

Operational Low Flying Training Timetable 28 May to 01 Jun 2018

The table below sets out the timetable for use of the three Tactical Training Areas (TTA) used for operational low flying training by fast jets and Hercules transport aircraft. Operational low flying is an essential skill and is practised by fixed wing aircraft between 100ft and 250ft; a more representative altitude at which pilots would fly in a combat scenario. The final decision to use a TTA is taken on the day itself as this kind of training can only take place when weather conditions allow. While it is likely some of the slots will not be used, no additional times will be added to those already booked.

When a TTA is active, routine low flying by other military users can take place between 500ft and 2000ft. When the TTA is not in use standard low flying training is permitted down to 250ft and helicopters down to ground level. Late spring and summer are the busiest times for low flying as squadrons make full use of good weather to carry out their training.

The three TTA are:

LFA 7(T) - Central Wales

LFA 14(T) - Northern Scotland

LFA 20(T) - the borders area of Southern Scotland and Northern England

	LFA 7(T)	LFA 14(T)	LFA 20(T)
Monday 28th	NIL	NIL	NIL
Tuesday 29th	1500 - 1600	1400 – 1500	1200 – 1400 1500 – 1600
Wednesday 30th	1400 – 1500	1200 – 1300 1400 – 1500	1300 – 1500
Thursday 31st	1500 – 1600	1400 – 1500	1200 – 1400 1500 – 1600
Friday 01st	1500 - 1600	1200 – 1300 1400 - 1500	1300 - 1400
