

Pathogenic *Vibrio* Scheme – Preliminary Intended Results Notification

These results are provided for guidance and are determined from the examinations undertaken during quality control testing of the samples. The enumeration results may show minor variations from the final results, which are calculated from the participants' consensus results, and included in the distribution report.

Distribution: **V059** Samples: **V0158 and V0159**

Intended results:

Sample No	<i>V. parahaemolyticus</i> (detected / not detected)	<i>V. parahaemolyticus</i> (cfu g ⁻¹)	<i>V. cholerae</i> (detected / not detected)	<i>V. vulnificus</i> (detected / not detected)
V0158	Detected	3.2x10 ⁴	Not detected	Detected
V0159	Detected	1.0x10 ⁵	Detected	Not detected

Sample contents:

V0158	<i>Vibrio parahaemolyticus</i> , <i>Vibrio vulnificus</i> and <i>Lactobacillus brevis</i>
V0159	<i>Vibrio parahaemolyticus</i> , <i>Vibrio cholerae</i> , <i>Vibrio alginolyticus</i> and <i>Serratia liquefaciens</i>

Laboratory identification numbers of participants who did not return results this distribution:

597 and 1267

The distribution report providing details of your individual performance and an analysis of all participants' results will be dispatched within three weeks. The report may also include sample specific comments.

Repeat samples are available for only one month from the close of the distribution, therefore participants who experienced problems with any of the examinations and wish to make a further attempt or repeat a count need to place a request immediately.

The next distribution of Pathogenic Vibrio Scheme samples will be dispatched during the week beginning 5 July 2021.

If you require any technical advice or wish to make comments or suggestions relating to the scheme please contact us.
