®, University of Nottingham; EMIS/EMIS practices; ClinRisk®
- TPP, ResearchOne and participating SystmOne GP practices
