Deadline for expressions of interest: midnight 31 May 2018

Search ‘RDPE Growth Programme’ on GOV.UK
On 31 May 2018 Business Development calls closed to submission of new Expressions of Interest.
On 31 May 2018 Business Development calls closed to submission of new Expressions of Interest.
How Growth Programme grants work

1. Got an idea? Make a plan
   Every successful application starts with a good idea and a clear plan for how to make that idea a reality.

2. Read this handbook
   Read the rest of this handbook to make sure you're definitely eligible and that there is funding available in your local area.

3. Express an interest
   Fill in an expression of interest (EOI) form and email it to RPA. Tell us about your project and how a grant will make it bigger and better.

4. Apply in full
   If your EOI is accepted, you can make a full application. If this is successful, you'll get a funding agreement to sign.

5. Get to work
   With your funding agreement signed, you can start work on your project.

6. Claim your money
   After you've finished the work, you can claim your money.

Read the rest of this handbook to find out more, including our ‘top tips for applicants’ on page 28.
About the RDPE Growth programme

Includes:

- How the government manages these grants about funding after the UK leaves the EU
- Government guarantees about funding after the UK leaves the EU

On 31 May 2018 Business Development calls closed to submission of new Expressions of Interest.
About the RDPE Growth Programme

The RDPE Growth Programme provides funding for projects in England which create jobs and growth in the rural economy.

Under the RDPE Growth Programme, there are grants for:
- business development
- food processing
- rural tourism infrastructure

The grants are funded by the European Agricultural Fund for Rural Development (EAFRD), which is part of the European Structural and Investment Funds (ESIF).

This handbook is about RDPE Growth Programme business development grants. It explains what the grants are for, who is eligible and how to apply.

To find information about the other grants, search ‘RDPE Growth Programme’ on GOV.UK.

Planning a project that will grow your business, create jobs or bring more money into the rural economy?
You might be able to apply for a grant to help you fund it.

You can only apply for one RDPE grant for a project, and only in one LEP area.

RDPE includes RDPE Growth Programme, LEADER, Countryside Productivity, Farming Recovery Fund and Cumbria Countryside Access Fund.
How the government manages these grants

The Rural Payments Agency (RPA) delivers the grants, working with ESIF sub-committees in Local Enterprise Partnerships (LEP) areas.

RPA’s role is to assess applications for grants, with advice from the ESIF sub-committees. LEPs are partnerships between public bodies and businesses. Their role is to decide:

- the amount of grant available
- local priorities for the grants – where money should be directed to give the most benefit locally.

RPA may at any time and without further notice:

- increase or decrease the grant funding allocated to each LEP area in this call
- change the date these grants close to applications

Government guarantees about funding after the UK leaves the EU

The government has confirmed that it will guarantee funding for RDPE Growth Programme grants if these are agreed and signed before the UK’s departure from the EU, even if the grant agreements continue after we have left the EU, subject to projects meeting the following conditions:

- they are good value for money
- they are in line with domestic strategic priorities

Please read the priorities for funding on page 15.

Read pages 31 to 62 for the LEP areas that are offering these grants. Use the map on page 29 to find your LEP area.

Deadlines: The RPA will agree a target end date with all successful applicants. The final date by which all projects must be finished, paid for and complete grant claims submitted, is 31 December 2020.
About business development grants

Includes:

• Who can apply
• What the grants are for
• How much money you can apply for
• Examples of projects

On 31 May 2018 Business Development calls closed to submission of new Expressions of Interest.
Who can apply

Small rural businesses – new or existing. That includes farmers who want to diversify into non-agricultural activity. See page 12 to check if you are eligible.

What the grants are for

To help rural businesses grow and create more jobs.

Grant funding can help pay for:

• constructing or improving buildings
• buying new equipment and machinery

How much money you can apply for

Normally they are for a minimum of £35,000, though this will vary in some LEP areas. Check the entry for your LEP area on pages 31 to 62. The amount you can apply for depends on the size of your business and where it is located.

You won’t automatically get a grant.

All applications are assessed to see how well they fit the priorities for funding and which projects provide best value for taxpayers’ money.

The number of grants awarded depends on the total amount of grant available in each LEP area.
Examples of projects
Here are some examples of the kinds of projects which may be eligible for a business development grant.

Investment in equipment
A small rural business that makes furniture will invest in 2 new machines. This will create 2 new full-time jobs. It also means the business can use new, high-precision techniques, and so will create higher quality products. This investment will open up new markets locally, nationally and overseas.

Farm diversification
A farm business plans to diversify by setting up a metal fabrication business. The business has made some gates and railings in the farm workshop, and has an agreement from a local building contractor to supply gates and railings for building developments. This will build on the skills already in the farm business, and the business will employ one new skilled person on a full-time basis.
Who can apply

Includes:

• Check the size of your business
• What is a ‘full-time equivalent’ (FTE) employee?
• Who can’t apply
Who can apply

Only small and micro businesses (and farmers who are diversifying) are eligible to apply, and your project must be in a rural area.

These grants are for:
- small businesses or micro businesses, including social enterprises in rural areas
- farmers (or members of the farm household) diversifying into non-agricultural activities

What is a ‘full-time equivalent’ (FTE) employee?

Anyone who works a minimum of 30 hours per week counts as 1 FTE employee. A person working 30 hours a week for 3 months of the year would be 0.25 FTE employee.

FTEs include business partners and directors. If a business partner or director works more than 30 hours per week they still count as 1 FTE employee.

Check the size of your business

The size of the business depends on the number of full-time equivalent (FTE) employees it has and its financial performance.

The table below shows what qualifies as a small or micro business.

<table>
<thead>
<tr>
<th>Business Size</th>
<th>Number of FTE employees</th>
<th>Annual turnover or balance sheet total</th>
</tr>
</thead>
<tbody>
<tr>
<td>Small</td>
<td>fewer than 50</td>
<td>and €10m (about £8.5million) or less</td>
</tr>
<tr>
<td>Micro</td>
<td>fewer than 10</td>
<td>and €2m (about £1.7million) or less</td>
</tr>
</tbody>
</table>
Is your business ‘linked’ to other businesses

If your business is linked to other businesses, this might mean you exceed the business size requirements and the funding limits.

The most common circumstances under which businesses are considered to be linked include:

• one business holds a majority of the shareholders’ or members’ voting rights in another business
• one business is entitled to appoint or remove a majority of the administrative, management or supervisory body of another
• a contract between the business, or a provision in the memorandum or articles of association of one of the businesses, enables one to exercise a dominant influence over the other
• one business is able, by agreement, to exercise sole control over a majority of shareholders’ or members’ voting rights in another

Who can’t apply

The following are not eligible for the grants:

• non-departmental public bodies or Crown bodies
• members of Producer Organisations under the Fresh Fruit and Vegetables Aid Scheme who have a grant for the same project through their operational programme document
• projects that are carried out only to meet a legal requirement

New businesses can also apply.

If you have an idea, a business plan and potential private funding for your project, you can apply for a grant.

Who can apply

Not sure if you are eligible?
Contact RPA.

03000 200 301
GPEnquiries@rpa.gsi.gov.uk
Preparing an application

Includes:
- National priorities for funding
- Local priorities for funding
- How we assess applications
- EOI - what we look for
- Full application - what we look for

Create jobs
- Creates new, higher-skilled or higher-paid jobs
- Creates at least 1 FTE job for every £30,000 of grant funding

Grow your business
- Increases the turnover and profitability of a business
- Improves productivity through innovation

Introduces new techniques, equipment or processes to a business to make it more productive

Open new product markets
- Helps your business sell goods or services to new customers or markets

Export
- Helps your business access export markets

On 31 May 2018 Business Development calls closed to submission of new Expressions of Interest.
Preparing an application

RPA will assess all applications. We’re looking for evidence of a sound business case and for projects that meet the priorities for funding.

We’re looking for projects that best meet the national and local priorities for funding, and that are good value for taxpayers’ money. If you can show this clearly in your application, you’re more likely to get a grant.

National priorities for funding

Your project must achieve one of the priorities below, or your application will be rejected. The more priorities your project achieves, the more likely you are to get a grant.

| Create jobs                      | Creates new, higher-skilled or higher-paid jobs  
|                                 | Creates at least 1 FTE job for every £30,000 of grant funding |
| Grow your business              | Increases the turnover and profitability of a business |
| Improve productivity through innovation | Introduces new techniques, equipment or processes to a business to make it more productive |
| Open new product markets        | Helps your business sell goods or services to new customers or markets |
| Export                          | Helps your business access export markets |
Local priorities for funding

Local priorities are set by the ESIF sub-committees. Check the LEP area directory on pages 31 to 62 to see the priorities for your LEP area.

How we assess applications

Application is in 2 stages. First, you must submit an ‘expression of interest’ (EOI) form. If we endorse your EOI, we will invite you to submit a full application.

We assess your application at both stages. Read ‘How to apply’ on page 24 for more information.

EOI – what we look for

We use the information on the EOI form to check that both the applicant and project are eligible.

Then we assess how well your project meets the national and local priorities for grants. To do this, we look at question 30 of the EOI (the ‘strategic fit’) and score and rank it against other applications.

Preparing an application

It will help your application if you explain your project clearly. Tell us exactly what you’re doing, why it’s good for your business, how and where you’re doing it and who will benefit from it.
Full application – what we look for

If you’re invited to submit a full application, we’ll ask for more information to further assess your project and your business. This table will give you an overview of what we assess.

<table>
<thead>
<tr>
<th>Strategic fit</th>
<th>How well the project meets the national and local priorities for funding. How the project will impact the environment. That the project does not disadvantage anybody in terms of characteristics such as ethnicity, disability, age and gender.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Value for money</td>
<td>How the project costs represent value for money. The amount of grant required to deliver the outcomes and outputs, including jobs. What difference grant funding will make, compared to what would happen without grant funding.</td>
</tr>
<tr>
<td>Need and demand</td>
<td>Why grant funding is required for the project. There is a clearly identified market need for the project. The impact the project has on other businesses, both positive and negative.</td>
</tr>
<tr>
<td>Financial viability</td>
<td>The current financial viability of your business. How the project may impact on your existing business operations. How you will fund the project until the grant is claimed. How the business will benefit from the project financially.</td>
</tr>
<tr>
<td>Delivery and sustainability</td>
<td>Whether the project will be delivered in budget and on time. That the right skills and resource are in place to deliver the project successfully. How project outputs and other benefits will be monitored and recorded. That risks to project delivery have been identified and how they will be mitigated.</td>
</tr>
</tbody>
</table>
Funding and costs

Includes:

• How much funding is available
• Paying for the project
• Eligible costs
• Costs which are not eligible
Funding and costs

You can use grant funding to cover a certain percentage of some project costs – some costs are not eligible.

How much funding is available

The grants will normally be above £35,000, though this will vary in some LEP areas. Check the LEP directory on page 29 to see what the minimum is in your LEP area.

The grants can only fund a certain percentage of eligible costs and there is a maximum percentage that applies. You can use other public money to pay for eligible costs – but only up to that maximum percentage.

Above the maximum percentage, all the money you use to pay for eligible costs must be from private sources (like savings or a bank loan).

The business development grants will normally cover up to 40% of the project’s total eligible costs.

If the minimum grant is £35,000, the minimum total eligible cost of a project would therefore be £87,500.

The maximum grant per project is €200,000 (approximately £170,000 at current exchange rates).
Has your business already had some public funding?

When you apply, we’ll ask you to tell us if you have had any funding from the EU or other public sources, and if it was awarded under ‘industrial de minimis’.

If so, we might need to limit the amount of the funding you can get, to comply with the EU state aid industrial de minimis rules.

Paying for the project

Grants are paid in stages, in arrears. They can only be claimed after the work being claimed for is finished and has been paid for.

We expect you to make a maximum of 3 claims over the course of the project.

You must show that you have sufficient funds to pay for the project costs until you get the grant payments.

Hire-purchase or leased items must be paid off before you claim

If you buy an item for the project using lease purchase or hire-purchase, you must own this outright before you can claim any grant money towards it.

That means that, before you claim the grant, you must:

• pay all of the instalments
• show that the title has passed to you

Otherwise you will not be able to include these costs in your claim.

Do not start work, incur costs or place an order before your grant agreement has been signed.

This will potentially make your whole project ineligible.
Eligible costs

The grant can be used to pay for up to 40% of the following costs:

- constructing or improving buildings
- buying new equipment and machinery

The following costs are also eligible, if they form part of a larger project being funded:

- architects, engineer or consultant fees for the project (as long as these don’t add up to more than 15% of the project’s total eligible costs)
- buying or developing a dedicated piece of computer software (but not an off-the-shelf piece of software like Microsoft Office)
- patents, licences, copyrights or trademarks
- energy-saving and resource efficiency equipment
Costs which are not eligible

The following are not eligible for the grants (this list is not exhaustive).

General costs:
- any costs incurred before the project start date shown in the grant funding agreement
- contingency costs
- the cost of getting any permissions or consents, such as planning permission
- any items which you have already had EU or national funding for (or intend to get EU or national funding for)
- relocation costs – if the business needs to relocate in order to expand, it can only apply for funding for the cost of the expansion
- costs associated with the provision of housing
- marketing and promotion

Buildings, land and equipment costs:
- purchase of land, whether or not this land is built on
- repairs and maintenance of existing buildings, equipment and machinery
- like-for-like replacement of existing items (such as buildings, equipment and machinery)
- purchase of machinery or equipment that will not be on the asset register of the business 5 years after completion of the project
- the cost of moveable fittings – like soft furnishings, beds, tables, chairs, cutlery and crockery, curtains, televisions and audio equipment
- renewable heat and energy systems covered by the Renewable Heat Incentive (RHI) or Feed-In Tariffs (FITs)
Business running costs:
- salaries and running costs of the business
- in-kind contributions (this means the value of donated work or services) such as the cost of using your own labour, vehicle and office space
- recurring licence fees, subscriptions and service charges
- computers, software and printers used in the general running of the business, like processing orders or accounts
- mobile phones
- standard, non-specialist, domestic vehicles, such as cars (including 4x4), motorbikes
- road freight transport vehicles for hire or reward

Agricultural business costs:
- buildings, machinery and equipment used for growing and harvesting agricultural and horticultural products
- standard agricultural equipment and inputs like animals and crops
- the cost of agricultural production rights and payment entitlements
- developing or setting up agricultural businesses

Financial costs:
- bad debts
- advance payments
- insurance policy costs
- working capital
- financial charges, such as bank charges, fines and interest
- costs connected with a leasing contract, such as a lessor’s margin, interest refinancing costs, overheads and insurance charges
- reclaimable VAT
- pension provision

To check if a cost is eligible call the Defra Rural Services helpline on 03000 200 301 or email GPEnquiries@rpa.gsi.gov.uk
How to apply

Includes

• The EOI form
• What happens after you submit an EOI form
• Full application
• If you are offered a grant
• Top tips for applicants
How to apply

What you need to do to begin your application, and an overview of the information you must provide.

Application is in 2 stages. First, you must submit an ‘expression of interest’ (EOI) form. If we endorse your EOI, we will invite you to submit a full application.

RPA will assess your application at both stages. Only the highest-scoring applications will be successful.

On the EOI, you’ll need to give us some information about your business, including:

- whether it’s linked to any other businesses
- turnover and balance sheet total from the most recent financial accounts
- details of any previous public funding your business has had

You’ll also need to tell us about your project:

- what the objectives are and what the outputs will be
- an overview of the costs
- important dates for the project
- how it fits with the local and national priorities for funding
- the market demand for your project and its impact on similar businesses

The Expression of Interest (EOI) form

You can find the EOI form on GOV.UK – search ‘RDPE Growth Programme EOI’.

Deadline

We must receive your EOI before midnight on 31 May 2018 – if we get it after this deadline, we will reject it.
How to submit your form

Email your form to: growthapps@rpa.gsi.gov.uk

We can only accept forms that are:

• sent by email
• Microsoft Excel documents saved in the 1997-2003 XLS format

We cannot accept any other format – including PDF documents, scanned documents, hard copy printed applications or hand-written applications.

Email your EOI from the email address you specify in section 5 of the EOI form. If an agent sends the form on your behalf, that address must be copied into the email.

What happens after you submit your EOI

After you submit the form, you’ll get an automatic email to say we have received it. We will then assess your EOI and let you know whether or not you will be invited to submit a full application.

We aim to give you a decision on your EOI within 30 working days.

If an application is unsuccessful

If your EOI is unsuccessful, RPA will send you a letter with the reasons.

To find out how to appeal against the decision, read the ‘How to appeal’ section of the RPA complaints procedure page on GOV.UK.

Full application

If you’re invited to submit a full application, we’ll send you the relevant form and advice about how to fill this in.

The form asks for full details about you, your business and your project, including:

• final project costs
• supplier details
• key dates
• proposed project outputs

Provide an email address that you check regularly.

We will use the email address you put in section 5 of the form as our main way of contacting you.
You’ll need to send us:

- supporting documents appropriate to the project (such as market research, customer surveys, or industry reports)
- business accounts for last 3 financial years (unless you are a new business)
- relevant permissions and consents
- 3 quotes for each item to be purchased
- evidence that you can cover the project costs before claiming the grant in stages

There is potentially a lot of information, evidence and paperwork to collect.

It can take 2 - 3 months for you to prepare your full application, possibly longer if you need planning permission.

You’ll be given a named contact at RPA to support you and answer questions.

You’ll also be invited to attend a workshop, where RPA will explain the application process in more detail and answer any initial questions you have.

Before you send us your full application, you’ll need to be registered on RPA’s Rural Payments service and have a Single Business Identifier (SBI) number.

We aim to give you a decision on your full application within 60 working days.

If you are offered a grant

If you’re offered a grant, we’ll send you a grant funding agreement for you to sign. This will set out the legal terms and conditions of the grant, including:

- the amount of the grant
- the outputs we’ve agreed for your project
- which suppliers you’re using

If you need to change anything in the grant funding agreement over the course of the project, you need to get written agreement from RPA first. If not, we could terminate your agreement and reclaim any grant we’ve already paid.

You’ll get more information and help with this if you’re offered a grant.
Top tips for applicants

Before you start your application, here are some important reminders...

Jobs + growth + rural
The main aim of the RDPE Growth Programme is to create jobs and growth in the rural economy. Tell us how your project will help do this.

Sell us your idea
Explain really clearly what your project does and how it will benefit the economy. It’s hard for us to justify giving you a grant if we don’t understand your project.

Show us what the funding will mean to the success of your project
We’re obliged to invest public money carefully. We’re looking for viable, growing businesses. If you can show us that your project is good value for money, and that you’re planning to use the grant money to improve your project, you’re more likely to get the grant.

Do the market research
You have to show that there is real demand for what you want to do, or you’re unlikely to get a grant.

Grants in your area

Use this directory to find out which LEP areas are participating and what funding is available in your local area.

How to use this directory

- Check the map on the previous page to see if your LEP area is offering a business development grant
- Find the entry for your LEP area (these are listed alphabetically)
- Each entry has a link to the LEP area rural map. Use this to check if your project is in a rural area
- There is also a link to the LEP area Growth hub website. Growth hubs help businesses access local and national advice. This makes it easier for them to find the help they need to grow their businesses.

- Read the whole entry carefully to find out:
  - minimum and maximum grants available
  - types of eligible projects and businesses
  - local priorities

- Read the documents at the links shown in the ‘Further reading’ section

Deadlines:

The RPA will agree a target end date with all successful applicants. The final date by which all projects must be finished, paid for and complete grant claims submitted, is 31 December 2020.
## Buckinghamshire Thames Valley

### Local priorities

Priority will be given to projects that:

- enable farming business to diversify into non-agricultural activities such as:
  - on-farm retail
  - development of leisure, recreational and sport facilities
- create new jobs, particularly higher skilled jobs above the current average skill level of jobs in the applicant business
- create niche products and services linked to quality local food, culture, heritage and rural crafts/assets
- adopt new techniques and processes that increase the productivity of the business
- start or increase exporting of products by the applicant business

Local priorities

Priority will be given to projects that:

- grow existing and create new businesses by, for example:
  - creating new products and services
  - adopting innovative manufacturing and processing techniques and technologies
- introduce new products to the market, or develop existing products for a new market
- allow the applicant business to start exporting or increase the volume of products exported
- enable farming businesses to diversify into non-agricultural activities
- demonstrate clear links to the Cheshire and Warrington Local Enterprise Partnership’s strategic objectives for delivering jobs and growth in Cheshire and Warrington

ESIF Strategy

Coast to Capital’s Rural Statement

On 31 May 2018 Business Development calls closed to submission of new Expressions of Interest.
Cornwall and the Isles of Scilly

Micro and small business make up over 95% of business in Cornwall and the Isles of Scilly. Improvement in the growth and the productivity of micro and small businesses could have a significant effect on the economy of the LEP area.

Priority will be given to projects that:

- generate growth through an increase in turnover and jobs in the applicant business
- improve productivity in the applicant business
- create jobs that are paid above the average annual salary for Cornwall and the Isles of Scilly (£17,389)
- enable farm businesses to diversify into non-agricultural activities, including
  - creation of office space/workspace to fulfil evidenced local need
  - development of craft and handicraft activity
  - leisure, recreational and sport activities
- create new and expand existing micro and small businesses in rural areas
- allow the applicant business to start exporting products, or increase the volume of products exported
- reduce the need for imports
- invest in equipment, technologies or processes, which can include commercialising academic research or trials, to make new or higher quality products
- invest in, equipment, technologies or processes to reduce waste, where this forms part of the project

Applications need to show the local need and demand for the project that will grow the market overall and not simply take trade from other businesses. Tourism accommodation of any type will not be supported.

Further reading

This call fits with the Cornwall and Isles of Scilly Integrated Territorial Development Strategy (ESIF Strategy). This sets out how C&IoS will use ESIF funds to increase productivity and competitiveness of businesses in the area.

This call also references the Strategic Economic Plan for Cornwall and the Strategic Economic Plan for the Isles of Scilly.

<td>€200,000, approximately £170,000</td>
</tr>
</tbody>
</table>

Local priorities

The D2N2 area has a significant rural population. Economic activity and skills levels are relatively high in the D2N2 rural area. The agricultural sector plays an important role in food production, as well as maintaining an attractive environment and contributing to the visitor economy.

These grants are for investments that create jobs and grow micro and small businesses in rural areas, including farm diversification into non-farming activities.

Priority will be given to projects that:

- create new and expand existing micro and small businesses in rural areas in the following priority sectors:
  - transport Equipment Manufacturing;
  - life Sciences;
  - food and Drink Manufacturing;
  - construction;
  - transport and Logistics;
  - visitor Economy;
  - creative Industries;
  - low Carbon Goods and Services;
- create new jobs within the applicant business.
- create new higher skilled jobs above the current average skill level of jobs in the applicant business.
- introduce new technologies and/or new processes which will boost productivity in the applicant business.

<tr>
<td>Minimum grant</td>
<td>£35,000</td>
<td>Maximum grant</td>
<td>€200,000 – approximately £170,000</td>
</tr>
</tbody>
</table>

**Local priorities**

The Dorset ESIF strategy identifies the need for businesses located in rural areas to become more productive and competitive.

Priority will be given to projects that:

- increase productivity through adoption of innovative techniques and technology;
- create high value jobs, requiring higher skills;
- create higher paid jobs than the current average in the applicant business;
- provide jobs that link with skills development activity underway in the Dorset LEP area;
- reduce the environmental impact of the business or product as a part of the wider project.

Applicants can read more about the local context in the plans for the appropriate industrial sector at the links shown below. This may help in making an application.

LEP area rural map | Greater Cambridge and Greater Peterborough area rural map |
Minimum grant | £35,000 | Maximum grant | €200,000, approximately £170,000 |

Local priorities

The GCGP area has over 31,000 SMEs based in rural areas and a rural population of over half a million. Creation of jobs in rural areas is important to the future economic growth of the LEP area. GCGP is seeking to help rural micro and small businesses grow and expand to create new jobs and increase productivity.

Priority will be given to projects that show one or more of the following:

- create new or expand existing micro and small businesses in rural areas improving productivity in the following growth sectors
  - food & drink,
  - agri-technology,
  - clean-technology,
  - bio-technology,
  - ICT, digital and creative industries
- enable diversification of farming businesses into non-agricultural activities, including
  - creation of rural workspace and workshops
  - creation of on-farm retail
  - creation of tourism-related accommodation and facilities
- create new higher skilled jobs above the current average skill level of jobs in the applicant business
- create at least 1 full-time equivalent job for each £25,000 of grant investment

</tr>
<tr>
<td>Minimum grant</td>
<td>£35,000</td>
<td>Maximum grant</td>
<td>€200,000, approximately £170,000</td>
</tr>
</tbody>
</table>

Local priorities

Rural areas make up over 90% of The Heart of the South West LEP area. The ESIF Strategy shows that it is difficult for micro and small businesses to access finance to grow their businesses. An important action is to provide grant funding to help create new and expand existing micro and small businesses in rural areas.

These grants are for capital investment to create new jobs, grow the economy and improve productivity in The Heart of the South West rural area. Applicants can be:

- farm businesses wanting to diversifying into non-agricultural activities
- new or existing micro and small businesses, including social enterprises’ in rural areas from all other sectors of the economy

Priority will be given to projects that show two or more of the following:

- increase business productivity
- create higher skilled (Level 4 or above) and/or higher paid (above £24,700) full time equivalent (FTE) jobs
- create new resilient and ambitious businesses with evidenced future growth potential
- bring to the market new or improved products services
- implement new processes, techniques or technologies to the applicant business
- allow entry to new markets, including export markets

Support may be available to projects creating buildings for rent or lease. But only where there is clear evidence of need and demand. This includes projects such as offices, workshops, and factories.

The HotSW Growth Hub supports businesses to help them grow. Contact the HotSW Growth Hub to find out more.

Local priorities

The New Anglia Strategic Economic Plan aims to create 95,000 more jobs and 10,000 new businesses by 2026. Most of Norfolk and Suffolk is rural with nearly half of the population living in rural areas including the network of market towns. Over half the businesses are located in rural areas and these market towns. Creating new and expanding existing micro and small businesses in rural areas is vital to ensure these ambitious targets are achieved.

Priority will be given to projects that show one or more of the following:

• introduce new or improved processes and techniques (including lower carbon), leading to increase in productivity and job creation
• create new higher skilled jobs above the current average skill level of jobs in the applicant business
• create at least 1 full-time equivalent job for each £25,000 of grant investment
• enable farming businesses to diversify into non-agricultural activities, including
  • rural workspace and workshops
  • creation of on-farm retail
  • tourism-related accommodation and facilities provision

Local priorities

The rural economy plays an important role in the SEMLEP area. A quarter of people live in and a third of VAT registered businesses are based in rural areas. The aim of these grants is to help create new and expand existing micro and small businesses in the rural area leading to new jobs and increased productivity.

Priority will be given to projects that show one or more of the following:

• enable farming businesses to diversify into non-agricultural activities
• create new services or manufacture new products
• create 1 full-time equivalent job for every £25,000 or less of grant investment
• create apprenticeship jobs, lasting for a minimum of one year
• create quality serviced tourist accommodation, where there is clear evidence of need and will achieve formal accreditation through industry bodies
• upgrade existing tourism accommodation to increase the current accreditation rating of the accommodation

<td>€200,000, approximately £170,000</td>
</tr>
</tbody>
</table>

### Local priorities

This call aims to support capital investments into existing and new micro and small business in rural areas of the Swindon and Wiltshire LEP area.

Priority will be given to projects that:

Increase sustainable use of the natural environment, landscape and natural resources:

- are from the following sectors
  - land-based industries
  - advanced engineering and Manufacturing
  - health and Life Science
  - financial and Professional Services
  - digital and Information and Communications Technology
- bring to market, innovative facilities, workspaces, products, goods and services that can also achieve wider benefits, such as:
  - improved environmental conditions for water and air quality and the efficient use of natural resources
  - opportunities for access to natural environments, leading to improved public health, learning, and employability
  - improved productivity and diversity of land-use and other natural resources

<td>€200,000, approximately £170,000</td>
</tr>
</tbody>
</table>

Local priorities

The aim of this call is to create new and expand existing micro and small businesses in rural areas in the Tees Valley LEP area to create new jobs and growth in the rural economy.

Priority will be given to projects that:

- enable farming businesses to diversify into non-agricultural activities
- create new or expand existing micro and small businesses in rural areas in the following LEP priority sectors or their wider supply chain:
  - advanced manufacturing;
  - chemicals;
  - health innovation;
  - energy;
  - logistics;
  - digital and creative;
  - business and professional services;
  - tourism;
- create new higher skilled jobs above the current average skill level of jobs in the applicant business.

<td>€200,000 (approximately £170,000)</td>
</tr>
</tbody>
</table>

Local priorities

These grants are for capital investments to create jobs and grow rural micro and small businesses in the Thames Valley Berkshire LEP area.

Priority will be given to projects that:

- implement new technologies, processes or equipment to improve productivity
- allow farm businesses to diversify into non-agricultural activities
- construct and develop workshops, factories and other premises and facilities where there is clear evidence of need and demand

Minimum grant: Usually £35,000, see detail below
Maximum grant: €200,000, approximately £170,000

Local priorities

Priority will be given to projects that:

- enable farming business to diversify into non-agricultural activities, including rural workspace, workshops and on-farm retail
- support rural businesses to grow and expand
- help businesses to implement new technologies, processes or equipment to improve productivity

For projects in rural Shropshire only, which are outside of the Southern Shropshire LEADER programme area, a minimum grant amount of £20,000 applies. See the link below for details of the Southern Shropshire LEADER Programme area.

Applicants can read more about the local context in the Marches LEP Website Downloads at the links shown below. This may help in making an application.

<tr>
<td>Minimum grant</td>
<td>£35,000</td>
<td>Maximum grant</td>
<td>£100,000</td>
</tr>
</tbody>
</table>

Local priorities

The West of England LEP area ESIF Strategy shows that it is difficult for micro and small businesses to access finance to grow their businesses. Thus an important action is to provide grant funding to help create new and expand existing micro and small businesses in rural areas.

Priority will be given to projects that:

- enable farming businesses to diversify into non-agricultural activities
- manufacture new products
- Adopt new processes
- Allow the applicant business to enter new markets including to start or increase exporting

</tr>
</tbody>
</table>

Local priorities

Priority will be given to projects that:
- allow farming businesses to diversify into non-agricultural activities
- create new and expand existing micro and small businesses in rural areas in the following Worcestershire LEP area priority sectors:
  - advanced Manufacturing
  - agri-Food / Technology (including food processing)
  - tourism
  - cyber Security/Digital technology
- create new higher skilled jobs above the current average skill level of jobs in the applicant business

Applicants can read more about the local context in the documents at the links shown below. This may help when making an application.
