

# Right to Buy Sales in England: January to March 2017-18

## Sales

- In Q4 2017-18 (January to March 2018), local authorities sold an estimated 2,722 dwellings under the Right to Buy scheme. This is a decrease of 18 per cent from the 3,313 sold in the same quarter of 2016-17 (see [Table 1](#)).
- Local authorities in London accounted for 17 per cent of sales in Q4 2017-18, lower than the 20 per cent recorded in the same quarter of 2016-17 (see [Chart 1](#)).
- The number of dwellings sold by London boroughs decreased by 31 per cent, from 665 in Q4 2016-17 to 461 in Q4 2017-18.

## Receipts

- In Q4 2017-18, local authorities received approximately £224.9 million from Right to Buy sales, 17 per cent lower than the £271.9 million in the same quarter of 2016-17 (see [Table 2](#)).
- The average receipt per dwelling sold in Q4 2017-18 was £83,000. This compares to £82,000 in the same quarter of 2016-17 (see [Table 3](#)).

## Starts on Site and Acquisitions

- There were 1,534 dwellings started on site or acquired (as part of Right to Buy replacement policy) in Q4 2017-18, one per cent lower than the number of dwellings started or acquired in the same quarter of 2016-17 (see [Table 4a](#)).
- In total, there have been 17,911 affordable units started or acquired (as replacements) by Local Authorities, Homes England (HE) and Greater London Authority (GLA) since the reinvigoration of the Right to Buy policy in April 2012.

# Introduction

This statistical release presents Official Statistics on the number of sales of dwellings under the Right to Buy scheme, as well as providing statistics on receipts resulting from those sales and starts on site and acquisitions as part of the one-for-one additions policy. The Right to Buy scheme allows eligible social housing tenants to buy their house at a reduced price and has been in place since 1980 (see [History of the Right to Buy scheme](#) for more detail).

These statistics relate only to sales by local authorities under the Right to Buy scheme and exclude sales by Private Registered Providers (PRPs) under preserved Right to Buy. Sales by PRPs are recorded in Social Housing Sales, see [Related Statistics](#). Figures are collected from local authority returns to the Ministry of Housing, Communities and Local Government (MHCLG).

Following the outcome of an on-going data improvement exercise, and in line with the revisions policy, there were a number of revisions to historical data relating to starts on site in the previous release. Following on from this exercise, a further six local authorities have revised their figures which has been reflected in this release. Full details of these revisions are provided in the revisions section of the technical note at the end of this release (see [Revisions in this release](#)).

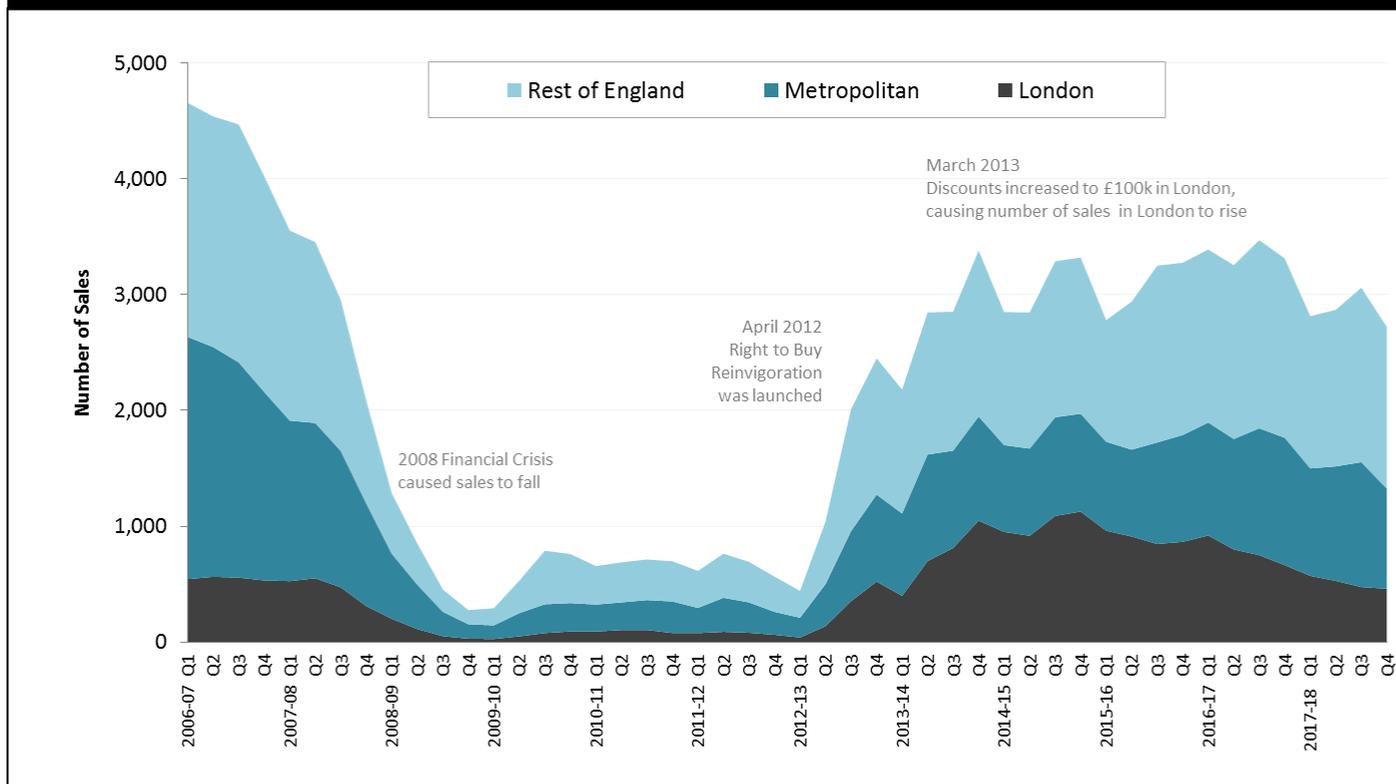

## Right to Buy sales

There was a downward trend in Right to Buy sales in the late-2000s, as the number of sales decreased greatly between 2006-07 and 2009-10 (caused mainly by the financial crisis). Right to Buy sales were relatively stable between 2009-10 and 2011-12, then increased up until 2016-17 before decreasing slightly in the latest year (see [Chart 1](#) and [Table 1](#)).

This increase in Right to Buy sales since 2011-12 is partly due to the increased discounts available to local authority tenants from 1 April 2012 and the reduced effects of the financial crisis. Additionally, in March 2013, the Government further increased the maximum discount available for tenants living in London boroughs to £100,000 (see [History of the Right to Buy scheme](#) for further details).

Chart 1 below, shows that London and the Metropolitan areas had around half of all Right to Buy sales. However, the proportion of sales in London and Metropolitan areas has declined from a peak of 62 per cent in Q1 2015-16.

For annual data back to 1980-81, refer to Live Table 671 at this link: <https://www.gov.uk/government/statistical-data-sets/live-tables-on-social-housing-sales>

- In Q4 2017-18, local authorities sold an estimated 2,722 dwellings under the Right to Buy scheme. This is a decrease of 18 per cent from the 3,313 sold in the same quarter of 2016-17.
- Local authorities in London sold an estimated 461 dwellings under the Right to Buy scheme in Q4 2017-18. This is a decrease of 31 per cent from the 665 dwellings sold in the same quarter of 2016-17.

- Local authorities in London accounted for 17 per cent of sales in Q4 2017-18, lower than the 20 per cent of sales recorded in the same quarter of 2016-17.
- Right to Buy sales are yet to reach the level they were before the financial crisis. Sales in Q4 2017-18 were 58 per cent of those in Q1 2006-07 (4,655).

Chart 2 compares the annual number of sales, between London and the rest of England, from Q1 2012-13 (pre-Reinvigoration) and Q4 2017-18. The chart highlights the large growth in the number of sales due to Reinvigoration, particularly in London Boroughs. However, as noted in Chart 1, the number of sales has decreased in the last two years.

**Chart 2: Number of Right to Buy Sales, in London and the rest of England, between Q1 2012-13 and Q4 2017-18.**

During the 12 month period to the end of March 2018 there were 11,465 Right to Buy sales. This represents 0.7 per cent of the total number of dwellings owned by local authorities, which was at 1<sup>st</sup> April 2017, around 1.6 million<sup>1</sup>.

There has been an increase in the number of local authorities with more than five sales per 1,000 dwellings owned by local authorities, from 19 local authorities in 2012-13 to 118 local authorities in

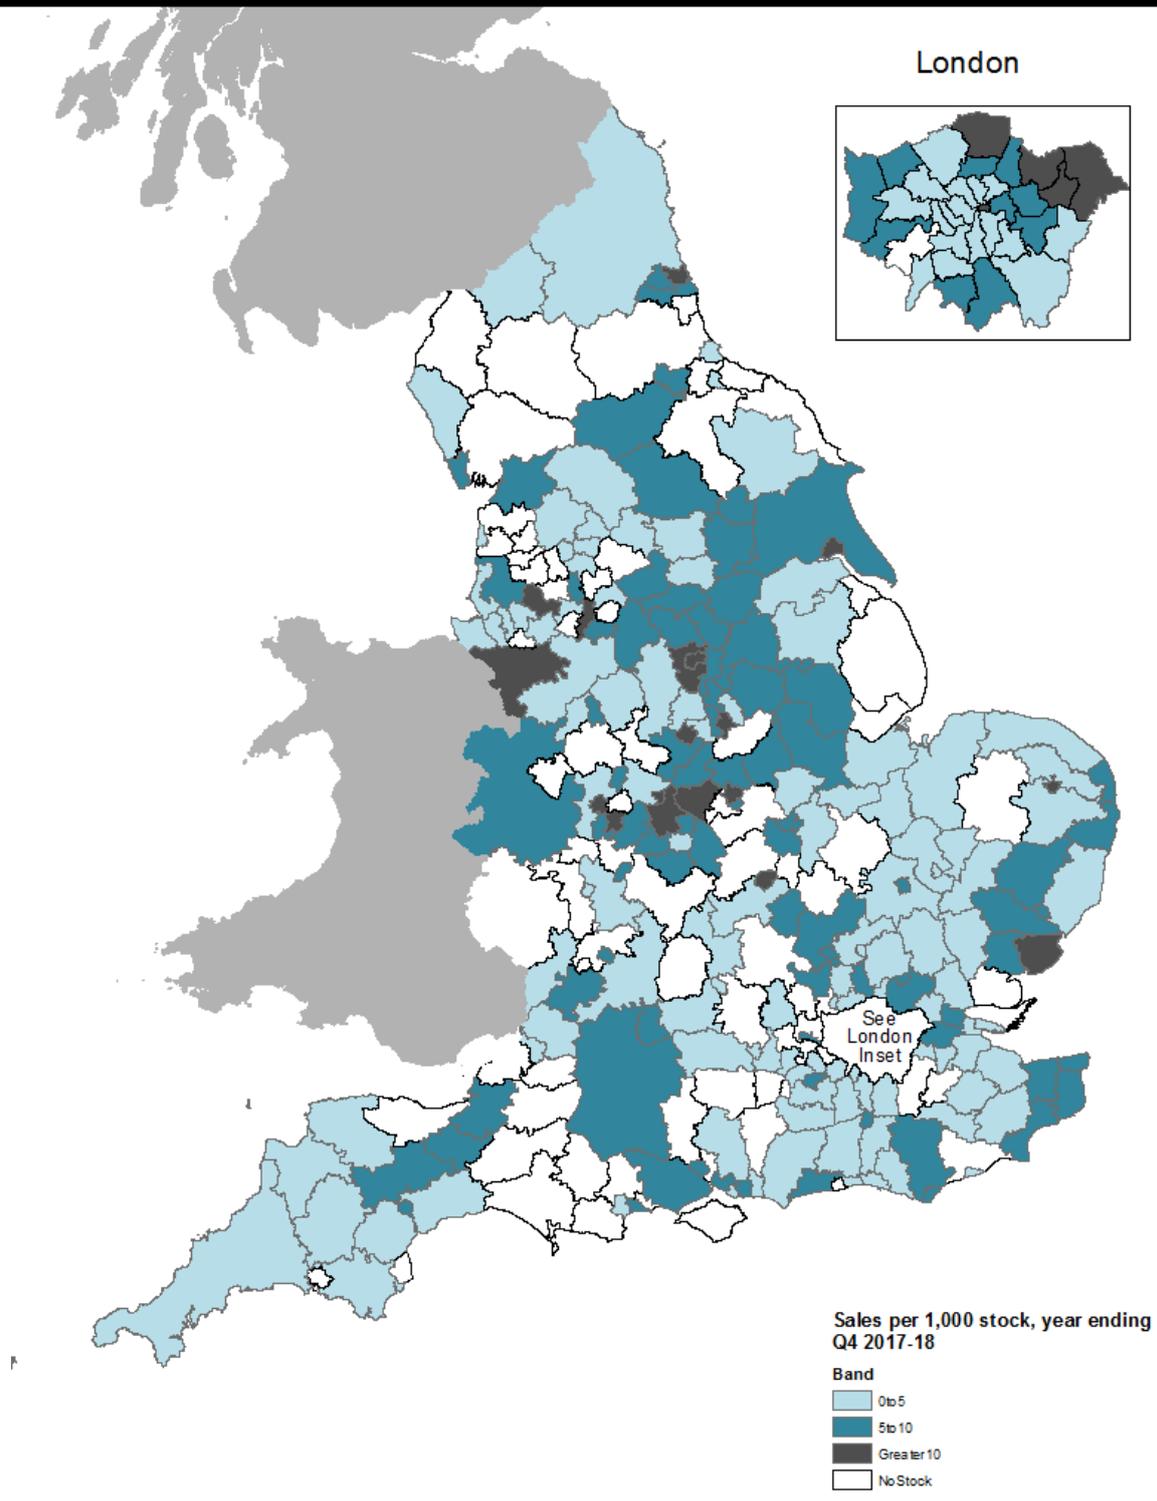

<sup>1</sup> This figure comes from Live Table 116, which is updated annually and can be found at:

the 12 month period ending March 2018.

Map 1 (see the following page) shows the sales per 1,000 dwellings of existing local authority stock in England during 2017-18. The non-stock holding authorities have transferred their stock to Private Registered Providers.

# Right to Buy receipts

Statistics for receipts and starts on site are available back to Q1 2012-13.

**Table 2: Quarterly Right To Buy receipts, England, Q1 2012-13 to Q4 2017-18, £ millions.**

	Q1	Q2	Q3	Q4	Total
2012-13	24.0	61.2	125.0	157.6	<b>367.9</b>
2013-14	130.8	180.2	196.8	243.0	<b>750.7</b>
2014-15	212.4	210.5	247.5	260.6	<b>930.9</b>
2015-16	223.2	230.0	259.0	273.2	<b>985.4</b>

2017-18	242.2	243.4	258.0	224.9	<b>968.5</b>

- In Q4 2017-18, local authorities received approximately £224.9 million from Right to Buy sales, 17 per cent lower than the £271.9 million in the same quarter of 2016-17. This decrease is caused by a lower number of sales recorded, which also decreased by 18 per cent.

**Table 3: Quarterly average receipts per dwelling, England, Q1 2012-13 to Q4 2017-18, £ thousands.**

2016-17	84	86	84	82	<b>84</b>
2017-18	86	85	84	83	<b>84</b>

- The average receipt per dwelling sold in Q4 2017-18 was approximately £83,000. This is an increase of one per cent from the £82,000 average receipt per dwelling sold in the same quarter of 2016-17.

Further details on Right to Buy receipts statistics including data at a local authority level and footnotes are available in the Department's Live Tables. They can be found here- <https://www.gov.uk/government/statistical-data-sets/live-tables-on-social-housing-sales>. The table covering this topic is Live Table 692.

# Starts on Site and Acquisitions

In April 2012, March 2013 and July 2014, the Government made changes to the Right to Buy scheme, increasing the maximum discount caps. An estimate of the expected sales without these increases to the discount cap was calculated using projections from Her Majesty's Treasury's (HMT) self-financing model. Any Right to Buy sales above these projections are considered 'additional' and are subject to the one-for-one additions policy, which is a commitment to provide an affordable dwelling for each additional Right to Buy dwelling sold.

Under the Right to Buy one-for-one additions policy, local authorities have three years from the date of the sale of each additional home to provide an additional affordable property. If a local authority does not provide an additional affordable property, a proportion of the receipt is transferred to Homes England (HE) or the Greater London authority (GLA), who use these recycled Right to Buy receipts to deliver starts and acquisitions.

Table 4a shows the total number of quarterly Right to Buy starts and acquisitions that have been delivered by Local Authorities, HE and the GLA through the recycled Right to Buy receipts.

**Table 4a: Total Quarterly Right To Buy Starts on Site and Acquisitions, including those by the HE and GLA, England, Q1 2012-13 to Q4 2017-18, dwellings<sup>2</sup>.**

2017-18	980	977	1,453	1,534	4,944
<b>Total</b>					<b>17,911</b>

- There were 1,534 dwellings started on site or acquired in total in Q4 2017-18, one per cent lower than the number started or acquired in the same quarter of 2016-17.
- Between Q1 2012-13 and Q4 2017-18, there were a total of 17,911 dwellings started on site or acquired by local authorities, HE and the GLA (see [Table 4a](#)). Out of the 17,911 new starts and acquisitions, 16,012 were delivered by local authorities and 1,899 by HE and GLA (see [Table 4b](#)).
- There were 19,445 additional sales between Q1 2012-13 and Q4 2014-15 and 17,911 additional affordable units started or acquired by local authorities, HE and the GLA between Q1 2012-13 and Q4 2017-18, falling short of the 3 year replacement commitment.

<sup>2</sup> Table 4a includes Starts on Site and Acquisitions by HE and the GLA using recycled receipts and therefore does not match Live Table 693. Table 4b includes Starts on Site and Acquisitions by local authorities only and therefore matches Live Table 693.

Table 4b shows the quarterly Right to Buy starts and acquisitions that have been delivered by local authorities through the Right to Buy additions policy.

To ensure the accuracy of starts on site and acquisitions figures, the department contacts local authorities with more starts on site and acquisitions than our validation threshold, for confirmation of their figures.

## Acquisitions

Beginning with Q1 2017-18, local authorities were asked to split the numbers provided between new build starts and acquisitions. This information will continue to be collected and published going forward.

Out of a total of 4,668 dwellings reported <sup>3</sup> to have been started on site or acquired since Q1 2017-18, 56 per cent (2,515 dwellings) were starts on site for new builds and 44 per cent (1,953 dwellings) were acquisitions.

Further details on Right to Buy starts and acquisitions statistics including data at a local authority level and footnotes are available in the Department's Live Tables. They can be found here-

<https://www.gov.uk/government/statistical-data-sets/live-tables-on-social-housing-sales>

The table covering this topic is Live Table 693.

<sup>3</sup> The proportion of acquisitions is based on data submitted on LOGASNet. There are often minor changes made to the final published supply figures in Live Table 693 as part of the data quality process. As such this figure may have minor discrepancies.

<b>Live Table 692</b>	Quarterly Right to Buy receipts by local authority
<b>Live Table 693</b>	Quarterly starts on site and acquisitions by local authority

These tables can be accessed at

<https://www.gov.uk/government/statistical-data-sets/live-tables-on-social-housing-sales>

These contain local authority level data on Right to Buy sales, receipts and starts on site, collected from a quarterly local authority return to MHCLG called LOGASNet.

Further information on other types of Social Housing Sales, such as sales by Private Registered Providers (PRPs), often known as Housing Associations, are also available on this page. The other statistics are annual rather than quarterly and are collected from other sources such as: Local Authority Housing Statistics (LAHS), the Homes England's Statistical Data Return (SDR) and COntinuous REcording of Lettings and Sales in Social Housing in England (CORE) (see [Data Collection](#)).

The tables on stock may also be useful, for example the stock data used in the map in the [Right to Buy sales](#) section can be found in Live Table 116 at:

## Definitions

### Right to Buy sales

The sales figures exclude Right to Buy (RTB) sales of dwellings which are not accounted for in a local authority's Housing Revenue Account, either because the authority, having disposed of nearly all its dwellings to a PRP, has closed down its Housing Revenue Account or because the dwelling was originally tied to a particular occupation, e.g. a school caretaker's cottage or a park keeper's cottage. The figures also may exclude any Right to Buy sales of dwellings which, although accounted for in the Housing Revenue Account, are the subject of an agreement made either under section 80B of the Local Government and Housing Act 1989 (as inserted by section 313 of the Housing and Regeneration Act 2008 and now repealed) or under section 11(6) of the Local Government Act 2003 (as inserted by section 174 of the Localism Act 2011).

The figures may include sales at less than market value of dwellings accounted for in the Housing Revenue Account to secure tenants of a local authority, even when those sales are not strictly under Right to Buy.

## **Proportions of dwellings**

Some figures will include proportions of dwellings. This is because the figures also include sales of a shared ownership lease of a dwelling accounted for in the Housing Revenue Account where either the premium (i.e. a portion of the market value of the dwelling) paid by the purchaser exceeded 50 per cent of the market value of the dwelling or the sum of the premium paid by the purchaser and all other premiums paid up to two years before the payment of the current premium. Where a shared ownership disposal has been included, the figure corresponds to the portion of the market value paid; for example the purchase of a 50 per cent equity share will be represented by 0.5.

## **Right to Buy receipts**

The figures include receipts arising from all sales included in the sales figures. Figures for a particular quarter may include receipts arising from a sale in another quarter, but do not include receipts arising from sales before 1 April 2012. After a portion of these receipts are reserved for costs incurred by authorities in administering the Right to Buy scheme, paying off additional local authority housing debt, an amount for authorities to use for general capital purposes, a share required by HMT, and (in a small number of cases) for buying back former council properties, the remainder of the receipts are for the funding of additional homes for affordable or social rent.

A local authority may either return this portion of the receipts to HE or the GLA for redistribution for funding these additional homes, or, if it has signed an agreement with MHCLG, retain part or all of this portion on the condition that it spends, or ensures that another body spends on its behalf, an agreed amount for this same purpose within three years.

## **Starts on Site and Acquisitions**

The figures include all starts on site and acquisitions of dwellings for the provision of social housing made by or on behalf of the authority, excluding those funded partially or wholly by grant from HE or the GLA.

These figures form a proxy for the number of additional homes delivered using Right to Buy receipts. In some cases they may include some starts on site or acquisitions that are funded by other sources.

Provision was made for some local authorities to include HE or the GLA spending for starts on site or acquisitions, where business decisions had already been made in 2012-13, before the Department clarified that these should be excluded.

“Start on site” means the earlier of commencement of the following by a local authority or other body to which the authority has paid all or part of the retained amount for the purpose of providing homes for affordable or social rent:

- (a) excavation for strip or trench foundations or for pad footings;
- (b) digging out and preparation of ground for raft foundations;
- (c) vibrofloatation, piling, boring for piles or pile driving; or
- (d) drainage work specific to the buildings forming part of the scheme.

### **Market price**

Most landlords contract a surveyor to determine the property value but some may use a local estate agent, for example. If a tenant disagrees with the property value, they can appeal to the district valuer (the Valuation Office Agency) who will survey the property and provide a final, binding decision.

### **History of the Right to Buy scheme**

The Right to Buy scheme was introduced in 1980 and gives qualifying social tenants the opportunity to buy their rented home at a discount. The scheme is open to secure tenants of local authorities and non-charitable PRPs, and to those assured tenants of PRPs who have transferred with their homes from a local authority as part of a stock transfer. In order to qualify for the Right to Buy scheme, a social tenant must have accrued at least three years public sector tenancy. This does not need to be continuous, nor does it need to have been accrued whilst living in the tenant's current property.

In 1998 and 2003, Discount Orders reduced Right to Buy discounts across England to maximums ranging from £16,000 to £38,000 (depending on the local authority where the property was located). Prior to that, the discount cap had been £50,000 across England.

In April 2012 the DCLG changed the maximum cash discount available for Right to Buy sales to a new higher level of £75,000 across England. In March 2013, in recognition of the increasing property prices in London, the Government further increased the maximum discount available for tenants living in London boroughs to £100,000. In July 2014, MHCLG changed the maximum cash discount available for the Right to Buy in order for it to increase annually in line with the Consumer Price Index (CPI) rate of inflation. The discount is currently £77,900 in England and £103,900 in London.

The Government's aim is that for every additional property sold under Right to Buy, a new affordable home for rent will be provided nationally under the one-for-one additions policy. Under the reinvigorated Right to Buy, local authorities are now able to keep the receipts from additional Right to Buy sales to pay off debt and fund additional affordable housing.

# Technical notes

## Data collection

Data are collected from a quarterly local authority return to the MHCLG called LOGASNet. Local authorities with dwelling stock which receive poolable housing receipts supply these data to MHCLG on a quarterly basis.

## Data quality

The LOGASNet figures are audited annually by local authorities and continuously quality assured by MHCLG, both of which can result in revisions (see [Revisions Policy](#)). The figures are compared against those supplied through the annual LAHS return for consistency, which again can result in revisions. Every effort is made to collect data from every local authority but on occasional instances estimates may be used. Care should be taken using data at a local authority level as the totals are low and therefore can be volatile. Where possible revisions made in these statistics should also be made in the LOGASnet system, however for historic periods this may not always be possible so there are minor discrepancies between LOGASnet data and the published figures.

MHCLG has imputed values for local authorities that did not submit data. In Q4 2017-18, sales, receipts and starts-on-site were imputed as zero for 31 local authorities. We expect to revise these figures in a future release, once the local authorities have submitted this data. Imputation highlighting will be removed after four quarters. The current percentage of completed returns for both this and previous quarters is given in [Table 5](#).

**Table 5: Percentage of local authorities that completed returns for Right To Buy Sales, Receipts and Starts on Site and Acquisitions, Q1 2017-18 to Q4 2017-18, England.**

	% of total	<b>87%</b>	<b>92%</b>	<b>96%</b>	<b>82%</b>

Note : These figures only refer to the stock holding local authorities with stock equal or greater than 1,000. The total number of local authorities that hold social housing stock is 165.

## Starts on site and acquisitions

The starts on site and acquisitions data are particularly sensitive to reporting error as they are not audited in the way that sales and receipts figures are and there are no comparable statistics collected against which they can be assessed. Consultation has revealed that the question the Department asks in its LOGASnet Return about starts on site and acquisitions has been

interpreted in different ways by different local authorities. For example, in the past some local authorities may have reported all starts on site and acquisitions rather than excluding those that were partially or fully funded by HE or the GLA.

It is possible that interpretation of starts on site and acquisitions by local authorities may still not be uniform. Whilst most local authorities should now be (correctly) reporting all starts on site or acquisitions not funded by HE or the GLA, there may be some others interpreting the question more narrowly as only referring to delivery directly funded by Right to Buy receipts. We will continue to work with local authorities to improve the quality of the data and the way it is collected.

In some cases the quarter in which the start is reported may be later than the actual quarter when the start actually occurred. This is caused by a delay between the start on site occurring and this being reported to us via the local authority.

## Revisions policy

This policy has been developed in accordance with the UK Statistics Authority Code of Practice for Official statistics and the Ministry of Housing, Communities and Local Government Revisions Policy (found at <https://www.gov.uk/government/publications/statistical-notice-dclg-revisions-policy>). There are two types of revisions that the policy covers:

### Non-Scheduled Revisions

Where a substantial error has occurred as a result of the compilation, imputation or dissemination process, the statistical release, live tables and other accompanying releases will be updated with a correction notice as soon as is practical.

### Scheduled Revisions

Revisions to imputed data (see [Data Quality](#)) will be made in the next release after this data is submitted by the local authority.

Otherwise, revisions to previous quarters are made in the latest quarterly publication where there was an error or data was not previously provided. Revisions to previous years are also made in the annual Social Housing Sales Statistical release. Figures are not published in these statistics with a provisional status (but imputed estimates may be used) and the component data are reported as final annual figures. Revised figures are highlighted in the live tables.

### Revisions in this release

The data provided to the department by local authorities is regularly reviewed for monitoring purposes. As part of this monitoring it was noted that there were a number of local authorities reporting unusual and unexpected values. These values included cases where:

- Local authorities reported a high number of received receipts but had reported a relatively low number, or zero associated replacement starts.

- Local authorities reported a high amount of expenditure on replacements but had reported a relatively low number, or zero associated replacement starts.

Local authorities that appear to have been affected are contacted as part of the on-going statistical quality assurance. Where required, revisions have been made to historic figures. The 21 local authorities for which figures were revised are given in [Table 6](#); all revisions have been highlighted in the live tables.

**Table 6: Local authorities for which figures were revised in Q4 2017-2018.**

## Uses of the data

These statistics are used to monitor local authority Right to Buy sales and analyse the effectiveness of policy changes around Right to Buy and the housing sector.

## User engagement

Users are encouraged to provide feedback on how these statistics are used and how well they meet user needs. Comments on any issues relating to this statistical release are welcomed and encouraged. Responses should be addressed to the "Public enquiries" contact given in the "Enquiries" section.

The Department's engagement strategy to meet the needs of statistics users is published here: <https://www.gov.uk/government/publications/engagement-strategy-to-meet-the-needs-of-statistics-users>

## Related statistics, England

### **Social Housing Sales**

MHCLG publish annual statistics on Social Housing Sales. These statistics cover sales not only by local authorities but by PRPs under preserved Right to Buy and by all schemes not solely Right to Buy (for example Social Homebuy). The statistics are collected from MHCLG's Local Authority Housing Statistics return.
