**When notifying DVLA of a heart condition it is important that you provide the correct name of any device you may have fitted. Providing DVLA with the wrong information can affect our decision about your driving licence.**

**Below is a list of the more common devices which may assist you when completing the questionnaire.**

### **Pacemakers**

A pacemaker is a small electrical device fitted in the chest or abdomen. It's used to treat some abnormal heart rhythms (arrhythmias) that can cause your heart to either beat too slowly or miss beats.

### **Implantable Cardioverter Defibrillator (ICD)**

An ICD is a small electrical device that constantly monitors your heart rhythm through the electrodes and treats dangerous abnormal heart rhythms when they occur. An ICD is placed under the skin just below the collarbone to monitor your heart rate through thin wires connecting electrodes to your heart.

### **Cardiac resynchronisation therapy with a pacemaker (CRT-P)**

Also known as bi-ventricular pacing. This treatment involves having a pacemaker with 3 leads called a bi-ventricular pacemaker. CRT-P can help your heart to pump more efficiently which can improve your symptoms. (Usually used in the treatment of heart failure).

### **Cardiac resynchronisation therapy with a defibrillator (CRT-D)**

This treatment involves having a single device that combines a bi-ventricular (3-lead) pacemaker and an ICD. It's used for people with heart failure who might also be at risk of developing fast, life-threatening heart rhythms.

### **Ventricular assist device (VAD)**

A VAD is a mechanical pump that helps pump blood from the heart to the rest of the body. It's a treatment for weakened heart or heart failure. Some pumps are meant for short-term support (a few days or weeks), whilst waiting for other treatments, such as heart transplant, while others can be used for longer periods of time/long-term treatment. If the device is intended to be used for a limited period, for example, whilst waiting for heart transplant, it's removed after the transplant or definitive treatment. Having a VAD fitted requires open-heart surgery.

**Applicant’s authorisation**

You **must** fill in this section and must **not** alter it in any way. Please read the following information carefully and sign to confirm the statements below.

**Important information about fitness to drive**

- As part of the investigation into your fitness to drive, we (DVLA) may require you to have a medical examination and/or some form of practical assessment. If we do, the individuals involved in these will need your background medical details to carry out an appropriate assessment.
- These individuals may include doctors, orthoptists at eye clinics or paramedical staff at a driving assessment centre. We will only share information relevant to the medical assessment of your fitness to drive.
- Also, where the circumstances of your case appear to suggest the need for this, the relevant medical information may need to be considered by one or more of the members of the Secretary of State’s Honorary Medical Advisory Panels. The membership of these Panels conforms strictly to the principle of confidentiality.

For information about how we process your data, your rights and who to contact, see our privacy notice at [www.gov.uk/dvla/privacy-policy](http://www.gov.uk/dvla/privacy-policy)

**This section must NOT be altered in any way.**

**Declaration**

I authorise my doctor, specialist or appropriate healthcare professional to disclose medical information or reports about my health condition to DVLA, on behalf of the Secretary of State for Transport, that is relevant to my fitness to drive.

I understand that the doctor that I authorise may pass this authorisation to another registered healthcare professional, who will be able to provide information about my medical condition that is relevant to my fitness to drive.

I understand that the Secretary of State may disclose such relevant medical information as is necessary to the investigation of my fitness to drive to doctors and other healthcare professionals such as orthoptists, paramedical staff and the Secretary of State for Transport’s Honorary Medical Advisory panel members.

I declare that I have checked the details I have given on the enclosed questionnaire and that, to the best of my knowledge and belief, they are correct.

I understand that it is a criminal offence if I make a false declaration to obtain a driving licence and can lead to prosecution.
