

CONDITIONS

This licence is subject to the following conditions:

General

2.1 a) The vessel to which this licence relates shall not retain on board, land or trans-ship any sea fish of the descriptions set out in Part I of the annex to the schedule to this licence in the sea areas listed therein. Any sea fish so caught must be returned to the sea immediately.

b) Notwithstanding the provisions of paragraph a), where any sea fish of the descriptions set out in Part I of the annex to the schedule to this licence is subject to the landing obligation in article 15 of Regulation (EU) 1380/2013 of the European Parliament and of the Council, this licence shall not authorise fishing for any sea fish of those descriptions. Any such fish caught shall, in any event, be retained on board, landed and shall count against quota.

2.2 a) Subject to paragraph (b), the vessel to which this licence relates must not retain on board, land or transship, fish taken in accordance with this licence in excess of the amounts specified in relation to each such species in the Schedule and at Part II of the annex to the schedule.

b) Notwithstanding the provision of paragraph a), where any sea fish of the descriptions set out at Part II of the annex to the schedule of this licence is subject to the landing obligation in article 15 of Regulation (EU) No 1380/2013 of the European Parliament and of the Council it shall be retained on board, recorded, landed and shall be included in calculating the total amount of fish of that description landed by and attributed to the vessel for the relevant period.

3. The vessel to which this licence relates shall not trans-ship sea fish (except sea fish used as fresh bait) to or from a vessel of 10 metres and under overall length.

4. Any fish which are subject to quota which are retained on board and not returned to the sea in accordance with Article 15 of Council Regulation (EC) No. 850/98, as amended, shall be landed and count against quota.

5. The vessel shall not pair trawl with a vessel which does not hold a licence to fish granted by one of the Fisheries Ministers in the UK or, in the case of a foreign-flagged vessel, the authorities of the flag state. The vessel shall not pair trawl with a vessel from another country without the prior approval of the UK competent authorities. For quota management purposes catches by the pair team shall be attributed to and counted against the quota of the vessel landing the fish..

6.1 This licence, and any fishing authorisation issued in accordance with article 7 of Council Regulation (EC) 1224/2009 must either:

- a) be carried on board the vessel and be produced to a Marine Enforcement Officer or British Sea Fishery Officer on demand; or
- b) within five working days of a request made by a Marine Enforcement Officer or British Sea Fishery

Officer to the master, owner or their representative, be presented during normal office hours to the requesting officer at a location nominated at the time of the request.

6.2 Subject to paragraph 6.3 below, for vessels not subject to electronic reporting requirements the current EC paper logbook and those for the previous six months, or a receipt issued by a British Sea Fishery Officer or Marine Enforcement Officer where a logbook has been taken into his/her custody, shall be carried on board the vessel to which they relate at all times and must be produced to a British Sea Fishery Officer or Marine Enforcement Officer on demand.

6.3 The current EC Logbook and those for the previous six months may be removed from the vessel to which they relate while the vessel is in port, but must be readily produced to a British Sea Fishery Officer or Marine Enforcement Officer, on the vessel to which they relate, on demand.

Prohibition of electrical equipment

7. The vessel to which this licence relates shall only carry on board, electrical generating equipment required for safe navigation and safe operation of the vessel. The vessel shall not carry on board nor deploy into the sea any electrical equipment, including electrical generators, cables, probes, grids or any other equipment capable of transmitting electrical currents to the seabed.

Economic Link

8.1 This condition applies to any vessel whose total landings of stocks subject to EC quotas, and which the vessel is licensed to retain on board during the period for which this licence is issued, amount to 2 tonnes or more in each of the periods 1st April 2017 to 31st March 2018 and 1st April 2018 to 31st March 2019.

8.2 The licence holder must ensure that there is a real economic link between the vessel to which this licence relates and the United Kingdom, Channel Islands or Isle of Man, in so far as this link concerns only the connections between the fishing activities of the vessel and those communities which are dependent on fisheries and related industries.

8.3 The real economic link condition shall be deemed to have been complied with where any one of the following options is satisfied during each of the periods specified in paragraph 8.1 above:

(a) at least 50 per cent by weight of the total landings of all stocks subject to EC quotas landed by the vessel, and which the vessel is licensed to retain on board, has been landed in the United Kingdom, Channel Islands or Isle of Man; or

(b) at least 50 per cent of the vessel's crew (measured by reference to the total number of crew-days at sea) is made up of persons who normally reside in UK coastal areas or the Channel Islands or Isle of Man; or

(c) the vessel owner achieves another arrangement which consists of:

- (i) a combination of two or three of the above options (the minimum percentage chosen for any one option may be less than 50 per cent but the

- percentages chosen individually and in combination must genuinely provide a real economic link); or
- (ii) criteria other than the above options which genuinely provide a real economic link; or
 - (iii) a combination of (i) and (ii) which genuinely provides a real economic link.

8.4 It is the responsibility of the licence holder to demonstrate compliance with whatever option has been chosen to the satisfaction of Fisheries Administrations. If the licence holder fails to comply with whatever option has been chosen by no more than 10 percentage points, Fisheries Administrations may, at their discretion, allow such shortfall to be met by adding the same number of percentage points to the option which the licence holder chooses to comply with in the following licence period. In such case, an Economic Link Notice of Variation will be issued to the licence holder in the following licence period to increase the percentage threshold requirements of the economic link condition by such percentage shortfall.

Compliance Visiting Condition

9.1 This condition applies only to any vessel which, during each of the periods specified in paragraph 8.1 above, lands in the United Kingdom, Channel Islands or Isle of Man less than 50 per cent by weight of its total landings of all stocks subject to EC quotas which the vessel is licensed to retain on board, subject however to its total landings of such quota stocks (wherever landed) amounting to 2 tonnes or more. The condition shall not apply therefore where the total weight of landings anywhere of TAC stocks is less than 2 tonnes. To enable inspections to be made of the vessel and of any catch, equipment or documents or other materials retained on board, in each of the specified periods during any part of which it fishes under the authority of this licence the licence holder must ensure that the vessel is present in any port in the United Kingdom on at least 1 occasion of at least 8 hours duration between 08:00 and 18:00 hours Monday to Friday, in each period between April to September and October to March of the licence duration, provided that:

- (i) before any qualifying visit at least 24 hours notice of the particulars specified below is given to the Fisheries Administrations' UK Call Centre by one of the following means, properly designated as required:

by fax to **0131 244 6471** heading the fax Compliance visit;
by e-mail to UKFCC@Scotland.gsi.gov.uk inserting Compliance visit in the subject box;

- (ii) during any such visit the vessel ties up alongside; and
- (iii) qualifying visits in the specified periods are at least 2 months apart.

Specified Particulars

1. Name and address of caller
2. Name of vessel, its port letters and registration number
3. Intended port of arrival

4. Estimated date and time of arrival
5. Name, address and telephone number of contact point in the United Kingdom for enquiries
6. Date and time of telephone call.

9.2 The Master shall ensure that a person(s) is present on board the vessel at all times during the minimum duration period of 8 hours between 08:00 and 18:00 hours Monday to Friday, or until an inspection has been carried out within these times. That person(s) must be capable of facilitating an inspection of the vessel and have access to all relevant documents and relevant areas of the vessel

Landing and Other Requirements for All Stocks Other than Pelagic Stocks

10.1 This condition applies to any vessel with an overall length of 15 metres or more.

10.2 Except as provided for in Condition 11, landings of sea fish shall be made only:

Footnote: ¹ Permitted landing port **only** for vessels with over 2 tonnes of either **cod** or **hake** on board to land. As usual arrivals of such vessels are subject to prior notification as specified in paragraphs 11.1 to 11.7 below.

11.1 The provisions of this paragraph apply to all vessels which:

- a) have an overall length of 15 metres or more; and
- b) have more than one tonne, live weight, in total on board of species for which a TAC has been set or have on board more than one tonne, live weight, of scallops caught in ICES Divisions VII d, e and h; and
- c) intend to arrive at a port other than a designated port, or intend to arrive at a designated port outside designated times and locations;

Notification of the following information shall be given to the Fisheries Administrations' UK Call Centre by one of the following means, properly designated as required.

by telephone or marine radio on **0131 271 9700**;
by fax to **0131 244 6471** heading the fax Notice Arrival;
by email to UKFCC@Scotland.gsi.gov.uk inserting Notice Arrival in the subject box:

- (a) the name of the person making the call;
- (b) the name and registered number of the vessel for which authority to arrive in port is sought;
- (c) the port or location at which the vessel is to arrive;
- (d) the intended date and time (UK local time) of arrival in port;
- (e) details of the catch on board by species in kilogrammes live weight.

Such notifications shall be given at any time between:

- (1) 4 and 24 hours prior to arrival in port where arrival will occur between 00:01 hours on Tuesday and 23:59 on Saturday; and
- (2) 4 and 72 hours prior to arrival in port where arrival will occur between 00:01 hours on Sunday and 23:59 on Monday.

NOTE: Calls to the Fisheries Administrations' UK Call Centre will be recorded

11.2 When all the information has been provided in accordance with paragraph 11.1 above by telephone or marine radio, an authorisation number will be issued by the Fisheries Administrations' UK Call Centre along with the recorded time of the authorisation and confirmation of the date and time after which the vessel may arrive at the nominated port or location. This information must be recorded in the comments section of the EC Logsheet(s) relating to the sea fish before arrival in port. For the purposes of this paragraph "recorded time" means the date and time (in UK local time) of issue of the authorisation number recorded by the person issuing it.

11.3 When all the information has been provided in accordance with paragraph 11.1 above by fax or email, details of the authorisation number along with the recorded time of the authorisation and confirmation of the date and time after which the vessel may arrive at the nominated port or location will not

automatically be transmitted to the vessel by the Fisheries Administrations' UK Call Centre. Further contact must be made with the Call Centre by telephone or marine radio to obtain the authorisation number and authorised date and time of arrival in port which must then be recorded in the comments section of the EC Logsheet(s) relating to the sea fish before arrival in port. For the purposes of this paragraph "recorded time" means the date and time (in UK local time) of issue of the authorisation number recorded by the person issuing it.

11.4 Following the issue of an authorisation referred to above, the vessel must arrive at the nominated port or location within a period of 4 hours commencing from the date and time as confirmed in accordance with paragraph 11.2 or 11.3 above.

11.5 If, following the issue of an authorisation number, it is not possible to arrive at the nominated port or location within the time period specified in paragraph 11.4, authorisation to amend that period must be sought from the Fisheries Administrations' UK Call Centre. A further authorisation number shall be issued and this must be recorded in the comments section of the EC Logsheet(s) (where applicable) relating to the current voyage. This paragraph shall not apply where the vessel is entering a designated port and expiry of the time limit specified in paragraph 11.4 occurs within designated arrival times at that port.

11.6 After the authorisation number and confirmation of the date and time of arrival has been issued, the vessel may go to another port or location. If that port, location of landing or time of arrival are not all designated in the table at paragraph 10.2 above, a further authorisation number must be obtained from the Fisheries Administrations' UK Call Centre by making a notification in accordance with paragraph 11.1. This information must be recorded in the comments section of the EC Logsheet(s) (where applicable) relating to the sea fish, before the arrival of the vessel in port.

11.7 The vessel may not commence landing sea fish at the port or location communicated in terms of paragraph 11.1 any earlier than 4 hours from the time that the notification made under paragraph 11.1, 11.5 or 11.6 is recorded as having been received by the UK Call Centre, whichever is the later, unless otherwise authorised by a British Sea Fishery Officer or Marine Enforcement Officer.

12. This condition applies to all vessels with an overall length of 10 metres or more landing sea fish at a designated port. Prior to commencing landing, the original (white) copy of the EC Logsheet(s), completed in accordance with Council Regulation (EC) No. 1224/2009, relating to the sea fish, shall be deposited in the box marked for this purpose and located in the port of landing as specified in column 4 of the table above, unless it has been handed to a British Sea Fishery Officer or Marine Enforcement Officer. Logsheets submitted in this way shall be deemed to have been submitted in compliance with Council Regulation (EC) No. 1224/2009.

The owner, charterer or representative may forward notifications on the master's behalf.
