Dear Sirs

Protection of Badgers Act 1992, TB Area Supplementary Badger Control Licence, [REDACTED]

In accordance with conditions 1 of your licence I am writing to notify you of our findings in relation to the outstanding items listed in condition 1(a) to (d) as follows:

- (a) The date which culling may start this year is [REDACTED] 2018 and to continue until such time as Natural England notifies you that culling must cease in this open season. If you start on a later date due to operational reasons please inform us and we may revise the start dates accordingly;
- (b) Those persons authorised to take or kill badgers under this licence are listed in the attached list of Additional Authorised Persons, dated 29 June 2018;
- (c) The minimum number of badgers that you should aim to kill within the licence area during this open season is 125;
- (d) The maximum number of badgers which may be killed within the licence area by all permitted methods during this open season is 540;

Please note the following important points:

- (i) Natural England will keep under review all available evidence as to the level of the population and will monitor the culling operations. Natural England will, if appropriate, provide further advice on the level of culling effort and badger removal required to achieve an effective cull.
- (ii) Only those individuals listed in the list of Additional Authorised Persons are permitted to undertake any licensed operations by or on behalf of the Licensee. Any proposed changes to the Additional Authorised Persons schedule (additions or deletions) should also be notified to Natural England in writing for consideration.
- (iii) There is sufficient Participating Land and Natural England must be informed, in writing, about any land that is withdrawn or which otherwise ceases to be eligible to participate in licensed operations.

If you have any queries about this notification please contact the licensing team on the Specialist Licensing email indicated below.

Yours sincerely

Natural England
