

Terms of Reference for the UK Advisory Group on Tourism Satellite Accounts

To help co-ordinate a strategic focus to the development of Tourism Satellite Accounts by:

- bringing together a broad spectrum of different UK and external stakeholders in Tourism Satellite Accounts, including those who provide data; those who compile data; those who use data; those with public policy responsibilities; those who represent National Statistics;
- identifying synergies across projects
- providing advice to maximise work efforts in these projects and to minimise duplication
- acting mainly as a virtual group, with occasional physical meetings where appropriate
- encouraging the exchange of information, knowledge, expertise
- promoting consistency in approaches and methodology
- promoting conformance with international standards
- recommending development of supporting tourism statistics systems

Members and roles

All members will:

- act as conduit for their own institution's contributions;
- cascade advice and recommendations back to their own institutions;
